St. Mary's Team Is Downed Second Time Out Of Five Starts

By Don Morbitzer

St. Mary's basketball team dropped their second game out of five starts to Marion St. Mary's by a low score of 27 to 36 at the Parkwood floor at the K. of C.

The first quarter ended with Marion coming out on top by 8-10, but was proof positive of good defensive play on both teams. The second was short, a snappy, 4-4 Columbus St. Mary's receiving the short end 15-19.

The second half started with both teams keyed up to near explosion. All at once Schuler and Burke of Marion, and Don Kaiser, of St. Mary's, opened up as scoring threats as they scored 12,—9 and 12 points respectively, with Kaiser and Schuler receiving scoring honors. The two teams charged defensively and offensively up and down the court as the third quarter ended, with both teams holding a tight gain defense.

Both teams were out for the win honors, as the third quarter started. They suddenly switched into a man-to-man defense and Marion, holding St. Mary's to only five points and St. Mary's stopping Marion to a low seven points.

The game was terrific and the cheering was deafening with the cheering echoing from all four walls. Then Marion slowly pulled ahead and St. Mary's fought valiantly but never did catch up. The game ended 27-36, with Marion taking home the win honors of an exciting game.

St. Mary's Reserves also came out on the short end as they dropped the opener 32-20 to Marion's Reserves.

Deer Season Termed Successful

Conservation Commissioner H. A. Rider today is speaking of the 1947 deer season in northeastern Ohio termed it, "The most successful open season on wild game in Ohio from every point of view."

The first open season in 50 years for that section of the state was approved some months ago by the Ohio Conservation and Natural Resources Commission as a means of reducing a surplus population of Virginia or white-tailed deer estimated at between four and five thousand in the eight counties of Ashtabula, Lake, Portage, Trumbull, Jefferson, Geauga, Carroll and Columbiana.

More than 10,000 deer hunting permits as required by the Legislature in addition to the regular hunting license were sold to hopeful hunters who armed themselves with the prescribed weapons of bows and arrows for the first two days, December 15 and 16 and with shotguns using a slug shot for the remaining days of the season, December 17, 18 and 19.

Reports are now pouring into Division of Conservation headquarters in Columbus indicating that several hundreds of hunters were successful in bagging a deer.

Game Protectors and Conservation District Supervisors report good sportsmanship throughout the season on the part of the hunters and fine cooperation from the farmers and landowners in permitting hunters on their land in spite of wide-spread pre-season reports from many sources that there would be no place to hunt because farmers were posting all the land. Many of the small number who did post their farms against hunting removed the signs when they, too, joined the spirit of good sportsmanship of the big hunt.

A DIFFERENT DESSERT

A Pineapple Torte is a rich, delicate dessert appropriate for post-holiday entertaining.

By BETTY NEWTON

Looking for a dessert that's different from the round of plum puddings served during the holiday season? An easy-to-make delicacy is a Pineapple Torte. Too, the basic recipe may be made and filled with whipped cream flavored with your favorite—mint, vanilla, walnut, lemon or orange!

One of the most important things to keep in mind in making a torte is to use a low baking temperature. Of course, this is a simple matter if your range has an oven heat control. Otherwise, it's wise to check the flame from time to time to be certain that a low temperature is being maintained in the oven. The torte should be cooled after baking, and then the filling is added just before serving time.

Pineapple Torte

1/3 C. shortening
½ C. sugar
4 egg yolks
1 1/3 C. flour
1 tsp. baking powder
¼ tsp. salt
¼ C. pineapple juice
1 tsp. lemon flavoring

Meringue

4 egg whites
½ C. sugar
¼ tsp. salt
½ tsp. lemon flavoring
1 C. shredded moist coconut

Cream shortening and add sugar gradually. Cream well. Add well beaten egg yolks and beat. Sift dry ingredients together and add alternately with pineapple juice. Add flavoring and turn into two greased eight inch layer cake pans. Top each with meringue made by beating egg whites until stiff. Fold in the sugar, salt, flavoring, and half the coconut. Spread over the batter in pans and sprinkle with remaining coconut. Bake at 325 degrees about 25 minutes. Remove from pans. Cool and put together with filling between the layers.

Filling for Pineapple Torte

1 C. whipping cream
1 C. crushed pineapple
1½ Tbsp. confectioners' sugar
½ tsp. lemon flavoring

Whip cream until stiff. Fold in sugar, pineapple, and flavoring. Place one cake on plate with meringue side down, spread with filling, and place other layer on top with meringue to top side.

Girl Scout Christmas Party Held Dec. 22nd

On December 17, members of Brownie Troops Nos. 150 and 151 held their Fly-Up Ceremony and the 22 members became Intermediate Girl Scouts. They have combined under Troop No. 151, with Mrs. Rowena Reynolds as leader, assisted by Mrs. Thelma Mottashed, Mrs. Pauline Weber and Mrs. Ethel Swineford. They will continue meeting at the Reorganized Latter Day Saints Church, at 22nd and Reinhard.

The girls received their Tenderfoot pins from Miss Olive Wharton, teacher of Heyl Avenue School, and then entertained their parents and friends at a tea. The pastor, John E. Booth, was also present.

The Scout Christmas party was held at the church on December 22, and after exchanging presents and enjoying ice cream and cookies, they went caroling to the home of Nancy Heil, a member of the Troop who is ill with rheumatic fever, and took her a basket of presents, one of which is to be opened each day for a month.

The girls are looking forward to many more and varied experiences as real Girl Scouts.

As Pegler Sees It

By Westbrook Pegler

Private 'Governments' in U. S.

NEW YORK.—We have in the United States a few private associations, embracing roughly 10 million citizens, which enforce laws and inflict punishments so harsh that no public government would undertake to impose them. The Brooklyn Law Review, in an essay on "The Judicial Process in Labor Unions" some years ago, referred to these bodies as "infra-state governments."

This was a study for lawyers of the paradox of brutal totalitarian government carried on under the protection and political patronage of a national government which, at that very time, was interfering in the domestic affairs of Germany on the ground that Hitler's treatment of his chosen victims was undemocratic.

"Such infra-state governments now are exercising jurisdiction concurrently with the state itself, over millions of Americans and their families," the article said. This was an understatement. The jurisdiction of the unions does not flow quite together with the government's jurisdiction. It comes first in most matters. The unions come first in taxes and loyalty. The nation, state, city, family and church follow, not necessarily in that order. And, until now, the national government and most of the state governments have bowed to this priority.

In one of the congressional inquiries during the war, Congressman Edward Ebert of New Orleans drew from Harry Posner, a boss of the United Auto Workers of the CIO, the admission that in any crisis he would put the union's welfare before the safety of young American fliers who were fighting the enemy.

The United Auto Workers is the union headed by Walter Reuther, who, strangely, has been receiving a warm press lately because he has struck the now-popular attitude of defying the Communists.

PAY DUES OR GET OUT

Posner had used the name of James Harris in some phases of his fugitive career, and also was known as Thomas V. De Lorenzo. He was of draft age, and a healthy, pugnacious, picket-line goon. But he was hiding out the war under the deferment which the Roosevelt government granted to its own brown shirts who had the political duty of getting up the money for the party's campaigns and keeping the faceless non-entities properly docile.

Until adoption of the withholding tax, which is simply the old union checkoff under another title, the unions had first lien on the earnings of all these millions of workers. If the worker didn't keep his dues paid up, and his assessments and shakedowns for clam-bake tickets and the like, he found his card "pulled" when he came to work.

No matter how urgent the government's need of his skill in that which Roosevelt called the "wah effawt," the union's financial interest took precedence over the nation's peril. That is still true, but the government has pulled up neck-and-neck with the unions in the sprint for the pay window to nick the worker's wages. The government now collects the income tax by checkoff, but so does the union. However, the government must do it by law, according to rates adopted by the elected representatives of the people of the United States. But the union's greed is limited only by the conscience of the unioneers, who may be gangsters of the foulest kind. They may never have been elected at all.

BOSSES COULDN'T SEE TREND

John L. Lewis used to point out triumphantly that in some miners' villages the churches also took their tithe by checkoff. This was as false as it was true. They did, but only by the worker's written consent, and a man excluded for non-payment by one congregation could always find another church where he could hitchhike his religion. He couldn't mooch his way with another union, though.

An intelligent person would have expected the union bosses to moderate their government in recent years. The people were sullen and the returns of the last congressional election showed that they were furious. Green, Murray, Tobin and Lewis were not even good politicians, much less labor statesmen. They were too dumb and thick to realize that, whatever their urgent needs had been during the rough-and-tumble years, they now had firmly established their power. They could afford to treat their subjects as citizens and, more important, treat them as people, not sub-human subjects.

This sub-human status of the subjects is plainly implied by several unions. Until recently, in the AFL electricians, a skilled workman with a full membership was equal in voting power to a hundred or more unskilled robots doing dull, stupefying assembly work in factories. I have been told that this was changed at some wartime convention.

Women Of Moose Spread Holiday Cheer

Not only do the women of the Moose, Columbus Chapter No. 206 enjoy parties amid their own co-workers, but take time at this busy holiday season to spread joy and happiness to those less fortunate. Beside sending cheer to the City of Childhood, Moosehearт, Illinois, and bringing sunshine and happiness to the aged at Moosehaven, Florida, they sponsor many parties in their community program throughout the year, extending aid to many needy families.

Some of these are through the Clearing Center of the Ohio Welfare. Mrs. Ethel Bloom, 50 W. Greenwood Ave., War Relief chairman, sponsors the State Hospital gifts and entertainment for their Christmas party. This is not only at the holiday season but all through the year.

Mrs. Lillian Grimm, 1913 Kochel Rd., Social Service Chairman, sponsored the party for the children at the Detention Home as her project this year. Each child received a gift, and Mrs. Beula Varner, 2779 Alkire Rd., was co-chairman of the Christmas program and members of the Monnet House assisted with the entertainment.

The Charal Escorts of Chapter 206 held candle-light carol singing. Mrs. Anna Regnor of 1599 E. Fulton St., was Santa. Mrs. Regnor donated ice-cream. Mrs. Julia Lukenski and Mrs. Varner donated home-made cookies for this party.

The women of the Moose also gave baskets to the needy people Christmas. Saturday, Dec. 20, found co-workers at the Moose Hall, 36 W. Sycamore St., socking candy for the children's Christmas party which was held at the Markham theater Monday afternoon, December 22. The new Nash which was given away by the Moose was received by one of the members, Miss Mary Brown, New York Ave.

The general public is always welcome to attend any party that the women of the Moose sponsor, their motto is "Service To Those Less Fortunate."

Miss Meier Is Married To Mr. French

The Rev. Albert V. Kessler officiated at the double ring ceremony at 9:30 a. m. Saturday, Nov. 15, in Corpus Christi Church which united Miss Leora Meier, daughter of Mr. and Mrs. Joseph A. Meier, 1321 Lockbourne-av., and William W. French, son of Mr. and Mrs. William H. French, 1400 Jennings-av.

Given in marriage by her father the bride wore a gown of traditional white satin styled with a sweetheart neckline inset with net, and a lace-edged peplum over the full skirt which terminated in a circular train. Her veil of French illusion was held by a tiara of pearlized orange blossoms, and she carried a white prayerbook topped with an orchid.

Miss Virginia Meier was her sister's maid of honor wearing a blue faille taffeta gown and she carried a colonial bouquet of pink and white roses and chrysanthemums. The bridesmaids, the Misses Margaret and Florine Held, cousins of the bride, wore identical gowns of dusty rose and pink and carried colonial bouquets of roses and mums. Little Sharon Kay Held was flower girl, gowned in blue net over taffeta and she carried pink roses and baby mums. The bride's brother, James Meier, acted as best man and ushers were Robert and Hubert Held.

A wedding breakfast was held at the Southern Hotel and a reception was held that evening at Saxon Hall. The former Miss Meier graduated from Sacred Heart Commercial School and was associated with the Cussins and Fearn Co. Mr. French is associated with the Waterproof Ohio Paper Co.

Following a wedding trip to New York, they are residing at 809 Beech-st.

Mrs. Metcalf Heads March Of Dimes

Divisional leaders for residential solicitation in the polio campaign opening in Franklin County January 5 are announced by Mrs. Warren Metcalf, 871 S. Twenty-second Street, chairman of the women's fund-raising committee.

According to Mrs. Metcalf, some 1200 women will take part in the home solicitation, as the Franklin County chapter of the National Foundation for Infantile Paralysis seeks to restore its depleted funds. A few chairmen are yet to be appointed.

The record-breaking epidemic of 118 cases of polio in Franklin County during 1947—26 more than in seven previous years combined — has exhausted the chapter's reserves, the chairman reports. Funds must be raised in the coming drive to provide approximately $75,000 in continuing care for 1947 victims and also provide the money for new cases arising during the coming year.

While nationally the polio drive continues to be known as the "March of Dimes," the serious situation in Franklin County calls for contributions of one dollar or more from all who can afford it, Mrs. Metcalf says.

Mrs. Charles A. Pegler, 77 Shull Road, Gahanna, is vice chairman of the county committee, her particular responsibility being outlying communities.

With Mrs. Frances E. Fall, 1495 Elmwood Road, as their chairman, Women of the Moose will have a major part in the campaign through their residential solicitation in Columbus proper.

Chairmen for the various other residential districts announced by Mrs. Metcalf include:

Berwick—Mrs. Gustav Schell, 2926 Berwick Road. Bexley—Mrs. Alice Alcorn Wolfe, 2696 Fair Avenue. Clintonville—Mrs. C. A. Pollock, 256 E. Kelso Road. Eastgate—Mrs. Nathan B. Crane, 1920 Stratford Way. Eastmoor—Mrs. Charles Frank, 547 Eastmoor Road. Hilltop and Westgate—Mrs. John M. Hyer, 604 Columbian Avenue. Linden—Mrs. Daniel J. Whitacre, 1550 Melrose Road. Mt. Vernon District—Mrs. Howard D. Giles, 1318 E. Long Street. Shepard—Mrs. Caroline Harrison, 711 N. Nelson Road. Upper Arlington—Mrs. P. D. Deaton, 2192 Coventry Road.

Southside—Mrs. C. J. Karch 272 Southwood Ave. Alton and Rome—Mrs. Floyd Armstrong, 18 Lennox Road. Canal Winchester and Groveport—Mrs. Gale Wright, Trine Street, Canal Winchester. BY GRANTLAND RICE

ON A GRAY fall day, back in the long-forgotten year of 1895, a young kid sat in the stands watching Vanderbilt and Georgia meet. The coach of the Georgia team was another young fellow out of Cornell by the name of Glenn Scoby Warner, later known as Pop.

Here, 52 years ago, was the real beginning of one of the great coaches of all time. Cornell — Georgia — the Carlisle Indians — Pittsburgh — Stanford and Temple. Pop has been a friend of mine for too many years to mention—30 — 40 — what difference does it make? The years roll by faster than Man O' War could ever run. Pop Warner has been football's greatest inventor of plays, including the single and double wing on offense, still just as popular as the T.

Warner

Pop had a fine team at Georgia — record-breaking teams at Carlisle, Pittsburgh and Stanford where his football knowledge and his iron personality dominated the scene.

He was the only coach who had —not exactly the fear — but the complete respect of Jim Thorpe, a football genius no one else could handle. This is easy to understand, for Pop discovered Jim Thorpe when he was an Indian stripling at Carlisle, just 15 years old. Thorpe then weighed 141 pounds.

Pop still isn't quite sure whether his best team was at Carlisle, Pittsburgh or Stanford. The answer is, he had great teams at all three places.

Look over the men he has coached: Thorpe, Galac, Guyon, Metoxen, Hauser, Little Bear, Mt. Pleasant, Hudson, Peck, Ernie Nevers, entirely too many to mention here . . . at least 50 in the upper brackets of the game. His two greatest were Thorpe and Nevers — Thorpe the genius—Nevers the 60-minute man — Thorpe the greatest —Nevers the most valuable.

Carlisle Was Tops

"The Indians," Pop wrote me 30 years ago, "are the only true amateurs. They play football for fun. They are no good in the rain—for it isn't any fun. At different hotels they are more popular than any white team for they are quiet, well-behaved, never any trouble. No silver or towels ever missing. They are the gentlemen of our profession. But they play only when they feel like playing—only when it is fun."

I still think Pop's all-Carlisle team, with Thorpe, Galac, Guyon and Mt. Pleasant in the backfield would beat the pick from Pittsburgh or Stanford, Harvard, Notre Dame, Yale, Michigan, Army or anywhere else.

Pop Warner belonged to the old iron-man school of coaching. There was never anything soft about Pop. To him, football was something more than a matter of plays—where he is still one of the masters. It was a game of condition—of discipline—of concentration—of giving all you have.

He was no easy task master. He gave the country a lesson that it needed. The primrose trail had no part in his philosophy.

It would be difficult to say what coach has had the greatest influence on college football — Pop Warner or Knute Rockne. Not so far back are Hurry-Up Yost and Percy Haughton, or Walter Camp.

Originator of Plays

Pop undoubtedly was the inventive genius. His single and double wing attack still have a big place in any football offensive. It is a much stronger attack than the T for many teams, which many coaches have overlooked.

Pop's word was a double bond. Some 25 years ago we left on a trip to Syracuse with Walter Camp. Pop was coaching Pittsburgh. Chick Meehan was coaching Syracuse. We all had breakfast together.

"I'm sorry, Pop," Meehan said, "but I haven't had the chance to scout you this season. What are you using today?" "I'm using only five plays, Chick," Pop said. "Here they are." Pop diagrammed each play. "If we use another play call a penalty and I'll back you up."

Pop only used the five plays throughout the game.

Football was simpler then — and to my mind more the way college football should be. There was trust and faith between coaches and teams where today there is too much suspicion, distrust and lack of faith. Too many coaches and teams are breaking rules in regard to their playing personnel — and everybody knows it.

In the way of gate receipts, public excitement, thrills and the rest of it—the modern game is supreme.

It is now a better game to watch despite its unlimited substitutions, where from 35 to 45 men make a team on the field.

But through all the changes, variations and shifts, Pop Warner's single and double wing still remain among the most effective offensive football knows.

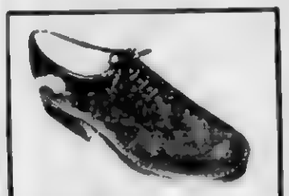
FREEZIN' REASON



Keep out of trouble by keeping your distance. Following other vehicles too closely is one of the chief causes of winter accidents. So stop skidding yourself. If you must follow something closely, follow the safety principle that without tire chains it takes from 3 to 12 times more distance to stop on snowy or icy roads than it does on dry pavement.

Barbara Stanwyck plays the part of the pianist. David Niven is her doctor who ultimately falls in love with her, and Richard Conte enacts to perfection the playsboy sportsman who introduces her to a brief fling at excitement and romance.

One of the most engrossing and engaging romantic dramas of this or any other year, "The Other Love", will share its two-day run at the Southland with "Marshal of Cripple Creek", a Western action drama starring Allan Lane and Bobby Blake.

With the colorful background of New York's jazziest hot-spots, and a swanky gambling ship, Nick and Nora are up to their ears in hilarious homicide again, this time on the trail of the murderer of a two-timing band leader. SOUTH SIDE RAMBLINGS

We'll Never Learn

Does Secretary Marshall's stern attitude toward Russia remind you of anything? Remember how, after sending our scrap iron to Japan, we suddenly began to get tough with them just before Pearl Harbor.

NEWS BEHIND THE NEWS
By PAUL MALLON

Released by Western Newspaper Union.

Europe Wants 40 Billions

WASHINGTON. — The state department heard some stories not generally circulated, that the Europeans had just about decided at Paris to try to take from the United States 38 to 40 billion dollars more in four years. The figures were published vaguely from Paris in one New York paper, although not otherwise, yet they must have been mentioned in the confidential official dispatches, as this government decided to act fast.

Forty billions is double what anyone had mentioned anywhere before, and four times as much as the hapless Ben Cohen had guessed in a speech would be necessary—a guess which caused him to retire, without objection, as counsel to the state department.

At once, Acting State Secretary Lovett dispatched two men to Paris. One is George Kennan, top-bracket manipulator on the Marshall general staff, or what might be called chief of staff of his policy planning commission. Kennan is supposed to be the Mr. X who wrote so straightforwardly against Russia in Foreign Affairs Quarterly, far more straightforwardly than any official has done before under his own name. They say Kennan is greatly respected by State Secretary Marshall, and is one of the most influential men in the department now. With him went Charles Bonesteel, a special assistant who is not well known.

EXTRAVAGANT DEMANDS

Will Clayton, the foreign trade assistant, was supposed to be in Paris looking out for American interests at the conference, although this country is not officially participating. But Clayton has been down at Geneva most of the time working on the international trade meeting, and the European planners at Paris have been just Topsying along, concentrating on their own ills, seeing how much money they could use from us, without any advice as to how much might reasonably be available.

What Kennan and Bonesteel were sent to tell the European statesmen was evident in an off-the-record press conference held next day by a top state department official. His words were much stronger and more threatening than indicated thereafter in the public announcement from the Kennan-Clayton conference in Paris, although the restrictions against publication were such that they failed considerably to reach the public.

He said such figures were extravagant and out of all line. If European demands for money from us get too high, wide and handsome, we will have to call off the whole advance planning — the Marshall plan.

But even if Paris is reasonable, we may not have enough money ourselves to furnish half what is wanted. The true basis of the Marshall plan, which Europe seems to be forgetting, is that the European nations will first help themselves to the utmost, to show how they can re-establish themselves if certain aid is given, and then we will see about the aid. For instance, we may have to send tractors so they can work their own fields, instead of sending wheat, the finished product.

WHERE WILL MONEY COME FROM?

The Europeans were advised to change their demands and measure them to the realities of our situation.

No official said so, but Kennan and Bonesteel could well have been instructed to tell Clayton to tell the Europeans, they should not only demand what they need, but tell us how we are going to raise the money in this country to furnish it—whether by current high or still higher taxation, whether by increasing our staggering war debt, now above 250 billion dollars or what.

The whole European conception of the Marshall plan obviously had grown out of reality into a sort of proposed grab-bag, and the administration acted hastily to correct it, knowing full well the limitations which might be imposed against any free money running scheme by a Republican congress. In line with all this, a report from the Harriman committee of 19 will be released soon on just how much aid this nation can afford to give Europe without running our prices up into an even higher stratosphere.

Truman Won't Campaign Now

In certain private meetings with Democratic politicos, President Truman made an unannounced and unreported decision, turning down outright political action to offset Dewey and Taft on the stump. Mr. Truman said this is not the time.

Several speaking engagements pressed by local leaders were turned down by the White House. Not much was done politically with Labor Day or the American Legion convention by the President.

Champion Theater, Friday and Saturday

ONE MILLION B. C., starring Carole Landis and Lon Chaney will be the main attraction at the Champion Theatre this Friday and Saturday.

This interesting, fanciful, action-filled adventure picture, contains not only man, but such as dinosaurs and other prehistoric animals which we have heard of but never seen. We consider it an extremely fine picture, which is intended for the whole family.

Companion attraction will be THE HOUSEKEEPER'S DAUGHTER, starring Joan Bonnett and Victor Mature. This is a riotous comedy which we don't want to spoil for you by telling you anything about it.

CHAMPION THEATER SUNDAY, MONDAY

The main feature at the Champion Theatre next Sunday and Monday will be DOWN TO EARTH, starring Rita Hayworth and Larry (Jolson) Parks.

This picture has all the earmarks of being one of the best musicals of the year. Glowing with excellent Technicolor it is based on an amusing and imaginative story. High-quality eye-and-ear-filling numbers are included, but the picture revolves around Miss Haywarth and Larry Parks. Edward Everett Horton and James Gleason, not to mention Roland Culver, turn in excellent performances.

This film blends, humor, drama, dance and music into a most enjoyable whole. Companion attraction will be DEEP VALLEY, starring Ida Lupino and Dane Clark.

Corn Bread Tamale Pie

A hearty casserole dish, a crisp green salad, and a lush dessert, such is the homemaker's dream of a menu to fit all occasions.

Among the many possible casserole combinations is a Corn Bread Tamale Pie that everyone will love. A highly seasoned mixture of ground beef, tomatoes and corn, its crowning glory is the tender, fluffy, golden brown topping of good corn bread.

Just imagine that you have a casserole before you, pick up the serving spoon, cut through the delicately browned corn bread and scoop down into the juicy, spicy meat mixture. The aroma is so appetizing you can't wait even a minute for the first taste.

Corn Bread Tamale Pie
Makes 6 servings

1 pound ground beef
1 large onion, chopped
1 can tomato soup
2 cups water
1 teaspoon salt
½ teaspoon pepper
1 tablespoon chili powder
1 cup whole kernel corn (drained)
½ cup chopped green pepper

Corn Bread Topping

½ cup corn meal
1 tablespoon flour
1 tablespoon sugar
½ teaspoon salt
1½ teaspoons baking powder
1 beaten egg
1/3 cup milk
1 tablespoon melted fat

1. Brown ground beef and onion in skillet.
2. Add tomato soup, water, seasonings, corn and green pepper; simmer for 15 minutes.
3. For topping, sift together dry ingredients. Add beaten egg and milk, stirring lightly until combined. Fold in melted fat.
4. Place meat mixture in greased baking dish (2 qt. size), cover with corn bread topping. Don't be surprised when the topping disappears into the meat mixture, for it will rise during baking and form a good layer of corn bread.
5. Bake in hot oven (425°F.) 20 to 25 minutes until corn bread is brown.

Your Home

By Frances Dimmick

In many communities there are smoke ordinances which place a curb upon the smoke nuisance. Inasmuch as most of this smoke originates from highly volatile, tar-filled coals, these ordinances usually require special controls in the burning of such soft coals. Automatic stokers are considered to be the best way of keeping the smoke down to a minimum.

There is no questioning the fact that smoke is a horrid nuisance, and that you do not want your chimney to be guilty of belching forth a lot of this dirty carbon black. Ordinance or not, you don't like to see such a waste of fuel. The whole solution, of course, lies in the combustion process of your heating plant, and if you are at all troubled with excessive coal smoke the thing to do is call in a qualified combustion specialist and let him make recommendations for correcting the cause.

It is not always the coal that is at fault, and before you blame the coal dealer be sure your heating plant is without fault. A bad chimney, a soot-clogged furnace, poor combustion due to numerous causes, may well need correcting. An expert in heating service will readily determine the reasons for a smoky furnace and tell you how to overcome the difficulties. There are companies that make it a regular part of their heating business to clean and re-set furnaces, and it should be a yearly habit of yours to have your furnace checked against smoke and all other troubles.

Do You Remember When:

Before the days of matched luggage we carried a canvas covered boxy affair called a telescope?

After a meal, if everything had been eaten, some one was sure to say, "It's going to be a fair day tomorrow?"

Its The Law

In 1770 an act was introduced into the English Parliament which was intended to afford protection to those men who were beguiled into matrimony by the artificial adornments of the fair sex. This act is as follows:

"That all women, of whatever age, rank, profession, or degree, whether virgins, maids or widows, that shall, from and after such Act, impose upon, seduce, and betray into matrimony, any of His Majesty's subjects, by the scents, paints, cosmetics washes, artificial teeth, false hair, Spanish wool, iron stays, hoops, high-heeled shoes, bolstered hips, shall incur the penalty of the law in force against witchcraft and like misdemeanours and that the marriage, upon conviction, shall stand null and void."

A city ordinance of Wichita, Kan., No. 381, reads: "That it shall be unlawful for any person to throw upon or against another person in the city of Wichita, any confetti or similar preparation or to throw same about in any street or public building or place in said city. It is further made unlawful for any person to throw as aforesaid any flour, talcum powder, rice or other substance or preparations for the purpose of annoying or harassing others."

Since the Alabama husband is accountable for his wife's misbehavior he has the legal right to chastise her—with "a stick no thicker than the thumb." Nothing is said about the length of the stick.

Henry Kaiser Buying Plants In Germany

The radio resources these days and nights with the "commercials" of the Kaiser-Fraser crowd relative to the automobile field, just one of Henry J. Kaiser's many activities since FDR put him on the high road to success with American taxpayers' money since World War II.

But Kaiser is not content to limit himself to America but is picking up genuine bargains in Europe, bargains which do not help in the rehabilitation of Germany for which President Truman is now spending hundreds of millions to be followed by billions later.

Who was the successful bidder for the aluminum foil factory in Germany, offered for sale in this country on reparations account? Who but Henry J. Kaiser and his Permanent Metals corporation!

Mr. Kaiser bid $203,000 for the plant as it stands in the French zone in Baden. He expects to move the machinery to the state of Washington and reassemble it there at a cost of some thing like a million dollars more. It will be interesting to learn how Mr. Kaiser is financing the deal. His Permanente corporation has paid off what is owed the taxpayers, but at last reports he still was in debt to the government for something like ninety million dollars on his steel plant.

The factory in Baden was advertised for sale just after our government had announced for the third or fourth time that it had abandoned the Morgenthau Plan and was no longer intent upon destroying German industries. At the time the advertisements appeared, we called attention to the discrepancy between promise and performance. To be sure, aluminum foil has its war uses, but if every plant that can be converted to turning out something useful in war is to be dismantled, hardly a factory will remain.

This factory seems to have been designed with a view to Peacetime production. Its equipment includes machines for printing on aluminum foil intended for use in packaging such items as foods, cigarets, and gum. Evidently there is a considerable European market for its wares and, if so, the plant is capable of making a considerable contribution to the restoration of the Germany economy and the economy of Europe.

But that isn't to happen. Instead. Mr. Kaiser gets what he must regard as a bargain and the American taxpayers, to whom he is already heavily in debt, get the rare privilege of supporting those Germans who otherwise could support themselves by working in the factory that Mr. Kaiser has acquired.

The arrangement appears to be idiotic from the viewpoint of everybody except Mr. Kaiser. It appears to be in direct conflict with the announced policies of our government toward German industry. Congress might well inquire into this matter and at the same time resume its researches into the previous Kaiser deals. There is a lot that still needs explaining.

M. C. Cann Wins Lion's Auto

M. C. Cann was the lucky winner of the South East Lion's Club Auto which was drawn Saturday, December 20.

The auto was a Chevrolet Fleetwing 4-door sedan. The winning number was 38867.

Mr. Cann says that this is the first thing that he has ever won.

He lives with his wife at 1088 McCallister Ave.

Mr. Cann says that he was badly in need of a new car, inasmuch as his old auto is much the worse for wear.

All the money from this auto will go to the Children's Hospital for the use of the Rheumatic Fever Research, according to Louis Kaser, president of the South East Lion's Club.

We hope that this will do much to arrest this terrible disease and save some South Side children's lives says Carl Snedecker, who had charge of the sales of chances on the auto.

Query

I'd like to ask a question,
If I may be so bold;
How can a girl achieve the New Look
In a frock that's two years old?

FREEZIN' REASON

Take your time in winter time, because ice is just plain slippery. And that's dangerous when you are driving too fast. So reduce your speed to conform to the condition of the road. Expect the unexpected. Keep your mind on the road ahead, so you'll be ready for that emergency around the next corner. You can't stop on an icy dime.

Keep 'Em Singing

It's time again for that annual reminder for the general public to provide a winter dinner-table for the birds.

The recent snow and ice has gradually sent man's feathered friends scurrying for new sources of food and therefore any assistance from a little effort on the part of someone who takes the trouble to provide a few scraps of bread or other bird edibles will "keep 'em singing" all through the winter.

Suggestions have been made that the discarded Christmas tree be set up in the back yard decorated with crusts of bread, meat scraps and fruit. The suggestion is a good one provided that the food is tied directly to the twigs or limbs and not left dangling on a piece of string as a glass ball on Christmas Eve. Most birds are not of an acrobatic nature to the extent of wrapping his toe nails around the string while dining and only the humming bird is equipped with the wing mechanism that allows him to take a bite in flight; therefore it is advisable to tie the food directly to the branches.

Museum Has Many Visitors

When 100 to 1500 people visit an historical museum in Columbus on a Sunday afternoon, are they interested in history or merely curious?

The fact that 103,110 people during 1947 visited the State Historical Society's headquarters at the Ohio State Museum, that thousands wrote for special information, visited the Library and Newspaper Collections for research work, and borrowed loan collections, indicates that interest in history is genuine.

School groups from Columbus and different parts of the state brought 25,131 students to the Museum. Loan collections were used by 138,817 students from 73 counties and interest in the radio program "Once Upon a Time in Ohio" grew by leaps and bounds as indicated by requests for programs and teacher's manuals.

This coming year 1948 the Gold Star Mothers are going to make a special effort to enroll all gold star mothers in Columbus and Franklin county in their chapter as active or honorary members. The war is over but there is opportunity for mothers to find companionship, to be of service to each other, to the veterans and to their community.

St. Marys Humbles Newark St. Francis

By Don Morbitzer

Two old basketball rivals, St. Mary's and Newark St. Francis clashed headon at the K. of C. gym last Saturday night with St. Mary's emerging with a well deserved 50 to 46 victory.

St. Francis held the lead in the first and second quarter, 8 to 14 and 20 to 24, but at the end of the third quarter, this lead was twindled to a 33 tie. This is when the game got hot and heavy.

It looked as if both teams just had to win and at this point a little rough "football tactics" were entered into the game, with St. Mary's guard, Dick Gianovito, suffering a gash on the right side of his head.

The game was an exhibition of lightning ball handling by the two high school teams. The passes were true to their mark and the quick breaks were advantageous mostly to John Wirtz's St. Mary's quintet.

Don "Pivot" Kaiser turned in a great performance as he hit for 16 points with his outstanding shots.

St. Francis rated an average of 1000 when it came to foul shooting, as they never missed one. A good game was turned in by Don Leanhardt, when he helped pull the St. Mary's team out of the fire with his timely eight points.

Long shots were another asset to this hardwood battle, as St. Francis pushed in long shots time and time again from nearly the middle of the court. These shots were matched although by St Mary's sure-shooting and scoring ability as the 50 to 46 score, handed another victory to the blue and gold "Ramblers."

Officials -Holleran and J. A. Mitchell. Score Keeper- Gus Naegele.

Holy Family St. Mary's Fifth Victim

By Don Mortizer

A fast basketball game was played at the K. of C. gym between St. Mary's and Holy Family, with St. Mary's scoring an impressive 41 to 30 victory.

Accurate shooting of Family was high man for the night with his 15 points, followed by St Mary's Capt. John Donnelly with eleven.

The players on both teams were racking up points from all angles of the floor as the score showed more than forty, 2-pointers dropped through the nets for the exciting four quarters of the game.

Team work, individual high scoring and desire for victory were exhibited by both teams.

Gabby Hartnet and Dick Gianovito of St. Mary's picked rebound after rebound from the backboard and in some way converted the rebound gatherings into points for St. Mary's. They also got stiff opposition from Dorian of Holy Family. Both teams used the practical zone defense, playing it close and watchful of opposing players scoring threats.

Last Quarter Stand

Holy Family threatened the visitors throughout the last quarter as they stayed within two or three points of winning until they tossed one within the last minute and a half of the game. John Donnelly put the game on ice when he scored the last five points of the game, turning the score into a 44 to 40 victory for St. Mary's.

Spectacular shots were turned in by Don Kaiser and Dick Gianovito each scoring ten points and Ely Werny and Grumes of the losers. The victory made it five out of seven for the South Third St. Ramblers. According to the last two games, St. Mary's has been called the "second half" team, as they come from behind in the second quarter to score decisive victories over their opponents.

Score by quarter-

Holy Family	17	25	27	30
St Mary	12	21	32	41

The game was preceded by St. Mary's Reserves 44 to 11 as Tim Skunza hit for ten and Bob Greenbrack for nine to sink Holy Family house of mourning home with the winning hoops.

ET CETERA

In so many instances "et cetera" means little when tacked onto a phrase or a conversation but it's definitely not the case when you are talking about Cavalier Coal. Not on your life!

It says a lot. In fact three or four paragraphfulls are packed into the two words. They mean Cavalier Coal gives you even heat in the coldest winter weather; they mean there is no waste, no clinkers; they mean less work on your part, and that's always important, and ultimately they mean more for your money.

So you see now what ET CETERA really means.

Happenings That Affect Dinner Pails, Dividend Checks and Tax Bills of Every Individual National and International Problems Inseparable from Local Welfare.

The entrants in the Presidential Sweepstakes are pawing the ground hard these days, like so many nervous race-horses lined up at the barrier. The interest, of course, is entirely on the Republican side, in that Mr. Truman undoubtedly will be the standard bearer of his party. However, everything that goes on within both parties necessarily carries at least a faint aura of good old fashioned party politics. This is perfectly natural the White House is the greatest of political goals, and for the first time in nearly twenty years the Republicans have a real chance.

Curiously, the Republicans who unquestionably has the largest number of pledged delegates of present has not even announced his candidacy. That is Governor Dewey, who holds a substantial margin of leadership when it comes to the statistics. However, this margin is a long way from the necessary majority, and it doesn't appear to have fattened to any great extent recently. Furthermore, some of the polls indicate that party leaders would prefer Senator Taft, even though he admittedly trails Dewey in sure convention votes.

This does not mean that Senator Taft is enthusiastically regarded by all his colleagues and party-members. Some influential GOP new-papers have recently complained that the Senator from Ohio seems to be working on the idea that whatever he says should automatically be accepted as Republican policy. Senator Tobey, the President of the Senate, has openly split with Taft on a number of top issues. Senator Vandenberg has occasionally shown mild irritation at some of Taft's views on foreign policy. The Republican mavericks, like Morse of Oregon, have little use for the Ohioan and make no bones about it. Taft is paying a certain penalty for having taken forthright and clear stands on almost everything that now troubles this country and the world. It may be to Dewey's advantage that he hasn't been too forthright on the big issues—though he has endorsed the Marshall Plan and compulsory military training, the last of which Taft solidly opposes.

In any event, the line-up of favorites now reads, Dewey, Taft, Eisenhower, with the first two far ahead and the third the most promising of the dark horses—a dark horse who could, if the circumstances were right, sweep the field as Willkie did in 1940. General McArthur's possible candidacy is not taken to seriously in professional quarters, and late reports indicate that he may have decided to stay in Japan until a peace treaty is concluded. Messrs. Stassen and Warren are openly in the field, but they are long shots. Either of them, however, stands an excellent chance of being offered second place on the ticket should he desire it. Finally, there is the usual lengthy list of favorite sons who have no perceptible chance for anything.

Whether or not the two parties split broadly on the question of European aid, the Marshall Plan, and foreign policy in general, there will be no lack of issues to make the campaign lively. Mr. Truman will certainly go to the country on behalf of his program of rationing and price control. It is almost equally certain that the GOP standard-bearer will oppose it in practically every particular. There is plenty of dynamite in this issue alone to keep the contenders busy. Price control involves the whole governmental and economic system on which this country is based, and its abysmal failure in Europe will also give the Republicans a strong argument.

Republican policy holds that the best way to solve the lost of living problem is to cut the cost of government and reduce taxes—that is, to attempt to check inflation at the top, and to allow the people more take-home pay to buy things with. Some think Mr. Truman, for his part, will come out with a different kind of tax reduction plan, which would confine cuts pretty much to low-bracket incomes, rather than including the whole income scale. His veto passage when he returned the tax bill passed at the last regular session of Congress indicated that.

What makes all this particularly important is that no one can make a sound guess as to who will win which is a very different situation than obtainend before the last four elections when every dispassionate observer picked Roosevelt. When the Republicans took the House and Senate in the elections of November, 1946, many began digging a grave for the Democrats. Then Mr. Truman's stock, as revealed by the polls, rose remarkably. A short time ago, in the Kentucky elections Democrats registered some victories over incumbent Republicans, and this started GOP leaders thinking hard. It looks now as if the election will be very close indeed—the closest since the Wilson-Hughes campaign, when California reversed its usual field and went for Wilson by a narrow majority after Hughes had been all but conceded the winner.

However, it is a long time until next November, and in the present state of the country and the world anything can happen. A worsening or an improvement in the international picture—a depression or a continuation of our money-spending spree—a decline in prices or a further rise in prices—more strikes or a prolonged period of industrial peace—factors such as these could turn the scales, as they have done before. Right now, all that can be said is that it looks like a good race.

Hollywood's Token 'Clean-Up'

WASHINGTON. — The movie industry has firmly determined to eliminate from its payrolls ten persons who recently were hailed before congress and refused to say whether they were members of the Communist party, a subversive organization.

If my ears do not deceive me, the magnates and their counsel meant these dismissals to be accepted as proof that they had cleaned house, absolutely; a little late, to be sure, but better late than never. That makes the score: Ten babies down: 100 more to go.

Illusion is the great art of the moving pictures. I hope the masters do not deceive themselves, but that is as it may be. One thing I can tell you plain, however: They haven't deceived the committee on un-American activities.

They did not proceed against these 10 until the industry had been dragged in leg-irons and handcuffs, so to speak, before the committee. The agents of the industry tried to ridicule the committee but the fact finally got across to the people of the United States that this committee represented and actually personified them. It is a "committee of the house of representatives."

Say that last again. "Representatives."

REALLY 'REPRESENT' US

These men are elected by direct vote of the people of the United States to "represent" them. They are more representative of the American people than the sneering, supercilious continental intellects of Hollywood realized. They look just like so many people of the United States. Some of the members make amusing little mistakes in grammar and figures of speech. Those Hollywood intellectuals can sneer at these slips, but that is where they make a great mistake, themselves. Many of the people of the United States also use double negatives and jumbled metaphors and they will not thank you for curling a lip at them. They will make you sorry.

All of a sudden, the men who represented the industry, stopped short and went into a solemn, frightened huddle in New York. The "people" were good and sore at them for paying unbelievable salaries to men who were in a position to poison the stream of culture and make it a sewer by the time it flowed through the theaters on a thousand main streets; who refused even to say whether they were for or against the United States.

The "people" were supporting their "representatives" and they showed their sentiments in letters to the editors, to the theater managers and to the producers in Hollywood. They were starting to show it at the box-office, too.

ORDERS FROM EUROPE

They were good and tired of being lectured on "Americanism" by malicious doctrinaires who either came here from Europe or stretched an ear toward Europe for their guidance. The racial and social problems of the United States are peculiar and our own, and are not to be dealt with peaceably by iron rules devised by Europeans with the very purpose of causing petty angers, tiny in themselves, but only as the head of a match is tiny, and with equally fearful potentialities. The Americans were sore at Hollywood for scolding them and their native American customs and traditions. Sore at Hollywood for advertising them to the world as failures at self-government and advertising the abundant life of the United States as a system composed 90 per cent of poverty and 10 per cent of disgusting vulgarity and cruel greed.

The most revolting vulgarity in the United States was not observed in the moral family circles of the decent well-to-do, depicted in the movies as the idle rich, but in the palaces and ranch houses and camps and gambling resorts of the moving picture set.

Now, if Hollywood had an intelligent respect for the dignity and pride of the people of the United States, the industry would have taken the initiative, itself, long ago, to eliminate the Communists.

How?

Well, how does Hollywood usually get rid of people who, for reasons of personal vengeance and racial bigotry are marked for elimination? By nodding them out, that is how. It has been done for years.

"Sorry, nothing today."

Nobody in Hollywood needed telling how to get rid of anyone without a trace and without risk of legal process. It is an old Hollywood art and custom.

But the industry wouldn't take the initiative and when the committee called the hearings the Hollywood [illegible] still confident that by [illegible] and [illegible] about unfettered art and freedom of expression they could fool the people.

Miss Betty Ramsdell Weds Eugene Colburn

A reception fr 250 guests followed the pretty wedding on Nov. 29 of Miss Betty June Ramsdell, daughter of Mr. and Mrs. Ralph G. Ramsdell, 209 E. Pacemont-rd., to Eugene George Colburn, son of Mrs. George Colburn, 434 Thurman-av.

Meet The South Side Clergy

Rev. Albert V. Kessler

This week we are introducing you to the Rev. Albert V. Kessler of the Corpus Christi Church, corner of Deshler and Studer Avenues.

Father Kessler was born near Logan, Ohio, on a farm and attended elementary school near his home.

When he had finished the 8th grade, his father died and he was forced to quit school and be the man of the house, so that he might take care of his seven brothers and sisters and mother.

At the age of 23, Father Kessler entered St. Benedict's College, Atchison, Kansas, where he entered High School and then took his seminary education.

He was ordained by Bishop James J. Hartley at St. Joseph's Cathedral, March 11, 1933.

Father Kessler wished us to call to the attention of the GIs who are starting back to school, the lapse in his education and when he started back to school. Because as he states, if he could do it, so can they.

His first assignment was at Holy Rosary and St. Dominics Churches, where he was located for only a few weeks. He next went to Holy Cross Church, Glouster, Ohio, for 6½ years.

For the past nine years Father Kessler has been at Corpus Christi Church.

Father Kessler's hobbies are wood working and farming. He often goes to the home farm, but he is really in his glory when he is wood-working, having a complete shop in the basement of his home.

The thing that impressed us more about Father Kessler was his jovial laugh and his love of people.

We asked one of Father Kessler's parishners and he said "Father Kessler is especially loved for his interest in children and the young married people and he is at his best when doing something for them."

He has a happy disposition and likes athletics.

He has, since coming to Corpus Christi Church, installed a fine playground and equipment.

Father Kessler resides at 1261 Linwood Ave.

News In The World Of Religion

By W. W. Reid

Acting on behalf of the major Protestant churches of the United States, Church World Service has brought more than 1200 people to the United States and rehabilitated them in homes and in work, and it is still bringing in about 60 persons per month. Most of the immigrants come from the Baltic countries, from Russia, or from Germany where they were persecuted by the former Nazi government. They include persons from Protestant and Eastern Orthodox churches. An effort is made by CWS and the churches to build them into the life of local communities.

The Rt. Rev. Henry Knox Sherrill, of Boston, Mass., believes there is too much talk of war going on in America—"too much talk of the Russians as enemies and of initiating plans against the Russians." He added: "It is not the Russians that are the enemy; it is materialism and selfishness and greed. . . We must realize selfishly that a third world war would destroy everything we hold dear."

Thirty-two young people have recently been commissioned as missionaries or deaconesses by the Methodist Church and assigned to evangelistic, medical, educational and social welfare services in the United States and overseas. Twenty-five of the new missionaries are soon to be in foreign service. They are: the Rev. Earl E. Harvey, of Dallas, Texas, going to China for evangelistic work; Mr. and Mrs. Russell H. King, Evanston, Ill., to Philippine Islands, social work; Mr. and Mrs. James L. Pottenger, Warsaw, Ind., to Africa, education; Mrs. Alton Ridgway, Upland, Ind., to Africa, nurse; the Rev. Duncan A. Reily, Victoria, Texas, to Brazil, pastor; the Rev. William T. Robison, College Grove, Tenn., to Bolivia, pastor; Mr. and Mrs. Paul K. Snead, Nyack, N. Y., to Malay Peninsula, education; Miss Martha Berry, Louisville, Ky., to India, nurse; Miss Marjorie Hein, Portsmouth, Va., to Cuba, education; Miss Madeleine Klepper, Midwest City, Okla., to Philippine Islands, education; Miss Mary Lawson, Aledo, Ill., to Africa, public health and education; Miss Nellie Lewis, Salem, Ohio, to India, medical work; Miss Gladys Lynch, Salem, Ill., to Uruguay, education; Miss Dorothy Sandfort, Humboldt, Nebr., to Peru, education; Miss Alice R. Smith, Fredericktown, Ohio, to Africa, education; Miss Eleanor Warne, Winlock, Wash., to Japan, social work.

The week of January 4 to 11, 1948, will mark the 101st anniversary of the Universal Week of Prayer, initiated by the World's Evangelical Alliance, and sponsored in the United States by the Department of Evangelism of the Federal Council of Churches. In communities where there is a local organization of churches, the Department urges that churches unite for services each evening of the week; and where this is not possible that individual pastors and churches mark the week and partake of the world-wide fellowship of prayer. In isolated rural areas, it is suggested that meetings be held in homes, even if no clergymen is available. The general theme of the week is "Prayer Changes Things", and these daily topics are suggested: Prayer honors God; Prayer changes things; When a man prays; Things wrought by Prayer; Power of prayer; Jesus prayed for his disciples; Jesus taught us to pray.

There is a growing generous response from most of the agricultural states of America to the appeal of Church World Service for contributions "in kind" from the farmers of America from bountiful harvests for the relief of suffering neighbors in Europe. "CROP" (Christian Rural Overseas Program), with headquarters at 308 West Washington Street, Chicago, Ill., has pledges of more than 150,000 bushels of wheat from the "wheat belt", and much of it has already been collected at elevators. The project is led by church groups, and John D. Metzler is the director.

A total of $10,177,558 was appropriated for the year 1948-49 for the missionary service of the Methodist Church in the United States and overseas, at a recent meeting of the Board of Missions and Church Extension of the denomination. Of the total appropriation, $3,857,359 will be used by the Division of Foreign Missions in its work in Europe, Asia, Africa, and South America; $2,948,535 will be used by the Division of Home Missions in city, rural, and frontier parishes and institutions in the United States and in United States dependencies; and $4,271,664 will be used by the Woman's Division of Christian Service, both in the United States and overseas. This is the largest appropriation that has been made for missionary work in the history of the Methodist Church.

—R—

Reeb's next Pop Corn Sale is scheduled for next week. Orders will be taken after school dismissal Friday, Jan. 9, and continue until Thursday, Jan. 15. We want to continue conducting our sales on a strictly business basis, so each pupil selling should show you his sales blank so that you can write your name, address, and the number of packages you wish to purchase. We suggest that you do NOT pay in advance unless you are well acquainted with the pupil.

We feel that we are very fortunate to get these Pop Corn Crispettes. They are manufactured by The Columbus Pop Corn Co., which is operated by Mr. and Mrs. Wayne Begien at 1208 E. Whittier St. We have visited their place of business many times and have watched their work so we know that we are getting a clean, healthy confection. The school makes a profit of 2 cents on each package and we in turn give each pupil a free package for every 10 packages sold.

We certainly appreciate the patronage of our neighborhood and assure you of our interest in having every transaction to be a satisfactory one. Call GA-1326 to place orders or make adjustments.

We are sorry to hear of several people, who placed orders with our pupils, when we had our sale in November and then refused to accept the pop corn when it was delivered. We can't magine parents wanting their own children treated in this manner; therefore, we respectfully request that such practice NOT be repeated.

—R—

All pupils who will be 6 years of age on or before next Aug. 31, are eligible to start to Reeb on Monday, Feb. 2 at 9:00 a. m. In order to avoid a long waiting line, on the beginning day, please see that you have registered your child before hand. Our school nurse will arrange for a free physical check-up before the new term begins. May we urge you to register your child now by coming into the school office or calling GA-1326 and we will send you a registration blank.

Red Cross Drive Announced

"It's Red Cross Time" and again in March your Red Cross will turn to you for help. Once each year you are asked to contribute to this great humanitarian organizaton so that it, in turn, can help the thousands who come for financial help, consultation and training throughout the year.

The Red Cross belongs to the people—to you. Through it the victims of disaster receive comfort, shelter, rehabilitation aid. Through it also, a new national Blood Donor Program is being developed which, eventually, will provide whole blood or plasma to all who need it's miraculous healing powers.

Meanwhile, the Red Cross remains the constant friend of our men in uniform, as of veterans and their families. To the lonely, the anxious, the sick, Red Cross stands as the sign of hope. Let's keep it at full strength by participating in the 1948 Red Cross Fund Campaign.

While we here in Franklin County have not experienced wide-scale disaster recently, 95,600 persons did come to Red Cross for help in 310 domestic distasters during the first ten months of 1947. These disasters varied from windstorms to life shattering blasts. The total cost to Red Cross —ten million dollars. Aid to families in Texas City alone amounted to $1,300,000. Disaster aid alone, which is a charter obligation of the Red Cross, would not have been possible, had not you and millions of others contributed to the Red Cross.

During the war, we learned what miracles while blood and plasma could perform. Thousands are alive today because whole blood plasma and blood derivatives were on hand, ready for instant use where and when they were needed by our men in uniform.

That wartime experience has led to a new and even broader prospect that eventually will serve the whole civilian population of the United States—the "National Blood Donor" program. The Red Cross will finance and operate the entire project, with full confidence that Americans everywhere will help.

Yes; the Franklin County Chapter will have a Civilian Blood Donor Band. When? As soon as arrangements can be made. Disaster and the National Blood Donor Program are only two of the many reasons why a representative of your Red Cross will be knocking at your door. The 1948 Red Cross campaign opens February 26, and will close March 16.

Lucas-Anthony Marriage Read

Lighted tapers lined the aisle of the Christ Lutheran Church in Bexley, and white chrysanthemums, palms, huckleberry trees and seven-branch candelabra formed altar decorations for the double ring ceremony of Miss Elizabeth Carolyn Anthony and Robert Bruce Lucas, on Nov. 26 at 7:30 p. m., with the Rev. Otto Ebert officiating.

The bride is the daughter of Mr. and Mrs. Ralph N. Anthony, 694 Grandon Ave., and the bridegroom is the son of Mr. and Mrs. Bruce Lucas, 385 Stewart Ave.

Given in marriage by her father, the bride wore a gown of heavy white slipper satin with a high round neckline, tight-fitting bodice, and a scalloped bertha enhanced by a floral design of seed pearls and crystal beads. The full skirt terminated in a cathedral train and her only jewelry was a single strand of pearls, a gift of the groom. Her fingertip veil of double tiered imported illusion fell from a satin bonnet, and she carried an arm arrangement of calla lillies tied with a white satin bow.

The maid of honor, Miss Constance Anne Palmer, of Gary, Ind., wore a floor length gown of fuchsia tissue taffeta with a bateau neckline, fitted bodice and a full skirt that cascaded over a crinoline petticoat. She carried a bouquet of bronze pompons and talisman roses and wore a cluster of matching flowers in her hair. Miss Mary Margaret Anthony, a sister of the bride, acted as junior bridesmaid, and the other attendants were Mrs. Michael Knilans, Miss Mary Jo Daugherty, of Pinus, and Miss Mary Agnes Noonan. They were dressed alike in peacock blue tissue taffeta dresses and carried bronze pompons.

Robert G. Hoehl was best man for Mr. Lucas, and ushers included George Cunningham, William Wittke, Dale Friedley and Neil Mason.

Immediately following the ceremony a reception was held in the church parlors, and the hostesses were Miss Miriam Anderson, Mrs. William Geiger, Mrs. George Sall and Miss Alma Weber. Mrs. Anthony greeted the guests in a floor length of blue with a rhinestone trimming. She wore an arrangement of asters in her hair. Mrs. Lucas was attired in a blue dinner dress with a half hat trimmed in ostrich tips. Her corsage was of camelias and shattered carnations.

For her plane trip to Washington, D. C., the bride wore a three-piece brown suit with brown accessories and pinned a corsage of brown orchids to her lapel.

The new Mrs. Lucas is a graduate of Bexley High School and Ohio State University where she became a member of Phi Mu Sorority. She is associated with the Public Relations Department a graduate of South High School of the Ohio Bureau of Unemployment Compensation. Mr. Lucas is and is a senior in the College of Engineering at Ohio State University.

She carried a colonial bouquet of white baby mums and gardenias and her only jewelry was a strand of pearls.

Mrs. Jerry K. Meacham, Jr. sister of the bridegroom, was matron of honor, and Miss Dorothy Mers was bridesmaid. They wore identical gowns of turquoise faille fashioned with low fitted bodices, cap sleeves, full skirts, and matching mitts. They carried colonial bouquets of pink baby mums, carnations and asters which matched the arrangement of flowers in their hair.

Mr. Gilbert R. Sternenr, brother of the groom, was best man and ushers were Richard Sterner, William Zimmerman, Robert Ellis and Richard Voit. David Sterner on furlough.

The young couple will leave Sunday afternoon for a trip to Pennsylvania. After his furlough expires, Mr. Nolan will return to Japan. The bride will reside with her parents.

LISTEN TO ROGER GARRETT AT THE ORGAN, WCOL, DAILY AT 6:45 P. M.; SUNDAY AT 12:45 P. M.

Champion Theater, Friday and Saturday

The main feature at the Champion Theatre this Sunday and Monday will be DARK PASSAGE, starring Humphrey Bogart and Lauren Bacall.

This isn't just another pairing of Bacall and Bogart, but rather a suspenseful, surprising melodrama, following an unfamiliar story channel.

Bogart commits nary a murder, nor is Miss Bacall the same, as she has a heart of gold and $200,000.00 besides.

Bogart, an ex-convict has a plastic surgery job done on his face with Miss Bacall's money, is accused of three murders, guilty of none, finally forced to flee the country until the heat is off.

As stated before the picture is steadily suspenseful and markedly different from others of its kind.

Second feature will be THE GHOST GOES WILD, starring James Ellison and Anne Gwynne. This clever and unbelievable comedy-drama deals with an artist, pretending to be his own ghost in order to avoid a law suit brought against him by a woman whose portrait he has painted. He meets a real ghost, the spirit of the woman's departed husband, who gives the painter sufficient information about her to permit the painter to withdraw the lawsuit. It's funny and you'll like it.

CHAMPION THEATER SUNDAY, MONDAY

FUN ON A WEEK END will be the main feature at the Champion Theatre this Friday and Saturday. Starring Eddie Bracken and Priscilla Lane, this is good for hearty laughs and is strictly light comedy. The dialogue is well paced throughout, with Bracken and Miss Lane, both living, living and succeeding in capturing the Big Time. Living at the swankiest hotels, without a dime in the pockets some amusing incidents transpire.

Bracken takes a few pot-shots at society and the all-too gullible moguls of industry, and each becomes funnier. You'll love this brew.

Companion attraction will be CRAMED, starring Glenn Ford and Janis Carter. This picture will get you on Glenn Ford's bandwagon if "Gilda" hasn't already done so. This well-contrived plot smoothly worked out and highlighted with violence tells the story of an attempt to frame a guy, and the guy, played by Ford, meets Janis Carter, a girl friend of the gang about to kill a banker, whom Ford resembles, and let us tell you right now that Miss Carter turns in one of the nicest performances in about the murderingest assignment any member of the traditionally gentler sex has had in recent years. It's a fast and forceful picture direct and strong in its appeal to the admirers of melodrama in the raw.

Gene Robin

Returning this week to the Club Alexander, is that old South Side favorite, the versatile Gene Robin, with his comedy patter and songs. Gene has "MC'ed" more in the South Side than any other MC.

Appearing on the revue will be Jeannie Mason, popular acrobatic dancer, as graceful as they come; also Cynthia Clare, super character and tap dancer, and Freddy Lewis, juggler supreme, to round out a night of top entertainment at the South Side's most favorite night spot—the Club Alexander.

A drama in which a smuggler returns to present-day Singapore to recover a cache of pearls hidden before the war. When he learns that the girl he believes dead is an amnesia victim, he tries to regain her love. A thrill-packed story of action, danger and Oriental intrigue; also "Beat The Band" with Frances Langford and Gene Krupa. "News and a Cartoon complete this billing.

IDEAL THEATER

The Ideal presents Sunday and Monday "The Romance of Rosy Ridge" with Van Johnson and Thomas Mitchell. A drama telling the story of the bitter hatred that still flared between the north and the south after the Civil War. The setting is the Ozark Mountains in Missouri. There is a tender romance between Johnson and the newcomer Janet Leigh. It is romantic, heart-tugging; also "Genius at Work" with Wally Brown and Bela Lugosi; also a "Cartoon."

Champion Theater

Champion Theater Friday and Saturday "Fun on a Weekend" with Eddie Bracken and Priscilla Lane; also "Framed" with Glenn Ford and Janice Carter. Matinee Saturday.

Sunday and Monday "Dark Passage" with Humphrey Bogart and Lauren Bacall; also "Ghost Goes Wild" with James Ellison and Anne Gwynne. Matinee Sunday.

Romona Gaffey Weds Melvin Metzmaier

The candlelit altar of St. Thomas Church was decorated with white chrysanthemums and greenery for the marriage Nov. 22 of Miss Ramona Gaffey, daughter of Mr. Howard Gaffey of Crooksville, Ohio, to Melvin E. Metzmaier, son of Mr. and Mrs. William Metzmaier, 1368 S. Fourth street.

Given in marriage by her father, the bride wore a redingote style gown of heavy white satin fashioned with a deep yoke of Chantilly lace. The same lace was repeated in the deep cuffs on the sleeves, and fashioned the petticoat, over which fell the extremely full hooped skirt. Her three-quarters length veil of illusion fell from a halo of Chantilly lace, and she carried a white prayerbook topped with a white orchid.

Gowned in peacock blue faille taffeta, Mrs. May Hager served as matron of honor. The bridesmatrons, Mrs. Betty Fisk and Mrs. Arsenia Neiderhouse, wore similar gowns of rose. Each wore a halo of feathers matching her gown and carried a cascade of Picardy gladioli and roses. The junior bridesmaid, Nancy McManus, wore a white satin, hoopskirted gown with matching bonnet and she carried a basket of flowers.

George Kaltenecker served as best man while William Metzmaier Jr., and Robert J. Neiderhouse seated the wedding guests.

A breakfast was held at the Seneca Hotel immediately after the ceremony, and later in the day a reception was held for 100 guests at the home of the bride's aunt and uncle, Mr. and Mrs. Eugene Mosher, 40 Latta-av.

The bride is secretary with the American Legion of Ohio. Her husband graduated from St. Mary's High School and Midland Radio School in Kansas City, Mo. He is a radio engineer with WCOL.

After a wedding trip, for which the bride changed to a brown and beige suit with matching accessories and an orchid corsage, the new Mr. and Mrs. Metzmaier are residing at 2105 Willamont-av.

Miss Hughes Is Betrothed To Mr. Robb

Mr. and Mrs. Alfred A. Hughes, Sr., 1668 Lockbourne-av., are announcing the engagement and approaching marriage of their daughter, Wilmalou Elvera, to Ralph W. Robb, son of Mr. and Mrs. Dwight Robb, Lancaster, O.

The bride-elect was graduated from South High School and is associated with the Ohio Fuel Gas Co. Mr. Robb served three years in the Navy and now is employed by the Pennsylvania Railroad.

The open church wedding will take place at 4 p. m. Saturday, Feb. 14, in St. Paul's Evangelical and Reformed Church with the Rev. Paul C. Kuefer officiating. The bride's parents will be hosts at a reception following the ceremony.

NEWS BEHIND THE NEWS
By PAUL MALLON

Released by Western Newspaper Union.

More and More Inflation

WASHINGTON. — The New Deal crowd is buoying itself up with talk of a coming national income reaching 200 billion dollars a year—or over.

The last figure mentioned by Mr. Truman in his midsummer economic note to congress was 176 billion dollars for this year. Such a hoisting as the freespenders are conversing about would be a sensational further updraft on inflation, which probably could be gained only by higher prices and wages, as the nation already is gainfully employed to just about the utmost. But such an updraft could be forced no doubt by giving 20 billions more to European nations.

From the other side, you hear exactly the opposite story. High prices are beginning to cause diminution of unit sales, say the non-New Dealers. In many cases dollar volume of sales is off, but in others, where it is up slightly, the increase represents sales of fewer units sold for [illegible].

Not so much money is being thrown around loosely in domestic markets of all kinds. Thus the devotees of this side of the question are concluding the top of inflation already has been reached and we are in for the reaction this fall or after the turn of the year.

'NATURAL GROWTH' THEORY

In such a situation, prophesying would seem to be a fool's business. Not only because these opposing schools of economic thought are developing, but chiefly because the economic factors at hand so far are so indefinite and insecure no man who watches his words could possibly use many arbitrary ones in such a situation.

The economic fallacies which are running around loose through the daily news in the papers approach ridiculousness. The thought is being presented, for instance, that the new hike in national income can work out from "the natural growth" of the country. Similarly, some authorities are saying, even in financial journals, that inflation ordinarily comes after wars and we need a national income of 200 billion dollars to carry in and retire the war debt.

These suppositions are only fractionally and dangerously true. The national debt itself was made taxable under Treasury Secretary Morgenthau. While the budget carries an appropriation of 5.1 billion dollars to pay the interest on it next year, the burden of interest is somewhat less, because an inestimable portion of this amount will be taken from bondholders in taxes during depressions or plenty. An inflated dollar may retire a debt more easily, but it is a long way to retire a debt of 250 billion dollars with an annual retirement fund of 3 to 7 billions. And it takes a lot of "natural growth" to pay off 250 billions.

• • •

ESCAPIST REASONING

The indispensable main point of this matter—the point which is being forgotten—is that in inflating your dollar you can very easily bankrupt the workings of a nation and make it impossible for the country to earn enough to sustain itself, much less pay off both debts and interest. By constantly hoisting prices and wages (the wage increases always lag behind the price increases and most people do not get the same increase), you do not actually make debt payment easier for the people themselves, but you make it more difficult to keep the impetus of business strong as prices get too high.

The necessity for defending and fighting for some common sense in all this current folly of discussion was never greater than at this moment. If he answer is to be worked out at all, it must be done by insisting upon reasonableness and discounting the advice of fools.

Too many people in this country have gone into escapist reasoning of economics. They tell themselves grandiose hopes to make themselves feel better. They have done this so often now they are beginning to think these hopes are actual.

Evading the Taft Law

The Graphic Arts League, an organization of 22 printing companies of Baltimore, has hailed the AFL International Typographical union and the Baltimore union No. 12 before the National Labor Relations board, charging violation of the Taft-Hartley law. The printers' union has simply refused to sign a written contract, on instructions from the ITU president, Woodruff Randolph.

The NLRB's decision in this case no doubt eventually will get to the courts. The AFL printers, otherwise, have simply adopted a policy commonly adopted by closed shop unions which intend to avoid the new law entirely by giving up its benefits.

Your Home

By Frances Ainsworth

Isn't it amazing the amount of real knowledge small children accumulate and retain? The other morning my two sons helped me to prepare breakfast, and, when I started making toast, I asked 8 year-old John to put the rest of the bread away. Well, David — only 5 years old — very importantly took the loaf from John, carefully re-closed the waxed paper wrapping, and then put the loaf into the bread box.

As he did so, I was amused to hear him explain to John that the waxed paper wrapping kept the bread fresh and moist . . . and that it should always be carefully re-closed after the loaf has been opened. David told John that "Mike"—the man who delivers for the bakery—had told him all about it. Well, I've explained it to my children dozens of times — but it took Mike — idol of every child in the neighborhood — to turn the trick!

Later, at breakfast when the boys served our cereal, John noticed the inner wrapping on the cereal box and I explained to him that while waxed paper keeps moist products moist (such as bread) it also keeps dry products dry (such as cereals). Therefore the lining in the cereal box should be just as carefully closed as the bread wrapper. I went on to tell the boys that food manufacturers and bakers do their utmost to insure freshness in foods — but, of course they can't guarantee freshness to us after we open our packages, therefore it is extremely important that we properly re-close the wrapper. It is important, too, that we remember airtight re-closure can only be made when the package has been opened carefully without being torn.

Well, when I had finished explaining, the boys concluded (as all we housewives already know) that waxed paper plays a very important role in helping to protect our foods and in saving money, too.

PARTY TIME TABLE

The simplicity and charm of today's informal entertaining is expressed in this decorative party table setting, designed by Miss Ann Martin, nationally known hostess authority. Miss Martin says, "If you've been keeping your grandmother's cut glass punch bowl in the storeroom all these years, now's the time to bring it into the parlor because parties with punch are high in fashion favor."

Refreshments are served buffet style and may be attractively set up on a card table, decorated with garlands of ivy. In keeping with the grape harvest festivals now being celebrated, clusters of varicolored grapes may also be used. Then, the punch bowl serves as a centerpiece, with punch cups or glasses set in a ring around the bowl. Side dishes hold thin-cut sandwiches, small cakes or cookies. Here's a favorite fruit-and-wine punch that's appropriate, refreshing and easy to prepare:

WHITE GRAPE PUNCH

3 cups unsweetened pineapple juice
2 cups Cresta Blanca California Claret
1 cup sparkling water
¼ cup lemon juice
White seedless grapes

Chill pineapple juice, wine and sparkling water. Combine in a punch bowl or large water pitcher. Add lemon juice and sugar to taste. Garnish with lemon slices and grapes. Serves 6 to 8.

Meet An Outstanding South Side Citizen

MONTE BEAVER

One of the most prominent and most popular figures in South Side and the rest of Columbus amateur athletic circles the veteran Monte Beaver is facing a busy basketball season in his capacity as athetic supervisor at the Schiller Park gymnasium, a position he has held for the past 13 years. It also marks the forty-second year in which he has been connected with Columbus Athletics.

Among his duties will be the supervision of seven cage leagues. The leagues comprise 56 teams and 560 players.

He will supervise the St. Mary's boys' league, the St. Mary's girls' league, Columbus Dispatch Stations league, South Senior Church league, South Church Intermediate League, Owens-Illinois league and the City Recreation league.

Beaver had a long and notable career as athletic director at the Central YMCA from 1905 to 1924, supervising all kinds of sports. In the late year, he assumed the same position with the Newark (Ohio) YMCA and remained there until 1932.

The capable athletic leader born in in Circleville, Ohio on June 11, 1885, attended Circleville High School and came to Columbus in 1905. An active player in the early 1900's, Beaver played third base and shortstop for the Circleville Athletics baseball team in 1902, 1903 and 1904, and played forward for the Central Y-Leaders basketball squad.

After coming to Columbus, Beaver attended Bliss College and also YMCA Colleges in Geneva, Wis., and Silver Bay, N. Y.

Monte started coaching various athletic teams in 1905 and served one season as a coach at South High School, piloting the Bulldogs' basketball team during the 1910-1911 campaign. He later served as athletic coach at Bliss College. During the 1922-1923 season, he received unusual honor of coaching two Junior High School cage squads—Mt. Vernon Ave., and the Douglas School quintets. Incidentally, that season Beaver's two teams played for the City Junior High School Championship, with the Mt. Vernon Ave., boys winning the title.

In Newark, Ohio, Beaver coached the Newark Y-Braves bantamweight football team and the Newark Y-Beavers basketball squad from 1924 until 1931.

Beaver, with the late "Two Bits" Beirhalter, were the founders of Columbus famous Knot-Hole-Gang which was started by them in 1916 at the old Central YMCA where the Columbus Dispatch now stands. It is through this group that James A. Rhodes in later years and his boys' activities, climbed to the Mayor's office.

Monte was also a bicycle enthusiast and in June, 1921, he took twelve children on a bicycle trip to Washington D. C. While there they visited President Warren G. Harding and U. S. Attornney General Harry Daugherty. The following year Beaver took nine children on a bicycle trip to New York City.

He keeps busy during the summer-time as athletic director at the Indian Village camp, having served in that capacity since 1932.

Beaver also directs the Knot-Hole basketball tourney, the annual basketball Foul Shooting contest and the Marble Tournament.

Beaver is married and resides at 1373 City Park Ave. He has one daughter, Mrs. Jennie McCoy, who was formerly active in intramural girls' athletics at South High School, and a three and one-half-year-old grand-daughter, Jacqueline.

In addition to baseball, football and basketball, Monte is also interested in tumbling, wrestling, boxing, handball, swimming, skiing, ice skating, volleyball and ping-pong.

The South Side is certainly blessed to have a man like Monte Beaver as a director of athletics at Schiller Park.

We are going to let you in on a secret. Monte Beaver's real name is Fremont Beaver. We expect Monte wouldn't recognize it tho' because it is never used.

Monte also told us that he and "Cap" Hoover went to the YMCA colleges together and have been actively associated and friends ever since then. It would only be natural as both are interested in athletics, both are interested in boys and have given their lives to them. No two men have done more for the youth of the South Side.

South High Grad New Ass't. City Attorney

Appointment of Walter W Grelle, Jr., 35, of 1083 Bryden Rd., an assistant city attorney, was announced recently by City Atty. Richard W. Gordon.

Grelle was graduated from Columbus South High School in 1931. He received his BA degree at Ohio State University in 1935, and was graduated from the university's law school in 1938. He passed the Ohio Bar examination in 1938, was admitted to practice before the U. S. District Court in November 1939, and the U. S. Supreme Court in January, 1940. Clevenger Puts Oscar Of Waldorf To Shame

We of the South Side now have the privilege of claiming one of our native sons as a cook Par-Excellence. It was brought to our attention that in "Chef" Clevenger, of the Clevenger & Redifer Motor Sales, we have a man who is revolutionizing the whole cooking industry. Chef Clevenger's recipes are of course top secret, but after much persuasion he consented to allow the Booster to publish one of his favorite and most unusual delicacies, known as Frozen "Ham ALA Clevenger."

1—12 to 14 lb. ham (frozen at least 6 mos.)

2—Place in roaster without thawing of course and garnish with brown sugar, cloves and garlic, add pineapple if desired.

3—Oven heat should be 550 degrees above zero.

4—Allow at least eleven hours cooking time and baste every hour on the hour.

5—When dense black smoke seeps from oven, remove immediately and place on cutting board and cut in half with meat saw. If you have followed Mr. Clevenger's instructions to the letter, you will notice that the center of the ham is still frozen, if that is the case and should be, place one half of the ham back in the oven and cook again under intense heat for five more hours or until it is well done. If the outside of the ham appears black in color do not be dismayed as a sharp knife used as a scraper will soon remedy it. "Chef" Clevenger especially recommends this for New Year's Day and evening.

The honor of being the first to sample this unusually fine dish was that gourmet, Bill DeVaney of DeVaneys Cleaners. Bill said and we quote: "It was the finest ham I ever tasted and Mr. Clevenger is to be congratulated on such a concoction; it was well worth the sixteen hour wait."

Miss Eva Kilbourne Wed December 7th.

A traditional white satin gown was worn by Miss Eva Marie Kilbourne when she became the bride of William Granville Brooks, Dec. 7, at 5:30 p. m. at the Wilson Av. Church of Christ. The Rev. H. Myron Kauffman performed the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. W. T. Kilbourne, 1017 Studer Av. The bridegroom is the son of Mr. and Mrs. Granville Brooks, 1701 Jackson St.

The bride's gown was styled along princess lines, buttoning down the back, and ending in a circular train. The veil of imported illusion fell from a tiara of hand-made heirloom lace. The bride carried a white Bible topped with white carnations.

Preceding the bride to the altar was Mrs. George Haines, sister of the bridegroom, as matron of honor. Mrs. Homer Clawson, sister of the bride, and Miss Nan Fraggiotti acted as bridesmaids. Their hoop-skirted period gowns were of slate blue, American Beauty and sea green taffeta. Arm bouquets of pink carnations and fern were carried by the bridal attendants.

Steele's Bulldogs snapped a four-game losing streak and broke into the City League win column with a rousing 65-61 triumph over a rugged West quintet, before a frenzied full house at West last night.

A blistering .368 shooting average was chalked by Pug Hoover and his as they made good on 24 [illegible] attempts from the field. The losing Hilltoppers fired 91 shots, but were only able to hit on 26 for a .286 mark.

The two teams battled it out on even terms until Bill Camp pocketed a difficult shot from the side court with two minutes and 30 seconds to go in the third period to put the South quint on top 41-39, an advantage it never relinquished.

Chet Dewey turned in a splendid game for the winners, scorching the nets for 24 points, one more than Capt. Jack Thrush was able to tally for West.

It was a grand win for South and they certainly deserved it as they had to achieve it the hard way. The all-around play of the entire team was fine, and the spirit of the team shown was greater than we have ever had the privilege of seeing at South. Let's hope they can maintain that spirit the rest of the season and, with their ability, they'll certainly create a good many headaches in the City league. Of course we are worried about Coach Hood, the strain and strain of last Friday night's game has surely added plenty of silver to his red hair. There wasn't any doubt as to who was the most fatigued at the end of the game. The players had to help their coach to the dressing room.

Next Friday it's Aquinas at Aquinas. Let's get up there and make a little noise for the boys. They're good, no doubt about it.

• The drug store is but one unit in a complex pattern of business and professions, all of which serve the needs of the community. But it is unique in that pharmacy is both a business and a profession.

A business built on service to the sick cannot be restricted to usual "business hours." The need for medicine and sickroom supplies is usually immediate and urgent. In times of widespread illness the twenty-four-hour day seems all too short. We are ready, day or night, to serve the pharmaceutical needs of the community.

Miss Madeline Butler Is Married

A gown of traditional white satin and lace was worn by Miss Madeline Marie Butler when she became the bride of Ralph Byron Hicks Nov. 27 at 9 o'clock in St. John the Evangelist Church. The Rev. F. W. Burkhart officiated.

The bride is the daughter of Mr and Mrs. E P. Butler, 686 S. 17th St. The bridegroom is the son of Mr. and Mrs. Raymond Hicks.

The bridal gown was fashioned with the bodice of lace on net, having long, fitted sleeves with points over the hands. The very full skirt of satin fell in soft folds and ended in a slight train. The bride wore her paternal grandmother's wedding veil which is more than fifty years old. The finger-tip veil of silk illusion was caught by a crown of orange blossoms. She carried a white prayer book covered with gardenias and stephanotis.

Miss Rosemary Butler, as maid of honor for her sister, wore a gown of moss green with a square neckline, cap sleeves, tightly-fitted bodice, and a very full skirt. She wore matching gauntlets and a tiara of feathers of the same color. She carried a cascade bouquet of yellow mums.

Miss Patricia Morehouse and Miss Dorothy Butler, as bridesmaids, and Marlene Frey, as flower girl, wore gowns of chart reuse like that of the maid of honor. Their gauntlets and headdress matched their gowns and they carried cascades of russet mums.

Donald Ackerman was Mr. Hicks' best man and the ushers were John Lauhr and William Hutchason.

Mrs. Hicks graduated from St. Mary's High School and attended St. Mary of the Springs College. Mr. Hicks attended South High School and is associated with the F. & R. Lazarus & Co.

—R—

Once more we thank our neighborhood folk for their fine patronage in our pop corn sale of this week.

We take this method of telling our readers about this generous gift and once more express our thanks to them for this timely and thoughtful move.

Preceding the ceremony, performed by Rabbi Leopold Greenwald of the Beth Jacob Congregation, a program of music was presented by Mrs. Al Solove, accompanied by Mrs. Sam Solove at the piano.

The bride wore a gown of white lace with a long veil of illusion. She carried a double orchid upon a white satin Bible, given her by the Phi Gamma Sorority.

Miss Shirley Zwelling, Zanesville, was maid of honor. Bridesmaids included the Misses Miriam Baker, Harriet Fisher and Virginia Cailif. Joan Levine served as flower girl. Best man for his brother was Dave Goldstein, while ushers were: Richard Solove, Alvin Solove and William Bless. Ronald Solove and Steve Bless were ring-bearers.

Following the ceremony, a reception and dance for 250 guests was held by the bride's parents. A midnight dinner was served the out-of-town guests at the Solove home. They included: Mr. and Mrs. Ted Goldstein and daughter, Ina, and Faye Freedman, Chicago; Emily Goldstein, Cincinnati; Mr. and Mrs. Sol Silverman and son, Charles, of Portiac, Mich; Mr. and Mrs. Harry Zwelling, Mr. and Mrs. Martin Zwelling, Zanesville; Mr. and Mrs. Sam Solove, Mrs. Irving Shenkarow and daughter, Myra Lyone, Winnepeg, Manitoba; Dr. and Mrs. Sam Solove, Dayton.

Rev. Thelma Hostettle
Want to Bring the actual truth of God.
This discovery of the actual and literal Power of God is a staggering thing. It means that only now, for the first time in the history of the human race, is anyone calling attention to the facts of the actual and literal existence of Almighty God, the creative Spirit on this earth. This is a world-shattering moment. Believe us, it is.

News In The World Of Religion

By W. W. Reid

The Federal Council of the Churches of Christ in America recently pointed out that no denomination which is a member of the Council—and that includes all the major churches of the United States—has voted to support the proposed universal military training legislation, and that all those denominations that have expressed any judgment on the measure have been opposed to it. The Executive Committee of the Council is itself divided on the measure: 28 against the training program, 14 for. A statement of the Committee points out that the opposition of the constituent churches has been based principally on two grounds: they "deplore the determination of this issue as a gesture of military power in the midst of our present tensions in international relations", and they oppose "the government assuming responsibility for indoctrination and discipline in the matter of citizenship since it has been the genius of our democracy to rely upon the home, the church, and the school for such training.

A unique missionary co-operation across denominational lines in China is reported by Dr. Ralph E. Diffendorfer, secretary of the Board of Missions of the Methodist Church. He notes that missionaries of the Church of the Brethren and the Mennonite Church, who have been compelled to remain away from the Communist-controlled areas of West China, have been assigned by their boards and by the Methodist Board to work as missionaries in the West China Conference of the Methodist Church. Five missionary units of the Church of the Brethren, made up of nine men and women, have taken over the work of the Methodists in Tzechung and vicinity; while the Mennonites have taken over Protestant work in the city of Hochwan and vicinity.

Reports from China show more than 11,000 students now enrolled in the thirteen colleges and universities maintained largely by American, Canadian, and British missionary societies,—the largest enrollments in their history. They include: West China Union University, 1733 students, Soochow University, 1210; Nanking University, 1188; Shanghai University, 1072; Lingan University, 1058; Yenching University, 921; Hangchow Christian University, 891; Fukien Christian University, 590; Hua Chung University, 540; Cheeloo University, 478; Ginling College, 447; Hwan Nan College 223 tudents.

The General Conference of the Methodist Church which meets in Boston, Mass., next April will be asked to make provision for $250,000 yearly in a scholarship fund to bring from missionary fields and especially from the fields damaged by war specially qualified nationals for post-graduate studies in America, it is announced by Bishop G. Bromley Oxnam, of the Board of Missions and Church Extension. Already the Methodist Church, with an expenditure of $568,000, has granted special scholarships to 296 tudents from all the continents from which it is carrying on missionary work and it is proposed to continue this policy as a permanent feature of Christian missionary endeavor. Bishop Oxnam announces also that in the advance program which the Board of Missions is planning for the years 1948-1952, there is included an item of $8,000,000 for the reconstruction of schools and churches and hospitals in Europe and Asia that were damaged or ruined in World War II. This sum which it is proposed to raise in the churches, will be in addition to several hundred thousand dollars already raised for this purpose in the denomination's recent "Crusade for Christ."

"The Angel", a large transport plane, has been in the service of Scandinavian missionary societies for more than two years, carrying missionaries from Denmark, Norway and Sweden, and more recently from Finland also, to their fields of service in Africa and Asia. In the two years it has flown about 2,000 hours and has taken to the distant continent some 800 missionaries of the several Protestant churches of these lands; in that time it made fifteen round trips to Africa, and eleven to Asia.

A stone from the ancient ruins of the old city of Panama, which was built in 1519 by the Spanish and destroyed in 1665 by the English pirate, Henry Morgan, has been used as the cornerstone of the first unit of a school plant now nearing completion in Panama for the Methodist Church. The stone was recovered from the ruins of Spain; today it is the cornerstone of a school that will hold more than 1200 students. It is a 26-room building and will house a secondary school that has outgrown its 41 year old edifice Dr. Matthew D. Smith and the Rev. Louis Fiske are the missionaries in charge. A Spanish Bible is among the memorials in the cornerstone which was laid by Sr. Max Arosemena, Panama's minister of education.

Sportlight by Grantland Rice

LEO DUROCHER hasn't the easiest job in sport next year. He takes over, rightfully, a ball club that had its greatest year last season. The Dodgers have won pennants before, but they never won a flag with so many spectacular thrusts, they never played to as many people and they never looked as good in any past world series.

Since Larry MacPhail and Branch Rickey were under fire last spring, not Durocher, his year's suspension was out of order. There was little Rickey could rightfully do except give Durocher another chance. The Dodgers were supposed to be pennant winners in 1948 — not in 1947, according to Rickey's schedule. Burt Shotton beat the gun by a year. The Dodgers should be better in 1948 than they were in 1947. Durocher has the same team with a year's more experience. This can be a big help to the Dodger pitching staff which is packed with young talent that only needed a few pitching angles and better control.

Durocher

It takes a year or longer for a thrower to become a pitcher, but the Dodger's raw material has been exceptional. Durocher should have five or six winning pitchers next spring, including Ralph Branca who may reach the 25-game spot.

Durocher also discovered through his year's rest that even bigger crowds will come out if there is less umpire-baiting, which is no longer required. No one cares how hard the teams and the managers fight one another. Crowds today are no longer interested in arguments with umpires.

Has Fire and Color

Billy Southworth, one of the greatest of all managers, has proved this for years. So has Joe McCarthy, another member of the all-time greats. Shotton proved this case beyond all argument. The crowd comes out to see a ball game — not to listen to a dull and dumb debate between some manager and some umpire.

A fighting manager is all right—but why fight with umpires? This type of baseball belongs with the Dodo and the Great Auk. Being a pretty smart fellow, Durocher has sensed the big change, I believe.

No one can question the fact that Durocher isn't smart. He has fire and color and a scrappy, hustling ball club. He also has one or two tough ball clubs to beat, including the Braves and Cardinals. Also the Giants, if Mel Ott can get any pitching. The Giants have everything else.

The Cards, who made a brilliant showing last year by forging into second place after a dismal start, again will be a threat. The pitching staff will be the main worry, coupled with the advanced age of players.

Only a small improvement on the part of Braves and Cardinals can make a big difference, especially if the Dodger pitching staff doesn't move up and locate, in a vague way, the general direction of the home plate.

Lack of Control

Along this line, we've just received a letter from our all-time favorite pitcher — Grover Cleveland (Old Pete) Alexander, who isn't far from being the greatest all-around pitcher that ever threw a ball. And this includes Cy Young, Walter Johnson and Christy Mathewson; also Carl Hubbell and Lefty Grove.

Here is Alexander's letter:

"Dear Grant, I just finished reading your article on what is wrong with present day pitchers, and thought I would drop a few lines. No, I am not looking for anything. I am just trying to figure why they never have taken some old-timers on during spring training to work with these young throwers, as you aptly termed them. They teach hitting and about everything else, but not pitching.

"When I first came to Philly, Pat Moran was the coach, and about the first thing he said to me was this: 'Kid, you have a good arm, but a heck of a lot to learn.' He took me in hand and he sure did teach me. Pat was smart. Of course, it took work. Hard work.

"I never have been able to find out just what I did that put me on baseball's blacklist. I tried several times to get back, and even wrote Mr. Chandler for almost anything to do. I had a nice letter from him, and then another one saying that there was no opening and they did not expect any. I was just out.

"Pitching means control. By control I don't mean the plate — I mean one or two inches of the plate. A real pitcher ought to be able to get the ball one or two inches from where he wants it — not one or two feet. But pitchers need instruction, which few ever get. What good is stuff, the greatest stuff ever thrown, that can't cross the plate? This means hard work — hard work and instruction — learning how, maybe the hard way, which is generally the only way.

G. G. Alexander, Wood River, Ill."

New Years Brings Few Changes

Conservation Commissioner H. A. Rider said today that the general public is confronted with only a few changes in conservation rules and regulations because of the coming in of a new year.

The only changes of any consequence have to do with the new rules and regulations governing State Lake Parks which became effective January 1. These primarily embody safety measures and other provisions necessary to the safety of the general public using State Lake Parks and Lakes.

Regulations which were effective up to September 23, 1947, were formulated in 1912, therefore the Conservation Commission, acting upon recommendations from the general public at a hearing early in November, approved minor changes in the rulings that they might better serve the changing conditions.

Principle changes include provisions requiring an annual inspection of all watercraft using state controlled waters, at the time the license is purchased to determine safe capacity and its physical safeness on water. The craft capacity must be stenciled in a conspicuous place on the inside of such watercraft. This ruling applies to both private and commercially operated craft.

Watercraft speed limit, where motor boats are permitted, will not exceed six miles per hour except in certain lanes and areas marked by buoys where the speed limit will not exceed 25 miles per hour. Boat races will be permitted through special permission except on Decoration Day, Fourth of July and Labor Day.

Other regulations prohibit swimming in channels used by boats except when and where permitted by the Commissioner of Conservation or his authorized agent; it is unlawful to operate any watercraft in or through a bathing area or behind markers set up to limit bathing area.

The use of alcoholic beverages, narcotics or opiates aboard any watercraft on any water area is strictly prohibited and no watercraft will be operated by any person while under the influence of alcoholic beverages, narcotics or opiates.

Hunting and fishing regulations, which until a few years ago changed with the incoming new year, now are effective during the year—fishing regulations become effective March 1, and hunting rules on September 1. These changes were made a few years ago in order to more equally distribute the work of the accounting section which up until that time found it necessary to consign both hunting and fishing licenses to agents before the beginning of the new year while closing the books for the old year.

Hunters were confronted with the problem of having to purchase a new license to hunt on the last day of the rabbit season, which then included January 1, and often misplaced or lost it before the beginning of the next season.

Harry F. West, Chief of the Accounting Section and Business Manager of the Division, states that the new system equalizes the work of the Section considerably and allows for greater efficiency all around in serving the public.

The Better Way of Life

As an avid reader of household hints, my refrigerator is filled up with cosmetics, nylon sweaters, nylon stockings (rolled up in a jar), bread,-brown sugar, and last but not least my left over dampened ironing. Where do I keep the food? Don't be funny, at today's prices who's got food.

Red Cross Volunteer Nurse's Aides Needed In Crowded Hospitals

Following a survey made last spring by Columbus Hospital Nursing Staffs and the Red Cross, it was revealed that 200 Red Cross Volunteer Nurses' Aides are still needed due to the shortage of nurses and overcrowded hospital conditions.

Besides calling in Volunteer Nurses's Aides who were trained and served during the war, a new training class of twenty-five volunteers was begun at Mt. Carmel Hospital, the first since the end of the war. This class, having completed its classroom instruction, is now in hospital training and will be "capped" on completion of 45 hours of floor duty, late in February.

A new daytime Red Cross Nurse's Aide class will start Tuesday, February 10, it is announced by Mrs. George C. McConnaughey, 2382 Club Road, Chairman of the Franklin County Red Cross Nurse's Aide Committee. The class will meet two mornings each week, 9-12 A. M. The course consists of 35 hours of classroom instruction and 45 hours of hospital training. On completion of the course each volunteer is required to give a minimum 75 hours of volunteer hospital service per year. The training is invaluable to the volunteer and women are needed for daytime training for this community service.

Applicants for Red Cross Volunteer Nurse's Aide Service must be over 18 years of age and have a high school education. Application may be made each Thursday through January, 10 A. M. to 2 P. M. at Red Cross Headquarters, third floor, 74 E. Gay Street. Chairman of the Service will interview applicants.

Volunteer Nurse's Aides are now working at Mt. Carmel, University, Grant, Children's St. Francis and White Cross Hospitals and at the Columbus Cancer Clinic. Nurse's Aides do many of the non-professional nursing duties, relieving registered nurses to care for the more seriously ill.

During the polio epidemic last fall, Nurse's Aides were requested to help at Children's Hospital. Over twenty volunteers responded to the urgent appeal. A course in the treatment of polio victims is being planned for Nurse's Aides so they will be specially qualified for service another year.

Hospital managers, directors of nursing and doctors have always highly praised the work of Red Cross Volunteers and are requesting again many more of these trained women now.

Sally's Huskin' Bee

On WBNS' mid-winter log, Friday has the fun and Saturday has [illegible] from the news of the week on Sally's "Huskin' Bee"—as Sally said, "another night you want to watch. Just name the type of show you want, turn the dial, and there it is.

The new Saturday program line-up begins at 6:45 p. m. with new views of the news as seen by the editors of Newsweek Magazine on "Periscope". Then there's the new Hollywood show featuring that zany character of gags and song, Alec Burrows, heard at 7:30 o'clock. Immediately following this, at 7:45, the old favorite, "Here's To You" show of musical variations, may be heard.

"Suspense," Ohio Columbia Broadcasting System's Peabody award-winner drama series, and a perennial WBNS standby, has moved and been extended to an hour long broadcast. Heard at 8 p. m., the show features radio and screen star, Robert Montgomery as narrator of the series.

At 10:30 p. m. brings with it the inimitable Sally Flowers and her "Huskin' Bee" crowd who have moved from an earlier Saturday spot. In this rustic half hour, there are songs and music with the Crawford Brothers, Bob and his electric guitar, Cookie, the old-time fiddler, and little Freddie and his big bass viol, all topped with the salty humor of Sally herself.

Then there are all the other programs that have become a "must" on the Saturday evening listening schedule—Ronald Colman narrating the "Favorite Story" at 7 o'clock; Jonn Davis and her gang at 9; Vaughn Monroe's band at 9:30, and at 10 o'clock, the Saturday Night Serenade".

IDEAL THEATER

The Ideal presents Sunday and Monday "Boomtown" with Clark Gable, Spencer Tracy, Hedy Lamarr and Claudette Colbert. This is a drama, picturing the early days of the west, full of action and heart-throbbing scenes; also "Frontier Fighters" with Buster Crabbe and Fuzzy St. John. A "Cartoon" completes this bill.

Ohio-Ology Is Spreading Fast

Ohio-ology is spreading faster than Virus X Don't become alarmed, it isn't a malady, it is a new question and answer game that is paying off for radio fans and threatens to replace "spin-the-bottle" as a party attraction.

According to the Ohio Development and Publicity Commission, at present there are 34 radio programs carrying the Ohio theme. Some of the shows offer prizes to listeners who answer questions about the state, and others have created a series of stories about persons, places and events in Ohio. "The Ohio Story" and "Under Ohio Skies" are good examples.

More than a hundred newspapers and magazines carry regular columns on Ohio lore and many more publications use Ohio oddities for news fillers.

The "know Ohio" movement is not confined to the state's borders, because the national magazines are constantly seeking photographs and news features from the Ohio Development and Publicity Commission. USO centers among the occupation forces conduct question and answer contests on Ohio to entertain homesick Ohioans, and children from almost every part of the nation have scrapbooks about Ohio.

The Ohio Development and Publicity Commission is germinating this interest in Ohio. The commission decided to strip Ohio of her ancient mantle of modesty and drape her with a "new look" that would reveal some of the charms that won her the envious title of "Beautiful Ohio."

During 1947 thousands of interested people learned why Ohio is one of the best spots on earth to start a business, establish a factory, build a home, or spend a vacation.

According to an official of the Ohio Development and Publicity Commission, 123,099 letters were received by the commission asking for specific information about the advantages found in Ohio. In addition to helping industrialists to locate factory sites, pointing out the best hunting and fishing areas, suggesting honeymooning lodges, and answering a wide variety of questions, that office played an important role as an educating agency.

Approximately 90 per cent of the inquiries received during the Fall and Winter months were written by school children and college students. Teachers have shown an increased interest in disseminating facts about the state to their classes.

Operating on a small budget the commission has been able to service all inquiries through a system of specialized pamphlets and charts that cover such subjects as agriculture, industry, history, recreation, and general facts about Ohio.

Though the conception of a multiple-phased campaign the Ohio Development and Publicity Commission will strive to make the world more conscious of Ohio's charm in 1948.

He is watched over and rescued from death several times by Wanda Hendrix, a devoted little Indian maid who attaches herself to him. Ultimately Montgomery leaves allies himself with the U. S. law, aids in capturing Clark and then leaves town and Wanda. The latter is compensated for his departure with the new prestige friends because of her friendship with him. Also "Green Hell" with which she is accorded by her Douglas Fairbanks, Jr.

Food & Figgers Course

Two new classes sponsored by the Nutrition Service of the Franklin County Red Cross will start in January, it is announced today by Mrs. Derwin W. Ashcraft, Director of Nutrition.

A "Food and Figgers" course will start Wednesday, January 21, 7:30 to 9:30 P. M., Room 210, Ohio Fuel Gas Company, 99 N. Front Street. The course consists of six lessons to be taught by Miss Jeanne Montgomery, member of the Red Cross Nutrition Committee.

The course will include demonstrations of preparation of foods that are low in calories but high in eating satisfaction. How to eat to lose weight and still be sure of a diet that is good for you and supplies all the necessary nutrients will be shown.

Sample menus, which may be used for the entire family, with modification for reducing or gaining weight, or just for normal living, will be demonstrated. There will be new menus given each week. Also to be discussed are low-cost reducing and gaining diets, marketing tips, meal planning and a study of food values.

Mrs. Charles Mick, Chairman of the Red Cross Nutrition Services Committee will give a six lesson daytime course in Household and Food Budgeting, starting Friday, January 23, 1:30 to 3:30 P. M., Room 210, Ohio Fuel Gas Company. She will be assisted in the cooking demonstrations by Miss Elizabeth Richardson of the Home Service Department of the Gas Company Instruction in how to feed the family well and still keep within the budget will be given and will include sample menus, grocery lists and recipes. Marketing, grade labeling, and meal planning will be discussed and cooking demonstrations of low-cost main dishes will be given. It will be pointed out what foods are the best to buy from the standpoint of nutrition.

Registration for either class may be made by calling Nutrition Service, American Red Cross, Main 6841.

MEAT LOAF DINNER

The ladies of the South Church of Christ, Woodrow and Bruck, will serve a meat loaf dinner for fifty cents on the evening of Thursday, January 22, from 5:00 to 7:00. The public is invited.

Club Alexander

Gene Robin, popular emcee, was welcomed back at Club Alexander last week. He is again emcee for the show this week and presents Madeline Lewis, character and acrobatic dancer, also Lyman Dickey in a routine of singing and dancing.

RUSSELL THEATRE

The Russell presents Sunday and Monday "Where There's Life" with Bob Hope and Signe Hasso. When Barovia's king is downed by an assassin's bullet, the search for the righteous successor to the throne leads to America and Bob Hope. But the dread Mordia group, comprised of Fascist scoundrels is at work attempting to keep the Barovians and Hope apart.

Hope is a considerably baffled man who has a hard time accustoming his once commonplace existence to the hectic routine of dire plots, dead bodies, chases and the determination of a handsome and patriotic woman soldier to make him hers; also "Spoilers of The North" with Paul Kelly and Adrian Booth. "News and Cartoon."

Columbus Red Cross Goal, $298,000.

Franklin County's 1948 Red Cross campaign for $298,000 will be conducted February 26-March 16, while over the nation, during the month of March, the American National Red Cross will be working toward a goal of $75,000,000.

In announcing the campaign goal, Paul R. Gingher, Franklin County Red Cross Chairman, said the goal compares with the $279,800 goal in 1947, and that last year's over-subscription has been applied against this year's budget.

"Also," said Mr. Gingher, "the net chapter budget has been pared to 15 per cent less than last year's to carry on our services to this community. Of course, the public appreciates our continuing work with our veterans, servicemen and their families. In 1947 our Home Service Department gave aid in some manner to 2,714 active servicemen, 4,708 veterans and in 512 other cases."

According to Mr. Gingher the Franklin County Red Cross Chapter hopes to have its Civilian Blood Bank in operation sometime during the coming summer.

An active College Unit has been established on the campus of Ohio State University to help care for the needs of the some 15,000 veterans enrolled at the University.

Activities of all other services of the Red Cross here have greatly increased during the past year. Home Nursing, Nutrition and the Safety Services, Junior Red Cross and Volunteer Services have all met the increased community needs.

Nationally the Red Cross cites $11,000,000 disaster relief expenses for the past year—a record in Red Cross history. Disaster relief was provided in 46 states, the District of Columbia and Alaska during 1947—with a total of 312 disasters last year.

OPENING SUNDADY AT THE SOUTHLAND

Starring Abbot and Costello in
"WISTFUL WIDOW OF WAGON GAP"

Rotund Lou Costello and his chagrined sidekick, Bud Abbott, one of the world's foremost comedy teams, are the stars of the hilarious new Western comedy, "The Wistful Widow of Wagon Gap", opening Sunday at the Southland Theatre for a three-day engagement.

A period Western, set in the wildand woolly town of Wagon Gap, Montana, the picture is a virtual laugh-riot with Costello cast as the "goat", when an old Montana law requiring the person responsible for a man's death to support his widow, forces him to assume the responsibilities for gravel-voiced Marjorie Main and her rambunctious brood. Miss Main was last seen as "Ma Kettle" in "The Egg and I."

A wholesome, mirthful movie the entire family will thoroughly enjoy, "The Wistful Widow of Wagon Gap" will be shown on a double program with "Twilight on the Rio Grande," a new Gene Autry Western.

SEEN AND HEARD ON THE SOUTH SIDE

Last week in the paper drive for the South High Boosters Club, it was a pleasure to see business men and boys collecting paper, furnishing their own trucks and giving of their time for the community. Bill Hoermle, Ralph DeVany and others appeared Monday after the collection with sore backs and stiff muscles.

Slim Clevenger and Bill DeVany are members of a group who meet each noon at Walters' Grill for gabfests. There is quite a bit of arguing about who caught the biggest fish but it is always the one that got away.

Clarence Mooney and his wife are just recovering from the flu. Mooney, you know, operates Mooney's Service at Mithoff and Jaeger Sts. We rather think that Mooney is trying to find an excuse why he can't go to Florida, fishing.

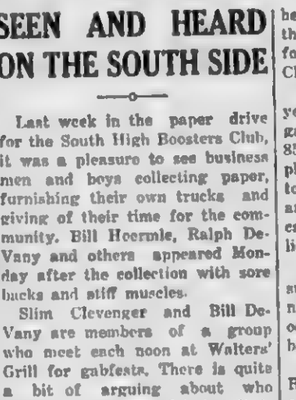
Dr. O. J. Fillinger, over Thurman and Jaeger way is recovering from neuritis and expects to be back doing dental work about February 1. Dr., you know, is in City Council looking after South Side interests.

Cap Hoover and Bill Wacker are the two most eligible South Side single men, ladies. They're modest, eligible and can be hooked You South Side gals are overlooking a bet.

Oh Miller, of the South Side Eagles, whose Pin Ball Maniacs play for the Eagles Square Dance, was about the busiest man in the South Side in December. It was he who engineered and seen that the 15 baskets were well stocked for the South Side poor for Christmas.

Early Hayes is planning this year, to increase his onion and garlic production at his home at 85 E. Gates St. and his business place at Lafayette, Ohio. He plans to raise his crop seven decks high, and has already reserved 50 box cars to carry his onions and garlic crop to market.

Dave Westenhaver, up at Kosuth and S. High St., claims the nine spot championship for pinochle for getting the bus stop back at Kosuth and High St.



Walt Tompkins, the South Side Booster advertising manager, came into the office the other morning to find his collecton of calendars turned to the wall. The calendars represented some good-looking babes with a lack of clothes. Whoever did it wanted Walt to keep his mind on his work.

Pat Cleary, at Goodrich Store, Parsons and Marion Road, is telling how his 5-months-old youngster says "daddy." Kinda stretching it aren't you Pat.

Jimmie Leonard started to take pictures the other day at the South Side Eagles and his camera broke. We have heard considerable kidding about this in the past. But we never expected to see it happen.

Walter Snider, prominent South Side attorney, on Tuesday noon, always pays a fine for being late to the South East Lion's Club. We suggest that the money be kept separate and the Lion's can build a new club house. Snider, you know, is one of two City Councilmen from the good old South Side.

Rosary Edges St. Mary's In A 36–23 Victory

By Don Morbitzer

The Rosary basketball team dropped in four quick points in the closing seconds of the game to defeat their old rivals St. Mary's by a 36-32 count.

The first quarter was a fast, breath-taking period, but the scoring was low as the teams tied it up at 11 all. "Fifi" Peden put in the first nine points for St. Mary's but only five of them officially counted. These four points could have lead into a possible overtime.

The second quarter was an exhibition of beautiful shots by both teams. The ball moved up and down the floor with unbelievable rapidity. No soon would a team score points, than the ball would already be in play under under the opposing bucket. This quarter ended with St. Mary's turning in the better showing and retiring at the half with a 20 to 17 lead.

The third period was even faster than the preceding two, with the fans seeing desperation shots from all parts of the floor. What made the game so exciting was the fact that these shots were made. Every kind of shot imaginable was tossed in the net during this quarter with St. Mary's still clinging to a three-point lead, this time 30 to 27.

This last and fourth quarter was the dividing period in the game, as it usually is between two well-matched teams.

Both teams switched into a combination man-to-man zone defense as Rosary held St. Mary's to two points: while Rosary pushed in nine, to turn the tables, in their favor. The game was tied up at 32-32 up until 42 seconds of the game remained. Then Rosary put in four quick points and froze the ball, making the score 36-32 and that's how the game ended.

The fans were packed into the K. of C. gym to full capacity, and saw an excellent exhibition of skill by two well-coached teams. Fifi Peden of St. Mary's and Scanlon, of Rosary, were high point getters with ten and eleven, respectfully.

Reserves

Rosary and St. Mary's had a great battle of skill at the K. of C. with Rosary coming out the victor 25-20. Bob Gresienbrach received scoring honors with 11 points In the eight games he has played, he has a total of 75 points, better than nine points a game. Hubert, of Rosary, fell short of sharing the honors, by one point. He hit for ten points.

Economic Highlights

The verbal torrent stirred up by the question of the best way to rehabilitate Europe is reaching the flood stage. Every conceivable point of view is being presented. One of the most interesting discussions, whether one agrees with the conclusions reached or not, is by Henry Hazlitt, the well-known economist. It is found in a book called, "Will Dollars Save the World?" which D. Appleton-Century Co., Inc., has published.

Mr. Hazlitt states a series of premises, and reasons from there. First, he says, the present economic policies of European governments are the main obstacle to European recovery. He cites a list of "stupid controls" which have disorganized and prevented production, consisting chiefly of artificial restrictions on the movement of goods.

Second, he believes that the virtual destruction of free markets in Europe has much to do with the dollar shortage. In this connection, he writes: "We might find, indeed, that the restoration of free markets in exchange, especially if combined with the restoration of free markets in commodities, would make virtually the whole Marshall Plan unnecessary."

Third, he observes that we simply have not the resources to feed the world. We produce only 12 per cent of the total food supply. Europe must restore her own production.

Next, he argues that aid from the United States will be futile unless each recipient country discontinues restrictive policies. As examples of needed reforms, he advocates balanced budgets, the elimination of exchange control and price control, the removal of excessive barriers to foreign trade, and the reduction of big military establishments.

On top of that, writes Mr. Hazlitt, we cannot recommend sound tion. We must permit Germany offer more incentives for producmust free and strengthen the capitalist system at home, and policies to others unless we adopt them ourselves. He is convinced that we must sharply cut our cost of government, reduce taxes and tariffs, and get rid of "totalitarian controls" which still exist in our own domestic economy.

Mr. Hazlitt feels that our abnormal exports of goods abroad "has already caused a dangerous domestic price rise, and cannot be maintained at the present unparalleled rate." He mentions food as the principal example, and argues that the price increases which have occurred in recent months were very largely the result of our expanding food exports. Finally, Mr. Hazlitt presents a positive program which he believes is needed if Europe is to be saved economically and the spread of communism is to be checked. That program, in part, involves the following points: We and Japan to restore their own economies. We should return to a real instead of a technical gold basis for our money, and invite all nations to cooperate in establishing a world gold standard. We should again open our private financial markets to foreign loans. We should frankly accept the challenge of communism, and defend capitalism without apology. And, to quite him directly, "We should expose the fallacies of European statism and socialism by our own contrary example. Do not attempt to impose free enterprise on Europe either by coercion or by bribes—and also show the folly of a bankrupt Europe's trying to preach socialism to us."

This summary only touches the surface of a book that is unusually interesting. It may be one of the best signs of the time that so many informed men, of various points of view, are studying the world problem more intensively than ever in search of a solution. Out of the mass of argument and evidence, much of it conflicting, the kernel of truth may finally emerge.

In the meantime, as Secretary Marshall has intimated, the world must go on whether or not Soviet Russia continues to attempt to oppose the plans we and the other Western powers offer. It is an unhappy truth that the world is again breaking into two blocks —one dominated by Russia, the other led by the United States. This kind of cleavage has lived to war in the past. At the same time, in the view of many, it need not lead to war again. If the Western nations can successfully organize sound economics, if they really can get back into production, if they can unscramble the mess that has resulted from controlled, artificially-pegged currencies, and if they can avoid the economic depression the Communist high command seems to be hoping for, it is difficult to see how the Soviet Union could either remain aloof from such a united front or how it could successfully oppose it. That, at least, is the hope of the American and British experts, no matter how wide their divergence of opinion as to the exact means of achieving the desired result.

The Guilds are also exceedingly grateful to Mr. Leo Hall, well-known music teacher and director in Columbus, who with Mrs. J. W. Browning, violinist, and Miss Marie Wright, pianist, furnished the dinner music, which was followed with a well arranged entertainment program, including the following:

The following voice students of Sister Mary Alberta of Holy Family School: Gloria More, Betty Bartoe, Rita Bartoe, Shirley Bartoe, Rita Strapp, Wanda Frank, Margie Schoppelroi, Jeanine Kuhn, Mary Thompson, Mary Ellen Tohey, Joan Schwartz. They were accompanied on the piano by Miss Margaret Dundon.

Two Vetoes For 1948

I see our White House piano player, star pupil of the Pendergast Conservatory, is advertising for a second fiddler to join his Screw Deal "Ensamble" to preside over the Senate in 1948. Must be a New Yorker and be able to play "Happy Days Are Here Agayne."

Well, how about Congressman "Pinky" Marcantonio, who represents Uncle Joe Stalin and the bloody 18th District of New York City? What a combination! And just think what RED hot campaign music Veto High Tax Harry and Vito Marcantonio could make.

Goal For Philharmonic Is $125,000.00

A goal of $125,000 for the 1948 Columbus Philharmonic Orchestra maintenance campaign was announced today by Lloyd A. Pixley, president of the orchestra association.

Emphasizing that this is the regular drive conducted at this time each year, Mr. Pixley stated that the major part of the solicitation will occur from February 3 to 10.

Women workers are now organizing to conduct the residential solicitation, and teams of businessmen will make the calls in the downtown district. The campaign organization will be announced in a few days.

While success of the campaign still will depend on many large individual and corporation gifts, emphasis in the coming drive will be on large numbers of small gifts. To help toward that end, the association has approved a plan by which any contributor of two dollars or more will receive a membership in the association

Success of the drive at this time will defray orchestra expenses, above income, to March 31, 1949, making unnecessary extra solicitations such as last year's emergency campaign, Pixley said.

Of the $125,000 asked, $50,000 is for accumulated deficits of earlier years and the remainder for operations during the 12 months starting April 1

Where previous campaigns have been directed primarily to music-lovers and concert-goers, the drive this year will be addressed to citizens generally, and the stress will be placed on the role of the orchestra as a civic asset benefiting all Columbus and Franklin County residents, the orchestra president said.

"Musical achievements of the Philharmonic under the inspired direction of Izler Solomon are recognized by many of our citizens, but the orchestra's other contributions to our civic life are not so well known," Mr. Pixley said

"The Philharmonic's youth activities, through "pops" concerts and high school and young people's programs, are a tremendous factor in combating juvenile delinquency."

"Business interests of the community benefit from the large numbers of people who come from other cities for concerts, for the large sums of money kept in our community because the Philharmonic now makes it unnecessary to import symphonies from other cities, and for the far-flung favorable publicity for Columbus resulting from the Philharmonic's broadcasts

"We believe that as the Last [illegible] becomes more generally known, the people of this city and county will contribute in greater numbers and more liberally to the orchestra maintenance fund."

Orchestra association officers participating with Mr. Pixley in arrangements for the campaign include: E. M. Thary, [illegible] Mrs. George M. [illegible] rotary; Hermann M. [illegible] ciate; and these additional members of the executive committee: Mrs. Richard S. Wolfe, Mrs. Harold G. Edwards, Miss Betty J. Willson, Richard A. Borel and Don E. Weaver.

Deegan, Mrs. Richard Niehoff, Charles Lazarus, Mrs. Harry Kaplan, Mrs. J. W. Overstreet, Roy B. Weed, Dr. [illegible] Burkhart, Herbert Huffman, [illegible] Johns, Clarence B. Layne, Mrs. Louis J. Mooney Contemplates Florida Trip At Last

Clarence Mooney, who operates the Mooney Service Station at Thurman and Jaeger, has been "mooning" around these cold days looking for an excuse to leave the job and go bask in a little Florida sunshine.

However, he has been so busy there just didn't seem to be any chance for him to get away.

"Lady Luck" or should we say "Lady Bad Luck" stepped in to help Clarence. While testing Dr. Romosers' car the other day, Clarence became a little careless and caught his left hand in the fan belt of the car, severly injuring three fingers.

Clarence fainted and Dr. Romoser immediately went to work on him. We're glad to say Clarence was not seriously injured, but the injury is painful and will prevent him from using his hand for awhile. Now Clarence has his excuse for that Florida trip. I wonder if he'll take Dr. Romoser along, just in case.

We have had many children in our room who had duties for the term. William Gillotte and William Hamler were mailmen. Frank Mitchell, Charles Juliano and Ben Langbein put up the seats. Louise Newell and Diana Giles erased the blackboard. Joan Spencer was our paper girl.

The Unpallable Truth

The people of the United States have reached a point where they must face facts. We have been taught to look upon our country as a land of inexhaustible resources. We have lived in sort of a dream world created by our own wishful thinking. We have been told by so-called economists that wages could be raised almost indefinitely without an increase in the cost of living. We have been told that we could go in debt almost indefinitely, on the theory that when government borrowed from the people it was not really a debt because the people merely owed the money to themselves.

Now we face the Frankenstein we have built. We have found that more wages for less production per man raises prices enormously. We have found that when we loaned money to ourselves in the form of government bonds, interest on that money has to be collected in taxes and paid to ourselves; this in turn adds greatly to the cost of living.

General Eisenhower has just told us in plain language that with the present condition of the world it is possible we will be in another war within 12 months.

There is only one way the people of the United States can save themselves. As workers we must learn that an increased income can only be made permanent through increased production per hour; we must learn that only by work and saving and economy can we maintain a solvent government. To save the money we have "loaned" to ourselves. It makes no difference whether we allow extravagance in government or extravagance in our families—either will destroy our savings and capital. We must all learn that in a world economy largely devoted to a race for military supremacy and to the quickest and most efficient means of destroying the human race, we [illegible] for prosperity. [illegible] warning. We have seen the inevitable results of policies we have pursued. Are we intelligent enough to [illegible]

St. Stephen's News

Last Tuesday night at St. Stephen's Community House, the Junior Police were exhibiting very exceptional behavior. Why? Because they knew that their officer in charge, Mr. Stephen McDonald would select from these boys a corporal. Congratulations Corporal Hubert Johnson, we all know you deserve such a position. Mentioning the Junior Police, Mr. McDonald also wishes to announce that a movie, sponsored by the Junior Police, will be shown here on January 27th at 7:30 p. m. The movie is entitled, "A Criminal Is Born." We urge all parents to attend.

This week the sewing class started on their guest towels. These girls will not only hand-stitch, but embroider these colorful decorative pieces. On Thursday of last week, a music appreciation class also got under way. The boys and girls will take piano lessons and learn to appreciate the classic as well as popular music.

Now for all our basketball fans, we have very good news! St. Stephen's has two teams entered in the Godman Guild League. St. Stephen's team, in a second game, brought glory to the blue and gold with a victory over Wade Confectionery, with a score of 38 to 21. Paul Guth reigned as high point man with 6 buckets and 3 fouls, a total of 15 points, to add to his accumulative.

On January 15 at 8:15 our other team, in a first game, representing St. Stephen's, went to bat at Godman Guild to make a victory over the Silver Dollar team, 40 to 35. Ed Williams was high point man with 19 points to his credit. Members of the team are: Bill Pearson, forward; W. Crowder, forward; E. Williams, center; T. Carroll, guard; J. Williams, guard; T. Hess, center; L. Lucas, forward; Bob Pearson, forward; The uniforms for these boys are red and white. Good luck boys!

Down The Scale

Excess poundage is no light matter, says the Columbus Milk Council. Life tables from insurance companies show that excessive waistlines and short lifelines go together. The first thing to do is to admit that it is largely a matter of diet.

There are no shortcuts, no salts, laxatives or drugs involved. See your doctor and do what he tells you. And just as important, learn something about the foods you eat.

Generally speaking, energy and protective foods make up our diet. If you plan to reduce yourself, reduce the sweets, pastries and fried foods first. Then include more protective foods: milk, vegetables, fruits, and eggs. Contrary to popular opinion, milk is not famed for its fat content, but rather for its large supply of health protective nutrients. The melting pounds via the milk route does not leave you haggard, tired or ill.

Your future is in your own hands, it will take figuring, but this is all about figures anyway. Won't it be music to your ears when your friends say "My, how well you look, haven't you lost some weight?"

Joan Casserly Weds Donald Webster

Lighted candles and white gladioli were placed upon the altar of the newly decorated St Francis of Assisi Church on Saturday, Nov. 15, when Miss Joan Casserly became the bride of Donald Lewis Webster. The double ring ceremony was performed at a nuptial high mass with the Rev. Father Connolly officiating. The bride is the daughter of Mr. and Mrs. Joseph Casserly, 360 W. Second Ave., and the bridegroom is the son of Mr. and Mrs. Donald P. Webster, 808 Reinhard Ave.

Given in marriage by her brother, the bride wore a gown of white duchess satin, the yoke being of net with seed pearls outlining leaves of satin. The full skirt fell softly into a cathedral train. Her finger-tip veil was held in place by a queen tiara of seeded pearl and she carried a cascade bouquet of large white chrysanthemums centered with an orchid.

Miss Mary Casserly was the maid of honor for her sister and wore an orchid taffeta gown with matching hat and gloves. The bridesmaids, Mrs. Florence Dotter and Mrs. Maxine Casserly, wore identical gowns of nile green and pale yellow with large hats and gloves. They carried colonial bouquets of roses and pom-pons.

News In The World Of Religion

By W. W. Reid

"The existance of the church as a strong, independent community, claiming its own allegiance and throwing its weight behind the defense of certain basic rights, is one of the last few remaining buttresses of freedom in the desperate struggle for free society in the world today," says Miss Barbara Ward, of London, England, well-known economist and writer, on a visit to the United States.

"There is no longer any defense in this world against war, or modern weapons of war, save by a fund of good will," says the Rev. A. Stanley Leyland, of London, England, recently visiting in the United States. "Anything and everything we can do, therefore, to increase the spirit of goodwill and to bridge the gap between Christians elsewhere and ourselves is a premium against cataclysmic conflict."

The Protestant Episcopal Theological Seminary at Alexandria, Virginia, which was founded a century and a quarter ago, believes it has something of a record. It has trained, seventy-eight have been elected bishops, and thirty-five of the several thousand ministers. Eight of these are active in the life of the Church today. Eight hundred twenty-six of its alumni are now serving in the active ministry.

There are "new sins" in the world today, and the job of the church is to "lift the sights" of the people to see the implications of these sins, says Dr. Ralph W. Sockman, pastor of Christ Methodist Church, New York, and noted radio preacher. "The Ten Commandments and the Sermon on the Mount are as true today as ever before, but they must be seen in the light of present day problems. Too many persons are smug in their sins because the subtlety of their temptations has outrun the sensitivity of their consciences. . . . We are listening too much to the so-called practical wisdom of the world which would put so many spheres of life beyond the application of Christ's principles. When we say that business or statecraft are beyond the bounds of Christ, we make him a prisoner rather than Lord." Dr. Sockman included in "new sins" race discrimination, the danger of the police state, and warfare.

Eleven thousand Methodist Youth, most of them high school students, and from every state in the Union, gave up their recent Christmas-New Year holidays to participate in a Methodist Youth Conference" in Cleveland, Ohio. Under the slogan, "Christ Above All," they considered the religious, social, and economic problems of the day throughout the world, and faced the question, "What am I going to do about it?" Many of them pledged themselves for future service as missionaries, pastors, Sunday school teachers, and active laymen. Among those who addressed them and appealed for their loyalty to Christ were: Secretary Ralph E. Diffendorfer of the Board of Missions, Dr. Richard C. Raines of Minneapolis, Dr. E. Stanley Jones of India, Dr. Paul Quillian of Houston, Texas, Dr. Harold C. Case of Pasadena, California, Dr. G. Baes-Camargo of Mexico City, Bishop J. Ralph Magee of Chicago, Dr. Paul B. Kern of Nashville, and the Rev. Hoover Rupert of Nashville.

"The worth of a person's character is determined by the amount of intelligent, right choices which have gone into that character," Dr. E. Stanley Jones, noted world evangelist and missionary recently told a youth audience in Cleveland, Ohio. "Most people don't choose; they don't act; they only react on public opinion. They are but echoes, not persons, but things. 'Everybody does it' settles it." Dr. Jones said that the four great choices each must make are: choice of life work, choice of life mate, choice of life habits, choice of life faith or philosophy.

Colleges in America are not the only ones that have long waiting lists, crowded classes, and disappointed applicants. The recent entrance class of West China Union University, Chengtu Szechuan Province, has to be limited to 350, but more than 1000 graduates of high and middle schools appeared for the admittance examinations, reports the Rev. F. Olen Stockwell of that City. However, the majority of those who did not make the highest grades will find no other college doors open. The same is true, Mr. Stockwell says, of the crowds seeking admission to the secondary schools. "And this in a land where a few score years ago foreigners were hated and western education scorned!" he adds.

Moose Women To Hold Dinner

Mrs. Alexander

A pot-luck dinner and special entertainment are being planned by the Academy of Friendship of the Women of the Moose, for 6 p. m. tonight at the Moose hall, 36 Sycamore-st. Mrs. T. B. Alexander, 1206 E. Whittier-st., is in charge of arrangements.

Miss Katherine Smith, grand chancellor, of Mooseheart, Ill., and Mrs. Mary Wallace, grand chancellor of the Academy of Friendship, of Cincinnati, O., will be guests of honor at the affair.

Principal speaker will be Mrs. Mae Teaford, College of Regents member of Greenville, O. She will speak on "What Friendship Means to Me." A program of music is planned under the direction of Mrs. Anne Regner, member of the Pilgrim Honor Degree, and Mrs. Verna Peterson, chairman of entertainment.

Do You Want To Adopt A Baby?

If you are interested in adopting, or if you have an adopted child, the CHOSEN PARENTS LEAGUE would like you to attend their meeting on Tuesday evening, January 27th, at the Southern Hotel, at 8 P. M. There will be no charge.

Guest speaker of the evening will be Mr. Bernard Higley, well-known Child Psychologist, and inventor of the Reactograph.

The Chosen Parents League was formed by a group of men and women, either with adopted children, or interested in adoption and Child Welfare. Since the most important function of parents is to provide emotional security based on a foundation of family love, the League's aims are to deepen the understanding in child-parent relationship, and to increase the interest in Child Welfare.

In quite a few places in Ohio there are groups of adoptive parents who are striving to give the benefit of their experiences, their successes and sometimes their failures, to others. Every community needs more homes where happy family life promises wiser citizens for tomorrow.

Old Timers Baseball Dinner Slated Feb. 4

Columbus' Nick Cullop, manager of the Milwaukee Brewers, Junior World Series champions, will be the honored guest at the annual Old Timers Baseball Association banquet Feb. 4 at the Hotel Chittenden, it was announced last night by President Bob Kline of the local diamond organization.

Cullop was recently named the No. 1 Minor League Manager of 1947 by The Sporting News. He was the recipient of the same honor in 1943, when he led the Columbus Red Birds to the J. W. S. title.

Kline, in making the announcement, stated that Hal Newhouser has accepted an invitation to be one of the principal speakers for the occasion. The great Detroit Tiger southpaw pitcher is a talented after-dinner speaker.

Many out-of-Columbus baseball luminaries will be in attendance. Invitations have been extended to J. G. Taylor Spink, publisher of The Sporting News; Louis R. Perini, president; John J. Quinn, general manager; Billy Southworth, manager; Harry Jenkins, farm club director, of the Boston Braves organization, and President Jake Flowers of the Milwaukee club, which serves as the No. 1 farm unit of the National League club.

Manager Hal Anderson, of the Columbus Red Birds, has informed President Kline that he will be on hand for the occasion and before the current week has run its course many other baseball notables will be making known their intentions of being present for the gala affair, annually the high spot of The Hot Stove League season.

As an added attraction the old timers have obtained the 1947 World Series film for the occasion, it marking the first public showing of the baseball picture in Columbus.

Out-of-Columbus reservations are expected to swell the attendance to its limited 300. Such baseball centers in Ohio as Marion, Newark, Springfield, Zanesville and Portsmouth will be represented, according to Kline.

Tickets ($3, including tax) are on sale at the Old Timers club rooms and Ratner's. Also at Devaney's Cleaners, corner Parsons and Gates.

South High Alumni To Hold Valentine Dance

The Annual Valentine Dance of the South High Alumni will be held February 6 in the Hall of Mirrors in the Deshler Hotel. This year's dance promises to be a gala affair and a large crowd is expected.

The enrollment of the Alumni association has been growing rapidly and within the next few years we expect to have an enrollment of 10,000 or more. All graduates of South High School are invited to the dance even though they are not a member of the Alumni Association at the present time. The names of many graduates were lost during the war when the records containing their names were lost by the former secretary as she was traveling from army camp to army camp with her husband.

Any graduate that has not been contracted by the school or representative of their class could aid the Alumni Association by calling Miss Gertrude Kramer, 1040 S. Roosevelt, phone number EV-2656 and give her your name and address and also the names and addresses of graduating friends.

Os Miller, of the South Side Eagles, whose Pin Ball Maniacs play for the Eagles Square Dance, was about the busiest man in the South Side in December. It was he engineered and saw that the 15 baskets were well stocked for the South Side poor for Christmas.

We are sorry, the article should have read 75 baskets.

Colliers Publishes Eagles Article

Crowell Publishing Co. recently published an article for the 50th anniversary of the Order of Eagles, in their Collier's Magazine.

We are publishing their letter to the South Side Eagles which is quite interesting and the general public should read.

January 7, 1948

Mr. C. M. Brixner, W. P.
Aerie No. 2244, F. O. E.
824 Heyl Avenue
Columbus 6, Ohio

Dear Mr. Brixner:

February 6th is the date which marks the beginning of the 50th Anniversary celebrations to commemorate the founding of the Fraternal Order of Eagles and, although it is still a little way off, I wish to congratulate you and the Aerie over which you preside.

Recently I had the pleasure of reading in an advance proof of Collier's for January 17th an article about the good work in which you and your fellow Eagles are engaged. One of the points which struck most forcefully was the modesty with which you gentlemen go about your kindly, constructive, self-appointed duties. It was that, more than anything else, which made me wish to salute you upon this occasion

If it were possible, I would very much like to extend my congratulations personnally to every active member of the Eagles; but, since you fellows seem to be as great in number as you are in modesty, I cannot choose but to send my best wishes to all of your Aerie through you, their president.

Sincerely yours,
Crowell Publishing Co.,
Thomas H. Beck

Marlene Deitrich Coming To Southland

"The Spoilers" and "Diamond Jim" will head the dual bill scheduled to open Sunday at the Southland Theatre for a two-day engagement. John Wayne, Randolph Scott and Marlene Dietrich star in "The Spoilers," with Edward Arnold, Jean Arthur and Caesar Romero head the stellar cast of "Diamond Jim."

"The Spoilers" is a saga of the Klondike and the fabulous Midas gold mine. Directed by John Ford, the film is based on Rex Beach's best-selling novel. The fast-moving adventure story features such notables as Harry Carey, Samuel S. Hinds, Margaret Lindsay and Richard Barthelmess.

"Diamond Jim" tells the colorful life story of James Buchanan Brady, the sensational Diamond Jim of the "gay nineties", and the famous girls with the "hour glass" figures of that era, including such publicized characters as Lillian Russell, whom Brady offered a million dollars to marry him. Edward Arnold is seen in the title role, Jean Arthurs appears in the dual role of Jane Matthews and Emma, and glamorous Binnie Barnes enacts the role of Lillian Russell.

The Ohio State Persian Club will hold its 27th annual championship Cat Show and Exhibition at the Southern Hotel, Saturday and Sunday, January 24 and 25, it is being announced by William C. Bryant, president of the club. The show will be staged for the benefit of the Humane Society of Columbus and Franklin County.

The largest premium list in the history of the local club, and one of the largest in the country, has been posted for the coming cat show. It includes 145 cash prizes in addition to loving cups, medals, satin-streamered rosettes and ribbons and other trophies. Top cash prizes are $25 for best cat in the show and $20 for best cat in show of opposite sex. Blue bloods of the cat world from 15 states, local cat thoroughbreds have been from many cities in Ohio as well as entered in the show. Approximately 200 cats and kittens are expected to be on hand when the show opens for its two day run. The number will include a great variety of colors, breeds and ages, with both pedigreed royalty and plain household pets and alley cats. Mrs. Dorothy Diebel Keller of Toledo, widely know cat breeder and exhibitor, will be the judge of the show. The show is sanctioned by The Cat Fanciers' Association of America, of which the Ohio State Persian Club is a member and C. F. A. rules will be followed.

In announcing the proceeds of the show will be donated to The Humane Society. Mr. Bryant praised the educational and animal-care program of The Humane Society. He goes there to exploit it, but falls in love with Jane Wyman, a local girl who discovers his motive.

The story about Grandview gets out. A boom begins but this artificial stimulation changes the people's opinions, and the inflation collapses. Sing A Song With Vaughn

A "Sing A Song with Vaughn" contest, in which local talent will be discovered, is to be sponsored by Station WBNS in connection with the personal appearance of Vaughn Monroe and his orchestra at the RKO Palace Theatre Feb. 2-4. Monroe and his band are familiar to central Ohio listeners, being heard each Saturday at 9:30 p. m. over WBNS.

Anyone, 18 years of age or over, regardless of experience, may enter the "Sing A Song With Vaughn" contest. The rules are simple: applications stating name, address, telephone number, background and experience, should be mailed directly to Station WBNS.

Auditions, under the direction of members of the station's program department, will be held Sunday, Jan. 25 at 1 and 3 p. m. and on Monday, Jan. 26 at 3 and 7 p. m. at the Neil House. Contestants will be notified by WBNS of a definite time to appear for their try-outs.

These auditions are for the semi-finalists, who in turn will be selected by a board of judges. Four contestants, two boys and two girls, will be selected to sing on the first two nights of Monroe's appearance at the RKO Palace. From these, a boy and a girl will be chosen to sing on the final night, Wednesday, February 4.

The winner will be awarded $100 in cash, plus a two-week engagement at the Town and Country Room at the Neil House. Twenty-five dollars will be received by the runner-up, with the autographed albums of Vaughn Monroe records being given to all eight semi-finalist contestants.

Uncle Remus Comes To Life

James Baskett as Uncle Remus, relates the exciting adventures of Brer Rabbit, Brer Fox and Brer Bear for the pleasure of lucky young Bobby Driscoll in Walt Disney's wonderful musical drama "Song of the South," currently playing at the Southland Theatre.

Produced in beautiful Technicolor, this Disney full-length feature attraction is a happy combination of live-action and cartoon animation, plus outstanding hit songs. Co-featured with "Song of the South" is an action packed western adventure, "Over the Santa Fe Trail", starring cowboy Charles Starrett.

SUNDAY AND MONDAY AT THE IDEAL

Champion Theater, Friday and Saturday

This Friday and Saturday we bring you the picture that all you kids from six to sixty have been waiting for. . . WISTFUL WIDOW OF WAGON GAP.

As all of you know, this is Abbott and Costello romping merrily through a medley of bizarre incidents with the valued assistance of the mighty Marjorie Main.

Arriving in a town called Wagon Gap, in the wild West, Abbott and Costello are warned they will need six-shooters. Immediately Costello is unjustly accused of a murder and a group of men are about to hang him. But he is saved and taken to jail. At about this same time an old Montana law is discovered which makes the killer responsible for the debts and dependents of his victim.

Marjorie Main in the role of the widow has six children. Then the fun begins. . . . because she falls in love with Costello and he continually tries to avoid her.

Eventually everything is cleared up and Abbott and Costello continue on their way to California, but while you are watching the picture we'll vow you won't be able to stop laughing. So hold on to your seats.

Companion attraction is Gene Stratton Porter's beloved KEEPER OF THE BEES, starring Harry Davenport and Michael Duane. A decade ago, this delightful story was written, and now the screen has adapted it. This semi-classic is the story of a kindly old beekeeper who befriends a vagabond painter, who in turn, befriends a young girl from the nearby orphanage and through her finds his true love—a teacher at the orphanage. It is a quiet story, relative simple, one that will do for the family and one that many people who remember the Porter books with affection want to see.

CHAMPION THEATER SUNDAY, MONDAY

"BRUTE FORCE" will be the feature attraction at the Champion Theatre next Sunday and Monday. Starring Burt Lancaster and Hume Cronyn, this dynamic, powerful film is another of the late Mark Hellinger's fine offerings.

The scene is a penitentiary; the stars, including Charles Bickford and Same Levene, are convicts. The story has to do with the inmates and what makes them tick; an administrative policy of brute force which collides with man's insatiable thirst for freedom; violence and its suppression; bloodshed and its penalties; hate and suffering.

Cronyn plays, effectively, the somewhat psychopathic prison officer, plotting to unseat the warden. Lancaster grimly portrays the leader of the convicts, who desperate for escape, obey his orders in a brutally melodramatic prison break attempt. We consider this an excellent picture, and although grim, it offers all the attributes of life in the raw; the feelings and longings for freedom that make up the convict.

Second feature will be SLAVE GIRL starring Yvonne De Carlo and George Brent. SLAVE GIRL is an elaborately produced and expensively filmed burlesque of high adventure. We term it a comedy adventure and we believe you'll like it. It glows in gorgeous Technicolor, which emphasizes the elaborate costumes worn in the 1800's. Besides the featured stars, Broderick Crawford, Albert Dekker, Andy Devine, Arthur Treacher, and believe it or not a Talking Camel (with a Brooklynese Accent) are added, together with a hint of romance. As an adventure picture it is never quite believable, as a comedy it never quite gets out of the slapstick stage, but as a combination of both, it will bring forth chuckles from all audiences.

Walter's Grill Announces New Organist

Gaylord Bell, owner of Walter's Grill, Parsons and Thurman Aves., announces that he has now acquired the services of Ruth Linn, well-known Columbus organist.

She is a very accomplished organist and in the past ten years has had featured spots in Washington D. C., Charleston, W. Va., and throughout the Carolinas. She is now back in Columbus to stay and Mr. Bell feels that he is very fortunate in having her featured at his grill.

Drop in any evening and she will play any and all your requests. Ruth's repetoire of songs new and old is second to none.

South Hi Alumni To Hold Dance

The South High School Alumni Association are sponsoring a Valentine dance on Friday, February 6, in the Hall of Mirrors at the Deshler Wallick Hotel.

Mac Toolil will furnish the music for dancing from 9:30 to 12:30. The oldest male and female graduate attending will be honored.

This is the first down-town dance since the war for the South High Alumni Association and the committee wish it to be a huge success. If you are interested in joining get in touch with Gertrude Kramer, 1040 S. Roosevelt Avenue—EV-2656.

Southsiders Appear In 'Student Prince'

Since its initial New York production in 1924, The Student Prince has almost never been absent from the boards of a theater somewhere. Night after night, theaters echo to the rousing marches and drinking songs, sweethearts sigh over the love of the Prince and and his beloved Kathie, and the audience forgets itself in the nostalgic romance of old Heidelberg.

Perhaps it is the sunny depiction of young love that makes The Student Prince so popular, or perhaps it is the bittersweet evocation of student days in an untrohbled world. Certainly one of the greatest reasons for its continuing hit of Romberg music. The showmanship that characterized such scores as Blossom Time, The New Moon, Maytime and The Desert Song, reached its infectious peak in The Student Prince.

In this operetta, Romberg poured a wealth of melodic imagination and the memories of his days in Vienna as an inspiring musician.

Residents of the South Side will have an opportunity to enjoy this fine operetta when Theater Productions Inc., of Columbus, bring the play to the Hartman Theater, February 13th, 14th and 15th.

The Jorg Fasting Ballet will present the ballroom scene of the Waltz in E Minor, by Frederic Chopin during Theater Productions Inc., of Columbus, performance of the Sigmund Romberg operetta, "The Student Prince", to be played at the Hartman Theater, February 13th, 14th and 15th.

Prima Ballerina is Ann Chesaman of Dayton. Premier Danseur is Gilbert Ervin, with Lois Kahrman, both of Columbus. The Corps de Ballet includes: Richard Kimble, James Renz, Carl Lou Woodyard, Mary Frances Dickson, Helen Blair, Patti Jo Henderson, all of Columbus, and Ann Turner of Urbana.

Tickets can now be obtained at the box office, Heaton's Music Store.

Theater Productions Inc., of Columbus, presentation of Sigmund Romberg's "The Student Prince" will include two prominent South Siders in the cast when the operetta plays at the Hartman Theater, February 13th, 14th and 15th.

James Hagerty, 319 Hanford St., will appear in the role of Von Asterberg, while Leonard A. Berkeson will play the part of Lucas.

Tickets for the show are now on sale at the box office, Heaton's Music Store.

Jack Karch Victim Of Infantile Paralysis

Jack Karch, 272 Southwood Ave., at the beginning of his busy sophomore year in high school, came to grips with a stubborn, puzzling enemy that struck him down without warning and sent him off to a long sojourn in Children's Hospital.

Polio won the first round, and maybe the second, with this plucky 17-year-old—but it didn't defeat him by any means. Sitting in a special wheel chair in his pleasant hospital room, his face alight with plans, Jack declared firmly that he meant to be home "for my mother's birthday Jan. 21," and "I hope to play baseball again next summer."

Even though polio has affected Jack's arms and shoulders, making necessary the overhead slings on his wheel chair that support his arms as he writes and reads, the disease has met a tough antagonist in this teen-ager. His room is full of hopeful signs for the future.

His girl's picture smiles from the top of a radio, with which Jack and his roommate listen to football games and laugh at comedy shows. His mother, who is carrying on her personal war against polio as chairman of the South Side March of Dimes drive, drops in every day.

Jack's teammates on the South High reserve basketball squad, which he captained last year, come frequently to see him and backed up his recovery further by sending their own $50 contribution to the March of Dimes drive. Under the instruction of the high school teacher hired by the Board of Education for the hospital patients, Jack is keeping up with his studies.

Illness has brought new wisdom and a deep appreciation for the fight against disease to Jack Karch.

"You just never realize how much you need other people's help until you get sick yourself," he said, recalling how quickly his own life was affected by infantile paralysis.

"I worked on the farm all week-end, went to school on Monday, got a terrific headache on Tuesday and came to the hospital on Wednesday. For two weeks, I was sick, really sick, and in three weeks I'd lost 20 pounds."

From a light-hearted high school boy who "never noticed much" when infantile paralysis campaigns and other drives were being conducted, Jack has changed to an ardent March of Dimes supporter. "Believe me," he declared stoutly, "I'll never walk by a contribution barrel again."

CORRECTION

There was an error in the Rice's Food Market advertisement in last weeks Booster. The ad read: Pillsbury's All Purpose Flour 25 lb. sack $1.13 and should have read $2.13. This was an error on the part of the Booster and Rice's Food Market was in no way responsible for it.

Werner's Free Throw Provides South Win

[illegible] from South High [illegible] Central's league [illegible] next Wednesday, [illegible] whipped Linden [illegible] 49 while East and [illegible] going to underdogs [illegible] ownership of [illegible].

[illegible] was on hand at [illegible] one of the most [illegible] finishes in recent League history as the Bull- [illegible] the game in the last six [illegible] of play but had to wait [illegible] minutes to make sure that [illegible] was theirs.

Two long trippers by Bob [illegible] in the last minute of [illegible] capped a late Panther upsurge that knotted the tally at [illegible] with 28 seconds to go.

Two Southerners brought [illegible] back down the court, but [illegible] Linden guards broke up the [illegible] passing game and after a [illegible] scramble in the middle of the [illegible] Bill Camp recovered the [illegible] ball and fired in a bunny [illegible] for the Woodmen to make the [illegible] 51-49 south, with six seconds remaining.

[illegible]olen moved down the floor [illegible]y and Eddie Zoog rifled a [illegible]erate shot that missed the [illegible] as the game ended. However, Zoog was fouled in the attempt and was awarded two foul [illegible] that [illegible] decision in [illegible].

[illegible]'s Rose has won the 29-22 [illegible].

[illegible] has played some thrillers [illegible] for this season but we believe that Friday night's game stole the show. The tenseness of everyone was evident, especially Coach Hood. One more like last Friday's game and Pug Hood will [illegible] his application for old age [illegible]pension. Of course, we're only [illegible]diddling, because we're certainly proud of Coach Hood and his aggregation. They've had the pressure put on them all season and they've come through splendidly so far. Let's hope that when the Booster hits the streets Thursday [illegible] that South is in first [illegible] with Central.

Hunting License Sales Down 20 Per Cent

Reports from the Wildlife Section of the Ohio Division of Conservation headquarters in Columbus indicate that the sale of hunting licenses for the 1947 season may tumble as much as 20 per cent over 1946. Final returns will be known [illegible]

Conservation Commissioner H. [illegible] today, "I see no reason for such a drop in hunter license sales since the war economically rich in [illegible] sales. Returning service men and women, denied the popular sport of hunting game since the outbreak of the war, naturally were more [illegible] than normally about getting into the field again in search of small game. Too," he added, "the fact that hunting hours and the length of the seasons were cut drastically this past year to preserve the vital breed stock coupled with poor hunting weather during the pheasant season—all of these factors might reasonably explain a decrease in hunting. Therefore, rather than to consider that hunting took a bad tumble," Rider said, "we can feel that the sale of hunting licenses is simply leveling back to near normal."

In Ohio, the hunting license year now runs from September 1 to August 31 of the following year while fishing licenses run from March 1 to the end of February.

During the 1945-46 season the sale of hunting licenses totalled 679,326; the 1946-1947 season jumped to 735,000 and during the past season sales dropped back to [illegible],000.

Although hunting [illegible] dropped almost 20 [illegible] the sale of fishing licenses is expected to show an increase of about 5 percent over the previous year. In the season of 1945-1946 the fishing license sale reached 725,000; the following year 717,000 and this past year, reports indicate a figure of 750,000 which is said to be an all-time high.

The number of farmers who hunt legally in Ohio on their own land without licenses and the number of people who buy licenses and then don't hunt are not known. However various studies made by the Ohio Wildlife Research Unit at Ohio State University indicates that about two-thirds of the farmer hunters purchase licenses each year.

Health In Food

Many people are poisoned in their own homes every year. They are victims of food poisoning caused by improper preparation and preservation of food, according to food experts of the Columbus Health Department.

Often persons who suffer from an upset stomach or other intestinal disturbances after a meal, blame something for their discomfort, when, in reality, food poisoning is the cause.

Besides minor disturbances, food poisoning can result in serious illness. Five members of a family in Columbus ended the Christmas holiday week end in the hospital. They all had eaten contaminated food. A ham had been [illegible] Christmas dinner, and because the refrigerator was already filled to capacity with holiday food, the ham was left in the kitchen to stand at room temperature from Thursday to Sunday. When members of the family ate the ham on Sunday, they all became violently ill.

There are only two safe ways to preserve food—keep it hot or keep it cold. Hot kills bacteria and cold inhibits its growth. At room temperature bacteria thrive. And bacteria causes food poisoning.

There are 60 various kinds of communicable diseases transmitted from person to person. Of that number, 40 per cent can be transmitted through food.

Milk and meat have been found to be most susceptible to contamination. In fact, milk is used in the laboratories to culture bacteria. Therefore, particular care should be taken to avoid letting milk stand at room temperature.

To prevent food contamination in the home, Dr. Rufus Kennedy, supervisor of food inspection for the Columbus Department of Health, has outlined the following steps:

1. The refrigerator, where the food is kept before serving, should be thoroughly cleaned.

2. All utensils used in the preparation of food should be thoroughly sanitized by placing them in water of 170 degrees for at least two minutes.

3. To keep food cold enough, the temperature in the refrigerator should be under 50 degrees.

4. When pre-cooking or partially cooking part of a meal, the food must be kept either hot or cold until time to serve.

5 Cooked food which is not to be used immediately should be placed in a refrigerator right away.

Economic Highlights

In a recent report from Washington, Senator Ball wrote that there are enough controversial issues in the political air "to make any member of Congress wish he could be in four places at once and find more than 24 hours in the day." The new Congress, convening in a Presidential election year, already has the storm signal flying, and during the coming months no holds will be barred.

Mr. Truman's recommendations, made in his State of the Union message, have small chance of being adopted as proposed. But they did help set the stage for dramatic action by casting some light on the character of the problems with which Congress must deal. The differences over tax policy will be especially bitter. The President's suggestion that all taxpayers be given a $40 a year reduction regardless of income was received with catcalls by the Republicans, and many of the Democrats kept a polite silence and were notably without enthusiasm for it. After the tumult and the shouting dies, the most likely course for Congress to take is to write a bill which will permit a small increase in personal exemptions—about $100 and will also make an across-the board percentage cut—probably one per cent.

No one should suffer under the delusion that there will be really substantial tax reduction. The budget situation precludes that. Senator Ball summed it up succintly, in pointing out that virtually irreducible expenditures—for debt service, the Veterans Administration, and national defense, will total some $25,000,000,000. The cost of other Federal departments will come to about $6,500,000,000. Foreign aid will probably run in the neighborhood of $8,500,000,000. This adds up to $40,000,000,000 as against estimated Federal revenues of $45,000,000,000. So something like $5,000,000,000 will be left over as surplus, and Congressional sentiment seems to lean toward using half or more of it for debt retirement. Thus, the amount remaining which can ge used to offset a tax cut is relatively small.

The parties are split on compulsory military training for instance, both President Truman and Governor Dewey for it, while Senator Taft is against it. It has many advocates in Congress. However, the present outlook is that it will not be approved during the current session. It may be deferred until after the election.

The compulsory Federal health insurance bill asked by the President has been knocking around Congress for some time. It will be debated once more, but it doesn't look as if it has much of a chance. It is more likely that the Taft-sponsored measure to give Federal aid to the states for the relief of indigents will get the nod.

Labor will make a determined effort to secure repeal or major modification of the Taft-Hartley Law. The labor lobby, which is one of the biggest and best financed in the capital, has been organizing its projected attack for many months. But the prophets forecast that the law will stand as written. The Republicans and many of the Democrats as well—are convinced that it is fair and workable, and they will point to it with pride during their election campaigns.

The odds are very long against a veterans' bonus at this time. The World War I vets, it will be remembered, didn't get theirs until the depression was in full swing and one of the freest-spending Congresses in history was in the saddle. But it is likely that a measure to increase the present allowances of veterans going to school under the GI bill will be approved.

Federal aid to education, housing, and other "social" legislation will come in for a share of the talk, but, in all probability, little else—sentiment doesn't seem strong enough to force action. Rent control will be extended. And the farm program, which will expire soon, will be given a new lease on life.

The European aid program will go through pretty much in the form recommended by Secretary Marshall though the amounts may be pared. Some modifications will be written in an attempt to make Europe work harder to help herself. And China will get a handout.

One thing is certain—everything that is done by either party will have political significance. Every ear will be to the ground, and the voters will be wooed seductively. In this connection, the dopesters say that Dewey still has the edge for the Republican nomination, but has slipped. Taft has come up. And, of course, Eisenhower remains the great unknown factor. The powers behind the scenes will carefully observe what the General says and does after he retires as Chief of Staff and takes over the presidency of Columbia University. If he really wants the nomination, he could hardly have a better sounding board.

There is an old saying to the effect that wise speculators "always bet against the crowd." That may be well to keep in mind in the light of the overwhelming faith that business, employment and purchasing power will keep to present levels and possibly go still higher. Right or wrong, belief in the continuance of the boom has become near-unanimous. Forecasts of a "bust" are growing fewer and fewer.

Judge Rodney Ross, of the Columbus Municipal Court, acted as toastmaster at the dinner.

Others making short comments were: Rev. Charles Jones, director of athletics; Rev. Arthur Harwick, acting superintendent of schools of the Diocese; John Wirtz, coach; Dick Coyle, ass't coach; Carroll Widdoes, ass't. coach of Ohio State University; William Donahue, chairman of the Franklin County Board of Elections; Harry Berliner, sports editor of the Columbus Dispatch; Ed Naegele, St. Mary's outstanding Alumni; Earl Gray, former coach of St. Mary's, and C. R. Walcutt, managing editor of the South Side Booster.

News In The World Of Religion

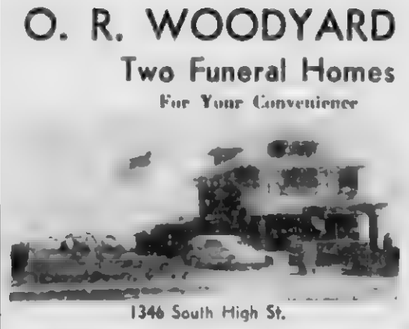
By W. W. Reid

Bishop Arne Fjellbu, of the Lutheran Church of Norway, is now on a nation-wide speaking tour of the United States, in the interests of and under the auspices of the American Committee of the World Council of Churches. The Bishop was born in Iowa, U. S. A., of Norwegian parents, and returned with them to Europe at the age of ten. His dramatic wartime experiences in the Norwegian underground resistance has been called "a great chapter in the saga of the churches" opposition to paganism."

How to build up a run-down family farm or ranch, and how to conserve the soil of a good farm for one's children and grandchildren, are among the subjects taught ex-G. Is through the extension services of Menaul School, of the Presbyterian Church, in Albuquerque, New Mexico. At the nearby village of Chacon, the Albuquerque school recently trained twenty veterans through extensive six-months courses for future good farming; they studied soil conservation and rotation of crops in the classroom; they observed modern practices on a local demonstration farm; they visited local farms and studied the solution of their particular problems. In other villages similar training is being carried on

Highlighted by an address of President Truman to Congress, and followed by a series of newspaper and magazine articles by noted writers, the recent interest shown by Americans in the plight of the Navajo Indians in New Mexico and Arizona has been heartening to American church and missionary leaders who have long been concerned with the poverty of this particular tribe. The present emergency is not new, but it has been increased by the return of Navajo young men from war service and from industrial occupation. The crowded reservation, with limited agricultural possibilities, has proven too meager for their needs. The various churches are furnishing food, clothing, medical supplies, and some church and educational service. But they are urging Congress to approve the proposed ten-year program of government assistance in educational, medical, economic and social service.

With the issuance of a "manifesto" calling upon Americans of all faiths and creeds to join for "the reaffirmation of the American principle of the separation of church and state," to keep inviolent the first amendment to the Constitution, and to prevent encroachment upon public funds for sectarian institutions by state or national legislatures, "Protestants and Other Americans for the Separation of Church and State" has recently been organized. The organizers are principally Protestants; "and Others" refers to the expectation that non-Protestants will join the movement. Dr. Edwin McNeil Poteat, of Colgate-Rochester Divinity School is president, Bishop G. Bromley Oxnam, Dr. John A. Mackay, and Dr. Charles Clayton Morrison are vice-presidents; and Dr. J. M. Dawson is secretary.



A program greatly to increase the missionary staff of the Methodist Church overseas and to about double the present giving of the Church for missionary purposes, has been presented to the Board of Missions and Church Extension of the Methodist Church by the Rev. Ralph E. Diffendorfer, executive secretary of its Division of Foreign Missions, and for twenty-four years head of the denomination's overseas service. The program calls for 595 new missionaries during the next few years, almost doubling the number now on the several fields. It calls also for an annual additional sum of $3,155,000 for the support and work of these missionaries; and for a grand total of $16,741,165—one-fourth to be given annually during four years—for new buildings, equipment, and other facilities for medical, agricultural, evangelistic and educational services overseas. The greatest increase in missionary personnel is asked for Latin American countries, as implementing the "good neighbor" policy. Next in numbers come added missionaries for Africa, for China, for India, and for Japan For war reconstruction in Europe—mostly for buildings to replace those ruined in the war and to meet new problems caused by population shifts—Dr. Diffendorfer proposes an $8,000,000 budget to be provided in four years. Other four-year totals include needs of $5,120,000 for latin American projects; $807,625 for Central Africa; $1,719,800 for India; $155,000 for Burma; $192,000 for Malaya; $200,000 for the Philippines; $487,000 for China; $250,000 for Korea; $153,000 for Japan; $142,000 for North Africa. All of this is for new buildings, equipment, and the modernization of existing facilities. Final action on the advance program will be taken at the denomination's General Conference in Boston next April.

The Do Nothing Party

In the papers we have been seeing a lot during the past few weeks about the "Do Nothing Party." I would like to give you a little history of the "Do All Party." First of all the "Do All Party" led us into two World Wars. Some of us are old enough to remember the slogan "Hughes was the lie that got us into and War, Wilson and Peace" that World War No. 1. Do you remember those wonderful words: "I say again, again and again, your boys will not fight on foreign soil?" Those were the words that deceived us into World War No. 2. I was just wondering if the slogan: "The Marshall Plan will keep us out of war" is the lie that will get us into World War No. 3.

These wars that Do All were going to keep us out of gave us a national debt of 350 billion dollars and left the whole world hungry, naked and cold. Now in order to feed the hungry, clothe the naked, and warm a freezing world, the "Do All Party," plows under the cotton, corn and wheat, kills the little pigs and burns potatoes in the fields, while the grain of the U. S. is shipped aboard at the rate of millions of bushels a month. You taxpayers could have 6 Billion extra dollars in your pockets today in your pockets if the "Do All President" had not vetoed the GOP tax bills in 1947. "Insiders" of the "Do All Party" have speculated in grain until prices have reached the sky. In fact the "Do Alls" have gotten so corrupt that when Congress passes legislation it disappears from the President's desks before he can sign it.

The "Do All Party" has confiscated your property, forced "Communist Rent Controls" on home owners and landlords and are now shedding crocodile tears about a housing shortage. There would never have been a shortage of houses in America if the "Do All Party" had not destroyed so much property trying to get their deceiving campaign slogans off of them after the Presidential Elections.

The "Do Alls" have changed the time, changed Thanksgiving, changed love to hate, changed honesty for dishonesty in government and now it looks like there will be no Christmas this year as the President has just broadcast from pole to pole that he wants "Santa Claus" to come in November in 1948. Please Santa Claus $40, $40, $40, $ $ $ in November!

If you want to keep your boy out of World War No. 3, keep the "Do All Party" out of Washington; keep your noses and dollars out of Europe; keep the Communists out of the United States and keep honest people at the head of our government. You had better "Do Nothing" than wreck the whole universe."—Observer

South Side 'Y' Now Serves 121,000

The annual business meeting o South Side YMCA was held Tuesday, Jan. 20, at the St. Paul Evangelical and Reform Church.

Few of the South Side peopl we are sure, realize the importance of the Y here in our community. Beside their main headquarters at 864 S. Third St., they also maintain the Community Center at Parsons Ave., and the viaduct, across from the Buckeye Steel Castings Co. The use of the Center is donated by the Buckeye Steel Castings Co. which owns the building.

The Y also maintains the Y-Park on Rohr Road, south of the city, which is one of the finest, used for groups and boys not only in the South Side, but also in Columbus. The Y-Park was used last year by 14,385 South Siders. It is available for picnics and all other kind of gatherings.

The South Side YMCA last year was active in 1235 groups which comprised such groups as religious, social, educational, health (includes clubs, classes, special interest groups, songfests and teen-age dances, etc.). Total enrollment and participants in these activities were 29,941.

There were also 872 meetings held at the Y by councils and committees.

The South Side Y sponsored 22 athletic leagues, consisting of 140 teams. There were 39,947 people attending these contests.

The Y also is active in picture shows and play grounds and in these activities had an attendance of 26101 boys and girls.

The South Side P gave instructions in square dancing to 49 groups with an attendance of 2,937 persons.

The personnel of the Y is small having a recretarial staff of three full-time workers and four part-time workers, besides "Cap" Hoover, the guiding genius of the South Side YMCA activities. When you consider that a total registered in Y activities were 120,771 people last year this was exceedingly a small amount of secretarial assistance.

The Y also has a staff of 119 instructors, supervisors, umpires and referees, most of whom are volunteer workers.

The Y also maintains programs in each of the schools in Marion Township,

Much of the success of the South Side YMCA is due to the guidance of Miles V. (Cap) Hoover, who has given so unstintingly of his time and efforts in serving the community.

The Board of Management of the South Side YMCA consists of the following members:

Arthur G. Starrett, chairman; Fred A. Sheridan, first vice chairman; Glenn Schwemley, second vice-chairman; Harold Eigensee, third vice-chairman; Norman E. Gatsch, E. F. High, Louis B. Kaser, W. S. Kransley, Robert B. Wasmus, John H. McGath (Emeritus).

Staff personnel is: M. V. Hoover, Executive; J. L. Wagner, John Kramer, H. R. Kuehn, William H. Barnetson, Mary A. Borror.

Members of the Community Program Council are: Terry W. Allis, L. E. Borror, Clarence Brown, C. L. Dumaree, Jonas Fry, Alvin Heinlein, Otto Heinlein, Fred Krauss, John Kramer, Albert P. Kuhn, Henry Nimitz, George Stertzer, C. A. Swoyer, William Walters, Fred C. Werner, Rev. A. E. Basile, Rev. H. W. Puckley, Rev. J. W. Clutter, Rev. H. C. Greiner, Rev. P. C. Kaefer, Rev. C. O. Kimes, Jr., Rev. A. E. Klick, Rev. P. B. Kiewit, Rev. Rudy Thomas, Rev. B. C. Rife, Rev. J. W. Seay, Rev. A. A. Sebastian, Rev. Stephen Sziarto, Rev. H. F. Zierer, Robert Darrow.

The Community Center personnel consists of Mrs. Grace E. Steward, director, and B. F. Wilburn.

The Advisory Committee of the Community Center are: Leonard Pearson, chairman; Mrs. Grace Steward, secretary; Mrs. Bessie Beecham, treasurer; D. M. Harris, Smith Johnson, Mrs. Smith Johnson, B. F. Wilburn, Marvin Ware, William Hawkins.

The crying need for the South Side YMCA is a new headquarters with swimming pool, games rooms, halls for meeting, gymnasium, etc.

COMING SUNDAY AT THE SOUTHLAND

A bewildered Cornel Wilde is hauled away from Ginger Rogers in this gay scene from "It Had To Be You", outstanding romantic comedy opening Sunday at the Southland Theatre with "Bulldog Drummond at Bay", mystery adventure, as co-feature, plus the sports special, "Foodball Thrills of 1947."

CHAMPION THEATER SUNDAY, MONDAY

The main feature at the Champion Theatre Sunday and Monday will be IT HAD TO BE YOU, starring Ginger Rogers and Cornel Wilde. Laughs and laughs and more laughs are waiting for you in this show. Miss Rogers has never had material so suited to her talents and Wilde displays more facility for comedy than he has had in the past.

Percy Waram as the girl's father is sparkingly effective, and Spring Byington was never better. Miss Rogers plays a girl of wealth who has been unable to say "I Do" three different times at the altar. In preparation for her fourth walk up the aisle, she leaves her home and family and spends a month away and tries to learn the two simple words.

As we said before the picture generates laughs from beginning to end, and you'll be missing something if you don't see it. Companion attraction will be "BLONDIE IN THE DOUGH" in the same lovable story of a family named Bumstead. Starring Penny Singleton and Arthur Lake, it has all the elements of a delightful hours worth of entertainment. We know you will like it and being a "Blondie" fan which everyone seems to be, you'll be here to see it.

Club Alexander

Kenneth Durie is the emcee at Club Alexander this week. He is a master of fun making, delightful comedy. He presents Lei Lani and Tai Tua, the original Hawaiian dance duo, accompanied by those haunting Hawaiian melodies. Remember, no cover, no minimum charge except Friday and Saturday.

'Magic Town' At Southland

How an unexpected romance causes an upheaval in a model American community is hilariously revealed in "Magic Town", the Southland Theatre's current feature attraction Thursday, Friday and Saturday, starring James Stewart and pert Jane Wyman.

Rip Smith (Stewart), fast-talking, self-confident young man, goes to Grandview to canvass the town as an accurate barometer of American thinking. Ike (Ned Sparks), a sourpuss, and Mr. Twiddle (Donald Meek), Rip's pals, accompany him. Upon arrival, Rip discovers Mary Peterman, pretty editor of the Grandview newspaper, pleading before the town fathers for a plan that will materially change Grandview and, at the same time, its thinking, a change that would spoil the town for Rip's purposes.

Rip thwarts Mary's plans but he later succeeds in winning her confidence. Only when chaos overtakes the community and its people, do Rip and Mary realize they are in love, and join forces to bring the town situation back to normal.

This fast-moving romantic comedy will continue on the Southland screen through Saturday, with a new Blondie and Dagwood comedy, "Blondie in the Dough", as second big feature.

RUSSELL THEATRE

The Russell presents Sunday and Monday "I Wonder Who's Kissing Her Now" with June Haver and Mark Stevens. A musical romance beautifully done in technicolor, the story of show business at the turn of the century and the career of Joseph Howard, songwriter and producer. You will hear songs you'll long remember. Sparkling dance numbers; also "Thunder Mountain" with Tim Holt and a clever "Cartoon."

Columbia Theater

The Columbia presents Sunday, Monday and Tuesday "This Time For Keeps" with Esther Williams and Jimmy Durante. Esther Williams star of an aquade show, thinks singer Johnnie Johnston is broke, so she helps him get a job with the show. She doesn't know he is the son of Larifx Melchoir, Metropolitan star. They fall in love but the marriage is opposed by Melchoir, who regards Esther as a mere show girl. Finally the two and Melchoir are reunited; also "Hat Box Mystery" with Tom Neal and Pamela Blake.

Champion Theater

Champion: Friday and Saturday "Magic Town" with James Stewart and Jane Wyman; also "Sports of Kings" with Paul Campbell and Gloria Henry. Matinee Saturday. Sunday and Monday "It Had To Be You" with Ginger Rogers and Cornel Wilde; also "Blondie In The Dough" with Penny Singleton and Arthur Lake. Matinee Sunday. Tuesday, Wednesday and Thursday "Secret Life of Walter Mitty" with Danny Kaye and Virginia Mayo.

Champion Theater, Friday and Saturday

MAGIC TOWN, the picture we have all been looking forward to seeing, will be the main feature this Friday and Saturday at the Champion Theatre.

Starring James Stewart, naive and boyish as ever, and Jane Wyman, this picture puts small time life in America under the microscope.

Warmly appealing and with a homespun quality, it is the story of Stewart as a public opinion poll expert, who discovers a small town where the population thinks on all subjects precisely as national polls say the nation at large thinks. Keeping his identity and discovery secret, he and his two associates, establish themselves in the town and get around listening to the opinions of the town inhabitants.

Miss Wyman, the girl editor of the town paper, with whom Stewart falls in love, is antagonized against him after she learns his real occupation; exposes him, and the town experiences a terrific boom as the press and radio exploit it as a typical town. Real estate soars, townsfolk attempt to capitalize on the notoriety but hit bottom when the bubble bursts.

Stewart, penitent, rallies the spirit of the broken townsfolk to lift themselves from defeat and as recovery impends, wins the girl's forgiveness.

There is charm enough in the picture to hold the story together throughout and stretch some of the implausible parts to the breaking point. Open references to the Gallup Poll, use of Gabriel Heater newscasts and other touches of realism, also help to counter-balance the improbabilities. Its a story that will use the imagination, but it still carries that lovable quality of the American town and home life.

Second feature will be SPORT OF KINGS, starring Paul Campbell and Gloria Henry. A delightful story of horse-racing at its best, this tells the tale of an old man who has lost his Kentucky homestead. With the arrival of two brothers who claim the property the animosity of the neighbors becomes greater. Eventually circumstances uncover the difficulties and a horse is entered in the "American Stakes". When the horse wins, all problems are solved, including a romantic complication. Assisting actors are lovable Harry Davenport of "Keeper of the Bees" and Mark Dennis.

Barrett 7B's Will Have Talent Show

Thursday, January 22, was a red letter day at Barrett for 50 young musicians of the 7B class. On that day they played their first concert after four months instruction with Mr. Germain, the instrumental music teacher. Their audience was the 200 members of their 7B class at Barrett.

The first selections were by a class of five trumpets and four trombones. They played "Home on the Range" and "All Through the Night." Following solos by James Kearns, Paul Nowell and Tommy Pasean, the group closed with "The Caisson Song."

The class of eight clarinets next played several selections with solos by Nancy Nofer and Marlin Cope. An outstanding feature of the concert was an oboe solo by Mary Foster. She started her lessons last summer and was unable to play in the Barrett Orchestra until September.

The violin class of thirty players was the last on the program. They played several selections demonstrating their ability to play in tune with unusual power for beginning violin students.

The 7B piano accompanists for these classes were JoAnn Weisenberger, Mary Byrd and Martha Myers.

NOVEL CARD PARTY TABLE

This attractive table setting for your bridge or gin rummy party is as pretty as a picture yet requires no lavish expenditure of either time or money. The table covering is of natural linen to accent the gaily colored square pottery plates, and the miniature playing cards carry out the party motif. The cards are cut and mounted atop the glass straws. Side dishes may hold nuts and raisins or assorted thin-cut sandwiches. To add interest to the refreshment menu, Pineapple Nectar is an ideal beverage. Easy to prepare and serve, it is made according to the following recipe:

PINEAPPLE NECTAR

4 cups unsweetened pineapple juice
4 cups Roma Claret
½ cup lemon juice
2 cups sparkling water

Chill the pineapple juice, wine and sparkling water. Combine in a water pitcher or punch bowl. Add the lemon juice, and sugar to taste. Garnish with lemon slices. Fill glasses ¾ full. Serves 8 to 12.

Dunwoodie: Don't rush into marriage, Eddie. Take it from a man who knows. Why, I even advertised for a wife once.

Bracken: You did? Gosh, did you get any answers?

Dunwoodie: I received answers from eighteen hundred husbands telling me I could have their wives!

IDEAL THEATER Friday And Saturday

So this is HOUSEKEEPING

BY SHIRLEY STUART

Breathes there the bride with soul so dead who never to herself has said, some day we'll build our own home!

It wasn't long after we were settled in our compact little apartment that I began dreaming of a winding staircase, large, gracious rooms and acres of closet space. All for "some day" I clipped floor plans, collected decorating tips and selected lovely color schemes. Then one cozy wintry evening I announced to the Man of the House that my dream home was ready—on paper—from doorknobs to book alcoves. Naturally, I agreed magnanimously, plans were subject to extensive alterations to suit his pleasure. Well. The cad took a quick look and guffawed!

It appears you can't have running water where you want it without pipes. But, you can have water where you don't want it unless you have such unromantic-sounding things as gutters, downspouts and flashings. The first two "things", my spouse informed me, conduct water from the roof while flashings prevent leakage at joints such as where the roof meets the chimney.

To top off my chagrin, the Ever Wise produced booklets, pamphlets and the summary of a talk he had had with an architect friend, all concerning safeguarding the home with copper and brass.

Patiently he explained that copper tube and red brass pipe are sturdy, rust-free and resistant to corrosion. "So?" I asked, still a little hurt. "Look", says he, "good brass and copper plumbing will deliver rust-free water for more years than you can think about. Furthermore, when about 50 tons of water fall on the average roof every year, the gutters and downspouts have to be good. The best is none too good for the Stuarts, and that means copper."

I was pleased as wedding punch to know he had carefully planned for our future home—and told him so. But no matter what anyone says, leave it to a man to have the last word. I was just drifting off to sweet dreams when he brought forth the clincher. "And another thing—copper piping that brought water to Egyptian Pharoahs more than 5,500 years ago can still convey water!"

FRANKFORT, GERMANY—(Soundphoto) — A pretty 20 year old German girl, Doris Von Kooblock, was saved from probable death when an attempt was foiled to ship her to the U.S. air express in a wood box measuring only 30 inches at its greatest dimension. She was found curled up in the box consigned air express to Rolph Berndt of New York City. Air lines officials said she probably would have frozen to death in the sub-zero temperatures prevailing at the 9,000 foot altitude. The box was left at the freight office of an overseas airline by a G.I. whose name was withheld.

Sue had had her little finger slammed in the door. When the doctor informed her that she won't be able to use that finger for many months, she said: "I'm going to sue for $10,000!" "Ten thousand just for your little finger? But why?" asked the doctor. "Because that's the little finger I wrap men around," was the reply."

South Side Settlement

Land Poe, new Scoutmaster of Boy Scout Troop No. 2 of the South Side Settlement House, is taking a number of his troop on a hike Saturday if the weather permits. The boys are well pleased with their new leader and are all working hard for advancements.

On Wednesday, Feb. 4, the Honor Club of South Side Settlement is holding a St. Valentine party. On that day the Settlement will open for members of the Honor Club only. The party is at 3:30 and there will be special entertainment. All Honor Club members please be here.

Have you noticed all the new sweaters around the S. S. S.? They are proudly worn by the South Side Dramatic Club, under the leadership of Mrs. Jeanette Lewis. These girls worked hard to purchase these latter sweaters and are to be complimented on their fine presentations they have made.

South Side Settlement basketball season got off to a flying start on Monday with two games being played in each League. Much enthusiasm has been shown by players and spectators alike. Anyone wishing to see some lively games of basketball should attend some of our sessions, especially on Wednesday evenings, 6:00 to 10 P. M.

Eagles To Celebrate Golden Anniversary

South Side Aerie of Eagles has completed plans to take a large delegation of members and a class of candidates to Ironton, Ohio, for the two-day golden anniversary celebration convention of the Order February 7 and 8, Worthy President Jack Brixner, said recently.

The Fraternal Order of Eagles was founded in Seattle, Washington, February 6, 1898, and the entire fraternity is celebrating its golden anniversary this year. Anniversary conventions will be held the same day in the eight zones of Ohio.

South Side Aerie will send five official candidates and a large number of other members of the Aerie are planning to attend the convention.

Plans for Sunday call for a huge parade through the downtown streets of Ironton shortly before noon. The parade will be replete with bands, drum and bugle corps, drill team, ladies auxiliaries, flags and banners.

Following the parade a mass initiation of all the candidates in the zone will be held at the host Aerie hall with the best degree team in the entire zone exemplifying the ritual. The candidates also will be entertained by a crack drill team.

State and Grand Aerie officers will speak during the convention.

The host Aerie has planned special entertainment for the visitors both Saturday and Sunday nights.

RED, ROD, AND BLUE—Red O'Conner (top), announcer on NBC's "Red Skelton Show," joins Red in their own blues version of a Brahms composition. Though Red and Rod like the classics, their renditions usually fall somewhat short of the classic style.

The scene was a railroad station. The girl kissed a young man passionately and ran aboard the train where she burst into tears. "Are you crying because you're leaving your husband?" asked a sympathetic passenger. "No," she sobbed, "I'm crying because I'm going back to him."

Jack: The reason I got married was that I wanted some understanding and sympathy.

Mack: Well, you have mine.

NEWS BEHIND THE NEWS
By Paul Mallon

Released by WNU Features.

Must We Fight Russia?

WASHINGTON. — Two top international leaders in this country (whose names you know and respect) have become quite bullish on the state of the world lately. One predicts war within a year. He does not think we will wait for another Pearl Harbor this time, but fears Russian plans for world revolution will be carried so far against us, we will be compelled to strike first in self defense.

Neither of these men is directly connected with the government, and neither is saying what inside information he has. Their views, however, apparently are founded on some information which has reached certain well-informed congressmen, namely this:

The progress toward a peaceful understanding with the world for development of atomic energy, and controlling it in the interests of peace, has hit insoluble Russian objections. If these negotiations ultimately fail completely, a certain senator says there will be nothing for the United States to do except to prepare for war.

COULDN'T MAKE ATOM BOMBS

This situation, of course, lies behind the thwarting by Russia of the United Nations atomic energy commission. Direct or trustworthy information as to whether Russia has the atom bomb is not available. Some of the experts in foreign affairs who have been publicly fearing she might obtain it, say she undoubtedly has the formula or the secret fairly worked out by now, but there is a serious question whether she has the know-how to produce the bomb. Her production methods are notoriously inefficient. Some authorities doubt that she will be able to do much on any production line because of her system. In a general way, fears among our experts seem to have abated.

DRIFTING DOWNHILL

For these and other reasons, our authorities commonly are suggesting Russia is weak. She may be weak from a military and economic standpoint. But she has been far from weak from a political standpoint, and her diplomatic position, which has enabled her to veto world peace plans and atomic control, hardly can be considered weak.

More than 2,000 American passports for Russia are said to be outstanding. From more than one American, who has visited Russia lately to see what the Kremlin restrictedly wishes a visitor to see, has come the suggestion that economically Russia could not pursue a war of any duration. Her production is bad. From the military standpoint, no doubt she could seize certain Turkish territories and perhaps even Greece without great trouble. Indeed, she might even try to seize the whole of Europe, although her ability for military action up to the eastern rim of the Atlantic ocean can be gravely doubted.

One peaceful chance of solution of this problem has not been mentioned much in the discussions behind the scenes. If Russia is as inefficient as she has shown herself to be, her destiny will be downward. She developed only one good gun and one good plane during the war. Ruthless sacrifice of manpower won the war for her. Only in politics is she strong. Therefore if an aggressive resistance is maintained to her by the world and she is allowed to work out her downward destiny in accordance with her lack of ability —then peace could come without another war.

This happens to be exactly what this government now is doing: Maintaining aggressive political diplomacy and letting her work out her downward destiny.

Bilbo's Successor

Those who are on the inside of Mississippi politics say the straight-out election of a successor to the late Senator Bilbo in November will not involve the race issue, because only a few thousand Negroes are registered, and their votes in all probability will not influence the result. (One authority says 5,000 Negroes are registered in Mississippi.) Thoughtful Mississippians, distressed over announcement of Rep. John Rankin, say they had enough raving and ranting under Bilbo and would like to forget it. This does not imply any withdrawal of opinions by anyone on race issues, but merely suggests a desire to live in reasonable harmony. Rankin probably will get the Bilbo following, but my informants say he will not win unless political forces outside Mississippi inject themselves into the special election campaign and sensitize the issue. These authorities like the chances of Rep. William Colmer, who won respect in the house as a serious-minded middle-road man. Also Judge John J. Stennis, a 46-year-old circuit judge, and some others are liked.

Marty: I've got Russian blood in me.

Arty: By your father?

Marty: No, by transfusion.

VARIETY GIRL — Nannette Sargent, featured actress in the dramas on NBC's "Curtain Time," has played roles ranging in variety and emotional intensity from an ingenue to a trial lawyer.

Hunting & Fishing Violations Hit All Time High

Hunting and fishing violations in Ohio reached an all time record-breaking high in 1947 according to Lester C. Bailey, Chief of the Law Enforcement Section of the Ohio Division of Conservation. Complete records for the year show that 2351 persons were arrested by division enforcement officers for violations of the hunting and fishing laws. This is an increase of 211 over 1941 and represents a considerable increase over 1777 arrests in 1946 with fines totaling $39,121.90.

Conservation Commissioner H. A. Rider today commended Ohio sportsmen, pointing out that it is not only the duty of conservation officers to enforce the laws but that it is the duty of every citizen to report violations to the proper authorities. Rider said that the cooperation and assistance on the part of farmers and law abiding sportsmen, pointing out that it is not only the duty of conservation officers to enforce the laws but that it is the duty of every citizen to report violations to the proper authorities.

For the past seven years hunting licenses run like this: 1940 in 1940 2113 for 1941, 1353 in 1942 1103 in 1943 956 in 1944, 1946 and 2351 in 1947.

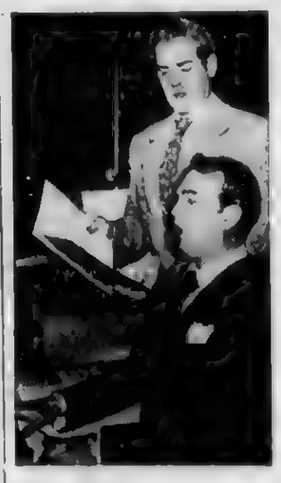
The Fraternal Order of Eagles was founded in Seattle, Washington, February 6, 1898, and the entire fraternity is celebrating its golden anniversary this year. Anniversary conventions will be held the same day in the eight zones of Ohio.



South Side Aerie will send five official candidates and a large number of other members of the Aerie are planning to attend the convention.

Plans for Sunday call for a huge parade through the downtown streets of Ironton shortly before noon. The parade will be replete with bands, drum and bugle corps, drill team, ladies auxiliaries, flags and banners.

Following the parade a mass initiation of all the candidates in the zone will be held at the host Aerie hall with the best degree team in the entire zone exemplifying the ritual. The candidates also will be entertained by a crack drill team.

State and Grand Aerie officers will speak during the convention.

The host Aerie has planned special entertainment for the visitors both Saturday and Sunday nights.

RED, ROD, AND BLUE — Rod O'Conner (top), announcer on NBC's "Red Skelton Show," joins Red in their own blues version of a Brahms composition. Though Red and Rod like the classics, their renditions usually fall somewhat short of the classic style.

The scene was a railroad station. The girl kissed a young man passionately and ran aboard the train where she burst into tears. "Are you crying because you're leaving your husband?" asked a sympathetic passenger. "No," she sobbed, "I'm crying because I'm going back to him."

Must We Fight Russia?

WASHINGTON. — Two top international leaders in this country (whose names you know and respect) have become quite bullish on the state of the world lately. One predicts war within a year. He does not think we will wait for another Pearl Harbor this time, but fears Russian plans for world revolution will be carried so far against us, we will be compelled to strike first in self defense.

Neither of these men is directly connected with the government, and neither is saying what inside information he has. Their views, however, apparently are founded on some information which has reached certain well-informed congressmen, namely this:

The progress toward a peaceful understanding with the world for development of atomic energy, and controlling it in the interests of peace, has hit insoluble Russian objections. If these negotiations ultimately fail completely, a certain senator says there will be nothing for the United States to do except to prepare for war.

COULDN'T MAKE ATOM BOMBS

This situation, of course, lies behind the thwarting by Russia of the United Nations atomic energy commission. Direct or trustworthy information as to whether Russia has the atom bomb is not available. Some of the experts in foreign affairs who have been publicly fearing she might obtain it, say she undoubtedly has the formula or the secret fairly worked out by now, but there is a serious question whether she has the know-how to produce the bomb. Her production methods are notoriously inefficient. Some authorities doubt that she will be able to do much on any production line because of her system. In a general way, fears among our experts seem to have abated.

DRIFTING DOWNHILL

For these and other reasons, our authorities commonly are suggesting Russia is weak. She may be weak from a military and economic standpoint. But she has been far from weak from a political standpoint, and her diplomatic position, which has enabled her to veto world peace plans and atomic control, hardly can be considered weak.

More than 2,000 American passports for Russia are said to be outstanding. From more than one American, who has visited Russia lately to see what the Kremlin restrictedly wishes a visitor to see, has come the suggestion that economically Russia could not pursue a war of any duration. Her production is bad. From the military standpoint, no doubt she could seize certain Turkish territories and perhaps even Greece without great trouble. Indeed, she might even try to seize the whole of Europe, although her ability for military action up to the eastern rim of the Atlantic ocean can be gravely doubted.

One peaceful chance of solution of this problem has not been mentioned much in the discussions behind the scenes. If Russia is as inefficient as she has shown herself to be, her destiny will be downward. She developed only one good gun and one good plane during the war. Ruthless sacrifice of manpower won the war for her. Only in politics is she strong. Therefore if an aggressive resistance is maintained to her by the world and she is allowed to work out her downward destiny in accordance with her lack of ability —then peace could come without another war.

This happens to be exactly what this government now is doing: Maintaining aggressive political diplomacy and letting her work out her downward destiny.

Bilbo's Successor

Those who are on the inside of Mississippi politics say the straight-out election of a successor to the late Senator Bilbo in November will not involve the race issue, because only a few thousand Negroes are registered, and their votes in all probability will not influence the result. (One authority says 5,000 Negroes are registered in Mississippi.) Thoughtful Mississippians, distressed over announcement of Rep. John Rankin, say they had enough raving and ranting under Bilbo and would like to forget it. This does not imply any withdrawal of opinions by anyone on race issues, but merely suggests a desire to live in reasonable harmony. Rankin probably will get the Bilbo following, but my informants say he will not win unless political forces outside Mississippi inject themselves into the special election campaign and sensitize the issue. These authorities like the chances of Rep. William Colmer, who won respect in the house as a serious-minded middle-road man. Also Judge John J. Stennis, a 46-year-old circuit judge, and some others are liked.

Marty: I've got Russian blood in me.

Arty: By your father?

Marty: No, by transfusion.

This week we are introducing you to the Rev. John Wesley Seay, of the Thurman Ave., Methodist Church, which is located at Thurman and S. Washington Aves.

When the Rev. John Wesley Seay was born at Robinson, Ill., his grandfather being a Methodist minister, the name John Wesley was used for the founder of Methodism.

His father securing a position as a high school teacher at Cincinnati, the Rev. Seay was educated in the grade, Junior and Senior High Schools there.

Upon graduation he entered Ohio University at Athens, Ohio, from which he received his B. A.

He received his Seminary education at Boston University, Boston, Mass.

Upon graduation, he was ordained by the Ohio Methodist Conference here in Columbus.

He came back to Columbus as a student pastor and assistant minister of the Indianola Methodist Church, from which he came to the Thurman Ave., Church.

His work has been outstanding at Thurman Ave., Methodist Church under his leadership. Chimes have been installed, the church has been completely redecorated and mortgages have been paid off on both the church and parsonage and the church is completely debt free. Also there has been a new Hammond organ installed which was donated by Mr. and Mrs. Carl Jones.

Rev. Seay, as youth, liked sports. He is a big man, both in vision and stature, standing well over six feet. Naturally he is fond of all kinds of sports.

Your Home

By Frances Ainsworth

I recently had the interesting experience of "previewing" a Model Home! One of my good friends, Jim Blake, a contractor invited me to see this home and to offer ideas on furnishings for it. Well, of course, I was thrilled to play a part in decorating this completely up-to-the-minute home . . . and, while going through it I learned some very helpful things about the new homes.

As we went from room to room, Jim told me about the very new features which made this particular home so outstanding. We all know that good plumbing is essential to good health and Jim told me that good plumbing calls for Red Brass pipe or Copper water tube—which were employed for both hot and cold water lines in this Model Home. He explained that Red Brass pipe and Copper water tube give long service and deliver a full flow of rust free water for many years. Rust in a pipe disorders the water and reduces the rate of flow and, as Red Brass pipe and Copper water tube do not rust and do resist corrosion, they are the most satisfactory.

Another aspect of the Model Home which interested me was the Radiant Heating system. Copper tube with soldered fittings was built into the floors of the Home, and through these steam is circulated in order to heat the home. Jim told me that he always recommends the use of Copper for heating systems because its efficiency has been proved — and, being rust free, naturally made the system more practical.

Well, after learning about all these new features, I resolved to have Jim plan our new home for us . . . and when we build in the Spring, all these ideas will be incorporated. For we all want to make sure that our home and the equipment in it is the most practical and durable obtainable, don't we?

Rev. Sutorius Is Installed At Emmanuel Lutheran Church

Rev. Carlton J. Sutorius

Rev. Carlton J. Sutorius was installed last Sunday as the sixth pastor of Emmanuel Lutheran Church, 80 E. Markison Avenue. The interim pastor, Rev. Theodore S. Liefeld officiated at this special service.

The congregation and friends turned out in large numbers for the morning service and for the reception in the afternoon.

Rev. J. W. Schillinger, D.D., president of the Ohio District of the American Lutheran Church, welcomed the new pastor to Ohio. He was likewise extended a local welcome by Rev. E. J. Katterhenrich, pastor of St. Paul's Lutheran Church, and president of the Columbus Conference of Lutheran ministers.

Rev. Sutorius, 35, graduated from Capital University Seminary in 1935. Born in New York, he graduated from the Concordia College of Bronxville, N. Y., and received the first two years of his ministerial training at Concordia Seminary, St. Louis, Mo. He has held pastorates in Columbiana, O., and Conover, N. C. For the past three years he has been in charge of a mission project at Coral Gables, Fla.

Emmanuel's pulpit has been vacant since July when Rev. Theodore B. Hax resigned to become teacher and conference worker with the Lutheran Bible Institute of Los Angeles, Cal.

The pastor and his family will make their home in the Emmanuel parsonage at 70 E. Markison Ave.

News In The World Of Religion

By W. W. Reid

Dr. E. Graham Wilson, general secretary of the Board of National Missions of the Presbyterian Church in the U. S. A., tells this story: In a mid-western suburban area a real estate agent and a client were looking at houses. "But where is the church? I don't see one anywhere," said the client. Replied the agent, "I've been in this business for three years, and you're the first person to ask me that question." The client did not buy a house in that suburb.

The Methodist Church of Ireland has set aside Gurteen House and 308 acres of land, at Ballingarry, County Tipperary, Ireland, as an agricultural school and farm for the training of Irish youth in modern agricultural knowledge and practices. The course of study, under the direction of the Rev. J. Wesley McKinney, the principal, includes farming, horticulture, domestic science, poultry raising, dairying, and conservation of the soil.

Eight million members of the Methodist Church, scattered across the nation in 40,000 parishes, will be asked on Sunday, February 15, by their pastors to sign a pledge of total abstinence from alcohol beverages. This first Sunday in Lent will be "Commitment Day" in Methodist churches—an observance promoted by the denomination's Council of Bishops and by the Board of Temperance of which Bishop Wilbur E. Hammaker is president. The form of commitment is: "I commit myself to sobriety and a good example, by adopting for myself the principle and practice of total abstinence from alcoholic beverages as a wise way of life."

Dr. Samuel McCrea Cavert, general secretary of the Federal Council of the Churches of Christ in America, is chairman of the committee arranging for the first assembly of the World Council of Churches which is to be held in Amsterdam, Holland, in August 1948. There are now 147 Protestant and other non-Roman churches, from 39 different countries, that have joined the Council. Almost all of these, including many from lands to which Europe and America have long sent missionaries, will be represented at the Amsterdam Assembly. The Assembly will frame a constitution "to provide continuous fellowship of all Christians in the Protestant and most of the Orthodox communions throughout the world," says Dr. Cavert.

In the "Declaration" and in the "Covenant" recently approved and submitted to the member nations by the Second Session of the United Nations Commission on Human Rights, meeting in Geneva, Switzerland, under the chairmanship of Mrs. Eleanor Roosevelt, there are statements on religious liberty which show in their wording the influence of the International Protestant "Commission of the Churches on International Affairs." The "Covenant" reads in part: "Every person shall have the right to freedom of religion, conscience and belief, including the right, either alone or in community with other persons of like mind, to hold and manifest his religious and other belief, to change his belief, and to practice any form of religious worship and observance, and he shall not be required to do any act which is contrary to such worship and observance. Every person of full age and sound mind shall be free, either alone or in community with other persons of like mind, to give and receive any form of religious teaching, and in the case of a minor the parent or guardian shall be free to determine what religious teaching he shall receive. . . . subject only to such limitations as are prescribed by law and are necessary to protect public order and welfare, morals, and the rights and freedoms of others."

"The ideologies of today are challenging the youth of the world for their loyalties and their services," Dr. Ralph E. Diffendorfer, missionary executive of the Methodist Church, recently told a youth gathering. "There is a call for Christian youth to grasp the meaning of various ideologies and to understand better the significance of their own faith, the meaning of the church as a fellowship, and of our wider ministry of service and life devotion, such as no generation of youth has faced hitherto in the history of the world. In this conflict we know our job and are firm in our loyalties. We Christians have nothing to fear. We must reject economic determinism. We must reject statism, and all that it means for the individual to have his life destiny determined in terms of his service to the state. We must uphold a free, voluntary way of discovering the will of God and of doing his bidding."

St. Stephens News

And it is good news we bring. Recently three more Junior Police from St. Stephens were appointed Corporals. Those assigned were Lewis and Lawrence McCann and Charles Santee. Our congratulations go to each of these boys.

Also at St. Stephens was organized a boy's club for boys of high school age and older. It is a club organized to promote programs, the futher welfare of the Community House and to raise money for their club room.

Officers are: President, Paul Guth; Vice-President, Fino Skunza; Secretary, Joe Ruffle, and Treasurer, Tom Iaconis. The boys are now decorating an attractive club room.

In regard to sports this week, St. Stephen's boys are showing great promise for the championship. The St. Ladislaus team which practices at St. Stephens Community House, coached by Mr. William Santanich, has won three games in the East-West division of the Cadet C. Y. O. basketball league, with two more games to play.

In the last game against the St. Mary Magdalene team, the boys scored a win with points totaling 42, against the opposing team's 10 points. Luke Skunza was high point man with 25 points.

In the Godman Guild league the St. Stephen Blue and Gold team still remains undefeated in their three games played. Our Red and White team is in second place with only one loss in their three games played. The past week's scores are St. Stephen's Blue and Gold 21; Santa Lucia, 13. St. Stephens Red and White 39; Y. M. C. A. 37.

A home of charming traditional atmosphere, such as shown in the above picture, is achieved only by carefully selecting each item. For instance, the two end tables have a built-in section for plants and the lamps are made from old apothecary jars. The walls have been painted a deep green while the ceiling is crisp white to reflect the light in the room. The draperies repeat the deep, rich green tones of the walls and the lighter green of the couch. The window shades are pure white to match the ceiling and bring attention to the draperies.

Sportlight by Grantland Rice

LAST year, on our way west, we traveled as far as Chicago with George Halas, owner of the Chicago Bears. The discussion came up as to whether or not there were spots enough for two football leagues, with eight teams in each circuit, just as baseball has today.

Halas didn't think so. "We have the only league," he said, "with New York, Chicago, Philadelphia, Washington, Pittsburgh, Boston, Detroit and Los Angeles. These are the proven places. There is room enough for two big leagues in baseball," Halas continued, "but not football."

G. Halas

We suggested these spots — New York, two clubs; Chicago, two clubs, and one each for Philadelphia, Los Angeles, San Francisco, Brooklyn, Pittsburgh, Washington, Cleveland, Boston, Buffalo and Baltimore.

"That only adds up to 14 clubs," Halas said. "We still need two more, and I don't like three you've thrown in — Buffalo, Brooklyn and Baltimore. Football is different than baseball. Brooklyn always has been a great baseball town. Brooklyn's football team cost Dan Topping around $300,000 and its new owners more than $250,000."

These figures are startling, one has to admit. Still Collins in Boston is out more than $500,000 and Detroit is at least that much in the red. And these are two National league cities.

There must be something wrong in the running and handling of pro football. Looking back 20 odd years, there have been more than 20 teams in the National league. Only four have ever made money. They are New York, Chicago, Washington and Green Bay. Philadelphia has been breaking even, and so has Pittsburgh. The rest have gone bankrupt or, like Detroit and Boston, are more than half-a-million out.

So far, Brooklyn, Boston and Detroit have been the major dabblers in red—well more than a million and a half. Miami blew up with a $300,000 detonation. Outside of a few teams, both leagues have suffered heavily on the financial side.

Overpaid Players

Many of them have been paying football players two and three times what they were worth. Players more than 28 years of age have been puffing around. Others have reported 30 to 40 pounds overweight. We agree with Red Blaik—when you've passed 28, go out and get another job.

We'll also add—when you weigh more than 230 pounds — take up some fat man's game. At least 40 per cent of the pro football players today are in no physical condition to play out a game that demands so much on the physical side.

Just what will happen later is a guess beyond our reach. Pro football, so far, has cost various promoters close to 10 million dollars. A few have made money, but nothing like this amount.

I don't believe the losing promoters will take this beating much longer. And this includes both leagues. As far as I can dig up the figures, pro football, as great a game as it is, is still deep in the red.

Los Angeles has proved to be the best town for pro football, with Cleveland in second place. The N. Y. Giants, through the fine football that the Mara brothers and Steve Owen have provided for so many years, are well on the safe side. Washington has been a sellout on a 34,000 basis, due to Sammy Baugh. When Baugh leaves, George Marshall will have more headaches than a ton of aspirin can cure. The sound spots in pro football today are Cleveland, Los Angeles, New York, part of Chicago, Pittsburgh, Philadelphia and San Francisco.

Chicago can't possibly take care of three teams. The Rockets already have discovered this sad news. Brooklyn, a fine baseball city, possibly the best, has known only third and fourth rate football teams for years. Brooklyn never has had a chance.

Few Opportunities

I still believe Buffalo and Baltimore can be strong centers, given high-grade teams. Neither will support a loser, long. There has been talk of Atlanta, Dallas, Akron and a few other cities, including New Orleans, that might work out. They might—if you care to gamble with a $300,000 loss. Most of these are strictly college towns.

There was, some years ago, a general belief that pro football would wreck college football, just as pro baseball smothered college baseball. I never believed this would happen. The college game is stronger today than it ever has been before. Pro football isn't. Look over college attendance figures—86,000 at Michigan—around 85,000 in the California, Pennsylvania and Ohio State stands—60,000 in Los Angeles—from 40,000 to 60,000 all over the college map. College football is still outdrawing pro football, game for game, by at least two to one.

If you want to get rich, earn more than you need and save the difference.

Meet An Outstanding South Side Citizen

Joe Alexander

This week we wish to introduce you Joe Alexander, who has been one of the South Side's most active citizens for thirty years.

Joe was born at Mt. Casino, Italy, where the most violent battle of World War II was fought. He came to Columbus at the age of 15 which was just 35 years ago.

Joe, in past years, has sponsored picnics and Christmas parties for many South Side children who would not have had them if it were not for him, but were discontinued during the war on account of rationing.

In 1942, Joe organized the youngsters of the South Side for a huge scrap drive to help the war. Many thousands of pounds were collected by the youngsters in this drive by beating the alleys and streets for waste material.

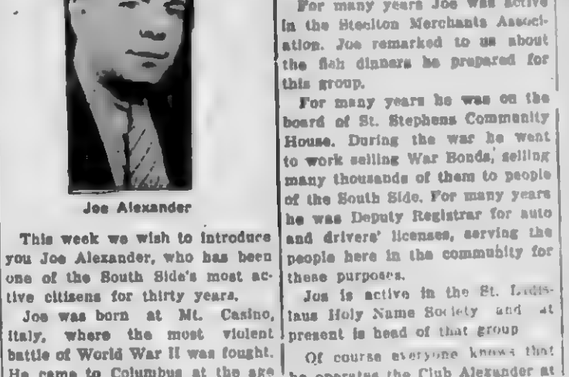
For eight terms Joe served as head of the Santa Maria Society. During the depression this group served more than 15,000 youngsters with meals.

Joe has always been interested in the youth of the South Side. He has shown this interest by sponsoring football, basketball and baseball teams. Many of these teams were championship teams.

For many years Joe was active in the Steelton Merchants Association. Joe remarked to us about the fish dinners he prepared for this group.

For many years he was on the board of St. Stephens Community House. During the war he went to work selling War Bonds, selling many thousands of them to people of the South Side. For many years he was Deputy Registrar for auto and drivers' licenses, serving the people here in the community for these purposes.

Joe is active in the St. Ladislaus Holy Name Society and at present is head of that group.



Of course everyone knows that he operates the Club Alexander at 347 Barthman Ave.

Joe lives with his wife, a pretty rosy-cheeked brunette at 333 Barthman Ave.

When you look at Mrs. Alexander and she speaks of her two sons, Guido A. and Albert G. Alexander, both of whom served overseas, she is so youthful in appearance you can hardly realize that her boys are grown men.

In talking to Joe Alexander, he remarked to us that press of business has forced him to become inactive in many of his community efforts, but that he is going to get back in the harness again and promote those projects which will best help the community.

One thing he is especially proud of, is his life-long friendship with Tony Aquilla, Ohio State's famous grounds-keeper.

A taste-tempting broiler meal combination — Mock Beef Fillets, French Fried Potatoes, and Onion Rings — helps to shrink the food budget.

By BETTY NEWTON

Broiler meals are conservation-wise meals! Dishwashing time is cut in half, and precious fuel is saved. Then, too, many of the less expensive cuts of meat, such as ground, chopped, and luncheon meats, are delicious when broiled, so the food dollar can be conserved a bit.

In this broiler meal, the potatoes are broiler-fried rather than French fried. The potatoes will take as long to cook as the meat if you like your meat well done. However, if you prefer the fillets rare, the potatoes should be placed in the broiler first. If spread over the rack, they'll be more evenly cooked!

Serving a broiler meal combination every once in a while is good planning. It saves time, fuel, money — and, most of all, your energies spent as cook for the family.

Mock Beef Fillets

1 lb. ground beef
½ tsp. salt
¼ tsp. pepper
2 Tbsp. grated onion
1 tsp. prepared mustard
6 slices bacon

Season beef and mix well. Shape into round cakes and fasten a strip of bacon around each. Broil until brown on both sides and bacon is cooked, about 3 inches from the flame.

Broiled French Fried Potatoes

6 medium potatoes
Melted fat
Salt
Pepper

Pare potatoes and cut into long, thin trips as for French frying. Soak in cold water about 20 minutes. Drain and dry. Roll in melted fat and drain. Lay on rack of broiler pan and broil about eight minutes. Turn over and broil on other side four to eight minutes. Keep pan far enough from flame to prevent scorching. When done, sprinkle with salt and peper. Serve hot.

Broiled Onion Rings

Two large sweet onions
Melted fat
Salt
Pepper

Peel onions and slice in ¼ inch slices. Separate into rings and soak in cold water about 20 minutes. Drain, dry, and dip in melted fat. Place on broiler pan around meat. Season with salt and pepper. Broil about 10 minutes. Turn and broil until tender.

Economic Highlights

To paraphrase Mark Twain's famous remark concerning the weather, everybody talks about inflation but no one does anything about it. The political proposals for dealing with this number 1 domestic problem seem unrealistic, to put it mildly. Mr. Truman and his official family are still bent on rationing and price control—policies to declines in production and the which in other countries, have led growth of the black market. The Republicans lean to rather indefinite voluntary controls, which have been ineffective when tried in the past. In both political camps there is no obvious effort to advocate measures which will attract as many voters as possible, and step on the minimum number of toes.

It has been accurately said that political proposals, for the most part, deal with symptoms rather than causes. They are concerned with what happens during an inflation, instead of with what creates and implements an inflation. This is regarded by many as a very dangerous example of putting the cart before the horse. To find programs which attempt to deal directly and conclusively with the fundamentals of the condition, it is necessary to turn to non-political sources.

One of the most interesting and extensive programs was recently proposed by 53 members of the Economists' National Committee on Monetary Policy. Thirty-eight of the economists are connected with universities; six are employed by commercial business, one works for a research institute; one is with a national business organization, three are on the staffs of publications and four showed no connection. Their program included eighteen points, of which brief summaries, taken from various press reports, follow:

1. Drastically reduce government spending, particularly for public works.
2. Reduce taxes.
3. Reduce the public debt.
4. Return to a gold-coin monetary standard, give the people greater control over the government's "use and abuse" of the public purse, and reverse the trend toward a government-managed economy.
5. Increase production and productive effort.
6. Abandon feather-bedding and other devices for collecting pay for work not done.
7. Businessmen should hold down inventories and avoid hoarding.
8. The tax laws should be revised so that business can retain a large percentage of its earnings for the purpose of improving and expanding facilities.
9. Credit should be used more cautiously, and the safety margins against credit extensions should be increased.
10. Sellers should operate on the lowest possible profit margin, in order to prevent a large price decline followed by force liquidation.
11. Tariffs and other restrictions on both domestic and foreign trade must be reduced.
12. Government must realize that it cannot buy scarce goods in large amounts without further forcing up prices.
13. Principally and price maintenance laws must be repealed and Federal subsidies not necessary to the national defense should be abandoned.
14. Government should stop confusing symptoms with causes, and, further, get away from controls of various kinds which maladjust the economic machine.
15. Consumers should not buy what they do not actually need, nor should they borrow to buy things they can do without.
16. "The apparent tendency to loan too freely and too much to foreign nations" should be curbed.
17. Interest rates must be permitted to find their natural level.
18. The Federal Reserve System should adopt monetary policies that will "foster more harmonious relationships in various segments of the economy."

This is a big and controversial program, and not all of the 53 economists agreed with it. Twenty-one went along on all 18 points. The balance entered reservations or disagreements with one or more of the points. Twenty were against tax reduction—the point which created the most discussion. On the other hand, point one, on drastic government economy received the vote of all 53, which is in itself a very interesting commentary on the thinking of professional economists in this time of vast budgets.

Assuming that such a plan as this would strike at the base on which inflation rests, what is its chance of enactment? The obvious answer is none, at this time. Everybody would be in favor of the particular points which benefited them, and against the particular points which might hurt them financially. The government, industry, labor and agriculture would want sections of it eliminated or modified. And Congress, in an election year, is going to move very cautiously and dodge going to the mat with controversial issues as long as possible. Yet, in the opinion of the most dispassionate observers of the national scene, we will have to deal with real causes if uncontrollable inflation is to be avoided.

"THIS TIME FOR KEEPS"
Esther Williams – Johnnie Johnston

Multi-talented Orson Welles co-stars with lovely Loretta Young and Edward G. Robinson in the poignant melodrama, "The Stranger", which closes its engagement at the Southland Theatre on Thursday, February 5th. Co-feature is "Buffalo Bill Rides Again", starring Richard Arlen and Jennifer Holt.

With the attractive setting of Mackinac Island in winter and summer, MGM's new star-studded musical romance, "This Time For Keeps" offers engaging entertainment for all members of the family. Produced in lavish Technicolor, the new hits stars Esther Williams, Johnnie Johnston, Jimmy Durante, Dame May Whitty and Metropolitan Opera star Laurits Melchior. "This Time For Keeps" will open at the Southland on Friday night, with "Alias Mr. Twilight", intriguing mystery adventure starring Michael Duane, as co-feature for its two-day engagement.

Jordan, Ohio, in 1930 is the setting for Warner Brothers' unusual new screen drama, "That Hagen Girl," co-starring Shirley Temple and Ronald Reagan, opening Sunday at the Southland.

Adapted from the Edith Roberts novel of the same title, the story centers around two fine young people, smeared in a vicious small-town gossip campaign.

"That Hagen Girl" presents a new Shirley Temple to her many fans, featuring Shirley in a straight dramatic role, opposite one of Hollywood's most sought-after leading men (Reagan), with handsome Rory Calhoun as "second-stringer". Shirley even undertakes Shakespeare in one sequence, in a Junior College production of "Romeo and Juliet."

Cowboy Charles Starrett stars in the second feature, "Lone Star Moonlight".

Champion Theater, Friday and Saturday

The main feature at the Champion Theatre this Friday and Saturday will be "Home in Oklahoma" starring Roy Rogers and Dale Evans. Roy Rogers rides again in as slick a Western, combining the elements of a musical Western with those of a murder mystery as we have seen in some time.

As a sideline to his riding and roping activities, in this one, Rogers edits a smalltown newspaper. In his role of reporter he uncovers evidence which leads him to believe that the local millionaire, has been murdered instead of being the victim of an accident. So Roy turns sleuth and sets out to solve the mystery, always being helped by his girl reporter, Dale Evans.

There are a couple of fights, which, for sheer excitement have not been surpassed on the screen, and of course the humor of "Gabby" Hayes.

And did we mention that Roy sings some numbers that we believe are pretty super? Companion attraction will be "Her Husband's Affairs," starring Franchot Tone and Lucille Ball.

Delightful and roaringly funny all the way through, never quite reaching the slapstick stage, but always keeping smiles on the faces of the film-fans, this is a wonderful combination—Tone-Ball.

Tone, married to Miss Ball, is always being gotten out of trouble, against his will by his lovely wife. But she never can keep him out of it. Always he is doing something else.

The most hilarious moments arise when a professor produces a by-product which will shave people without a razor. But lo and behold, instead it grows huge beards.

From then on, things happen at a fast and furious pace, and what comes next is always unpredictable. This is a double bill for the whole family to see and enjoy and we grant that you'll all want to see it and not be disappointed with what the two features bring you.

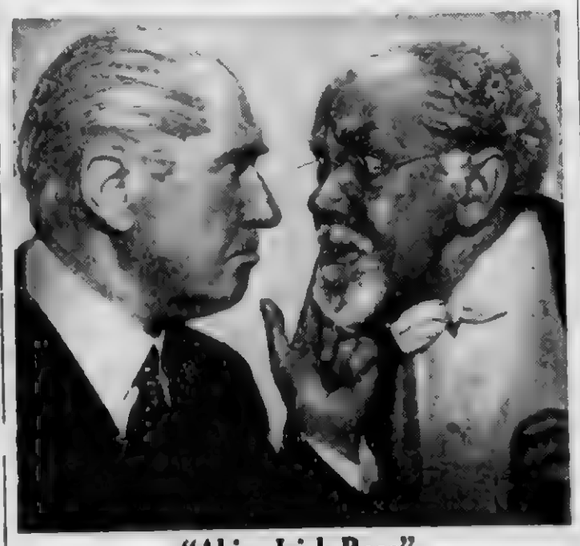
CHAMPION THEATER SUNDAY, MONDAY

"Singapore" will be the main feature at the Champion Theatre next Sunday and Monday. Starring Fred MacMurray and Ava Gardner, "Singapore" is a story in which the Orient provides the background—the Orient with its intrigue, conscientious secret police and mysteries. An adventure tale from beginning to end, this one will give you everything.

It brings us MacMurray, as a dashing adventurous American who enjoys the excitements and risks of smuggling. He proceeds to fall in love with Miss Gardner.

Taking place just before Pearl Harbor, MacMurray loses the girl and believes she is dead. She is really interned in a prison camp and it isn't until five years later when MacMurray returns to Singapore that he finds her.



It'll keep you on the edge of your seats all through, and with able support of Spring Byington and Roland Culver, it is a pleasing and diverting film.

Second feature will be "Over The Santa Fe Trail," starring Ken Curtis and Jennifer Holt. This is not only a musical western but it has an exciting plot. THE HOOSIER HOT SHOTS present several songs and the DeCastro Sisters sing one novel musical number. The Hot Shots, traveling with a medicine show, have been held up by a gang of outlaws. Ken Curtis, Guy Kibbee and "Big Boy" Williams are suspected to be members of the gang. They finally prove their innocence by leading the sheriff to the leader of the outlaws.

THE HOME TOWN REPORTER IN WASHINGTON

WALTER SHEAD AND [illegible]

Neglect by Congress

APPROXIMATELY six weeks have elapsed since congress adjourned for the Christmas holidays and then convened on January 6 for the second session of this 80th congress.

In those six weeks the cost of living has continued its inevitable upward spiral. Time presses and the patience of the American people grows more and more ragged as their savings and current income buy less each day.

Mr. Truman

The pitiful part about it is that congress knew when it adjourned after throwing the sadly inadequate voluntary plan of fighting inflation to the people as a sop or a substitute for action, that prices would be higher when they come back to Washington for this second session.

They knew the law they gave President Truman to sign as an instrument to halt high prices was a sham and only a gesture . . . that it was a phony law wholly lacking in the tools and the teeth to do the job. Many who voted for it admitted privately it wouldn't work and in fact the GOP leadership didn't expect the Democrats to take it . . . they thought the Democrats would vote against it. But the Democrats fooled them. As a matter of fact, both were playing a game . . . a game of politics and neither had the intestinal fortitude to put forward a real government control law with strength in it. Now both parties will be forced to go to government controls and to either rationing or price controls or both.

• • •

United Effort Needed

Several weeks ago this column lauded the members of congress for their statesmanship, generally speaking, in passing the emergency aid to Europe legislation with comparatively few voices in opposition. Today a much more far-reaching program is before congress in the European recovery plan. It will take the highest sort of statesmanship to knock down the straw-men set up in opposition and we hope we won't have to recant about how this congress has risen above partisanship and pressures from minority groups. There is danger though. The traditional isolationism of the Midwest, specifically in Indiana, Ohio and Illinois, is showing through the fabric woven to preserve the bi-partisan foreign policy. Some senators and congressmen from those states are forming a "wrecking crew" to sabotage the Marshall plan. They won't succeed. The Marshall plan will pass, but they'll muddy the waters.

• • •

Recently blue-eyed, blonde Margaret Truman made her Washington debut as a concert singer. Constitution Hall was packed to capacity. Music critics here were no less critical of her voice than those of other cities. But despite the voice of the critics, Margaret, it is reported, has signed a contract which tops her dad's salary. Not bad for the little Missouri girl.

• • •

Sartorially correct Sen. Kenneth Spicer Wherry, the Nebraska mortician and whip of the senate, boasted he would like to claim as much of the glory as possible for defeating OPA. His was the loudest voice against it. Senator Wherry comes from a small town in Nebraska, Pawnee City, population about 1,700. His business interests are in other small towns and apparently he has had a chance to get close to the home folks. In all the debate over legislation to halt inflation and high cost of living, there has been hardly a peep out of Senator Wherry.

• • •

No War Guilt

Railroads themselves and bad railroad management, not the war, are responsible for the freight car shortage. So declares the Chesapeake and Ohio railroad. In no single year since 1925, the C. & O. says, have the railroads of the country bought as many freight cars as they have junked.

They could release thousands of cars, more extra cars than shops possibly could build, by the simple device of lifting deliberate freight slow-downs since schedules are fixed so the fastest freights are held back for the slowest—so no road can have a competitive advantage. In the meantime wheat and other farm produce and manufactured commodities are stored on the ground or on platforms to deteriorate because of lack of freight cars.

• • •

Western States Win

At the last regular session of the 80th congress the economy-minded leaders slashed millions of dollars from the interior department's bureau of reclamation projects. Despite opposition of western senators and congressmen who claimed these projects were the life blood of the west, the slashes went through ruthlessly. But the special session restored approximately thirty-two million dollars of those slashes in reclamation appropriations.

HUMOROUS VALENTINES HAND LOVERS A LAUGH

LOVE is not only light hearted this year—it's positively light headed!

St. Valentine's Day is Saturday, February 14, and little Dan Cupid expects to score bull's-eyes on his customary large quota of love-smitten swains—if he can only keep from laughing!

For Valentines are full of humor this year, packed with jokes and zany cartoons. Romance certainly takes a gentle ribbing—as Adam might have punned after Eve was created

The caustic "comic Valentines" of years ago are gone, and in their place are kidding "slam messages." But whether you're aiming to provoke a chuckle or a heart throb, there are plenty of clever, carefree Valentines to choose from for brothers and sisters, school chums, and friends as well as sweethearts.

Not that the tender "hearts and flowers" sentiments are lacking. You can still send Valentines that declare "I love you truly" with satin and lace trimmings. But if you're really out to make an impression this year, you'll probably send a modern love missive that goes—

"If you won't be my Valentine,
I'll cry—Alas! Alack!
'N' wish, 'n' wish, 'n' wish, 'n' wish,
I had my money back!"

Hairdressers To Hold Convention

The Hairdressers Guild of Ohio will hold its 20th Annual Convention at the Neil House Saturday, Sunday and Monday, Feb. 7, 8 and 9th. Jack Love, owner of the Deshler-Wallick Beauty Salon, is state president of the organization.

Wash Board Out Of Tune

John Taylor, a member of the South Side Eagles square dance band, known as the Pin Ball Maniacs, left his musical wash board at the Eagles' headquarters the other night.

Charlie Leonard, who is in charge of the Eagles' Home, placed it near the back door.

John Taylor says the exposure threw it out of tune. Taylor, we understand, kind of told Charlie Leonard off.

We think that Taylor should quit picking on Leonard as it is a shame to pick on one, a man so small in stature.

For the benefit of you South Siders who don't know Charlie Leonard, he is about 5 feet 9 inches tall and only weighs about 230 pounds.

West Defeats South 63-52

West's Cowboys came from behind to overcome what looked like certain defeat to win from South, 63-52, on the losers' floor Friday night before a capacity crowd.

South was the aggressor all through the first half, leading 41-19 at the rest period. But West came back strong, meshing 44 points in the last two periods, while holding the Bulldogs to a total of 11.

The turn of the tide came midway through the last quarter. With the score 49-48, Chuck Weeks hooked a left-handed shot to shove West ahead, then came back with a long push to clinch it. West was never headed thereafter.

Bill Camp of the losers led the scorers with a total of 23 markers, followed by Duffy Burton of West with 18. Don Culbertson filled the shoes of the great Jack Thrush like a veteran, dropping in seven fielders and a free throw for 15 points. He also played a good game on the defense.

South's Bullpuppies won from the West Reserves in the prelim by the score of 33-32.

Seals For Crippled Children To Be Sold

The 15th Annual Easter Seal Sale for crippled children will open Feb. 28 and close Easter Sunday, March 28, it was announced today by Dr. Walter A. Zaugg, president of The Ohio Society for Crippled Children.

The Easter Seal drive in this state will be sponsored by The Ohio Society and 72 affiliated county societies for crippled children and cooperating service clubs. It will be part of a nation-wide campaign led by the National Society for Crippled Children and Adults.

"Funds raised during the pre-Easter month," Zaugg stated, "will be used to meet those needs of the physically handicapped which are not met by any other agency."

Easter Seal funds provide for hospital and convalescent care; medical treatment; corrective shoes, braces and wheelchairs; orthopedic and therapy equipment; eyeglasses, hearing aids and testing equipment such as audiometres for public school hearing tests; scholarships for special training in care of cerebral palsied children; vocational guidance and job-training; and many other special services.

"Expenditures of the funds will depend on the needs of the particular community and the services already available," Zaugg stated.

The Ohio Society for Crippled Children has since 1919 carried on a continuous program leading to more adequate medical, educational, recreational and vocational opportunity for the physically handicapped. Forty-three county societies are affiliated with the state organization in furthering the program. The main source of funds for the work is the Easter Seal.

Lincoln Still A Living Symbol

The life of Abraham Lincoln, one of our country's most beloved presidents, should be a true incentive to every boy in this great country of ours.

Some years ago we had been to Florida and returning home we especially made the trip to a little backwoods community where Lincoln was born, Hodgenville, Kentucky.

We stood on the spot in a little two-room shack where the Great Emancipator studied in the evening before the open fire place which was his only light.

Lincoln was born in abject poverty, reared in a home with little or no opportunities, the little farm was of very poor soil but he rose to the highest position our country holds.

This should be a lesson to every boy and girl in our land. This can best be described in Lincoln's own words.

I happen, temporarily, to occupy this White House. I am a living witness that any of your children may look to come here as my father's child has.

—A. Lincoln

South Side Girls With Philharmonic

The newly organized Junior Board of the Columbus Philharmonic Orchestra is planning something real special for the Pops concert which it is sponsoring February 14, at 8:00 o'clock at Memorial Hall.

These young people, chosen from the various high schools throughout the city, have formed seven committees to help promote the phases of the orchestra activities which appeal especially to the younger age group, chiefly the youth concerts on Friday afternoons and the Pop's on Saturday nights.

The members of the Junior Board from the South Side are: Joyce Schlang and Barbara Fowler.

A delightful program will be played by the orchestra and, instead of the usual soloist, the splendid North High School Choir under the direction of Miss Evelyn Ross, has been invited to participate in the program. Another interesting event of the evening will be the dance following the concert. This dance is just one of the things which make these Saturday Pops fun for young and old alike.

The entire program is as follows:

Part I—Rienzi Overture, Wagner. Rondo From Hassner's Serenade, Mozart. Pearly Bouquet, Fischer. Three Dances from "The Bartered Bride", Smetana. Waltz, Tales from the Vienna Woods, Strauss.

Part II—Almighty God of Our Fathers, Will James, Let Thy Holy Presence, P. Tschesnokoff. Old Ark's a Moverin'. Battle Hymn of the Republic, arr. by Fred Waring. You'll Never Walk Alone, Rogers and Hammerstein.

St. Marys Loses Three

Holy Family entered a win in the ledger column by clipping St. Mary's 44-42 at the K. of C.

"Scotty" O'Rourke skillfully maneuvered 21 points into the netted hoop to lead his team to the advantage 2-point victory.

Don Leonhardt of St. Mary's and Dick Grimes of Holy Family made it tough for each other as they took personal pride in trying to boost the team's tally and outscore each other, but it ended in an 11-11 deadlock for the duo.

Both teams hit for points from all angles and all kinds of shots, during the first 3 quarters with St. Mary's clutching a 21-20 lead in the second quarter and a 28-27 advantage as the resting period at the end of the third quarter. Then the two teams caught fire in the fourth quarter but Holy Family's glow was a might brighter as they caught up with the "Ramblers" then outpointed them in the closing seconds of the game, with a good set shot and a two-point reward. Then the bell clanged above the crowd like a shot from the dark and the decision pointed in Holy Family's direction by a 44-42 tally at the end of the four hard-fought 8-minute quarters.

RESERVES

It took St. Mary's Reserves two overtimes to do it, but they emerged triumphantly in defeating Holy Family "Raiders" 37-35 at the K. of C. hardwood.

Jack Kelly of St. Mary's sunk a two-pointer to balance the game at 30-all for the overtime. Then Dick Hughes, also of the "Ramblers" put the game into second overtime by a free throw from the horizon strip to make it 31-31. As it is, the first point or points scored in the second overtime by either team means "sudden death" or the end of the game. Then Pat Quilter got the tip off from Grimes, sank a quick bunty for two, to win the game for the Third Street school.

St. Charles Passes St. Mary's 47 to 39 Setback

St. Mary's	6	16	26	39
St. Charles	12	24	33	47

As O'Neil goes, so goes the St. Charles basketball team. With [illegible] O'Neil adding 20 more [illegible] to his seasonal record. He led his team to a 47 to 39 victory. They got stiff competition from Don Kaiser as he converted again and again trying desperately to place the St. Mary's team in the driver's seat. His 18 points and Gene Demorest's nine almost turned the tide of the swiftly flaming game at the K. of C. gym.

St. Charles' assets were rapid breaks and tricky ball handling, while St. Mary's followed through with rebound gatherings and determination.

The game was hot and heavy throughout the four impressive 8-minute quarters. But the words that told the tale was height. Suddenly an elongated player would snatch the ball from the over-stretched hands of an opposing player and ease the ball in for two points. But too often that neglected contraption that hangs defying from the backboard was giving off points by free throws.

The St. Mary's team looked like the younger brothers to the towering St. Charles quintet. High dribbling and low passes were discouragingly battered high into the air or out of bounds. But the familiarity with these tactics came soon in the "Ramblers" of St. Mary's and playing between the "friendly enemies" went on as usual—hot and heavy!

St Mary's team was the always the aggressors, but they were turned back by the points of the towering O'Neil and O'Neil duo. This game gave St. Mary's a .500 [illegible] of 6 out of 12 while St Charles is enjoying 11 wins to 1 defeat.

Reserves

St. Mary's Reserves like to play more than their suppose to or they like overtime periods, because two games straight they have entered into the extra three minutes. But this time they got acquainted with defeat as St. Charles handed them a 32-30 setback.

Jack Kelly of St Mary's tried frantically to put the game on ice with his 15 points but he was always watched by Bill Bergman of St Charles with his 10 tabulated points.

Newark St. Francis Clips St. Mary's

St Francis avenged their defeat early in the season by downing the St. Mary's quintet at the home floor by a tally of 34 to 30.

The game was a shifty, pace setting competition with both teams displaying equal talent.

J. J. Bokas of the victors, was outstanding with his 13 points, while John Donnelly of the losers followed suit with his impressive nine. St. Mary's scored ten straight points to retire at the half with a lead.

In the third period no score was made for three minutes, then St. Mary's banked in two; St. Francis not going to let the opposers outdo them, repeated this process over and over. This brought more of the competitive spirit from St. Mary's and they matched them point for point until minutes before the game ended.

The playing was skillful, but rugged and fouls were called all over the floor on about avery player, but the majority of these free-throws were missed by the competants.

After seeing both teams previously perform one could tell the two teams were not at their peak, but this was rectified toward the end of the game when both teams surpassed their "best yet" with St. Francis gaining the higher point and points and receiving the 34 to 30 victory.

The spectators stayed in their seats until the last seconds of the game afraid to leave because they would miss the final outcome of the exhibition.

St. Mary's was faithfully followed to the Newark game by a few spirited rooters and they really raised havoc with Newark's cheering section.

Reserves

The St. Francis Reserves seemed to do everything right, as they downed St. Mary's 22 to 24.

About every week Bob Gretenbach's name appears in this [illegible], well he gets it there again as he had a repeated performance at Newark as he chalked up 14 points and high man for the night.

Marion Trounces St. Mary's

St. Mary's was sent home with a 68 to 39 setback tucked away deep in their losing pocket.

Dick Schuler and John Baldauf kept up stiff competition all through the game for scoring honors. The only complaint St Mary's had against this, was they were on the same team, Marians. They ripped the nets for 23 and 19 points, respectively.

Gene Demorest netted 12 points for the "Ramblers" but it was [illegible] and his 14 tallies that made him high for the losers. This is the second time this season that Marion has defeated St Mary's and the St. Mary's football team should know the reason why they are so revengeful. Could be a 7-6 score!

Marion took advantage of the game that was played on their home floor when they worked their zone and plays in and out until points flowed freely. St. Mary's tried frantically to halt the shower of points that was being rained on them but Marion seemed to have one of their seasonal "on" nights as they chalked up points from all positions.

St. Mary's had trouble getting started in the first half, but after they found the range, they really stepped it up for the remaining two periods.

Both teams staged an exhibition of new plays and great physical condition rating. On these two points the coaches should receive a large portion of the credit that is due.

Reserves

The Marion Reserves followed right in the footsteps laid out to them by their varsity as they downed the St. Mary's reserves 45 to 25. Points rained from Bill Merchant's arm like buckshots from a sawed off shot gun as he hit the targets for 24 points, more than half of his Marion teammates' total score.

Marching Forward Salvation Army Program

With 12,030 donors, the $200,000 "Marching Forward" Salvation Army expansion and development fund campaign has reached a total of $121,692.47, or 60.85 per cent of the goal, it was announced by Lieut. Governor Paul M. Herbert, campaign chairman.

In making the report, Lieut. Governor Herbert said paid-in pledges amount to $109,931.05, with uncompleted pledges totalling $11,761.42. Special gifts accounted for $55,189.47 of the total pledges, he said.

Expressing thanks to all those who have supported the campaign thus far, Lieut. Governor Herbert pointed out that, while the intensive part of the campaign is over, the Salvation Army fund remains open to receive contributions during 1948. "We know that many people interested in Salvation Army work were not approached during the concentrated solicitation period because of the many pledges that have come in since then," he stated.

The objectives of the campaign, the first public request for funds by the Salvation Army here since 1929, are improvement of Salvation Army facilities to render better service, particularly in youth development. Included are additions to Greenwood Lake Camp to provide for 500 additional children; locker room facilities for Pontiac Corps, 2551 Pontiac St.; clubroom and gymnasium for 200 boys at Goodale Corps, 28 E. Goodale St.; construction of new Women's Lodge, 266 Oak Street; excavation of a basement under the Citadel, 138 E. State St.; to provide room for young people's activities; and $27,000 of the total to be earmarked for national and international services, including the armed forces overseas.

Resolutions of appreciation for their assistance in the campaign were sent to the policy and special gift committees following passage by the Salvation Army's advisory board at the annual meeting.

The Columbus district of the Salvation Army includes Franklin, Madison and Delaware Counties. Brigadier James I. Coates is city commander in charge of the district.

Miss Ruth Evans To Wed In June

Mr. and Mrs. Frank C. Evans, 704 Stanley Av., are announcing the engagement of their daughter, Ruth Louise, to Mr. George Louis Pry, son of Mr. and Mrs. B. J. Pry of Crestline.

Miss Evans is a graduate of South High School and is a junior at Ohio State University where she is a member of Lyra of Pleiades.

Mr. Pry is a graduate of Crestline High School and is a senior at Ohio State University and a member of Kappa Phi Kappa.

The wedding will be an event of June.

In Fighting Mood

THE echoes and re-echoes of "pure politics," of "political demagogery" and of "out - Wallacing Wallace" which have come from the halls of congress in response to President Truman's state of the union message were to be expected in this year A. D. 1948. For it is an election year.

But with exception of his reference to the Marshall plan and his tax reduction program, every single recommendation in the President's message was contained in his state of the union message in 1946 and again in 1947.

The difference was that this year President Truman was in a fighting mood. Even his voice, if you heard it over the radio, was a challenge to the hostile, silent faces before him in the well of the house of representatives. He was talking, not to those men sitting stolidly in semi-circular rows before him, but over their heads to the people of the nation.

Certainly, it was a political speech. Factually it was his party platform, put forward and nailed on the wall for the Republicans and many hostile Democrats to shoot at six months prior to the party convention in July. President Truman is an experienced politician and he is not so naive as to expect many of his recommendations to pass.

• • •

In early December your Home Town Reporter wrote in this column concerning the President's message, "his message to congress will make a play for the tremendous independent and liberal vote. The dope is his message may include recommendations . . . for legislation in the flavor of the Roosevelt-ian era." Since then our mail has contained many letters critical of that prediction. In answer we can only point to the President's message itself. Fact is the President had made up his mind on the liberal tenor of his message and our prediction was made long before Henry Wallace became a candidate for the presidency.

• • •

Among the President's major recommendations were extension of social security benefits and coverage, continued farm price supports, more crop insurance, higher minimum wages, strengthening of anti-trust and monopoly laws, and extension of other social and economic reforms originally enacted by the Roosevelt administration.

• • •

Farm Income Gains

The plea for support in agricultural areas will stem mainly from the wholesale prosperity which farmers now are enjoying. Evidence of this prosperity is contained in official figures tabulating gross farm income.

In 1920, generally conceded a prosperous year after World War I, gross farm income totaled $15,908,000,000. In the golden year of 1929 it was $13,824,000,000. Hard hit by the depression, farmers had a gross income of only $7,055,000,000 in 1933. Figures for recent years show gross farm income of $28,133,000,000 in 1946 and $34,000,000,000 in 1947.

Administration adherents, of course attribute this phenomenal gain to the triple A act, the commodity credit corporation act, crop insurance and the principle of parity prices and price supports.

• • •

Campaign Topics

Other social and economic reforms, instigated by the Roosevelt administration, which undoubtedly will be used as political tinder in the coming campaign include: Unemployment insurance, under which 75,500,000 living workers are protected and under which, in 1946, 5,263,000 people drew $1,091,369,000; old age and survivors insurance, under which 1,502,085 retired workers, widows, children and aged drew $338,529,600 in 1946, or an aggregate of $1,039,996,000 since enactment; federal deposit insurance act, protecting deposits of millions of people totaling $156,000,000,000 in about 14,000 banks; federal housing administration, insuring six million homes for a total of nine billion dollars; old age assistance, and numerous other kindred laws.

• • •

Recalling the advertising in newspapers by the National Association of Manufacturers last summer saying that increased production and the throwing off of OPA controls would bring prices down, there is little faith in the same propaganda currently being run by NAM giving 12 points for recovery — one of which would be anti-trust exemptions, which they particularly would like.

• • •

Honorable Discharge

Known from every tiny hamlet in this country to every foreign shore where U. S. troops fought, the United Service organizations (USO) has closed its tour of duty with a resounding "Well done." President Truman awarded an "honorable discharge" to the organization which for seven years provided entertainment and comfort for U. S. armed forces and their allies. "It discharged its wartime responsibility with signal distinction," he said.

National Security Week

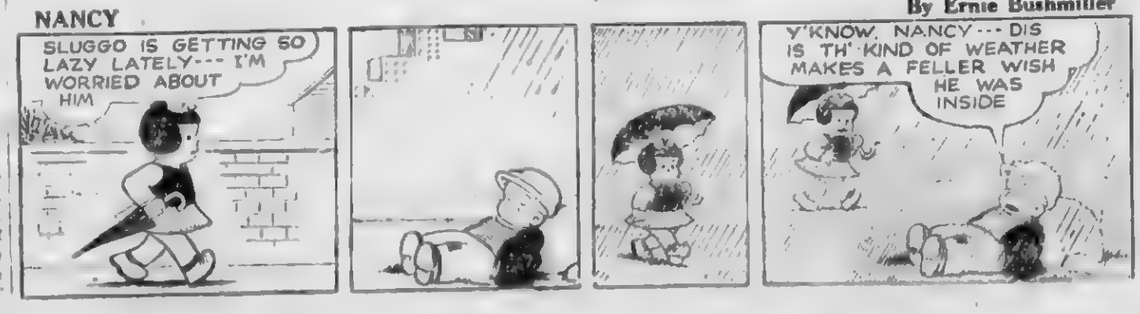
Plans for Ohio's first "Atomic Age" observance of National Security Week were announced today by Colonel Charles P. Smith, Columbus, President of the Ohio Department of the Reserve Officers Association, sponsors of the traditional observance.

Colonel Smith said the local observance, along with that throughout the nation and its territories and possessions, would be held February 12-22, including both of those historically significant dates.

"For obvious reasons, said Colonel Smith, 'the matter of our nation's security under current world conditions is vastly more important than it has ever been before in peacetime. We hope that every organization in the State of Ohio and every individual citizen will make plans now to join with us in this traditional observance."

Colonel Smith pointed out that [illegible] equipped in [illegible] the security of our nation and the National Security Week [illegible] have been expanded to meet the demands of the "Atomic Age" and is in general in keeping with the non-partisan aims of national leaders. The ROA, he pointed out, stands for:

"An Army, Navy and Air Force second to no other nation, composed of efficient but small regular forces and strong civilian components trained and ready to meet [illegible] a strong, healthy, free and informed civilian population.



"There will be a place in National Security Week of 1948 for every citizen," he said. "Just as there is a responsibility every citizen has, particularly in this age, [illegible] Lincoln's birthday and rivaling with Washington's birthday each year since the passage of the National Defense Act in 1920. This will be the twenty-first annual observance, there having been no observances during the war years, 1941-45.

Siebert P.T.A. To Hold Meeting

The regular Siebert St. P. T. A. meeting and Founder's Day Program will be held on Thursday, Feb. 19th and other entertainment will be furnished by pupils in the school.

Former Siebert St. mothers [illegible] ers will be guests.

Meet The South Side Clergy

Rev. Louis E. Heuer

This week we wish you to meet Rev. Louis E. Heuer, who is the pastor of Martin Luther Lutheran Church, Moler and Ann Sts.

Rev. Heuer was born in Wheatfield, N. Y., a little town so close to Niagara Falls that you could hear the roar of the water going over it.

His father was a farmer and to supplement the family income, sold farm machinery for the International Harvester Co.

Rev. Heuer attended St. James Lutheran Parochial School and the North Tonawanda, N. Y. Schools.

Upon graduation the next fall, he entered the Martin Luther College in Buffalo, N. Y., from which he graduated and subsequently was ordained into the ministry.

His first pastorate was a church in northern Minnesota, in the village of Zimmerman, where he stayed for six years.

His next charge was at Akron N. Y., near Buffalo, where he served for 17 years.

Leaving there he next went to Holliday Cove, W. Va., where during the 2½ years of service, a beautiful church was built.

Five years ago he came to the Martin Luther Lutheran Church, here on the South Side.

Rev. Heuer's hobby is music. He has directed choirs and at one time directed a band.

He is very much interested in sports—baseball, basketball and croquet. He also is strong opponent in a game of checkers.

Rev. Heuer is exceedingly easy to meet a little on the retiring side, but when you really know him, the thing that impresses you is his sincerity and his constant effort to bring people into the church and to best serve the Savior.

Rev. Louis Heuer and his wife live at the parsonage, 611 Moler Street.

They have two children. Rev. Bernard Heuer pastor of St. Marks Lutheran Church on the North Side, and Gertrude, wife of Rev. Willard Kalk at Farmersville, Ohio.

All former members and friends of the church are invited to share in the program.

Royalty To Speak At University

A change in speakers which will bring Their Royal Highnesses Prince Peter and Princess of Greece to the Ohio State University campus as next in the University's lecture series, Feb. 19, was announced Tuesday evening by President Howard L. The royal couple from Greece will replace on the lecture series Gov. Gruening's inability to appear at the University was received by Prof. W. Hayes Yeager, chairman of the OSU Speech Department and chairman of the University Lecture Series Committee.

In their Columbus appearance on Feb 19, Prince Peter and Princess Irene will discuss the topic, "Greece, Where the West Was Born."

At the same time of the announcement of the Feb. 19 change of speakers, Dr. Bevis also revealed that Congressman Everett M. Dirksen, scheduled to appear on the lecture series Feb. 25, had been forced to cancel because of ill health. St. Mary's Downs Mifflin Five

The unpredictable St. Mary's "Ramblers" used pep, power, precision to down the Mifflin cagers as they came back from the game spreading the news of a 60 to 46 triumph.

The Mifflin team was sparked by Bob Clemense as he scored 21 points to take the so-called "high man" for the night, but stepping right in his helps came Don Kaiser, lanky St. Mary's center, with a count of 20, not to be outdone John Donnelly came through with 7 baskets and 4 fouls for a total of 18 points.

Team plays worked in the first quarter and the period ended in a 14-point deadlock. Then the two teams decided they had to break this tie so they shifted into a tighter zone. Plays were tried but they failed so the only solution left was fast breaks. St. Mary's came to this deduction first and it proved to be of their advantage as they took to the lockers at the half with the score 30 to 21 in their favor.

Midway in the third period Mifflin switched to a man-to-man defense and held the St. Mary's quintet to 7 points while they racked up 12 points to come within 4 points of tieing the 37-33 score. The St. Mary's players stuck to their zone playing and once again tried to work their plays. This time it worked so they combined plays and fast breaks to leave the Mifflin team in a daze. Before they saw the light St. Mary's had dropped in 60 points to their 46; then the ball clanged ending the game and shattering Mifflin's hopes of putting another loaf of "win" bread in their basket.

Reserves

St. Mary's reserves took the opener 29 to 26 as they downed Mifflin's puppies in a game filled with ohhh's and ahhh's. This was one of the fastest, sure shooting contests witnessed by the Mifflin rooters in many a moon.

Bowling Ladies Challenge Men

For quite some time the members of the Cook and Son Bowling Team of the Swan Major Ladies League have been telling their husbands they could beat them, and repeated threats and nagging have finally brought results.

Saturday, Feb. 7, they met at the Swan with the understanding that the losers pay, and they did.

The following box score shows the husbands were doing all right the first two games, but in the last game the wives continual threats of washing dishes, windows, making beds and no meals for the men for one week if they were beat, unnerved them and they lost the last game and the contest.

The husbands are not to be criticized for after all, they must live with them - - - - peacefully. They say, there'll come a time. The next time they will demand the handicap.

Barrett Victors Over Everett

Confusion, cheering, more confusion and more cheering. What's that? Why, Barrett's basketball game with Everett, of course. On Friday, February 6, Barrett started right off putting the ball into the basket until at the half the score was 14-8. The high point boys at the half were Young, Stutler and Strawser.

After the half was over Barrett kept dusting the basket until the third quarter ended. Then Everett started to hit the net; Barrett didn't seem to be able to hold on to the ball, and Everett kept getting it. Finally the horn went off ending the game, with Barrett winning 25 to 21. The boy who dusted the basket the most was Dwight Stutler with nine points.

This story was written in an English Class in Room 110—

The story is about a little bear whose mother and sister were killed by a hunter. The little bear was so sorry about the death of his mother and sister that he couldn't eat. But finally he became so very hungry that he began to look for berries. He slipped and fell into a deep hole. When he came to, his nose told him there was honey nearby. He saw some bees swarming around an old hollow tree. He climbed the tree and stuck his paw in the hole. The bees swarmed at him. He fell out of the tree. He rolled and rolled, crushing the life out of the bees that stuck in his fur. He sat on the ground holding his nose where the bees had stung him. A little while later he tried again. This time the bees knew they were whipped. They were busy filling their honey bags full of honey and hurrying away. This left the little bear free to eat all he wanted. He then found a nice place to sleep. When he awoke, he climbed out of the hole—a satisfied bear.

RUSSELL THEATRE

Th Russell presents Sunday and Monday "The Wistful Widow of Wagon Gap" with Bud Abbott and Lou Costello, who as household specialty salesman arrive in the tough western town of Wagon Gap, where Bud accidentally shoots and kills a man. They are about to be hanged when saved by an old Montana Law making a murderer responsible for his victim's dependents, in this instance Marjorie Main and her six children. To escape the Widow's clutches Bud and Lou cook up a rumor that she is an heiress, and the local judge, a greedy fellow, proposes and is accepted. Bud and Lou leave Wagon Gap, free men; also "High Conquest" with Anna Lee and Warren Douglas "News and Cartoon."

Fun & Fancy Free At The Southland

Presenting a glamorous new musical feature in thrilling Technicolor, Walt Disney has neatly blended the performances of live stars and animated characters in "Fun and Fancy Free", opening Sunday at the Southland Theatre. This novel new hit embraces two leading sequences in animation, knitted together with action and comments by Edgar Bergen flanked by little Luana Patten who was last seen in Disney's "Song of the South."

Edgar Bergen and his two precocious woodenheads, Charles McCarthy and Mortimer Snerd, vie with Mickey Mouse, Donald Duck and Goofy in a panorama of rollicking adventures known as the "Mickey and the Beanstalk" sequence.

Another spectacular sequence is presented in the "Bongo" adventure, adapted from a short story by Sinclair Lewis. The hero is Bongo, a little runaway circus bear, who encounters a woodland sweetie, Lulubelle, their hectic courtship being menaced by a great grizzly, Lumpjaw. A cast of dancing, singing bears, and many other sylvan creatures, are in support. Dinah Shore narrates the Bongo sequence, and also introduces three of the "Fun and Fancy Free," six new song hits.

When "Fun and Fancy Free" closes its three-day run, the Southland will show an outstanding musical drama of yesteryear, "In Old Chicago", starring Alice Faye, Tyrone Power and Don Ameche, with "Boston Blackie and the Law", mystery thriller, as second big feature.

Commerce Women To Hold Party

Here's the information:

The U. S. Chamber of Commerce for Women will sponsor a benefit party to raise money for the Columbus Cancer Clinic Monday, February 16.

The party will be held at 581 South High Street starting at 8 p. m.

Tickets can be obtained from any member or at the door that evening.

A similar party last year netted $1,000. The Clinic used the money to buy an X-ray machine.

The Clinic—the first of its kind in the United States—was founded in 1921 by Mrs. Samuel L. Black. Mrs. Helen Haughton is superintendent of the Clinic.

The Columbia presents Sunday, Monday and Tuesday "Escape Me Never" with Errol Flynn and Ida Lupino, who as an hoydenish Italian girl, is in love with Errol Flynn an impecunious, unreliable but fascinating musician.

Flynn's brother, stolid Gig Young, wants to marry Eleanor Parker, British socialite, but Flynn who cannot resist a pretty face, wins her away from her brother. Miss Lupino and Young then evolve a scheme whereby she wins back Flynn and Young regains the love of Miss Parker; also "Merton of the Movies" with Red Skelton and Virginia O'Brien.

IDEAL THEATER

The Ideal presents Friday and Saturday "Abie's Irish Rose" with a Special Big Cast. This is an exceptional picture, with no advance in admission price and the first time it has been shown on the South Side. It has comedy, romance and music, and is good entertainment for the entire family; also "The Marauders" with William Boyd and Andy Clyde and a "Cartoon."

You May Choose Branch Of Service

Capt. Thomas J. Madigan, Jr., Commanding Officer of the local Army and Air Force Recruiting Station, revealed today that the Department of the Army has announced a new program for the enlistment of specially qualified Negroes for duty with specified units of the Army Ground Forces and technical services.

This program, which will continue until March 27, 1948 is open for men with prior military service who have completed high school or have been awarded a decoration for valor, the Bronze Star Medal or the Army Commendation Ribbon, and can attain a score of 13 or higher on the standard Army test; and all others who can make a standard score of 17 or better on the same test. Applicants must also be able to pass required physical standards.

Applicants may choose any one of the specific units; however, Capt. Madigan pointed out that assignment to the specific unit of choice is for initial assignment only. Qualified applicants are urged to act without delay, inasmuch as the quotas for these units are rigid and cannot be exceeded.

Lake Erie Fisherman Angle For Sport And Cash

There's fun aplenty of Lake Erie in the wintertime especially when old man winter spreads his big blanket of ice that supports the hundreds of fishing shanties of the ice fishermen who fish both for fun and for cash.

For many weeks the Lake has been covered with several inches of ice which now has thickened from the extended low temperatures to the point of supporting automobiles and trucks which move freely over designated paths between the islands and th mainland.

During moderate weather when such travel is doubtful, island residents and fishermen from the mainland must depend on air travel until someone with enough courage and knowledge of the lake blazes a trail by car. It is said that four inches of ice will support a marching army but 10 to 12 inches is required to support vehicle travel.

Ice fishing on Lake Erie as well as on many inland lakes in Ohio has enjoyed a rapid increase in popularity during the past several years. Ring perch and pickeral make up the usual catches and are taken on live minnows. The fishing shanty serves as a windbreak and is usually heated with small oil or coal burning stoves. Salable fish are transported from the islands to the mainland by plane and a good day's catch for two people will net around $50.00 at the fish market. It's a gold business getting to and from the shanty which usually remains in one place throughout the winter but once there, the art of ice-fishing is quite comfortable and enjoyable as well as profitable.

Maisie: All I have is that beaver coat, and I refuse to wear a fur coat that's ten years old.

Bill: Ten years old? Maisie, you've only worn that fur for a year!

Maisie: I know, but the beaver wore it for nine!

Further information may be obtained at the Army and Air Force Recruiting Station, Room 102 Old Post Office Bdg., Columbus, Ohio.

YMCA Elementary School Basketball League

Southwood and Beck Street were winners in the opening games of the 5th Grade League while Stewart Avenue and Beck Street captured wins for the 6th Grade openers, played at Schiller Park.

Ronnie Woodyard, Southwood forward, tallied eight points to lead his team to a decisive 14 to 2 win over the fifth graders of Stewart.

Jerry Whalen accounted for seven of Beck Street's points while aiding his teammates sink Lincoln's fifth graders in a score of 12-1.

The sixth graders of Beck Street had little trouble in mastering an unexperienced Lincoln combination 12 to 2. "Bennie" Wright, Beck's guard, was an outstanding played with his skillful ball handling.

After trailing the entire game, Stewart sixth graders came through in the last 30 seconds to bring victory by a score of 5 to 4. Both teams seemed to have plenty of trouble finding the hoop. Clyde Elliot saved the day for his teammates with a beautiful set shot from the corner of the court in the closing seconds of play.

In the opening games of the South Side YMCA Marion Township Young People's Inter-Club Basketball Leagues, Fornof and Clarfield each won two games while Smith Road and Scioto Trail also split even.

In the Girls' Basktball League, Fornof and Scioto Trail were victors. In Boys' Class "C" Smith Road and Fornof were on top. In Boys' Class "B" winners were Scioto Trail and Clarfield and in Class "A" Smith Road and Clarfield.

Nearly all games were closely contested with the following players standing out. In Class "A" Muzik and Burkey of Smith Road; Harper of Scioto Trail; Tommy Crabtree of Fornof; and Cy Leonard of Clarfield. Ralph Elsnaugle contributed 14 points for Clarfield in the "B" League.

State Robs Schools And City Of Sales Tax Revenue

The State of Ohio is rapidly driving our cities into bankruptcy by the stealing of funds which should go to the counties for distribution to the city or cities inside of the county, for instance, Columbus, which is a part of Franklin County.

Let's take Franklin County from which for the year 1947, the state collected sales tax from its citizens the startling sum of $10,212,167.93.

Of this vast sum- (which was originally passed for relief of our counties and cities), Franklin County received the measely sum of $1,707,042.42. Of the above amount, Franklin County allowed the City of Columbus $959,999.96; Franklin County retained $635,872.46. The remainder of a few thousand went to the villages in the county.

Franklin County should have received $4,084,867.17 according to the original law, which allocated 40 percent of the sales tax collected to the counties. For our attorney friends they may refer to House Bill 134 Section 5546-18 for the year of 1934.

The same facts are true of schools which were to receive 60 percent of the sales tax. In the year 1947 the Columbus schools were allocated $2,045,941.73 from the school fund. Their share of the sales tax should have been $6,127,007.58.

In other words, the State of Ohio, in creating its huge reserve of $200,000,000 last year, robbed the schools, the county and city of approximately $6,450,000.

No wonder our schools, the city and our county are in the dire financial situation they are now faced with.

Now let's take the City of Columbus, which last year received $959,999.96 when they should have received according to their regular share, based on percentage, $2,450,920.93 a net sum stolen by the State of Ohio from them of $1,490,920.34.

Over the period of the last ten years, the State of Ohio has stolen from the City of Columbus, about $16,000,000 and from the Columbus schools, they have stolen about, in the same period, $25,000,000.

No wonder our city council has had to pass a payroll tax of ½ of 1 percent.

Yet we don't believe this is the solution to the Columbus schools, our city and county problem.

We believe that the larger counties and cities should get together and institute a referendum to give our schools 60 percent and our counties and cities 40 percent of the sales tax which was originally intended.

This should be instituted by calling a meeting of the County Commissioners, the Mayors and Boards of Education from the larger counties and cities in our state. The meeting should be held in Columbus immediately. It should be placed on the November ballot.

We omitted one more move, the referendum should call for the distribution of funds to come from the county they arise in. For instance sales tax stamps sold in Franklin County and Columbus should go to Franklin County, the City of Columbus, and to the lected in that County and City.

This does not apply only to Columbus and Franklin County, but to every other county and city in the State of Ohio which has a city in it of 30,000 population or over. The only difference is the total amount of sales tax collected in that County and City.

The population of the County or City determines the amount of sales tax which would be collected. In the case of Cleveland, our largest city in the state it is probably nearer $18,000,000 that the state has stolen from that city.

Booster To Hold Huge Paper Drive

The South High Boosters are now formulating plans for the biggest paper drive ever held in the South Side.

The Boosters need $500.00 more to obtain the scoreboard for South High School's Athletic Field. The drive is to be held Sunday, April 11, starting at eleven a. m.

The boundaries are to be from Livingston Ave., south to the viaduct, and from South High street, east to Lockbourne Road. If everyone cooperates who live in this territory, there can be no doubt but that the drive will be a huge success. Various South Side merchants and organizations have offered their services for the day of the drive. Let's everyone start now to save their paper. It's definitely for a good cause. Let's make the other sections of Columbus envious of the South Side's spirit. Any merchants, organizations or persons interested in helping on this paper drive, contact Walt Tompkins, at the South Side Booster office, the phone number is GA-9262.

Washington And His Warning

George Washington said, in his farewell address, when he had completed his two terms of the Presidency, "Beware of foreign entanglements."

Sunday we will celebrate his birthday and will honor him, the father of our country.

Twice in our generation we have disregarded his warning and twice we have been drawn into wars, which have cost us billions of dollars, oppressive taxes and hundreds of thousands of our boys, some of whom might have been an Edison, Kettering, Tesla, Steinmetz, Lincoln or Washington.

Twice we have stuck our nose where it didn't belong and twice we have built a Frankenstein by bungling.

You veterans of World War I can well remember the catch phrase which re-elected Woodrow Wilson, "He kept us out of war," and Franklin D. Roosevelt, with his honeyed words, "I say it again, again and again none of your sons shall ever fight on foreign soil."

Twice we have gone to war for supposed Democracy. Twice we have developed such monsters as Lenin, Stalin, Mussolini, Hitler and Tito.

Twice we have turned against the small nations, and turned them over to cruel dictators.

Ask the Lithuanians, Poles, Esthonians, Rumanians, Serbs, Croats, Hungarians, Austrians Czechs and Bulgarians if they have found freedom? If in fact, they are not more cruelly oppressed than before the war, ask them if they have not been turned over to leaders who are no better than our New York and Chicago gangsters.

Fight of course we must when attacked, or we would be naively cowards.

But if we do not remember Washington's words of warning, we are certainly letting ourselves in for World War III.

All honors on this Sunday should go to George Washington

Remember he was First in War, First in Peace, and First in the hearts of his Countrymen

May this generation bring forth another like him who will lead a just fight but keep his and our noses out of foreign entanglements.

Transportation Needs Improving

February 11, 1948

To The Members of City Council
Columbus, Ohio
Attention: Robert Oestreicher
Dear Sir:

Since you are so anxious to investigate the poor handling of the bus situation of Frank Cluff's Columbus-Celina Coach Company, you might take time out to investigate the poor street car and bus service here in the South Side.

When the Columbus and Southern Ohio Electric Company purchased the Steelton line and consequently dismantled that service, nothing was done to improve the Parsons Avenue service.

It is not uncommon to wait on the street cars for Parsons Ave., of from 25 to 35 minutes.

Remember that the far South Side has had 50 percent less service since the abandonment of the Steelton line.

We wish that some cold morning that you and other members of Council would wait for a street car to come to the South Side instead of basking in the warmth of your heated autos.

In order for you not to hide under the cover, that the Columbus and Southern Ohio Electric Company have not street cars, let me remind you that they could have saved enough cars from those abandoned and scrapped when they recently discontinued cars on other lines and installed buses.

Let me further remind you that the South High Street and South Fourth Street bus service is wholely inadequate inasmuch as the public is often forced to wait as much as 20 minutes for a bus.

The Livingston Ave., and also the Whittier St., services, while not adequate, are not quite as bad as the other lines, but would yet stand a lot of improvement.

As you well know, the Columbus and Southern Ohio Electric Company has no franchise.

You also are further aware that settlement was made with them setting up a license and car fare rate which should have gone to the public for vote inasmuch as a rate was established which really made it a franchise.

I have talked to numerous attorneys, among which were some leading members of the bar, and they tell me that City Council's actions in passing this license were illegal and that all that would be necessary to upset this so-called license would be to bring suit suit directly to the State Supreme Court for revocation.

We of the South Side demand better service here and think that you should also investigate both the Columbus and Southern Ohio Electric Company as well as the Columbus-Celina Coach Company.

Yours truly,
C. R. Walcutt,
The South Side Booster

Barrett Plays Fast Game

The Barrett-Indianola game February 10 started out very quickly; Indianola made the first two points, but Bob Strawser came back to put us in the game. At the first quarter the score was 11 to 8. Thereafter, the game went really fast, so fast that the next time I looked at the score-board the score was 17 to 8, and it was the half.

Back out on the floor for third quarter and the boys were really fighting! Bob Call was getting the rebounds which helped out a lot. Then the score was 22 to 18; Mel Young slipped in a foul shot which made the board read 23 to 18. To make the game even more exciting, Indianola had to have its share of foul shots, thereby boosting the score 23-20, and only a few seconds left in the game. Some Indianola ball-passing and time-stalling and then the much-awaited whistle!

Mel Young was high point man with 10, Bob Strawser got 4 points and Pete Purcell chalked up 5 points.

South vs East

South High's unpredictables discarded their usual script Tuesday night at East. Instead of following several previous "formulas" of compiling a commanding halftime lead and then giving it up through sheer exhaustion, the Bulldogs used "reverse English" on East and it worked, 62-59. South spotted East an 11 point lead, but after a 15 5 first period, the Blue and Gray started clicking and never cooled off. They had an amazing shooting percentage in their 41 point second half, particularly Chet Dewey's five swishing long shots in seven attempts. South fought an uphill battle for [illegible] quarters before Harry Nicholson's lay-in gave his mates their first lead, 30-29.

The meager crowd was treated to a bitterly contested fourth period in which each team tallied 20 times. It was a real thriller in the last three minutes, at which time South led 58-53. But with 1:25 to go, Luther Towers, the East who beat South in the first game with a 25 point spree, dropped one in to make it 57-56.

The Tigers were still in front, 19-17, with 60 seconds left, but South clicked off six points in that last minute while East went scoreless, with Frank Zubovich's foul putting the Canines in front 60-59 and Earl Marshall wrapping it up with a bucket and foul in the last 15 seconds.

East's reserves became undisputed champs for the season by winning their ninth game in 10 starts, 46-29.

South vs Aquinas

South uncorked its most potent offense of the season in trouncing Aquinas, 70-47, on the winner's court Friday night, to go into a three way tie for second with West and North.

Aquinas put up quite a battle in the opening stages, but wilted under the barrage of baskets in the final three quarters.

Earl "Dit" Marshall and Harry Nicholson hit for 20 apiece in addition to turning in good floor games along with Bill Camp and Emerson Werner.

Tom Polseno, the City League's top point maker, was again the big show for the Irish, doing a good job of controlling the ball as well as connecting for 21 points.

The Bulldog reserves won the opener, 44-19

5th Grade League

Southwood and Siebert were the winners in the fifth grade league games played at Schiller Park on Tuesday, February 10.

Siebert edged a Lincoln five by a score of 6 to 4. Both teams had a great deal of trouble in hitting the hoop. Center Don Miller, led the Siebert attack while Captain, Gus Hickman, fought all the way for the losers.

Beck Street played a "nick and tuck" game for four quarters before being edged by a determined Southwood aggregation, 12 to 11. Left guard, Ronnie Woodyard, led the winners with six points. Jerry Whalen was the "main plug" on the losing team while sinking three baskets and three fouls for a total of nine points.

6th Grade League

Lincoln Park and Southwood came through with close wins in the sixth grade league games played Thursday at Schiller Park.

After being held scoreless for the first half, Beck Street made a second half bid, only to find themselves on the short end of a 9 to 8 score. Frank Howard, lanky center for Beck Street, led his team in scoring while Benny Wright gave the Southwood boys a tough time with his brilliant ball handling. Jack Smith and Ronnie Cohagen led the winner's attack.

Lincoln Park just barely squeezed past a spirited Siebert five by a score of 10 to 8. Captain George Cook carried the honors for Siebert, while lanky Richard Harvey led the Lincoln Park boys.

Sportlight by Grantland Rice

THE room was full of smoke, as usual. This happened to be a gathering of football old-timers that could take you back 40 or 50 years, and bring you up to the present hour.

The argument or the debate started as to who should be listed as the real greats of football since 1889, when Walter Camp and Casper Whitney had only Harvard, Yale and Princeton to call on. In the course of a long evening, where hundreds of names were mentioned, I can give you the selected survivors nominated through the years in the college game:

A. Stagg

Centers: **Germany Schulz, Michigan; Robert Peck, Pittsburgh; Stein of Pitt.** (Mel Hein reached his greatness as a pro).

Guards: **Fudge Heffelfinger, Yale, outstanding.**

Tackles: **"Pat" Henry, W. and J., outstanding; Slater, Iowa.**

Ends: **Stagg, Hinkey, Shevlin, Kilpatrick, Yale; Oosterbaan, Michigan; Hewitt, Michigan; Hutson, Alabama.**

Backs: **Gipp, Notre Dame; Grange, Illinois; Thorpe, Carlisle; Nagurski, Minnesota; Eckersall, Chicago; Heston, Michigan; Davis, Army.**

We could add Coy, Yale; Mahan, Harvard; Nevers, Stanford; Baugh, T. C. U.; Luckman, Columbia; but the latter two reached top stardom with the pros.

It was a smoke-filled evening, rife with the innumerable blend of many voices. Here was one of the final agreements reached concerning the top stars of many universities—the stars who belonged:

Notre Dame: George Gipp.
Illinois: Red Grange.
Minnesota: Bronko Nagurski.
Yale: Fudge Heffelfinger.
Michigan: Germany Schultz, Willie Heston.
Stanford: Ernie Nevers.
Carlisle: Jim Thorpe.
N. Y. U.: Ken Strong.
Harvard: Eddie Mahan.
Army: Glenn Davis.
W. and J.: "Fat" Henry.
Chicago: Walter Eckersall.

These are the ones that got most of the votes.

All-Time All-America

Some years ago, John Sims (Shipwreck) Kelly of Kentucky wrote to 52 coaches asking each to name the greatest player he had ever seen or coached. Only one man got two votes. His name was Jim Thorpe.

In this conclave, it was generally agreed that Bronko Nagurski was the top all-around star, tackle, end or back, and Pudge Heffelfinger the most amazing football player, who at the age of 53 was still the best guard in the country. Ask Bo McMillin.

In naming an all-time, college All-America team, there are only a few men who stand out. One is Germany Schulz of Michigan, 6 feet 4, weight 245 pounds, faster than most of his backs, at center. Another is Pudge Heffelfinger of Yale, a six guard in 1889, and even better guard in 1921 or 1922, more than 30 years later.

"Fat" Henry of W. and J. is rated by Lou Little and other veterans as the greatest tackle the college game has ever known.

The ends are a problem far beyond our limited range. Hinkey and Shevlin of Yale were two of the greatest defensive ends football has ever known. Hutson and Oosterbaan of Alabama and Michigan were two of the best offensive ends. Don Hutson was undoubtedly the most valuable end that ever walked on a football field. You must start with Hutson. I'll let you pick the other end.

When it comes to the backs, we'll give you three quick names—Bronko Nagurski, Jim Thorpe and Red Grange. For the fourth college spot we can give you Walter Eckersall, Glenn Davis, Ernie Nevers, Dutch Clarke, George Gipp and Ken Strong.

Notre Dame supporters are 100 per cent back of George Gipp, the Far West rolls with Ernie Nevers of Stanford. We'll string along with Ken Strong, one of the best blockers of all time, a great ball carrier, the best kicker we have ever seen and one of the best passers. Also Glenn Davis.

The Super Backfield

If we had to pick an all-time college backfield, it would be Grange at quarter, Thorpe and Strong at the halves, Nagurski at fullback. Davis? Yes, we'd want Davis. Our ends, under the modern game, would be Hutson and Hewitt. Outside of Heffelfinger, there has been no outstanding college guard, and outside of Henry there has been no outstanding college tackle.

The two best passers have been Baugh and Luckman, exceptionally good in college, but far better in the pro game. In the college game Friedman and Governall were just as good.

Red Cross To Extend Services

"The Franklin County Red Cross, during 1948, will extend more services to more county residents than ever before," Henry L. Wagner, chairman of the annual fund drive, beginning February 26, announced this week.

Explaining the need for the county-wide quota of $298,000 this week, Mr. Wagner reviewed services of the chapter during 1947 and sketched the program for the current year.

"Existing services of the Red Cross will continue unabated," he said, "particularly the continuous program of aid to veterans and servicemen and their dependents. For this program alone, 50 per cent of the chapter's 1948 budget has been allotted."

Entirely new, he continued, will be the Red Cross blood center, one of the first six in the county, to be established in Columbus soon. "Free blood and blood products, donated by the county residents, will be available from that time on," Mr. Wagner explained, "to any sick or injured person who needs it. It will be one of the finest services Red Cross has ever been able to offer."

Volunteer services, the chairman added, will continue and, in many cases expand. Nurses' aides will work in hospitals. Gray Ladies will perform their valuable function in entertaining veterans at Chillicothe Hospital and other hospital patients. First-aid, water safety and accident prevention training for all age-groups will be offered as well as home nursing and nutrition.

"These, and many more services," Mr. Wagner concluded, "are vital assets to our daily living, sustained by the contributions of the people who enjoy their benefits. In good times, the Red Cross fosters community growth and service. In bad times, it is the first port of call for immediate and sustaining help."

NEWS BEHIND THE NEWS

Effects of Taft-Hartley Act

WASHINGTON.—Sponsors of the Taft-Hartley law around here now believe almost unanimously the labor unions eventually will come in under the new setup, and think it is working fairly well so far. The unions are merely going through a threshing out period now, variously biting and fighting at the new restrictions, which have not been clarified in detail yet. But actually the law retains for them most of the advantages of the old Wagner act, merely equalizing the rights of employers with these, so general union certification is optimistically anticipated by most congressmen after or during the months of threshing legal rights.

These same sponsors privately thought the first step taken by the new NLRB general counsel Denham was a bit strong. To start out the new regime, Denham ruled a local or national union must file affidavits that its officers are non-Communists (not revolutionists of any nature) if the union seeks any benefits under the law.

The congressional insiders have heard that the national CIO ruling board cannot possibly file affidavits because half of its executive boardmen are Communists. But Denham no doubt figured that if the unions could not promise their own clearance of Communism, they could not promise anything for sure, and he deliberately drove his first showdown primarily on that basis.

COMMUNISTS IN CIO

Denham knows quite well CIO hardly dares hold out on the issue of Communism. The technical CIO position on this is weak, regardless of the popular political angle. For example, if a CIO union refuses to file, the AFL can step in and file, and raid the CIO union. AFL could seek certification from the board, as the bargaining agent, and then the question would be an election to decide whether the plant should have AFL or affiliation with neither. CIO would be completely frozen out of the election.

That idea is what may be one thing behind the AFL's Office Employees International union coming in first with affidavits showing themselves free of Communism. The AFL unions are in a much better position to meet this test. At any rate, Denham started off hewing harder (rather than easing up) on that issue and ultimately ruled all leftover cases would be dismissed unless the no-Communist affidavits are forthcoming within 20 days.

The anti-Communist phase is one of the two initial steps projected when the new law went into effect. The other requires labor organizations to file with the secretary of labor a detailed financial report. AFL unions have been announcing their finances as a matter of general practice, but CIO has not. If CIO hangs out on this, AFL again will be in a position to raid

UNIONS FACING TEST

Thus the showdown has been forced first on cleanness from Communism and cleanness of finances. The way in which the unions meet this test may largely determine the future of their own current organization. The AFL has been the severest critic of CIO on these points, both the secrecy of financial reports (including lists of actual dues-paying members) and charging that a number of CIO locals are Communist-dominated. Some dissident CIO members joined in these charges.

Otherwise the changes merely divide the prosecuting and judicial factions of NLRB, vesting the prosecuting functions in the general counsel, and judicial functions in the five-man board.

The inauguration of the law therefore was under more favorable auspices than adverse advertising has indicated. It falls considerably short of promising early repeal. For encouraging registrations, the government is in an excellent position. The outcome of this initial phase should be evident within a few weeks but it might take months to clarify conclusively all the legal details or establish the policies of both unions and management in detail under the new law.

The new counsel and board (while somewhat under suspicion on their record) appear to promise a fair administration. At least the Republican congressmen seem more or less satisfied so far, although they are very suspicious and cautiously keeping the joint labor investigating committee and Representative Hartley near at hand to watch things.

'VERBAL' CONTRACTS

Much has been made in publicity of the Ford and other contracts which circumvent the provision of the new law, allowing management to go to court to collect damages. Yet these very same contracts contain union guarantees against wildcat strikes and other reasons why management might go to court.

Meet The South Side Clergy

This week we wish to present to you a new comer to the South Side, Rev. Howard W. Buckley, pastor of the Ohio Ave., Evangelical United Brethren Church, South Ohio and Stanley Aves.

Rev. Buckley was born at Reedsville, Ohio, a little town on the Ohio River, near Marietta, Ohio.

By the time he was to enter school, the family moved to Marion, Ohio, where he received his early education in the grade and high schools there.

Upon graduating from High School, he entered Asbury College where he received his B. A. degree.

Rev. Buckley took his theological training at the Evangelical Theological Seminary, Naperville, Ill., and was ordained at the annual conference at Sandusky, Ohio. His first charge was at the Fairview Evangelical Church, at Niles, Ohio, for one year.

He next spent three years at a mission in Kenosha, Wis. The next four years he was pastor of the Eighth Ave., Evangelical United Brethren Church here in Columbus.

For the past five months he has served the Ohio Ave., Evangelical United Brethren Church, South Ohio and Stanley Aves.

For his hobbies, the Rev. Buckley is especially interested in working with youth. He likes nothing better than a good baseball or football game. He likes to play golf and I have been told he plays in the low eighties.

The first thing that impressed us about Rev. Buckley was the ease with which you can get acquainted with him. He is both friendly and likeable and he is sincere in his work.

He lives with his wife and daughter, Ann, aged 4, at 1025 South Ohio Ave.

News In The World Of Religion

By W. W. Reid

According to the Rev. Donald E. Rush, Methodist missionary in Muttra, India, a prominent American church leader interviewed Mahatma Ghandi shortly before his assassination. "Do you think the Christians will be persecuted in the new India?" asked the American. "Of course they will," replied the Mahatma. "Whenever Christians live up to the standard of Christ they will be persecuted!"

Headed by Archbishop Erling Eidem, of Uppsala, a party of six leading clergymen of the Church of Sweden (Lutheran) will visit the United States this summer to participate in the centennial observance of the founding of the work of the Lutheran Augustana Synod which has its headquarters in Minneapolis. The synod's annual convention will be held in Rock Sand, Ill., June 7 to 13. Bishop Eidem will also attend the bi-centennial of the Pennsylvania Ministerium in Philadelphia, May 24-27.

Recently elected general secretary of the Brotherhood of St. Andrew, Lt. Gen. John C. H. Lee, former American commander in Italy, and now retired, says that he expected to give the rest of his life to this religious and educational work among the men under the Protestant Episcopal Church. His first task will be to organize an evangelistic campaign for men and boys across the nation. In this job he will work with Presiding Bishop Henry Knox Sherrill. The Brotherhood was founded in 1883.

The world's most famous blind person, Miss Helen Keller, author, teacher, and humanitarian, will leave on March 26 by plane for a year's visit to Australia, New Zealand, Japan, Korea, China, Burma, Siam, India, Pakistan, Egypt, Iran, Palestine, Lebanon, and Syria. The trip will be made under the auspices of the John Milton Society, a church-sponsored organization for meeting the moral and religious needs of the blind—an organization of which Miss Keller is president and one of the founders. Miss Keller, despite her sixty-seven years and her handicaps plans to speak in the countries visited, and to help bring cheer and hope to the many of the world's 14,000,000 blind. The trip will also mark the extension overseas of the activities of the John Milton Society whose principal work has been the production religious materials in Braille, and the publication of the John Milton Magazine in Braille. Miss Keller will be accompanied by her companion, Miss Polly Thompson, by Dr Milton T. Stauffer, secretary of the Society; and by Mrs. Stauffer, a registered nurse.

"What could be uglier than a padlock on a church door?" asked the Rev. Samuel Parker Trostle, 72-year-old Methodist minister who "returned" from retirement recently to reopen the Methodist church in Plano, Iowa, which he had built and dedicated twenty-five years before. But for the past five years the church had been closed windows broken, blinds in the belfry, door bolted, stoles weather-beaten, only two elderly persons still on the church rolls. Mr Trostle returned to the Church very literally so, for he and Mrs Trostle put her bed in the choir room, cooked in the church kitchen, ate in the former church dining room. Then the pastor surveyed the neighborhood and found scores of people, especially children, who need the church's service. With his own hands he helped repair and rehabilitate the edifice, secured funds and "good in kind" from local business people and residents. On one night ten youths joined the church. And recently Bishop Charles W. Brashares traveled to Plano to rededicate the church and to reestablish a congregation.

Pointing out that now, three years after the "beginning of peace", the Christian churches of Europe and Asia are still struggling to rise to their former places of leadership, education, and services, Dr. A. Livingston Warnshuis, former secretary of the International Missionary Council, warns, "If Christianity loses the struggle for survival in the former embattled areas, it will no longer be counted as a spiritual force in the 20th Century world, holding out to searching people a high ideal and a better way of life." He urges American people of all churches, during the Easter season, to give through their own churches such aid as they can for the reconstruction of church life overseas, denying ourselves certain luxuries and so-called 'necessities'". These, added to a part of the $21,000,000 in funds and supplies promised by the churches for overseas use in 1948, will be used to help ministers with food, salaries, books etc; to train lay men for Christian service; to train youths in church-operated camps; to meet physical and spiritual needs of refugees, displaced persons, and others who are ill, aged, or orphaned.

The 4A students of Room 204 are enjoying the reading of the Boyhood of Thomas Alva Edison. This is an Ohio Pupil Reading Circle book. The ambitious and varying interests of Thomas Edison should be an inspiration to any boy or girl. His disappointments and trials every child should understand.

—R—

The 3A Group has been making a Valentine Train. Each child brought a white box to school, then made red wheels for it and decorated it with various sizes and arrangements of red hearts. This train will serve as a valentine box for the valentine party. Mr. Callahan took a picture of the first section.

This semester the 3A children will have reading work books which correlate with their readers. Most of the children have brought their money to pay for them so the order will be made soon.

One corner of the room has been made into a thriving market, called "The Children's Grocery." This project is being used to improve Arithmetic Skills and to teach the counting of money.

The class has also been busy planning their Chapel Program for March. They are planning to define parts of the Lord's Prayer and to illustrate the story of Easter by playlet.

Council To Hold Open Meetings

Council of South Side organizations, at its meeting last Thursday night, decided to throw four meetings per year open to the public.

The first of such meetings will be held Thursday, March 11, at 8:00 p. m. at the Schiller Park Shelter House.

Films and still slides will be shown of new recreation and playground facilities, and additions here on the South Side.

We have personally seen the planned improvements for our parks and playgrounds. Of Schiller Park, Lion's Club Playground, Lincoln Park, Southwood Playground, Thurman Ave., Playground, and the new Veterans Memorial Park on Greenlawn Ave.

It is a very constructive plan and will benefit both young and old here in our community.

The public at this meeting will be allowed to make suggestions, not only on the playground facilities, but for any other project which will benefit this community.

You may have a street that needs repairing or improper drainage, water may back up in your basement or any one of many, many things that the Council may be able to iron out for you.

The Council of South Side organizations is composed of 24 clubs and organizations, here in the community, and the improvements secured for the community is largely due to the organizations and to the Council itself.

If, in the mean time, you have a pressing problem of necessary public improvements or repairs, just call the Booster. We will be glad to serve you.

The meeting of the Council planned March 11, at Schiller Park will be conducted somewhat like the Town Meetings in the New England States.

C. L. Dumaree, President of the Council, and Principal of South High School, will preside.

Schaefer Urges Recording Discharge

Raymondi E. Schaefer wishes to announce that he will keep the soldiers' discharge record department, of the County Recorder's Office open extra hours, from 1 to 3 P. M. on the following Saturday afternoons: Feb. 21, Feb. 28 and March 6.

This is for the convenience of the men and women who have not had their discharges recorded.

There is no charge for this service and Schaefer urges at this time that all veterans check and, if their discharge has not been recorded, bring it to the County Recorder's Office at once.

Do this before presenting it to the State for your State Bonus.

This is for the protection, preserving and keeping of a true record available at all times in the Recorder's Office.

Economic Highlights

The Committee for Economic Development — an organization which issues non-partisan, objective studies on basic economic issues from time to time— has produced an exceedingly interesting monograph on "Taxes and the Budget." As in the case of its previous monographs, the subject selected by the businessmen who make up its research and Policy Committee, and the study was then made by a group of qualified scholars drawn largely from leading universities. The purpose of the current monograph is to point the way to a long-term government fiscal policy, which will remove the problem from the realm of partisan politics, and make possible a sustained prosperity in a free economy.

The influence of fiscal policy on inflation and deflation, employment and unemployment, and all other economic trends, is almost limitless. The manner in which the government taxes, spends and borrows directly or indirectly affects every enterprise and every producer. The size of the public debt, its form, and the distribution of the obligation, strongly influence individual and business spending—and, of course, the commodity price structure. And, equally obviously, the weight of taxation vitally affects the "willingness of individuals to devote effort, imagination and capital to increased production." Thus, government fiscal policy is not a remote and abstract matter. To the contrary, it is of intense personal significance to all.

The monograph in question observes that four considerations are of supreme importance in the development of budgetary policy. First, Federal finance should help to make fluctuations in total demand less severe, and thus aid in stabilizing employment and prices. Second, budgetary policy should serve to restrain unnecessary government expenditures and to stimulate efficiency. Third, it should provide for the reduction of the public debt under conditions of reasonably high employment and production. Fourth, the policy should recognize that it takes time to make most fiscal decisions and observe their effects, and that our ability to accurately forecast economic fluctuations is still very low.

The study goes on to point out that there are three distinct alternatives in budgetary policy. First, there is the annually-balanced budget, which attempts to balance revenues and expenditures, regardless of economic conditions. Then there is the managed compensatory budget, which attempts to adjust spending and tax rates as often as is necessary to keep employment or the national income steady at a high level. Third, there is the stabilizing budget, whose purpose is to set tax rates to balance the budget and provide a surplus at agreed high levels of employment and national income and thereafter leave them alone unless there is some major change in national policy or the conditions of our national life.

The authorities who prepared the study believe that annual budget balancing is unworkable because, among other reasons, it would require the changing of tax and spending programs at times and in directions most harmful to high employment and stable prices, and would involve irregular and unpredictable variations of rates with unsettling effects on business and individual planning. It believes the managed compensatory budget also unworkable, because it would depend upon an impossible degree of accuracy in forecasting business fluctuations, and because, again, tax rates would be subject to frequent and unsettling changes. Finally, it offers the stabilizing budget policy as the best available solution.

This budget is simply explained. Tax rates would be established for a long period of time, and it is recommended that the rate be sufficient to yield a surplus of about $3,000,000,000 at a national income corresponding to employment of about 96 per cent of the labor force. That would mean a balanced budget, without surplus or deficit, if unemployment rose to four or 4½ million people. Surpluses would be used to retire the debt, and not to increase current spending. At the end of five years or so, the tax rates would be reviewed and raised or lowered as the case might be. Frequent change would be made only if some emergency made them desirable or necessary—for example, a war, or an economic crisis of great magnitude.

This policy would give us a genuine fiscal program "as distinguished from a series of unrelated fiscal actions." It does not depend upon economic forecasting, which is the most hazardous of occupations. It recognizes the interdependence of all aspects of economic policy, and is designed to contribute to the goal of full employment. It would pay the groundwork for orderly and steady debt retirement. Business and individuals would be able to plan with greater confidence, in that they would know just what tax rates they would pay for years to come, and they wouldn't have to watch Congress each year to see if the burden was to be raised or lowered. Lastly, the policy can be given the inherent flexibility that is needed in a changing and unpredictable world.

The show is a success and the children realize their false pride had brought their parents their first unhappiness; also "Second Chance" with Kent Taylor and Louise Currie. "News and Cartoon."

Each contestant will be asked a question and fine prizes will be awarded. The contest will start at 9:30 P. M.

Prizes will consist of such articles as lamps, corsages, merchandise for women, men's articles and groceries.

The first "Quiz Program" will be instituted by the South Side's own Bob Benjamin, who for many years, was in vaudeville and you may expect a good hour of fun and facts.

The program will be held each Tuesday night says Joe Alexander, the genial host of the Club Alexander.

Joe says, come down next Tuesday and win a prize and participate in the fun.

Club Alexander

This week at Club Alexander you have Syd Ray in the role of comedy emcee, he presents Ilene Bradley, character dancer, graceful and versatile. Mattie Kay tapster with an unusual routine. Black Friday Shivers & Shudders

Shivers and shudders are promised film-goers at the Southland Theatre on Friday and Saturday nights this week, at the dual program of "The Black Cat" and "Black Friday," thrill-filled chillers packed with hair-raising events.

Replete with thunderstorms and oodles of sinister characters, "The Black Cat", which stars Hollywood's favorite man with a gun, Alan Ladd, and Basil Rathbone, centers around the eerie Winslow estate, the eccentric and rich mistress of which has an obsession for providing a home for stray cats. When the mistress of the household is found murdered, macabre happenings will keep you glued to the edge of your seat.

Those two specialists in horror, Boris Karloff and Bela Lugosi, are the goose-bump-inducing stars of "Black Friday". Karloff portrays a surgeon who performs the daring operation of transplanting part of the brain of a vicious criminal into the brain of a gentle college professor.

Young and old will enjoy the Southland's Spook Show, which will be offered at regular prices.

Sunday and Monday, the decidedly-different new romantic drama, "Christmas Eve", will head the Southland's double program. With the stellar cast of George Raft, Ann Harding, Joan Blondell, George Brent, Randolph Scott and Reginald Denny, "Christmas Eve" is sterling screen entertainment for anyone, any night of the year. Roy Rogers and Dale Evans (Mrs. Roy Rogers) co-star in the second feature, "San Fernando Valley".

IDEAL THEATER

The Ideal presents Sunday and Monday "Hit Parade of 1947" with Eddie Albert, Constance Moore and Roy Rogers. A musical with catchy songs and specialty numbers, and a boy-meet-girl back stage theme which deviates from the usual formula by a new story twist; also "Bulldog Drummond Strikes Back" with Ron Randall and Gloria Henry "Two Cartoons."

John H. Baker, commander of St. John Post 983 and Dr. Sylvester H. Bergman, commander of Father Fulter Post 1358 of Catholic War Veterans announce a rally for the purpose of assisting Catholic Veteran of World War II in the completion and filing of their Ohio bonus application forms.

The rally will be held at the Nights of Columbus Ballroom 6th and State Streets on Tuesday March 2, at 8:00 p. m. Non-members of C. W. V. are particularly invited and there will be no admission or other charges for the services rendered.

The Catholic War Veterans will furnish each veteran with a bonus application form as well as detailed assistance in the completion of these forms. A Notary Public will also be present to take the acknowledgements on the applications.

All bonus applicants attending the rally are also invited to see a screening of the 1947 World Series Baseball films, as the guest of the Catholic War Veterans.

Gal: All my life I've been saving my hugs and kisses for the right man.

Guy: Prepare to lose the savings of a lifetime.

CHRISTMAS EVE AT THE SOUTHLAND

Remember that popular star of yesteryear—Ann Harding? Well, look twice, for in the picture above, you see her as she really looks and as the 70-year-old woman she portrays in "Christmas Eve", romantic drama opening Sunday at the Southland Theatre. In "Christmas Eve", Miss Harding calls upon the aid of her far-flung adopted sons (George Brent, George Raft and Randolph Scott) to save her fortune from a scheming nephew, Reginald Denny. The trials and tribulations the sons go through to arrive by their foster mother's side on Christmas Eve make this picture one of the most refreshingly different films of the season.

Your Home
By Frances Ainsworth SC

One of every home-maker's primary concerns is to keep her home safe . . . and I know you'll be interested in what I learned recently when I met Mr. Hayes Quinn, color consultant of the Pittsburgh Plate Glass Co.

Color can be used for safety! Mr. Quinn explained that industry has long used color to help reduce accidents and raise morale in plants. Well, it is certainly logical that we housewives can do the same, isn't it? For instance: Bright colors may be used as danger signals — other colors used to induce cleanliness and good housekeeping. I'd like to tell you some of the new uses for paint that we found after thinking over this idea.

First, we painted our basement steps a light color. As these steps are generally not lit as well as others, the light color paint helps to see better and saves dangerous falls. Then we painted the electric switches and the furnace door handle in bright red — as a danger signal.

After we had accomplished these safety precautions, my husband decided to paint each one of his tools with a different color handle — to help choose them in a hurry . . . and not to be outdone, I did the same thing with my kitchen utensils. You'd be surprised how much time I actually save by knowing which handle is painted what color!

We're planning to outline our house numbers and mailbox in a deep color which harmonizes with our house — and we are going to use our new safety paint idea in dozens of other places, too. I think that all of us should use every method we know of to insure home safety—don't you?

WE DO IT SERVICE.

Art Display At Gallery

Pottery and ceramic sculpture will be shown in the "Contemporary American Ceramics" exhibition at the Columbus Gallery of Fine Arts from Thursday, February 12th to Sunday, March 7th. This will be an exhibition of the works of leading American ceramists, selected from the Twelfth Ceramic National Exhibition sponsored by the Syracuse Museum of Fine Arts and the Onondaga Pottery Company. Many Ohio ceramists are represented and a number of Columbus persons. Among these are Mr. Paul Bogatay of the Ohio State University Department of Fine Arts who exhibits four pieces; Mr. Eugene B. Friley, Instructor at the Ohio State University Department of Ceramics who shows four pieces; Mr. Chester R. Nicodemus, whose studio is at 447 Clinton Heights Avenue exhibiting two pieces. In addition there are a group of vases, bowls and pots by the late Arthur E. Baggs, Director, Ceramic Department Ohio State University.

The National Ceramic Exhibition presents again as it has presented in eleven preceding years, the best work in creative ceramics by America's artists and craftsmen during the past twelve months. The quantity of good work, the number and beographical range of the contributors, are impressive. In modern times no country in the world, and probably no group of countries, has evidenced such remarkable interest and versatility in this field.

The exhibition was founded in Syracuse in 1932. It attracted international attention in 1937 when it was officially invited by the Scandinavian countries and England, and again in 1939 when invited by the Golden Gate Exposition. It is circuited annually by the Syracuse Museum to important museums throughout the United States.

The Final National Jury of Selection and Award was composed of: Chairman, Henry Varnum Poor, Painter and Ceramist; Ivan Mestrovic, Sculptor of Syracuse University; Carl Walters, Woodstock, New York and Advisor R. Guy Cowan of the Onandaga Pottery Company and Trustee, Syracuse Museum.

SOUTHEAST LIONS

The members of the Southeast Lions Club enjoyed a picture "Life In the Arctic" at their weekly noonday luncheon at the Swan Grill Tuesday.

Father Leonard Scannel, O. M. I. Director of Propagation of the Faith for the Columbus Diocese was the sponsor of the film and he gave a narration with the film.

Father Scannell spent four years in the Arctic on a Mission Band and while there made the pictures, for which a Hollywood producer offered him the tidy sum of $60,000.00 which was of course refused. Father Scannell also served as the Chaplain Corps as a captain and was stationed in Greenland during the last war.

BAND LEADER VAUGHN MONROE pauses between shows in Columbus long enough to catch up on the history of his native State. He is shown here with Madelyn Russell, vocalists with his band; and John R. Advent, executive secretary of the Ohio Development and Publicity Commission. The book has just been published by that commission and is free to anyone interested in the many interesting historical spots in Ohio.

Free Booklet For Asking

Hundreds of Ohio's historic sites and shrines are listed in a directory published this week by the Ohio Development and Publicity Commission.

Through the medium of photographs and short stories the book covers Ohio's history from the days of the prehistoric mound builders to the present time. Battlefields, forts, birthplaces, memorials, inns and other historic subjects are described as to their location and significance.

No other booklet has ever covered Ohio's historical subjects so completely. More than 50 pictures are used to show the most important places.

In addition to the photographs there are stories about the prehistoric mounds and earthworks; settlement of the first village at Schoenbrunn; wars that were fought on Ohio soil; Ohioans who became President; famous stagecoach taverns; unusual houses; and memorials to great men and their deeds.

The book is designed to inform Ohioans as to the historic importance of their state and to encourage vacationists from other states to visit Ohio's world famous spots. Anyone desiring a copy of Historic Ohio may receive one by writing to the Ohio Development and Publicity Commission, Columbus, Ohio.

SOUTH LOSES TO NORTH & LINDEN

St. Mary's Takes Springfield

Springfield turns back the charge of the St. Mary's "Rams" 60-53.

Springfield visited Columbus with hopes of a victory and luckily they fulfilled their quest, at the expense of St. Mary's by a 60 to 53 tabulation.

Don Kaiser, St. Mary's center, seems to improve and get more points every game. This week he ended up with a neat 28 marks, 8 baskets and 12 fouls.

Here we go into the first half, a fast moving, well played stanza with score being tied three times. The lead switched from one team to the other with such lightning scoring that it was hard to keep track of who really was winning. the spectators collected their wits as the half ended and found Springfield ahead 31 to 35.

The third quarter was an exchange of ball from one team to the other, but despite this fact, the scoring was low.

Then the two teams must have visioned a victory and they stepped it up and racked up points galor. Then the dust from the firing had cleared, the scoreboard and referees both pointed to the victors, it was Springfield by a 60 to 53 margin.

When the two teams had cleared the gym and the spectators were filing out, the books showed 40 pointers had been scored through the contest and a total of 33 for them. One could say the game was either won or lost from that treacherous horizontal stripe, the foul line. Spirit, Spunk and scoring were the three S's for the exciting game.

Reserves

The St. Mary's Reserves jaunted off to a slow start and never caught up. At the end of the game they were 19 points shy of winning. Springfield's seconds flattened them like a steam roller, 44 to 25. The reason was that Laub and Puirne of Springfield continued to hit for 16 and 12 points, respectively.

Booster To Hold Huge Paper Drive

The South High Boosters are now formulating plans for the biggest paper drive ever held in the South Side.

The Boosters need $500.00 more to obtain the scoreboard for South High School's Athletic Field. The drive is to be held Sunday, April 11, starting at 11 a. m

The boundaries are to be from Livingston Ave., south to the viaduct, and from South High street, east to Lockbourne Road. If everyone cooperates who live in this territory, there can be no doubt but that the drive will be a huge success. Various South Side merchants and organizations have offered their service for the day of the drive. Let's everyone start now to save their paper. It's definitely for a good cause. Let's make the other sections of Columbus envious of the South Side's spirit. Any merchant, organizations or persons interested in helping on this paper drive, contact Walt Tompkins, at the South Side Booster office, the phone number is GA 9262.

St. Charles Shoots St. Mary's 58-47 Loss

By Don Morbitzer

St. Charles shoots St. Marys a 58 to 47 loss.

The stage was set at the St. Charles school gymnasium and a curtain calling performance was viewed between the St. Mary's Ramblers and the St. Charles Cardinals.

After the Cardinals were done chirping and the rams' bucking subdued, the score was 58 to 47 in St. Charles' favor.

Don Kaiser made the luck of the Ramblers' horns felt, when he had had a stampeed of 24 points. The St. Mary's team gave good support but the efforts weren't enough to take the decision.

Jim O'Neil and Boris O'Neil sang the loudest song for the Cardinals with 17 and 15 points respectively.

This was a great game between the two mythical "friendly enemies" and the victor usually takes great pride in its winning one of its toughest competitors. The entire game was executed like the precision of a Swiss watch. The practical zone defense was used throughout the entire game. It was played skillfully and watchfully, but unbelievably the players shiftly maneuvered points through the defense for the four short periods.

St. Charles scored 15 points in the last quarter and St. Mary's racked up 14 but the South Third St. School lost out by trailing ten points at the end of the third quarter.

The crowds were keyed to a shattering pitch for the entire game and this spirit is what seemed to urge the player to give a spectacular performance. The A, B, C's for the game were Ability, Breaks and Confidence and St. Charles capitalized on these assets and trodded off the floor with a 58 to 47 advantage.

Reserves

The St. Charles quintet rolled to a 43 to 33 victory over the St. Mary's reserves in the opener. If fans want to see some good basketball playing and get a peek at the future stars of Greater Columbus, these were the games that should have been witnessed to accomplish this task.

Capital University will be featured over the Ohio radio network on February 27 on the Ohio Story program sponsored by the Ohio Bell Telephone Company which is heard locally over station WBNS at 6:30 in the evening. The program will originate on the stage in Mees Hall out on the Capital campus.

In its OHIO STORY program the Ohio Bell Telephone company brings to the people of the state high lights in the growth and history of the commonwealth, and dramatizations of unusual events in the experience of individuals and institutions. Capital University is being featured because it is one of the pioneer educational institutions in Ohio, having been founded in 1830, and is unique among mid-western colleges and universities in the area of music.

The University is one of the very few schools with an enrollment of 1000 students that maintains five major musical organizations of unusual excellence, and which has a third of its student body holding membership in such organizations. Capital University maintains one of the nation's three great a capella choirs, the Chapel Choir, with a membership of 70. It has a women's chorus of 80 voices, a men's glee club with 42 voices, a symphony band with 85 members and a symphony orchestra with 60 members. The total membership in these groups involves 30 per cent of the University's 1000 students.

The Conservatory of Music, which has made the campus a mecca of musical activity, was established in 1913. Instruction is offered in practically all branches of theoretical and applied music and the conservatory enrolls 800 annually. The teaching staff consists of 35 instructors in music. The Ohio Story program will feature four of the University's musical organizations including the Chapel Choir, the Men's Glee Club, the Women's Chorus and the Symphony Band. The Chapel Choir will be directed by Prof. Ellis Snyder. Prof. Wilbur Crist will direct the Glee Club which is the permanent holder of the Ohio Championship Cup in state Glee Club competition, and also the Band. Prof. Kenneth Keller is the director of the Women's Chorus.

The Ohio Story Program is carried by seven radio stations including Columbus, Toledo, Dayton, Youngstown, Steubenville, Cleveland, and Zanesville. It is rated among the first 10 most popular programs in the state and has a listening audience of over 600,000.

The Ohio Story was originated to tell residents of Ohio about their state and particularly about the things which make Ohioans proud to be a part of it.

We Are Comparing Prices Again For You

In last week's papers much stress was placed on the prices of grocers. Whole pages and double pages of chain grocery stores were devoted to selling the customer.

In one case a large four-page, newspaper size circular, was put out in addition to their large ad in the downtown papers, by mailing individually or otherwise.

Now let us look at the prices of some of these stores in comparison to some of our independent stores, here on the South Side and let you be the judge as to which is the cheapest.

Independent Stores—Chuck roast 45 cents. Catfish, smoked, shankless 39 cents Pork chops center cut 57 cents Ground beef 39 cents Hams, shankless, 33 cents.

Chain Stores— Chuck roast 57 cents. Catfish, smoked, with shanks, 39 cents Pork chop center cut, 63 cent. Ground beef 45 cents. Ham, shank ends 35 cents.

These same prices prevailed in proportion throughout the fruit and vegetable departments, at grocery [illegible] dent grocery being [illegible] chain store.

[illegible] the box off the chain [illegible] owns his own building [illegible] help mostly comes from [illegible] munity.

The chain store [illegible] leases his building [illegible] may come from any part of the city or state.

Once a month a crew of men inventory the chain store. You pay them out. They also maintain a warehouse. A general manager supervisor, inspectors and what not.

Then on top of this, money back of chain stores comes from stockholders who may live anywhere, but the stock must pay a dividend on top of this.

The independent grower only expects profits for himself.

The [illegible] buying of the chain store is often at the public's expense by less contents in the package or inferior goods

Remember once and twice day an armored truck stops at the chain store and carts the money from the community, while the independent store takes his money to the neighborhood bank.

Isn't it about time that you patronize your neighborhood grocer and keep your savings in your own pockets?

Shop at your independent grocer now! Every chain store purchase robs your boy of chance to be his own boss some day.

St. Mary's Get Little Opposition From Chillicothe

(By Don Morbitzer)

What looked like the start of an outstanding game, at the 10-all mark at the end of the first quarter was turned into a riot of points of the side of the "Ramblers."

This spree of points was had by Don Kaiser with a total of 11 baskets and 6 free throws for a total of 28 points. The St. Mary's team had their win further aided by Gene Demorest and his 13 tallies. That's a slew of points for two boys in one night.

Jim Lapine, of Chillicothe Central Catholic, not only led his team in scoring 14 points, but also was outstanding with his long shots and playing ability.

St. Mary's has played Chillicothe twice this season. Earlier in the season the "Rams" downed them 49 to 27. The second game seemed to show which team improved the most by the 78 to 37 tabulation, a total of 127 points to the opposition's 64 for the two games.

Chillicothe tried desperately to work plays and fast breaks but the St. Mary's defense held considerably well. The winners took advantage of their gift of height in Don Kaiser and not only did he score consistantly, but used him as a hub of a great scoring wheel. The winners gave a demonstration of fast breaks and skillfully plotted new plays to down the Chillicothe quintet by a score of 78 points to their meek 37.

Reserves

The St. Mary's Seconds had a fine night and an exceptional high score was turned in as they downed the Chillicothe Reserves 57 to 10. At the half the score was 28 to 0. Then the freshmen team had their mounts in the spotlight and ended the game 57 to 10. Again husky Bob Greisenbach of St. Mary's came through with a high of nine ditto marks. This makes a seasonal record of ten won and seven lost for the St. Mary's Seconds.

South Side Eagles To Hold Head Pin Tournament

Eagle members in good standing here and in all parts of the nation, are invited to participate in the South Side Eagles 4th Annual Headpin Tournament at $1 a game which is to be bowled at the Arena drives, 1436 E. Main St. Columbus, Ohio, on Saturday and Sunday, March 6 and 7.

Jack Brixner, club prexy, heads a 9-man prize committee which has announced a first prize of $100, $25 second prize and 50 merchandise and door prizes.

Proceeds, minus bowling costs, will be deposited in the local S. S. Eagles' social fund to help the needy at Christmas time with such items as food baskets and other supplies for the underprivileged.

With the local Eagles membership at 10,000 last year, the popular Miller & Main lanes promises to get a big play from the club members. Alley manager Mick Daugherty, an Eagle himself, will be on hand to direct traffic, play host to the men and see that everything goes off smoothly.

Eagles may enter as many times as they care to for the buck-a game program. Bowling hours: March 6—11 a. m. to midnight; March 7—11 a. m. to 5 p. m. Tickets may be purchased from Eagle members, at their club rooms at 1167 S. Parsons Ave., or at the Arena.

Assisting Brixner on the committee are these Tuesday night league shooters: Charley Bradford, Charley Leonard, Yank Betrasio, Marion Stumpf, Newt Hahn, Dave Bennett, Oscar Miller and, Tony Filishia.

Very Few In 52-20 Club

COLUMBUS, Ohio, Feb. 19—The so-called "52-20 Club"—World War II veterans who have drawn or are drawing readjustment allowances under the GI Bill of Rights—has a comparatively small membership in Ohio, Frank J. Collopy, Bureau of Unemployment Compensation administrator, reported today.

Of a total of 833,000 Ohioans discharged from the Armed Forces up to the end of 1947, only 241,000 have received readjustment allowance payments. This means that seven out of every ten Ohio veterans have never drawn such allowances.

Only one out of every fifty Ohio ex-servicemen is permanently out of the readjustment allowance picture. Fewer than 17,000 have completely exhausted their benefits under the program.

Nine out of every 100 Ohio veterans who drew one or more weekly payments—and who were otherwise eligible to draw 52—remained unemployed long enough to exhaust their allowances.

As of the beginning of this year, three out of every five Ohio veterans had never filed a claim for readjustment allowances.

News In The World Of Religion

By W. W. Reid

St. Vladimir's Russian Orthodox Theological Seminary, which now trains Americans of Russian ancestry for the priesthood of the Russian Orthodox Church in this country, is to be raised to university level in its teaching by the addition of at least three outstanding church scholars from Europe. The Seminary, which has educational affiliations with Union Theological Seminary in New York City, is housed on a campus in Brooklyn, N. Y. It is planned that the Seminary may eventually become a "specialized" school" of Columbia University. The Right Rev. John, Bishop of Brooklyn under the Russian Orthodox Church of America is dean of St. Vladimir's.

"The Christian church is a fellowship in which men of every generation have found strength to stand courageously against tyrants who would enslave the human spirit," said Dr. Paul Quillian, of Houston, Texas, recently. "In your day and mine, as well as in the days of long ago, the church means a fellowship that brings courage to the hearts of those who seek to follow Christ. Men need courage not only to endure persecution; men need courage to change the course of events in human history. Men in every generation must stand against injustice, fight for truth, work against prejudice, and sacrifice for the betterment of the conditions under which human beings live. To join in a crusade for a better world order may bring cross-bearing, but it is a vital part of the meaning of the church."

The Rev. C. W. Chappell, of Richmond, Virginia, Methodist missionary at Wembo Nyama, in the central Belgian Congo, is engaged in translating important parts of the Old Testament into the language of the Otetela people among whom he and fellow missionaries are preaching and teaching. The New Testament is available for the people of this large African tribe, but none of the Old Testament. Mr. Chappel is also busy in producing theological and normal school texts for the Otetela youth who are preparing to be pastors and teachers, and is collecting native stories as the basis of some of this teaching.

In calling together the 130 churches, from all parts of the world, that comprise the World Council of Churches (non-Roman), from its first assembly in Amsterdam, Holland, in August, the Provisional Committee in charge said: "The Council stands on faith in our Lord Jesus Christ as God and Savior and is a fellowship of churches which accept that faith. It serves the churches, and in no way seeks to legislate for them or control them. It aspires after an expression of unity in which Christians and Christian churches . . . shall in time of need give help and comfort to one another, and at all times inspire and exhort one another to live worthily of their common membership in the Body of Christ. It also seeks increasingly to enable the churches to take united action for the furtherance of Christ's Kingdom."

"To let students see the value of the Christian life and to focus their thinking on Protestant evangelical Christianity", the University Christian Mission, under the auspices of the Federal Council of the Churches of Christ, is being held this winter and spring on the campuses of twenty-four leading universities in as many states. Each of the campuses is visited for a week by an interdenominational team of speakers. Students are given personal interviews, there are general meetings, addresses, chapel services, etc. "Too often religion is considered unimportant by students becaues it is not given a place in our public school educational program," says the Rev. James L. Stoner of the Federal Council. "The UMC makes an appeal as a united Protestant program. College presidents, faculty, and students appreciate the Missions for this influence and its stabilizing factor."

When certain young Italian Waldensian veterans returned home from the war, they desired to build a memorial which was living and constructive, not a monument perpetuating sorrow and bitterness. With the help of other Christian evangelical youth of Italy, they designed and through volunteer labor are constructing a small Alpine village situated high in the beautiful Waldensian Valley. They called it AGAPE, meaning "Christian Love". The name symbolizes their aspiration to put into bricks and mortar their conviction that reconstruction of any kind must be established on the foundation of Christian faith. The workers are mostly students and office clerks from Italy, France and Switzerland, unused to manual labor but eager to help in this community project

Meet An Outstanding South Side Citizen

Elmer F. High

This week we wish to introduce you to another outstanding citizen, Elmer F. (Blackie) High.

Blackie, as everyone calls him, was born near New Washington, Crawford County, Ohio.

He attended a little country brick grade school near where he was born, and graduated from the New Washington High School.

For a number of years he has been in the general insurance, operating High's Insurance Agency at 374 E. Broad St.

He has always been interested in civic affairs, and particularly affairs of the South Side, belonging to the South East Linn's Club, of which he has served as President, the South Side YMCA where he is now a member of the board of directors, the South High Booster's Club, and is on the Church Board of the First English Lutheran Church. He also was quite active in the construction of the new South Side Y-Camp which is one of the outstanding camps of Columbus.

For hobbies Blackie picks two sports which keep him busy the year around. He bowls a good game and, until recently, bowled in the South Side Booster League. As to golf, it is said he plays in the eighties. He also enjoys attending both football and baseball games.

The first thing that impresses you when you meet Blackie High is his magnetic personality. Whatever group he belongs to, he is a natural leader. He is genial, a good mixer and a definite asset to the South Side.

He lives with his wife and three children at 984 Gilbert St.

The children are Ferdinand, at South High School; Joan Carolyn, also at South, who is accomplished in both music and dramatics, and A. F., the youngest, at Roosevelt Junior High School.

Miss Ruby Wears Wed Recently

At a candlelight service Jan. 24 in the home of the bride's parents, Miss Ruby Wears, daughter of Mr. and Mrs. Eber C. Wears, 2217 S. High St., became the bride of Byrl A. Spencer of Jackson, Ohio. Mr. A. H. Wilson, justice of peace, read the double-ring ceremony.

Given in marrage by her father, the bride wore a gown of white taffeta, fashioned along princess lines. The full skirt extended into a cathedral train, and her double-tiered veil of illusion was caught to a tiara encrusted with tiny pearls. She carried a bouquet of snow white roses.

Mrs. Dola Underwood served as maid of honor for her sister. She wore a gown of aqua moire, and carried a colonial bouquet of pink carnations.

Best man was James Underwood.

Bible Institute Enjoying Good Year

The Columbus Bible Institute Inc., is enjoying the most prosperous year of its history. This Christian interdenominational school, which meets on Monday and Tuesday evenings at 743 Denison Avenue, is devoted to the purpose of preparing men and women for more effective Sunday School and church work. Its founders and directors believe that the Bible is its own best commentary and II Timothy 3:16-17 is the Institute's scripture motto: "All scripture is given by inspiration of God and is profitable for doctrine, for reproof, for correction, for instruction in righteousness: That the man of God may be complete, thoroly furnished unto all good works."

The total registration for this school year, to date, is 101, representing 39 different churches in Columbus and vicinity. Twenty different subjects have been offered during the fall and winter quarters and plans are completed for 10 more subjects to be offered during the spring quarter which opens Monday, March 15. A course for the training of teachers for Daily Vacation Bible School will be featured so that this part of the Columbus church program for the summer of 1948 may be encouraged and strengthened.

The teaching staff consists of 21 men and women, who are either ordained ministers, institute graduates or seminary graduates. All staff members and officers give of their time and talents free in order to promote this work.

Columbus Bible Institute is looking forward to the day when it may be located in a permanent home. Its building fund has now reached $1150. Contributions from churches and individuals are being received for this purpose.

Detailed information, regarding in the mail within the next three the spring quarter, will be placed weeks. Anyone wishing this literature should call LA-81181 or WA-1475.

South Side Y Alumni Leagues

5th Grade

Siebert Street and Lincoln Park were winners in the fifth grade league games played at Schiller Park on Tuesday, February 17.

Dave Kochensparger captained his Siebert combination to a 7-5 victory over Beck Street, who was under the leadership of Paul Elkins.

Johnny Otto captured six points in leading an apparent strong Lincoln Park to a 15 to 6 win over Stewart. Vaughn Jones put up an impressive battle for the losers.

6th Grade

Lincoln Park and Beck Street were the victors in the sixth grade league games played Wednesday, Feb. 18 at Schiller Park.

Captain "Bennie" Wright and center Frank Howard collected six points apiece while Beck Street showed plenty of power in downing the Siebert Street boys.

Wayne Tillman played an outstanding game for the losers. Captain George Cook used 13 men in trying to subdue the strength of Beck.

Lincoln found the going none too easy against a determined Stewart team. Not until Stewart lost the service of their Captain "Mouse" Schneider, in the last quarter, was the Lincoln Park boys relieved to push on to a 14 to 9 win. Captain Schneider collected 8 of his team's 9 points before leaving the game on personal fouls. Richard Harvey, Lincoln's lanky center, led the winners with a total of 9 points.

Champion Theater, Friday and Saturday

PIRATES OF MONTEREY with Maria Montez and Rod Cameron, will be the main featuure at the Champion Theatre this Friday and Saturday. Colorful Technicolor lends itself to this story of high adventure and excitement. Companion attraction will be BLONDIE'S ANNIVERSARY. With the famous Dagwood Bumsteads (Penny Singleton and Arthur Lake) you know its good family entertainment.

CHAMPION THEATER SUNDAY, MONDAY

The main feature at the Champion Theatre this Sunday and Monday will be MERTON OF THE MOVIES, starring Red Skelton and Virginia O'Brien. As usual, Skelton is his own amusing, entertaining, laugh-evoking self, with all the slapstick and riotous situations thrown in. Second feature will be the UNFINISHED DANCE. Margaret O'Brien and Cyd Charisse are the featured players in this film of ballet life, with little Margaret accidentally injuring one of the ballerinas to the extent that never again can she dance. The story shows the heartbreaking remorse of Margaret, who lives up to all the great promise that she has previously displayed in preceding films.

Columbia Theater

The Columbia presents Sunday, Monday and Tuesday "Good News" with [illegible] and Peter Lawford. A musical extravaganza in technicolor, a remake of an early [illegible] film and is based upon the Broadway stage success of some years ago and has a collegiate background; also "Always Together" with Joyce Reynolds and Robert Hutton.

The Russell presents Sunday and Monday "Christmas Eve" with George Raft and George Brent, in which Reginald Denny plots to prove his wealthy eccentric aunt, Ann Harding, mentally unfit so that he can annex her fortune. Ann persuades the judge to defer action until Christmas Eve, when her three wards, George Brent, George Raft and Randolph Scott, whom she has not seen in years, will return home. Raft is wanted for income tax evasion and Brent for passing bad checks. Scott is a broncobuster. All three manage to keep the Christmas Eve date and expose the scheming nephew; also "News Hounds" with Leo Gorcey and Hunts Hall; also "News and Cartoon."

IDEAL THEATER

The Ideal presents "Sunday, Monday and Tuesday "Merton of the Movies" with Red Skelton and Virginia O'Brien. Skelton portrays Merton Gill, a callow youth from the midwest, who in the early 1920's is bitten with an unquenchable ambition to crash the movies and become a top western star. Although he does not know it, Merton had a flair for slapstick comedy and is framed into appearing as a buffoon-in which he scores an outstanding success; also "Last Days of Boot Hill" with Smiley Burnett and Charles Starrett; also "Color Musical and Cartoon."

The Parsons Theater

The Parsons Theater presents Sunday, Monday and Tuesday "Golden Earrings" featuring Marlene Dietrich and Ray Milland billed as a new romantic team.

Col. Ralph Denistoun (Ray Milland) uncovering information about a Nazi poison gas formula makes a perilous escape through Germany aided by Lydia (Marlene Dietrich) "Wise Woman" of a gypsy tribe. There are times when one might suspect that the story is being played for laughs, but during its latter half it goes melodramatic with plenty of action and suspense. It's the Fabulous, Fascination Saga of a Romantic Nomad, a woman of Fire and Fame, who captured the Heart of a man whose life was forfeit and saved from his fate. Also "Roses are Red" with Don Castle and Peggy Konudsen and Selected Short Subjects.

Friendly Tavern Donates Receipts

Recently the Friendly Tavern, Woodrow and Parsons Aves., gave one day's receipts to the March of Dimes.

The day's receipts were for Tuesday, February 17, and amounted to $213.14.

To help children is always a grand gesture and the infantile Paralysis fund is the most deserving of all.

We think it is fine that Friendly Tavern should do such a fine thing. It could well be copied by other South Side business men.

South High P.T.A. Old Fashioned Drama

A South High PTA program will be held Thursday, March 4, at 7:45 in the South High auditorium.

During this program the choir will sing and a play will be presented by the Dramatics Department.

The play, an old-fashioned melodrama, will be "Parted on Her Wedding Morn" or "More To Be Pitied Those Scorned."

After the program the PTA will witness a demonstration broadcast. This will help to explain the work of the Dramatics Department quite thoroughly.

Mrs. Howard Hauck, mother of Don Hauck, is president of the PTA.

THE EXILE AT THE SOUTHLAND SUN.

Hopalong Cassidy (William Boyd) and his side kick, George "Gabby" Hayes, are the stars of the current western, "Partners of the Plains," now playing at the Southland Theatre. The co-feature, "Always Together", is a sequel to the popular "Janie" series, with Joyce Reynolds in the role of Janie and handsome Robert Hutton as Janie's problem-ridden young husband.

Saturday night only, the Southland will show a double bill of rootin'-tootin' western hits. "Trail to Mexico", the main feature, stars Jimmy Wakely, and Johnny Mack Brown appears in the second sagebrush saga, "Code of the Saddle".

"The Exile," hailed as the season's dramatic action classic, comes Sunday to the Southland Theatre, with Maria Montes and Douglas Fairbanks, Jr., in co-starring roles. Fairbanks also produced and wrote the story which deals with the spectacular and romantic adventures of England's exiled King Charles II in the Netherlands during the Oliver Cromwell uprising.

Paule Croset, widely publicized movie newcomer discovered by Fairbanks, has a leading feminine role.

A native of Columbus, Warner Baxter, stars in the mystery drama which will be co-featured with "The Exile". Baxter tracks down a wily criminal in "The Millerson Case".

India's Cultural Renaissance

Mrs. Betsan Coats

Attention has been focused of late upon the newest of free and independent nations of the world, India. Not alone is her turbulent political strife and social readjustments in the limelight, but also the cultural renaissance which is gaining momemtum in that country. Some representatives of the west see in this renaissance the needs of much change in western thought and culture. Such a representative is Mrs. Betsan Coats of London, England, who is currently touring the United States under the auspices of the Theosophical Society in America. She has had the advantage of viewing this cultural rebirth at close hand through her association with Srimati Rukmini Devi and the International arts center, Kalakshetra. Rukmini Devi herself is one of the foremost exponents of religious dancing in India, and her arts center, together with Sir Rabindranath Tagore's center Santiniketan, forms a nucleus from which the ancient Hindu culture is being reborn.

Mrs. Coats has traveled extensively with her husband, John B. S. Coats, member of the famous thread manufacturer's family, throughout Australia, Java, New Zealand, and India. She will give two lectures at the Deshler Wallick Hotel while the guest of the Columbus lodges of the Theosophical Society, Sunday February 29—"Life's Jig Saw Puzzle", and Monday, March 1— "Fresh Horizons". Both lectures are at 8:00 P. M. The Sunday lecture in the Grand Ball Room will follow a dinner in the Ionian Room in honor of Mrs. Coats, and a reception on the Mezzanine at 7:00 o'clock. The public is cordially invited to attend both lectures and reception if they would care to meet this charming and intelligent English woman.

Rip Van Winkle To Be Presented

Gay and colorful puppets will tell the tale of "Rip Van Winkle" at South High School on Friday, February 27, at 3:30 p. m. Children and adults alike will love the little old man of Sleepy Hollow who was put under such a spell that he slept for twenty long years and awoke only to find that his wife was dead and he himself long forgotten. This is the third Community Junior Theater production.

An entirely new type of puppet which is manipulated from under the stage by means of hands and rods will be used for this performance. Vivian Michael, nationally known puppeteer, is producing "Rip Van Winkle."

Tickets are only 25 cents for children and 35 cents for adults.

Its Red Cross Time

Throughout Franklin County this week, Red Crosses are appearing as the county chapter launches its 1948 fund drive for a county-wide goal of $298,000, by the close of the campaign on March 16.

On billboards, trucks and taxicabs, store windows and coat lapels the world-wide symbol of announcing another campaign to mercy and humanitarian help is enable the Red Cross to carry on its work and services.

Signs carrying the official slogan, "It's Red Cross Time," and the attractive campaign poster bearing the simple appeal, "Give," have been distributed in every community and through rural areas by members of the Junior Red Cross and other volunteer workers.

Following the kick-off rally on Thursday in the State House, when the big Red Crosses in the State House yard were turned on to mark official start of the drive, volunteers throughout the county were to start their solicitation of homes, offices, schools and factories.

During the drive, five scheduled report luncheons will record progress of the campaign. They will be held March 2, 5, 8, 10 and 12 at the Southern hotel, each honoring a particular group of volunteer workers, and the Victory Dinner, marking the official closing of the campaign, will be held at the same hotel on the evening of March 16.

Henry L. Wagner is chairman of the 1948 campaign, and John P. Biehm is vice-chairman.

Barrett – Franklin Game Brings Win

It was the biggest game of the season when the Barrett Bearcats met up with Franklin Junior High last Friday night on Barrett's home floor.

Franklin's center out-jumped Barrett's Milt Young when the game started, but the Bearcats scored the first two points.

The game was swift with a good bit of action and the gym was packed with tence spectators both for Franklin and Barrett. Bob Strawser and Dwight Stutler of the Bearcats lead both teams in points with 13 each. The lineups were as follows:

Barrett — Strawser, Stutler, Young, Purcell, Brown, Call, Wagner, Guyer, Treneff, Lares, Fridley, Brumfield.

Franklin—Zeller, Cochran, Sparrow, George, Andrews, Sagister, Davidson, Markin, Linson, Williams, Hammock, Grady.

A good game was played by all.

Mr. & Mrs. F. Krauss Wintering In Florida

We received a nice card from Fred Krauss, formerly of Krauss Hardware Co., from Bradentown, Florida.

He and Mrs. Krauss are wintering in Florida, the first real vacation they have had in 25 years.

We suppose when Fred comes back his cronies around Jaeger St., and Thurman Ave., will have to listen to some real fish stories.

Is your piano properly tuned for the beautiful services which you will be presenting in your church during the Easter Season?

Mr. William Cook, a piano tuner with 30 years experience, knows the importance of a properly tuned instrument.

An instrument out of tune will distract from the beauty of your musical offerings. In order to prevent this, Mr. Cook is offering his expert services to churches of all denominations. He will tune your piano for an exceptionally low price anytime between now and Easter. Just call him at GA-6212 and make your appointment.

News In The World Of Religion

By W. W. Reid

Protestant and Eastern Orthodox churches in the United States sent funds and relief commodities valued at $14,500,000 to the war-stricken areas of Europe and Asia in 1947, according to Dr. A. L. Warnshuis, executive of Church World Service, the agency of American Protestantism. The [illegible] in forty-three nations were aided.

"The Presbyterian Navy" is the nickname of the three vessels which play Alaskan waters as missionary fleet of the Presbyterian Church in the U. S. A. "Vermay" is the motor ship owned by the Rev. Varne J. Swanson, pastor at Craig and Klawock; "Princeton-Hall" carries the Rev. Paul Prouty on evangelistic services to the coast villages; and the "SJS" is the service vessel of the Sheldon Jackson School.

Bishop A. W. Noel Porter, Protestant Episcopal bishop of Sacramento, Calif., recently acquired a stable for conversion into a church in Crescent City. It will serve as church until the congregation is able to erect a new building. An altar has replaced the manger in the stable; a cross was placed on top of the structure, instead of the weathervane; a porch with steps added; and the whole was literally covered with paint and whitewash. The congregation was organized a year ago.

According to the Foreign Missions Conference of North America, reports from India and Pakistan indicate that there are some 10,000,000 political refugees passing both ways over the borders between these nations, and that they are badly in need of food and medical supplies. To make matters worse, the rice crop in the area has been ruined by floods, and famine seems imminent. The National Christian Council of India and various missions have set up relief stations in schools, [illegible], and churches; and the American churches, through Church World Service, are sending [illegible], vitamins, powdered milk, clothing and bedding; while Christian doctors and nurses from other parts of India are hurrying to the scene.

"In this distressed and perilous age nothing is of more importance than the emphasis of young people of the spiritual side of existance," says Louis Bromfield, famed novelist and philosopher. It is the tendency of our times to place too much faith on the material side of life. The only source of strength, courage, and achievement is, in the end, faith in one's self, in the universe, and in God. The salvation of the world lies with the young people. This they cannot achieve without the foundation of morals, ethics and faith."

The government of Brazil, cooperating with the evangelical missions and churches of the republic, is working to reduce illiteracy by adapting the picture-word" methods of Dr. Frank C. Laubach to the teaching of Portuguese. Voluntary groups all over the nations are conducting literacy classes. Now the Bible Society of Brazil has issued the Gospel of Mark in a simplified form designed as a "primer" for the "new readers" of the nation, and thousands are reading its pages.

Acting on the appeal of Dr. Toyohiko Kagawa, Japan's leading Christian evangelist, five downtown churches of Portland, Oregon, have organzied a "Goats for Japan" movement, and will send a large number of milk goats to help feed the undernourished children. It has been found that goats are valuable in the poor grazing areas of the islands, and that they furnish an unusually rich milk. Dr. Kagawa has been urging farmers to increase their use of bees and goats "to make a land of milk and honey."

"Modern man has come to a sudden realization that this world is 'one world' ", said Dr. G. Baez-Camargo, executive of the Council of Churches of Mexico. "The peoples of the world are becoming more interdependent. We can no longer shrug off concern for what may be happening in New Guinea or Rhodesia. We know that soon or later we ourselves will be affected. It is apparent that new world patterns must be discarded at once; the world pattern of extreme nationalism, the pattern of empire which aims at world unity built on the master-slave relationship. No unity maintained at the expense of freedom can last. The alternative to the disorder of a swarm of warring nationalisms on the one hand, and the 'order' of world empire on the other, is the world as a family of peoples—the Christian pattern."

The Seventh Day Adventist Church is one of the most generous of American evangelical churches in its giving for foreign missions. The members now give on the average of 60 cents per week for this cause. In 1948 this giving is to be brought up to 70 cents per week to meet the year's budget of $9,000,000.

Economic Highlights

The Committee for Economic Development, a non partisan and non profit organization which engages recognized economists to study and report on problems of national importance, has proposed a tax program for "nineteen fifty X" which is based on the proposition that more than tax reduction is needed—we must also have tax reform. The general objectives of the program are four in number. First, it must yield the required revenue, a consideration which caused the economists to forego many recommendations that would have been appropriate had revenue requirements been lower. Second, the program should avoid seriously repressive effects on incentives to effort and investment. Third, there should be a fair and reasonable degree of progression in the tax burden. Fourth, the program should be equitable in its treatment of persons in similar economic circumstances.

At present, the three principal sources of Federal revenue are the individual income tax, the corporate profits tax and excise taxes. Of these, the first is by far the most important, both from the point of view of revenue produced and influence on the individual. The rate now ranges from 19 per cent on the first $2,000 of taxable income to nearly 87 per cent on incomes in excess of $200,000. The 50 per cent point is reached at a little more than $50,000. But, as the Committee observes, these averages are misleading, for "incentives to productive effort and risk-taking are affected largely by the marginal rates of income tax rather than the average rates of taxes." To give a simple illustration, a person with a $50,000 income pays at a tax rate of 48 per cent. But if he makes his marginal rate of tax earns another $1,000 he will have to pay a tax of $684 on it—which nearly 70 per cent. And this marginal rate grows swiftly as income rises.

The influence of taxation on incentive is obvious. It involves a balancing of the advantages of more income on the one side against the advantages of greater safety or less effort on the other. When tax rates become so high that it doesn't seem worthwhile to work, the effect upon the economy is felt everywhere.

No one knows just at what point tax rates have a serious adverse effect on individual incentive. The Committee believes there is "a psychological breaking point at 50 per cent"—the point where the individual realizes that the government is getting more out of his efforts than he can keep for himself. It therefore advocates that rates be reduced so that a bracket rate of 50 per cent will be reached at the $100,000 level of taxable income. The rate would continue to progress to a top of 77.5 per cent at $1,000,000.

The benefits to low and middle bracket taxpayers would be very substantial. A married couple with two dependents and $5,000 of net income now pays $589—the Committee proposal would cut it to $375. The same couple with $10,000 now pays $1,867—and that would be reduced to $1,160. The Committee further recommends that married people in all states should be allowed to divide their income for tax purposes, just as they can now do in states which have a community property law.

The Committee's findings on the complex subject of corporation taxes pretty well parallel its income tax recommendations. High corporation taxes — which, it should be remembered, are paid in part by consumers in the form of high prices, as well as directly by stockholders—can be a serious deterrent to industrial expansion and thus, to sustained high employment. The present standard rate of corporate taxes is 38 per cent, and it is urged that this be dropped initially to 30 per cent and then progressively downward as lower Federal outgo and higher income may permit. It feels strongly that double taxation exists when the corporation pays a tax on its earnings and, secondly, when the individual pays taxes on his dividends—should be repealed.

Finally, the Committee recommends that all excise taxes save those on alcoholic beverages, tobacco and gasoline should be eliminated.

The Committee emphasizes certain other proposals which, as it says, 'might be overlooked because they do not involve much gain or loss of government revenue.' The most important of these is its advocacy of income averaging for both individuals and businesses. Under the present method, a taxpayer whose income varies from year to year pays a larger income tax than one whose income is stable even though, over a period of five years or so, their total receipts are identical. In other words, a man with an uneven income, such as a farmer or a professional worker, is penalized as compared with the man who received an undeviating annual salary. The cure, the Committee thinks, lies in averaging incomes over a considerable period of time, and lengthening the period for which business losses can be carried forward.

The Committee realizes that its projected program may be subject to much change. It is based, for example, on an assumed national income of $220,000,000,000, and is designed to produce $33,000,000,000 in Federal revenues—$30,000,000,000 for expenditures and $3,000,000,000 for costs. It is offered purely in an attempt to create a tax system which will help the most to stabilize the company.

Is That A Fact?

Are your food choices guided by [illegible]? To clear up some [illegible] ideas about milk, the Columbus Milk Council answers a few commonly asked questions.

Isn't milk terribly fattening? No, milk is not fattening. It is relatively low in calories and unusually high in vitamins and minerals. In fact, doctors recommend it for reducing. Milk is a food, and when used to replace other less important foods, keeps the users well and fit.

But milk is constipating, isn't it? No, it is a liquid, quickly and easily digested. When milk is a regular part of a diet containing ample fruits and vegetables, it has no constipating effect.

May fish and milk or ice cream beaten safely at the same meal? Of course. There is no reason why these two common foods should not be eaten together. Actually many common dishes are made of fish and milk, such as oyster stew, fish chowders and creamed fish dishes.

But isn't milk just for babies? Indeed not. From infancy to old age, milk plays an important part of diet. Children need large quantities because it is the best food for promoting growth and health. Adults need milk to maintain sound health—and to stay youthful.

Lady In A Jam To Appear at Southland

Hollywood's favorite sophisticated comedienne, lovely Irene Dunne, returns to the screen of the Southland Theatre Sunday, in the hilarious romantic comedy, "Lady in a Jam." In this mirth-filled hit of yesteryear, Miss Dunne portrays a daffy New York heiress who goes West to an abandoned gold-mining town, in an effort to recoup her lost fortune. When her New York guardian assigns a handsome young psychiatrist (Patric Knowles) to quell Miss Dunne's many escapades, riot runs rampant, and you'll be left weak from laughing. Loretta Young, Edward Arnold and Robert Preston star in the amusing co-feature, "Lady From Cheyenne."

Tuesday and Wednesday, the Southland will show the outstanding Ronald Coleman picture, "Condemned to Devil's Island," on a double bill with "Swing the Western Way", which features the inimitable Hoosier Hotshots of radio and screen fame.

Dible, Schodorf Exchange Vows

St. Leo's Church was the scene of the marriage of Miss Bette Jane Dible and Mr. Paul F. Schodorf which took place at a fall ceremony with the Rev. Robert Schmidt as the officiating clergyman. The bride is the daughter of Mr. and Mrs. C. A. Dible, 1417 S. Fourth St. and the bridegroom is the son of Mr. and Mrs. O. L. Schodorf, 414 Berkley Road.

Miss Janice Hempf was the maid of honor and wore gold while the bridesmaids, Miss Patti Dible and Miss Carol Rowell, wore apple green and apricot respectively. They carried colonial bouquets.

Mr. Bob Schodorf was the best man and the guests were seated by Otto Schodorf and Mr. Bob Pierce. A breakfast at the Seneca Hotel followed the ceremony. The bride's mother wore a brown dress with beige accents and beige accessories. She wore a corsage of yellow rosebuds. The bridegroom's mother wore brown also and pinned red roses to her shoulder. A reception at Schmelzer's Restaurant was held later in the evening.

For traveling the bride and bridegroom wore blue gabardine suits to match.

St. Mary's Wins Two

By Don Morbitzer

St. Mary's visited Somerset's basketball team and passed their tiding of defeat, how, by excellent ball handling and point scoring breaks and plays. St. Mary's took advantage of Somerset's slow defense formation and skillfully backed up 66 points to their 31.

Don Kaiser, with his pivot shots and numerous rebound take-ins, gathered 19 points for himself. Gene Demorest and John Donnelly, also of St. Mary's, stepped right in his tracks as they set a speedy pace of 15 tallies each.

The first quarter was slow and easy with a 13-8 count in St. Mary's favor. The second quarter picked up a little more but the points seemed to be cooped-up inside the arms of the players.

The second half was all one could ask for, fast, exciting and rugged. St. Mary's flipped shots at will and from the looks of the score the "Ramblers" willed Somerset a low score and dealt themselves a royal flush, with 66 points and a victory, with proof positive of good showmanship and a uniquely handled team.

Reserves

St. Mary's reserves completed their half of the bill by winning our Somerset puppies by a 47 to 23. Again Bob Gresienbrack comes through with 12, while his teammates, Ted Hoffman and Jack Kelly got 10 each.

Crooksville Hooks St. Mary's

By Don Morbitzer

The place was Crooksville, St. Mary's looked over the situation and then jumped feet first into one of the freeiest scoring, highest fouling games in a long time.

The Crooksville "Ceramus" molded themselves a victory out of a compound of team work and a guy named Bob Terrihs, who incidentally went hog wild and dropped in 29 points. That's a lot of points for only 32 minutes, almost a point a minute, pretty good average.

It was St. Mary's all the way in the first half of the game that gave the best showing and got the most cheers from both sides of the gym.

St. Mary's seeing Crooksville's record of 18 won and 2 lost had high hopes of an upset and almost fulfilled this quest, but Bob Terrihs interferred quite a lot. Don Kaiser, Dick Gianvito and Glen Hartnett of St. Mary's took the bench early in the third quarter, the reason, five fouls against them. Following them to the opposite bench went Burly and Cady of Crooksville.

The floor was quite small and it wasn't odd at all to see the ball rebound from an eager spectators' head, but luckily no casualties and playing went on as usual only with a little more caution.

Crooksville had a total of 17 personals and one technical foul called against them and St. Mary's turned ten of these into points. St. Mary's committed 25 fouls and Crooksville made a total of 14 of these good.

At times it seemed like a fou shooting contest, with St. Mary' earning a better average.

The Crooksville team got hot found the range of the basket an showered the net with a flurry o points—68 of them to be exact t St. Mary's 49.

The players made shots tha night, that even, after you sa them go through the net, it wa hard to believe. A great deal o talent was brought forth all night but Crooksville perserved an stole the show with a 68 to 4 booty.

RESERVES

The Crooksville's "Ceramics" dropped the verse that contain hopes of victory, when St. Mary reserves trampled their hopes 3 to 11. Bob Giesenbrach is still racking up points, this time he got 13.

ST. MARY'S OUTSMARTS THEIR ALUMNI 52-48

The St. Mary's Alumni came onto the K. of C. floor, met the St. Mary's team and tried for an upset and they really showed determination in this way.

Both teams were all set for a good, fast, exciting game and they got it dumped right square in their laps.

Again Don Kaiser was the main spoke of the St. Mary's scoring wheel as he rolled in 18 points. The two fast breaking forwards of St. Mary's John Donnelly and Gene Demorest scored 10 to 12 points respectively.

Carl Rau of the Alumni, reminded the spectators of his high school days at St. Mary's, when he reached his old form and racked up 12 tallies.

That basket at the K. of C. was allergic to set shots, but the steel-rimmed basket seemed to be a magnet and drew in all the hook shots, making them and the crowd hoped it up. The shot of the evening came when the score was 48 to 46, St. Mary's Varsity ahead with 48 seconds to go. Ed Kelly, Alumni forward, shot from the middle of the floor, the ball arched high into the air, hit the ceiling and then stripped the basket, the score now 48-48, with 38 seconds left.

Then St. Mary's made two quick but hard earned baskets The bell clanged with the score 52 to 48 Varsity's favor.

There was a great showing of sportsmanship by both teams. They kidded and joked all through the game; this added a touch of humor to the contest. These competitions between the high school boys an the grads bring out the old but familiar faces of fellow students. Schools should have more of them.

RESERVES

The football players of St. Mary's were defeated by St. Mary's reserves by a 35 to 22 tally. It was a good game. It earned lots of laughs and a hope for the underdog's, guess who? The reserves, coached by Dick Coyle, kept their form throughout the game and ended the season right by winning their last season game with a 13-point advantage.

It was the last seasonal game for a number of senior basketball players and these boys deserved every bit of the cheering and publicity they received for their performances. So here's hoping you'll continue in the future with success. It was also the last game fo the St. Mary's cheerleaders, those five girls, who always urged on the team, earned a hand of "thanks" from the St. Mary's teams.

ST. MARY'S IN SEMI-FINAL "B" TOURNAMENT

St. Mary's Wins Two

In the spacious marble walled gym at Otterbein College, St. Marys swamped a favored Pickaway County team 55 to 36.

Pickaway had a record of 20 wins and one loss. St. Marys had a record of 11-11.

The "Ramblers" pulled away to an early lead and held it like the firmness of a vise.

Gene Demorest, flashy forward for St. Marys, lead both teams in scoring as he skillfully racked up 25 points. That boy just couldn't miss. His cause was aided by Don Kaiser's ten and John Donnelly with eight. Out of all the games played there that day, Demorest was high man.

St. Mary's game worked with utmost precaution. Pickaway had to use desperation long shots and a guy named Norm Wolfe of this team was really a "dead eye" until he got five personal fouls. After St. Mary's pulled ahead, Pickaway lost their class and flashy showmanship. It was all St. Mary's doing the showing and scoring. The officiating was accurate and experienced. Nothing got past those two referees.

There isn't anything like a second string. It's just that you can't start ten men in a 5-man game, so those players that didn't start the game for St. Mary's sure finished it in showmanly style. It was a game for a mythical crown and it was played with such determinaion that one would think the crown was gold. Anyway, St. Mary's got the sparkling reward 55 to 36.

* * *

Here we are at Otterbein gym, St. Mary's against Granville, that's the setup. Here are the facts and figures.

St. Mary's downed Granville 58-43, in one of the wildest, sure-shooting contests seen in the Class B elimination contests. Nine players were sent protestingly to the bench in this game—five from Granville and four from St. Mary's, all starters, and still we have a high score and a fine exhibition of excellent basketball playing. This proves a theory that, there is no second string. You just can't start ten men when the game only calls for five.

St. Mary's ended the first quarter like a paper house afire, holding a hot 22-15 lead. In the second quarter, Granville pulled up within five ponts of a tie, as the half ended the scoreboard read 31-26 still in the "Ramblers'" favor.

Then came that drastic third quarter when six of the nine men were sent to the benches—why? For five personal fouls each. In rushed new players, as soon as the team got adjusted to the way his fellow comrade played, the game was sent into a wild flurry of points and amazing showing interesting shots.

Again the St. Mary's team, coached by John Wirts, stubbornly held the lead this tme 43 to 35.

Now, here is that last quarter, which players and spectators either hate to see start if they are ahead or hate to see it end if they are behind. This is always the quarter that spells victory or defeat and for the St. Mary's Ramblers it showed brightly another win and a chance at the championship.

Yes, the St. Mary's quintet passed a 58 to 43 defeat to Granville and ended their competition in the Class B tournament.

After the game was over, the referees called a time so they could get a second wind after blowing their whistles 52 times. That't a lot of toots and wind wasted in only 32 minutes. Thirty-one foul shots were made, almost a point a minute, on fouls alone. But these are the shots that make you hold your breathe and hope. Granville must have held their breathe a little longer because they made 17 foul shots to St. Mary's 14, but still the Ramblers went home with this blue and gold banner, a 58 to 43 decision.

SEEN AND HEARD ON THE SOUTH SIDE

Fred Krauss is back from Florida with fish stories galore. Just wait Fred, 'till Dr. Fillinger starts telling some of his fish stories. They will almost equal Clarence Mooney's.

* * *

Ernie Barta, king pin of the Steelton Merchants' Association, is in the Vets' Hospital at Dayton.

* * *

Why does Walter Snider, South Side attorney and City Councilman, always show up late for Lion's Club? We understand he is hiding out from Steelton Merchants' Association members who are after him to reopen the Parsons Ave., fire engine house.

* * *

We now have the secret of Earl Hayes, onion and garlic culture. He is using the new soilless culture.

* * *

Walt Tompkins, advertising manager of the South Side Booster, has a good line of stories for staying out late. They say he even gets by with them when he tells them to the little woman.

* * *

Who is the good looking redhead from Texas that Bill Devaney is so much interested in?

* * *

Marion Rise, in the Booster some weeks ago, advertised Pillsbury flour $1 under the price it should have been. He stuck by his guns and sold every bit of flour he had in the Rice Food Market.

* * *

Joe Grundy, at Whittier and High St., sells that good sauerbrauten lunch every Wednesday noon.

* * *

They say that Harry Bundy washed his sox on the musical washboard of Os Miller's Pinball Maniacs. Since then the wash board has been badly out of tune. Os says, "Bundy has to pay for the washboard."

* * *

George Rappold, of the Ideal Theatre, is back on the job after a minor operation at Mt. Carmel Hospital.

Just ask George to show you his scar.

washes almost as easy as the dinner dishes

Once over and Lac-Paint surfaces come bright and clean — wash like magic. No rubbing, no scrubbing. And Lac-Paint surfaces stay cleaner, too. Dirt doesn't get a firm grip, doesn't seep into its smooth, glass-like finish. Lac-Paint leaves no brush marks, dries in a few hours. Use it on toys and furniture, use it on walls and woodwork in kitchen or bathroom — any surface inside the home where a glossy, easy-to-wash enamel is wanted. Lac-Paint costs so little, saves so much work around the home. Try it — yes, try it soon.

News In The World Of Religion

During this Lenten season, when there is renewed emphasis in church services on the meaning of the Cross in the Christian faith, a relatively new hymn is finding increasing use in the evangelical churches of America. It is a hymn written to be sung to the famous traditional Irish melody, "Londonderry Air," the words from the pen of the Rev. Thomas Tiplady, noted World War I chaplain, whose world-renowned Lambeth Mission in the heart of London's slums was destroyed by German raiders during World War II. No hymn by a living poet has found its way into more hymnals in recent years than has Chaplain Tiplady's. The first verse reads:

"Above the hills of time the Cross is gleaming,
For as the sun when night has turned to day;
And from its love's pure light is richly streaming,
To cleanse the heart and banish sin away
To this dear Cross the eyes of men are turning
Today as in the ages lost to sight;
And so for Thee, O Christ, men's hearts are yearning
As shipwrecked seamen yearn for morning light."

Under the chairmanship of Bishop G. Bromley Oxnam, of New York, the "Crusade for a New World Order", a social action movement of the Methodist Church, is urging members of the denomination to write senators and congressmen, expressing views concerning universal military training. They are asked to write opinions on: "Is UMT a threat to adequate national defense? Does it drain off billions that should go to research, air power, modern weapons, intelligence service, and a trained army? Does it imperil the American way of life? Does it contribute to ultimate security that lies in world order and in order achieved through the United Nations?" The Council of Bishops of the Methodist Church is already on record as opposing UMT in an age "whose patterns of life and national defense are as yet unfixed", because new discoveries are making old defense measures obsolete, and because UMT will lead other nations to strengthen their arms through suspicion of American motives.

Catholics, Jews, and protestants throughout the United States are observing unitedly their sixth "National Family Week" from May 2 to 9. According to Dr. L. Foster Wood, of the Federal Council of the Churches of Christ in America, which promotes this observance among Protestants, "Family Week is a challenge to American people to create homes which will be a blessing to the men, women, and children in them. Such homes will provide a firm foundation for our national life. . . . Wreckage of homes is now accumulating too fast. When our homes are wrecked, we are part of the wreckage." Churches and synagogues will mark the week with special sermons on either Sunday

In these days when Palestine is on the front pages of newspapers and pre-Easter attention in the churches turns to the Holy Land, many Protestant Episcopal churches plan to give some of their Good Friday offerings to the Angelican mission in Jerusalem. The Rt. Rev. Weston H. Stewart, D.D., is bishop of the diocese which covers 140,000 square miles. There are 35 Angelican clergy—11 Arab, 23 British, one American. There are two candidates for orders and nine lay readers. Services are held regularly in 31 places, and ministrations of various kinds are offered at 20 other mission stations. Church buildings number 29. There are seven hospitals, with nine doctors and 35 nurses. Much of the hospital service is free. In the diocese are 25 schools with 196 teachers. Christians, Moslems and Jews are admitted. The work of the diocese is divided among the Jerusalem and the East Mission, the Church Missionary Society, the Church Mission to Jews, and the Palestine Church Council (Arab). The American Chaplain is the Rev. Walter C. Klein, S.T.D. formerly of the Philadelphia Divinity School.

At the request of the new government of India, most of the Christian churches and misson societies, under the leadership of the National Christian Council, are carrying on relief work, especially for the refugees crossing the lines between Pakistan and India. Bishop J. W. Pickett, of the Methodist Church and head of the Council, has organized a team of 500 Christians who are rendering four types of service: occupational, therapy, medical aid and sanitation, educational and recreational. This group has been counselling with Pandit Nehru, the Hon. Raj Kumari Amrit Kaur, and with Major W. Short of the American Embassy. Church World Service (American) has flown in large quantities of vitamin tablets, dry milk, cereals, and medicines. On behalf of the Christian community, the Rev. H. R. Ferger has installed sound projectors so as to conduct programs of education and recreation in the camps.

The Press Fails in Its Duty

NEW YORK. — THE CASE of Rocky Graziano, the middleweight champion prizefighter, is another in which the reaction of elements of our journalism to revelations of sordidness has been a default of the trust reposed in a free press.

The department of national defense has disclosed that Graziano

was sentenced to one year in Fort Leavenworth, the army prison, in 1942, the year following Pearl Harbor. He served 10 months and was given a dishonorable discharge. The charge was absence without leave, but, as everyone knows, AWOL ordinarily is a mild offense, and the fact that Graziano got a year and did 10 months of it suggests that he was a bad actor in the army. He was.

He was a bad actor before the army took him in the draft in January, 1942. He was a slum kid, like may of the best and the worst natives of the City of New York, and, in 1932, when he was only 12 years old, he made his first court appearance charged with delinquency. He was put on probation but turned up twice more in the next two years on further charges and was sentenced twice to a protectory.

At the age of 18 he was charged with burglary. This was reduced to petty larceny. He and a couple of friends had robbed a school of a movie projector and some other stuff and hocked it or fenced it. He was sentenced to a "vocational institution," but another little job was in the works in the courts at the time so the sentence was suspended. The other charge also was burglary. Rocky and his friends had broken into a night club called the Cafe Valentino after closing, and stolen some wine and cigarettes. For this and the other trick, Graziano, under his right name of Barbello, was sent to a reformatory for an indeterminate sentence.

TREATED LENIENTLY.

The district attorney's office, then under Thomas E. Dewey, tried patiently with this kid. He was worse than the others in the neighborhood, but it was on the recommendation of J. L. McDonnell, the assistant D.A., that he got lenient treatment on the first burglary charge because he was just a boy, and a soft sentence for two rather serious misbehaviors.

But, in November, 1939, he and three others were arrested by detective Prospero Petrosino charged with a stickup with a gun. The victim was sitting in an automobile and they stole the car. The fellow said he couldn't be sure of his identification, however, and the boys walked out. That was close.

On January 9, 1941, about a year before he went into the army, Graziano was arraigned on a complaint of the Children's society charged with a crime against a girl 15 years old. Corroboration is required in such cases, and for lack of corroboration Rocky was dismissed.

When you break it down it isn't so bad, but when you put it together, it doesn't bespeak the sort of character that responsible journalists should defend at the expense of a decent, conscientious and diligent public servant. Nevertheless, last winter, when Frank S. Hogan found out that Graziano had been offered $100,000 to throw a fight—this was before he won the middleweight title—you might have thought from the holler in the sport pages that Hogan was a criminal.

'PRIMER OF THE CLEAN LIFE.'

The indignation against Hogan ran high and it was by no means the illiterate righteousness that you hear from the guttersnipes of the gambling house beat in defense of the likes of George Raft, Sinatra and Luciano. The sport side essayists are educated stock who, with their college learning, ought to know that a citizen's duty is on the side of the law, not the underworld. Moreover, there is a sort of theory, perhaps one of our foibles, that the sport page is a primer in the good, clean life for Young America. On that assumption, Tom Clark, the attorney general of the glorious old United States of America, called a conference of sports writers in Washington, D. C., last winter soon after the football bribery job. The conference was to lay plans, I guess it did.

Graziano is a dese, dose and dem guy, and a fine figure of a low-brow for the fight racket of song and story. If we had no boxing law, and if we would only let nature take her course and realize that prizefighting is low and rough, the harm done might be negligible.

After the other war however we legalized and attempted to r[illegible] and discipline the racket and [illegible] certain laws and rules. I course, it is a rotten sport, racket, and incurring le, but w[illegible] under govern[illegible] of you [illegible] and you [illegible] an activity. Merchants Assn. Protests Lack of Fire Protection

March 3, 1948

Chief Clarence Ogborn
Fire Department City of Columbus
Columbus, Ohio
Dear Chief Ogborn:

The residents and business men of the South Side have regretted the necessity of closing No. 14 Engine House located at Parsons and Hinman Avenues. We realize that the mandate of the people in voting for a 40-hour week for the city firemen necessitated such action. No complaints or objections were made with you at the time this was done.

It has been noted that a considerable number of men have been added to the Columbus Fire Department roster and that all of the engine houses have now been reopened with the exception of "OUR ENGINE HOUSE NO 14." It again appears that the South Side must always wait for everything else in the city to be taken care of and then if there is anything left the South Side will get their share.

At the meeting of the Steelton Merchants Association held on March 2, 1948, there was considerable discussion concerning this matter and a resolution was adopted recommending that action be taken to secure the reopening of No. 14 Engine House to protect the industry, business, and residential property of the South Side, and that a letter be directed to you requesting your sincere cooperation in accomplishing this for us.

Very truly yours,
Ernest Barta, Pres.
The Steelton Merchant Association

Hungarian Independence Centennial Celebration is officially proclaimed "Hungarian or Kossuth Days." The Governor of Ohio, Thomas J. Sale of Fishing Licenses Unusually Heavy

Ohio fishermen stood in line throughout the state this past week at hardware, sporting goods, and grocery counters, where the bulk of the state's three-quarters of a million fishing licenses are sold, to secure the new 1948 license which became effective on March 1.

Each spring the first warm days attract early spring anglers to Ohio's streams and lakes to match wits with the hungry fish stirred by the first hint of warm weather.

Conservation Commissioner H. A. Rider announced this week that Ohio stood fourth last year in the United States in the salt of fishing, licenses with a total of 669,613. Michigan was first with n sale of 989,933, California second with 848,446 and Minnesota third with 765,335. Ohio, however, in fishing license revenue stood 10th because of the unusually low cost of a license to fish with an income of $680,364 compared to California in first place with a fishing license income of $1,718,060.

Brian Donlevy portrays his manager, a big time gambler. In this picture Mickey Rooney plays his most exciting role. The picture is packed with savage excitement from start to finish. Merchants Ask For Fair Ground

March 7, 1948
Director of Agriculture
State of Ohio
Columbus, Ohio
Dear Sir:

At a meeting held March 2, 1948, The Steelton Merchants Association voted to go on record, to support the Franklin County Park District's choice of the area southeast of Columbus, north of Goveport, to be used as the site for the new Ohio State Exposition to be built for year around use by the people.

Three streams come together in this area and could easily be dammed to form a lake that would be a beautiful background for a park, as well as provide storage for the power-plant.

Wells could be drilled to supply inexpensive natural water for livestock and other uses at the Exposition.

The ground is level and would require comparatively little landscaping.

It s easily accessible by highway and railroads, and just a short distance from public and pivate airporas.

The area would be large enough to accommodate exhibits from all parts of Ohio including agriculture, industry, culture, science, civic, conservation and recreation.

The people of the South Side will not object to a project that will be so beneficial to the City of Columbus and add beauty to the State of Ohio.

The Steelton Merchants Association will cooperate with you in any way to help you accomplish this beautiful and beneficial project.

Very truly yours,
Ernest F. Barta
President

REEB CALENDAR

Friday, March 12, at 9:10 a. m. Chapel. Mrs. Slee's room leading.

Tuesday, March 16, Educational Films—Birds of North America, Modern Dixie and Brownie Buck Jungle.

Wednesday, March 17, at 9:10 a. m. Sale of Savings Stamps.

The above calendar of the events of the coming week is announced so that our parents and adult friends may plan to come to Reeb to visit us.

The 3A group has been reading about candle making of the Pioneer Days. The group decided that it would make some candles, too. James Yockey, Adonna Hinson and Stanley McWilliams brought old broken candles from home to be used. The candles were melted and the tallow was poured into a mold. This mold was a milk carton brought by Charles Juliano. Some of the children braided a wick from string. When the candle had hardened, the mold was removed and a nice new candle was revealed. The children enjoyed this project very much and wrote a story in language telling of their new experience. In science they studied this process a little more closely and learned how some elements may be changed from solids to liquids and back again.

The candle may be seen in the school exhibit case.

JoAnn White, Joan Poe, Leon Garnes and Verzelle Reynolds in Room 212 are serving on the Clean-Up Squad. They are members of the 6B Class and volunteered to work to keep our school grounds free of rubbish this week.

Will you please help them by not throwing paper, apple cores, orange peel, and other waste materials on the grounds?

—R—

Miss Hanna took Room 201 to the Dark Room recently. We saw some very interesting pictures of Yellowstone National Park. We saw Old Faithful, the geyser which is so well known. Old Faithful spouts every hour. We also saw a picture of Beaver Dam which was made by beavers. We saw canyons which were washed out by rivers. We also saw a picture of a tally-ho on which you can ride if you go to Yellowstone National Park. Miss Hanna also explained to us about every picture. I am sure we all enjoyed the picture.—Eva Vanover.

—R—

The children in Room 201 bought preparatory books to go with the readers. "Let's Travel On." They cost each child 44 cents but they each received 9 cents back because of a discount. They are pleased with them. Their mothers and fathers like them too. They are studying about the Sea Lions now.

—Virginia Miller

The Reeb Avenue School Parent-Teacher Association and Study Circle will meet on March 18 at 2:15 p. m. in the auditorium. The Invocation will be given by Rev. Boyd Rife, Pastor, Washington Ave. Evangelical U. B. Church. Music—Mrs. Blackburn's pupils, Safety Film—"Wanton Murder." The hostesses will be Mrs. Paul Barton, chairman; Mrs. Stephen Sziarto and Mrs. Alex Sebok. The Nursery will be in charge of Mrs. Charles Matheny and Mrs. William Smathers.

—R—

Irene Rhoden will be the announcer for the 3A group who will present the Chapel Program, Friday, March 12. She will say the Lord's Prayer as the opening feature. A play called "The Story of Easter," will be given by all of the children. Gracie McClatchie will do the reading and the other important characters will be portrayed by the following people: Jesus—Dennis Blann, John—John Hunyady, Peter—William Hamler, Judas—Richard Reed, and other disciples will be played by the remaining boys in the room. Mary Magdelene is to be played by Sarah Carter. Mary, Jesus' mother—Mary Ann Wright, and the two angels— Nola Christian and Francie Smathers. The other children will appear in mob scenes as soldiers or friends and enemies of Jesus. Three songs will be sung by the group—"Keep Me True," "The Old Rugged Cross" and "Christ Arose."

The children will have made costumes and properties as an art project. Stanley McWilliams will take charge of the stage and curtain.

—R—

Reeb Avenue pupils will open their next Pop Corn Sale tomorrow, Friday, March 12, at the close of school. Each pupil salesman will have a mimeographed sales blank which explains the plan of handling the pop corn. You will help by NOT paying for your pop corn until it is delivered. Deliveries will be made next Tuesday, Wednesday and Thursday. We appreciate the fine co-operation that we have had with our neighborhood for the past six years and we wish to carry on this work on a strictly business basis. If you have any complaints to make regarding any part of this project, please call the school office so that proper adjustments can be made.

MEAT PRICES COMPARED

Let's compare meat prices of last week's advertisements of the independent stores and the chain stores here in the South Side.

		Chain Store	
LeFevers Market			
Chuck Roast	lb. 49c		lb. 49c
Sliced Bacon	b. 49c		lb. 67c
Eichorn's Market			
Sirloin Steak	lb. 65c		lb. 69c
Sliced Bacon	lb. 49c		lb. 67c
Rice's Food Market			
Ground Beef	lb. 37c		lb. 42c
Boiling Beef	lb. 27c		lb. 29c

Any good independent grocer can compete any day with a chain store.

There is another thing to take in consideration, too, and that is the independent grocer buys from local meat packers of which most are in the South Side, while the chain store buys from most any packer from Chicago, St. Louis, Kansas City or most anywhere. One gives South Siders employment, the others gives employment where the money goes out of our community.

Then there is one chain store which advertises tenderized meat. Ask any farmer or butcher. He will tell you that good meat does not need tenderizing.

There is only one conclusion to draw from this. Tenderizing process that it enables the chain store to buy bulls, old cows, grass-fed and other inferior animals and then has to tenderize them so they will be tender enough to eat.

Independent grocers keep their money here on the South Side. Chain stores take their money to the head offices no matter where they are.

While we are comparing these grocers who advertise, there are many who don't advertise, who everyday beat the chain store prices.

Be smart—patronize your independent grocer here in your community.

Rev. Emmanuel Sprigler To Speak

Rev. Emmanuel Sprigler

The Rev. Emmanuel Sprigler, a Passionist priest from Louisville, Ky., will conduct the thirty-ninth annual K. of C. retreat starting Sunday and continung through next week in St. Joseph's Cathedral, it was announced this week by the Rev. Julian Schaefer, chaplain of Council No. 400, Knights of Columbus.

Father Sprigler has supplemented his seminary training with special studies at St. Louis University and a master's degree from Cornell University. As a result of his preaching ability, he has addressed audiences across the nation during an extensive teaching and missionary career.

He will speak twice during the retreat at the Cathedral. He will give a brief instruction in Catholic doctrine each morning at 7 o'clock between the 6:30 and 7:15 masses, and will deliver the sermon during evening devotions at 7:45.

The retreat is a special period of prayer, devotion and meditation on religious truths and spiritual values. It is sponsored annually by Council No. 400 for all Catholic men of the city and their non-Catholic friends.

Mable: How do you like my portrait?

Able: (Very anxious to please) It's gorgeous. Why it's better looking than you are.

Mable: What?

Able: (Flustered) I didn't mean that. I mean it's worse than you are.

* * *

Son: Now that I have finished high school, father, I have half a mind to go to college.

Father: At that, you're better off than most.

Cooks either automatically, or as a conventional gas range. Also gives you the never-equalled flavor and excellence of famed Dutch Oven cooking

As a conventional range, you'll find many important, modern improvements, such as the speedy, heat-focusing, gas-saving Spiral Flame burners. And you'll like the ease of cleaning; range top and burner bowls are stamped from one piece of gleaming white porcelain.

Large oven cooks automatically, or by usual methods. Dutch Oven method cooks a whole meal, automatically, while you're away. Heavy insulation holds heat in keeps kitchen cool. Only Maytag Dutch Oven Gas Range automatically turns off the gas and keeps right on cooking

SOUTH SIDE CLEAN-UP WEEK APRIL 19—24th

Booster Paper Drive To Extend Territory

The South High Boosters have decided to extend their paper drive territory farther East, because of the response and enthusiasm being shown by the South Side people.

The new boundaries are as follows: The West boundary will be South High Street, the East boundary will be Lockbourne Road and will include the territory east of Lockbourne Road from one block south of Whittier St., North to Livingston and east as far as the railroad track. We have been made to understand that his particular section east of Lockbourne are rabid. South High Boosters are quite put out by the fact that they are not included in the former paper drive.

The Boosters hereby apologize for this oversight, we assure these good people that it was definitely unintentional. We wish that the whole South Side was imbued with the same fine community spirit.

Remember everyone, the paper drive is slated for Sunday, April 11, at 11 A. M. So save your papers for this fine cause. Anyone living outside the territory wishing to donate may do so by calling Walt Tompkins at GA-9262.

The Southern boundary is the railroad tracks on South Parsons, Lockbourne Road and South High Street.

The Boosters need to raise $500 more for the electrically controlled scoreboard for the South High Athletic Field. The scoreboard which incidentally will be one of the finest in the city, has been ordered and will be ready for use at the start of the football season.

Miss Jenny Hunter Band Concert Vocalist

Miss Jenny Hunter, local soprano, will be featured as a guest soloist at South's Annual Spring Band and Orchestra Concert, Friday, April 16.

Charming and vivacious, Miss Hunter was starred as the soprano lead in "The Student Prince," recently produced at the Hartman by the Theater Productions of Columbus. She is also a member of the Independent Players Club. During October she did a series of 15-minute programs on WOSU.

A graduate of East High School in 1945, Miss Hunter had the title role in the school production of "Naughty Marietta" during her senior year.

The local singer said that she had always wished to sing and had thought of no other career since she was a small girl. For the past three years she has taken voice training at the Gaines Studios and is also enrolled in dramatics.

Now a receptionist at the Gas Company, Miss Hunter doesn't have much time for hobbies with her rising music career, but does enjoy horseback riding occassionally.

When asked what song she particularly cared to sing, "One Fine Day" from Madame Butterfly is her favorite although she does not care for heavy Opera.

As for her plans in the future, Miss Hunter is thinking of joining the Cleveland Light Opera Company after a successful audition there.

Mr. Jack Duemmel will accompany Miss Hunter at the piano when she appears at the Spring Concert.

South High Students Honored By Altrusa Club

South High School was honored by the attendance of thirty-eight members of the Altrusa Club, Tuesday, March 9. These women came to give the girls, especially the girls, professional guidance.

The program began with a few words from our Vice-Principal, Miss Elsie Grove, who introduced the student chairman Nanci Shreives. Nanci then introduced Mrs. Harriet Daily Collins, a graduate of South High and author of our alma mater.

A movie called "Footsteps of the Future" was then presented to all the girls. In this movie was shown a young girl entering the home economics course at Ohio State University. The picture was made under the direction of Dr. Branegan whose profession is in home economics.

After the movie Mrs. Collins introduced Christine Conway, Dean of Women at Ohio State University. She explained the fees of college. In her estimation college costs about $121 a year.

Following this program the senior girls went to the cafeteria to seek the professional aid of these women. The name of these consultants and their professions are: accountant Miss Morrill, advertising Mrs. Ross, advertising illustrating Miss Lloyd, bakery Miss Collicott, beauty culture Mrs. Howland, church and school Miss Foust, dancing Miss Becker, dentistry Dr. Kirsten, florist Mrs. Hall, farm management Mrs. Peters, home economics Dr. Branegan, home makers Mrs. Peters and Mrs. Christensen, letter service Mrs. Venrick, librarian Mrs. Carroll, millinery Miss Mears, medicine Dr. Armstrong, music Mrs. Waller and Miss Schneider, nursing Miss Petchner and Miss Wallinger, personnel and employment, Mrs. Dawson, physical education Miss Palmer, principal teaching Miss Ganson, psychologist Dr. Rogers, public welfare Miss McClain, purchasing agent Miss Zeise, radio Mrs. Huston, secretary Miss A. Girl Scout Week Observed In Big Way

Never was an annniversary celebrated with more fun, activities or enthusiasm than did the Intermediate Girl Scout Troop of 151.

On Girl Scout Sunday, March 7, the troop attended the big 36th Anniversary program party held at the Southern Hotel for all the Girl Scouts of Columbus and Franklin County.

A vocal quartet, consisting of Delores Stewart, Carol Miller, Judith Mottashed and Nancy Johnson, sang "Come To The Fair," with piano accompaniment by Mrs. Dorothy Miller, was the contribution made by the troop to the all Girl Scout talent program.

Friday, March 12, the true birthday date of Girl Scouting, was observed by the troop attending a Tea at the Lazarus Assembly Center. On this program, the talent of the troop was well represented by the presenting of a radio skit. Joan Swineford, Diana Long and Yvonne Craig were the girls participating in this, along with the other members of the troop.

The church services conducted Sunday, March 14, at 9:15 a. m. at The Reorganized Church of Jesus Christ of Latter Day Saints by the entire troop, marked the close of a most memorable and enjoyable week.

The program presented was the reading of the article, "The Child Speaks" by Marion Quin; the Pledge of Allegiance to the Flag and the singing the Girl Scout Hymn closed the morning service. The services were well attended by the proud parents of the Girl Scouts.

Mrs. Frank Reynolds is the leader; Mrs. Ralph Mottashed, Mrs. Albert Swineford and Mrs. Henry Weber are the assistant leaders of the troop.

Girl Scout News

If you are fortunate enough to have tasted those delicious Girl Scout cookies this year, then perhaps you'll be interested in knowing how our Heyl Avenue Girl Scouts made out on their sale.

In our neighborhood we sold 43 cartons—that's 1032 boxes, which averages about 10 boxes per girl. Nice work girls!

On behalf of our Girl Scouts and leaders I'd like to take this opportunity to thank "Cliff's Cut Rate" at Whittier and Heyl for their splendid cooperation during our sale. The distribution problem was greatly simplified because of their assistance.

Mrs. Reynolds' troop deserves special recognition at this time. They sold 341 boxes which brings the troop average up to a little over 16 boxes per girl. Congratulations to troop 151 and to all the troops who helped to put over this sale.

Say weren't those cookies good?

Nevertheless it's true. The government sank $273,156,000 in the share capital of about 1,450 building and loan associations to save them from bankruptcy during the depression years. All has been paid back save about nine million dollars and on top of it the government earned 35 million dollars in dividends.

Home Mortgages Increase

Home mortgages have risen from approximately 4½ billion dollars in 1939 to 24½ billion dollars at the end of 1946, FHA figures reveal. When this agency was established in 1934, the average interest rate ran approximately 7 per cent and as high as 12 per cent on second mortgage refinancing. FHA immediately set an interest rate of 5 per cent. Thus it has saved home owners 400 million dollars a year in interest in the past 14 years.

Sportlight by Grantland Rice

THE pink-haired gentleman with only a touch of gray in his thatch, was watching one of his Olympic vaulters shooting at 14 feet. His name was Dean Cromwell head coach of the U. S. Olympic track team for the year 1948—destination London.

Cromwell has been head track coach at Southern California since Charley Paddock was a kid and Fred Kelly was a hurdler. That means a long parade of years. The first query fired at head coach Cromwell was not too sensational: "How are we fixed for the next Olympic games?"

Gil Dodds

"All set," Cromwell said. He ought to know. He has turned out more Olympic winners in his day and time than any coach I ever ran across.

"I figure it this way," the head coach continued, "with thousands of American kids in training—kids and older men—with from 300 to 500 track coaches who are the best in the world, how can we lose? We've made a great showing in every Olympic so far. We should do the same in this one. We are better equipped than any other nation.

"Oh, we won't mop up. The Swedes will be tough at the mile or the 1,500 meters. The Finns will be tough at 5,000 and 10,000 meters. Here and there someone else will pick up a victory. But we have too much manpower, are too ably coached to lose out. The Swedes may need one or two of those 4:02 or 4:03 milers with the way Gil Dodds is running. We'll have some good sprinters, some good jumpers and pole vaulters, but I can't see any long distance men now who can run with some Finns and Swedes who were running for 5 to 10 miles when they were mere youths only 10 years old.

"We don't have many athletes who like the grind of training for 5,000 or 10,000 meters. Most of them want the dashes, the hurdles or the half mile. We won't have any Jesse Owens around, but Mal Whitfield can travel a bit. It's bound to be a good team."

Picking the Team

Explaining the procedure for picking the team, Cromwell said the tryouts would come in the Intercollegiate games in Minneapolis and the A.A.U. game in Milwaukee, both championship tests.

"It has been suggested that we take the six best men for each event in the two meets—making 12 men all told," Cromwell added. "We won't need that many. In any event the winners in these two championships held in June will be the ones who get the call. It will be all aboard for London only for those who prove their place in these two big championships."

This should be simple enough. Hundreds of track coaches covering the vast athletic map of the United States soon will start getting their stars in shape.

The main idea will be to get the Olympic possibilities or probabilities ready for the Intercollegiate and the A.A.U. games.

"I don't know who the best men are today," Cromwell admitted. "Neither does any other coach. But they soon will be popping up all over the map—a few of them great, some of them good, others not so good. The East and the Midwest are strong. The South and the Southwest are far from weak. The world has been better off before, but these next games will be among the best we've had. Perhaps they can help create a better feeling."

Forty Years of Drouth

Probably the top running race of any track meet is the mile or the 1,500 meters. Here we have a combination that demands both speed and stamina, especially when you get down in the low four-minute class.

But how many know that it has been just 40 years since an entry from the United States ever won this major event in Olympic competition? The last American to finish in front was Mel Sheppard, in London, in 1908. Since that time the British, the Finns or some other foreign nation has taken over the job of mopping up in this long distance event.

Back in 1936, in the games at Berlin, we seemed to have a shining chance with Glenn Cunningham on the job. But Cunningham couldn't handle the fast flyer from New Zealand, who set a new Olympic record. This was Jack Lovelock, who ignored time and yet set a record. He ran only fast enough to win.

Cromwell has been looking for some time at our 40-year record at the mile or 1,500 meters. "I'd sure like to end that losing streak this summer," he said, "but the way the Swedes can cover the distance makes it tough. They've had two that broke 4:02 for the mile—Anderson and Hagg. That's too fast for us.

Choosing Sides

OPPOSITION to the Marshall or European recovery plan is, paradoxically, coming from the two extremes of political or economic thought. It is coming from the rich and powerful, where fascism might flourish, and it is coming from the other end of the ladder, where communism flourishes. A

glance at the various organizations which are on record for or against the Marshall plan, or merely are giving it lip or qualified service, and members of congress whose support comes from these organizations bears out this statement.

Registered against the Marshall plan are such organizations as Midwest Manufacturers association, Southern States Industrial council, American Tariff league. Giving it only qualified support or lip service are National Association of Manufacturers, U. S. Chamber of Commerce, National Builders of America, National Home Builders and like organizations.

At the other end, arrayed against the Marshall plan, are the Communist party, United Electrical Workers, National Maritime union, Progressive Citizens of America, America's Future, Inc., German-American Republican league and National Farmers union.

Strong support in favor of the Marshall plan are [illegible] American Federation of Labor, Congress of Industrial Organizations, American Federation of Labor Committee for Economic Development, Federal Council of Farmer Cooperatives, American Association of Labor Committee for Economic Development, Federal Council of Churches of Christ in America, National Federation of Women Clubs, League of Women Voters, and a dozen others, almost every religious, economic, civic, professional and labor group in the country.

Now, how do you VIEW and Analyze Where you are going?

• • •

The danger to the Marshall plan from the lowest of readers and listeners is to slash it to pieces so that it will be nothing more than a relief program. Someone has coined the word to "Lebrize" the plan by cutting its appropriations to inconsequent proportions. While immediate relief is essential, the core of the Marshall plan is on the industrial and economic rehabilitation of Western Europe to the extent to make it self-supporting.

From the left, or Communist front, the danger lies in the plausible suggestion that it should be managed and administered by the United Nations. That is what Russia would like, since Russia then would have a vote or a veto in distribution of the money and of raw materials and machinery.

• • •

Uninformed on Plan

This reporter was amazed to read in the current issue of Successful Farmer magazine that 52 per cent of the 500 Indian American farmers have never even heard of the Marshall Plan. The magazine survey further showed that of the 48 per cent who had heard of it only 11 per cent had a correct knowledge of what the Marshall plan is. This is either an indication that farmers are not interested, or that they don't listen to the radio or do not read the newspapers.

Gold Star Mothers Are Organized

Gold Star Mothers of Ohio were organized at the Southern Hotel, Tuesday, March 9. Over 100 members attended. Mrs. Isaac J. Jones of Cleveland was elected our State President; Mrs Alice Brown, Dayton, treasurer; Mrs. Grace Hall, Columbus Secretary. All other officers elected were from various cities of Ohio.

The first project is to raise the National Goal of $7,000 to buy Iron Lungs for Veterans' Hospitals to be place one East, Central midwest and West coast of the United States

The tables were beautifully decorated with yellow and white flowers, donated by our Columbus florists, which were deeply appreciated by our Columbus Chapter I, Gold Star Mothers.

Economic Highlights

Which potential candidate for the Republican nomination for president has the largest popular following? There is no way to give a conclusive and incontestable answer to that question. However, beginning March 9, when New Hompshire holds its primary election, light will be cast on the issues to a gradually increasing degree. Between now and early June, 16 states will call upon their voters to choose standard-bearers for the top job in the nation. The results will not, of course, be conclusive. The avowed candidates—such as Dewey, Taft and Stassen—are permitting their names to be entered only in the states in which they think they have a chance. And in only a few states is the vote cast a mandatory order on the delegates. In other words, the nominating conventions, and not the rank and file of voters, will do the picking.

In the meantime, the poll-makers are busy trying to find out what John Public thinks about the presidential hopefuls, and the political scene in general. The Fortune survey, published in the February issue of the magazine, asked some very interesting questions and got some very interesting answers. According to it, General Eisenhower led President Truman by a wide margin in public popularity 48 per cent to 34 per cent, with 18 per cent having no opinion. But the General has declared himself out of contention since the poll was taken, and it is generally believed that his decision will be accepted as final by the GOP high command

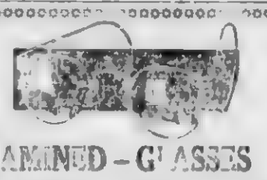
The Fortune survey also asked those queried how they would vote if Truman were opposed to Dewey, MacArthur, Stassen, Warren or Taft. In each case, the President came out on top. Dewey is very close with 40 per cent to Truman's 43 per cent, 17 per cent holding no opinion. The weakest Republican candidate the survey finds, would be Taft, whom Truman leads by an overwhelming margin of 52 per cent to 27 per cent.

This would indicate that Mr. Truman is a good bet for holding the lease on the White House for four more years. Yet, when the survey asked the voters which party they expected to win the decision next November, 48 per cent picked the Republicans and only 29 per cent chose the Democrats, with the balance evenly reserving their opinion. So neither party can be excessively optimistic now. It seems certain that Mr. Truman has slipped a long way from the high popular esteem he enjoyed when he assumed the presidency. It is equally certain that he has climbed well back from the extreme low he reached during the railroad strike of more than a year ago.

Two of the most searching questions asked by Fortune were designed to find out just how much enthusiasm either party has aroused in the pubic breast, on the breast, on the strength of its record in running the government. The first question asked for an opinion on GOP performance since it has had a majority in Congress. Two per cent said excellent, 20 per cent said good, 47 per cent said only fair, and 19 per cent said poor, with 12 per cent saying nothing. On the strength of that display of sentiment, the Republicans have nothing to cheer about.

At the same time, the Democrats are in almost the same boat. The second question asked for an opinion on the Administration's performance in handling the Executive branch of the government. Three per cent of those answering said excellent, 25 per cent said good, 45 per cent said only fair, 17 per cent said poor, and 10 per cent had no opinion to offer. So the Democrats can hardly claim that an irrestible ground swell of public favor is running their way.

Going on, the survey gave a list of nine major issues and asked those polled to pick the two they thought the government should deal with. A lowering of the cost of living led by a tremendous margin. Tied for second were strengthening of our military forces, and fighting communism. Keeping peace between labor and capital came next. Issues of a purely international character were farther down the list, with aid to Europe given by 13 per cent of the vote. It looks as if the voters' minds, at this early stage of the game at least, are on domestic problems which come straight home to hearth and kitchen.



As every political observer points out with defensive caution, what is true in February may be a dead duck in November. A worsening or an improvement in international matters, more upon or the start of some kind of a bust—possibilities such as these could cause a reversal of opinions and prospects overnight. But if no great change occurs this year's election should be very close. Both parties will extend the greatest efforts in many years. Neither, so far as it can be seen now, has a safe lead, and neither can afford to be complacent.

According to the United States News, Russia's present economic potential is equal to about the U. S. level in 1902. By 1960, it is expected she will be about equal the U. S. level obtaining in 1913. Her major weaknesses are in transport, agriculture and skilled labor. Her main strength lies in population and undeveloped natural resources.

News In The World Of Religion

By W. W. Reid

The first disciples proclaimed an event of the greatest significance", says Presiding Bishop Henry K. Sherrill, of the Protestant Episcopal Church in his annual Easter message. "He is risen! In the entire history of mankind there is no news to compare with this—for here is a fact which has to do with God, eternal life, and the destiny of every child of God. To be sure we have known this all our lives. It is a story which is almost two thousand years old and therefore may be presumed to have no news value today. But there is such a thing as having ears and yet not hearing. Sometimes a familiar truth comes to have immediate and vital significance. Death is as old as life, yet when death touches our own, it is a new experience. Sin is venerable, but when we are gripped by temptation, it is a battle to be fought and won. So it is with the Good News of Eastertide. If we could only grasp its meaning for our world and for ourselves, all things would be made new. Selfishness would give way, the burden of sorrow and of despair would be lifted. Men would live as the children of God. Here then is Good News!"

In hundreds of Protestant churches throughout the United States, there will be a minimum of flowers on the altars this year as pre-war years. Some of the larger compared with the profusion of city churches omitted all Easter flowers during the war, and instead sent moneys for relief in the war-stricken areas. Today Easter gifts are being similarly used, especially to send CARE packages ($10 each, through Cooperative for American Remittances to Europe, Inc., 20 Broad Street, New York 4, N. Y.; or for denominational relief projects.

It is critically important for the American people and the American churches to understand communism, what it stands for, and what it plans, and the reasons for its apparent successes, in the opinion of Dr. Ralph E. Differdorfer, executive of the Board of Missions of the Methodist Church, whose missionaries are in contact with communistic teaching in both Europe and Asia. "We cannot combat communism by getting mad at Vishinsky's speeches. We Americans especially need to understand the ideology and force that is making itself felt today in all the world. Unfortunately we do not understand it, and if we try to we are accused of being proponents of it. What is being attacked in communism is the pre-supposition that lies at the base of all religion—that there is a God in the universe. Unless the church can meet this issue it cannot last long. The world is not interested in denominationalism, in the things that divide us, in denominational eccentricities. The issue is whether or not God and Christ are able to meet the needs of men. All our churches must have a united message for the world today. We must not substitute the channels for the message."

Forty thousand Polish Lutherans now in Czechoslovakia are planning to affiliate with the Church of the Czech Brethren, Dr. Joseph Krenek, of Prague, president of the Church of the Czech Brethren, recently reported to the World Council of Churches. Dr. Krenek stated that the work of the churches in Czechoslovakia is being carried on without interference from government authorities, and that progress is being made in the organization of new congregations. He reported that 60 per cent of protestants; that the Lutheran Church has 450,000 members, the Czech Brethren 400,000, the Congregationalists 7,000, the Baptists 4,000, and the Methodists 7,000.

Many hundreds of Methodists and other church people in America have recently signed compacts to pray daily for the welfare of China. The call for prayer comes through Bishop W. Y. Chen, of the Methodist Church, who is also secretary of the National Christian Council of China. He says: "China is facing a great crisis. In Chinese, crisis means 'danger plus opportunity'. Pray for China that she may be delivered from all dangers. The opportunity for Christian advance is unique. The National Christian Council has launched a three-year Christian Forward Movement. The watchword is 'All for Christ and Christ for All'. Will you remember this each day in your prayers? We need God's help through you!" The form of prayer compact is: "I purpose to pray daily: Lord Jesus I pray thee, bless the Chinese Christians. Help everyone to witness for thee today. Help everyone who hears to believe. Help me to witness too. For Jesus' sake. Amen."

The children in Mrs. Blackburn's 4th Grade Class will sing a group of Irish songs at the Reeb PTA on March 18. They will sing "That's An Irish Lullaby," "Spring Fever," "Macnamara's Band," and "Pay With a Smile." Robert Frye will sing a solo part.

—R—

Life in the Middle Ages has been studied this term by the 4A Class of Room 204. They have enjoyed reading about the lives of Nobles and Peasants during this period of history.

Some unusual paintings of castles were drawn by Alvis Sills, Charles Bolin, Orasby Blann, Wendell Hunyady, Clifford Eggleton and Barbara Sword.

—R—

The children in Room 209 have been listening to the Kindness Club Program each Tuesday. This week they wrote the answers to a test given concerning animals. They sent their test papers to the Directors of the Program in hopes of receiving a Will Rannell's dog picture for their room.

—R—

For science the children are starting a study of birds. They will make bird books.

"The Children's Grocery," an Arithmetic project, is operating in full swing, serving as a means for vital problem solving each day. The children take turns in being storekeepers and customers.

This week the 3A boys and girls have been in charge of the popcorn sale. The bookkeeper was Francie Smathers and her substitute Irene Rhoden. The following children delivered the corn to the various rooms: Dennis Blann, Rosemary Brown, Charles Cooke, Sarah Carter, Nola Christian, Richard Conkey, William Hamler, Virginia Jobe, Roger Hammond, John Hunyady, Patty Latham, Benny Langbein, Charles Juliano, Gracie McClathey, Lowell Latham, Cora Moon, Sandra Prowers, Joan Spencer, Richard Reed, Georgs Title, Betty Absten, Patty Walters, Karl Naumhoff, Genevieve White, Mary Ann Wright and George Devlin. Stanley McWilliams took the responsibility of collecting empty cans and surplus stock.

—R—

The 2B children in Room 112 will lead the Chapel Assembly on Friday. They have thought of many reasons why they are thankful and will present them. John Harrison will lead an Easter story of "How The Stone Was Rolled Away." They will also sing two songs—"The Old Rugged Cross" and "America." Everyone is welcome.

—R—

It is about time for us to think about ordering our garden and flower seeds. Reeb Avenue School, for a number of years, has provided this service for its pupils and their families. Arrangements have been made again this year with the Childrens' Flower Mission of Cleveland to handle orders for each individual child. This is a very reliable firm and we are pleased to tell you that tomorrow Friday, March 19, catalogs will be sent home through every Reeb Avenue School pupil. May we suggest that you go over this order blank with your child and make your 1948 summer garden plans.

You may think this is a little early but we have found it advisable to place our order early so that prompt shipment can be made. Even though it may be several weeks before any seeds may be planted it will be mighty convenient to have your seeds all ready when the proper day does come. Our school does NOT make any profit from this service. Every cent goes to the seed concern. If our total order amounts to $20.00 we will receive a 3x5 American flag for school use.

This character explains that he will not go away until Ginger has met and married his physical counterpart (also played by Cornel Wilde) who is a fireman.

You wanted something once. It was very important to you and you wanted it more than anyone realized. Your prayers may have been answered either yes or no Which ever way God answered you'll understand the longing in Betsy's heart for the blue formal. Bethy differs from most of us in that she has the faith to believe her prayers will be answered. "More things are wrought by prayer than this world dreams of." We hope you will come and enjoy this charming play. Betsy is a lovable child, and the play appeals to all who have cherished the dream of youth; who have desired one thing, as the author says—be it a blue formal, a dog, or pony—and having failed to receive it, continue to dream of it.

Thelma Lewis will portray the role of Betsy while John Dimar and Yvonne Sells will be seen as her father and mother. Others in the cast are Jeanne Patterson, Paul Hanson and Jack Dern.

Margaret Dimar will lead the worship service which precedes the play in which Mary Jean Mattox will sing, "Panis Angelicus," "Calvary," and "In the End of the Sabbath." Ruth Warren will play "Capriccio" by E. Lemaigre and "Hymn of Nuns" by Lefebure-Wely. The public is cordially invited, 8 P. M. at Thurman Avenue Methodist Church, Sunday evening, March 21.

Mr. Potts was riding home on the subway with his little son, Willie, on his knee. Potts looked up to see a gorgeous girl standing and holding a strap.

"Be a gentleman, Willie," said Potts. "Get up and give the lady your seat."

At Southland . . Killer McCoy

Mickey Rooney has his first dramatic role in MGM's new smash hit of the prize ring, "Killer McCoy", opening Sunday at the Southland Theatre, for a three-day engagement. Dunn portrays Mickey's drunken father and Donlevy gives an A-1 performance as the gentleman gambler who acquires the young fighter's contract. When the gambler's daughter (Ann Blyth) falls in love with Rooney, a tense dramatic situation mounts to a thrilling climax. Boxing enthusiasts will thrill to the fight sequences in "Killer McCoy", which will be shown at the Southland on a double bill with "The Adventures of Don Coyote", starring Marc Cramer and Frances Rafferty.

Champion Theater, Friday and Saturday

THE EXILE will be the main feature at the champion Theater this Friday and Saturday. Starring Douglas Fairbanks, Jr. and Maria Montez, this story of glorious high-adventure will thrill everyone. Co-featured will be THUNDER MOUNTAIN, a rip-roaring story of the wilderness, with outlawrey and violence. Featured in this picture are Tim Holt and Richard Martin.

CHAMPION THEATER SUNDAY, MONDAY

The main feature at the Champion this coming Sunday and Monday wil be NATIONAL VELVET, starring Mickey Rooney and Jackie Jenkins. A thrilling story of horse racing, everyone in the family will enjoy seeing. As a companion attraction there will be seven carefully selected color cartoons which are sure to delight all who see them, and round out an all Technicolor program.

The Parsons Theater

The Parsons Theater presents Sunday, Monday and Tuesday "It Had To Be You" with Ginger Rogers and Cornel Wilde. The picture deals with both fantasy and screwball comedy. Thrice engaged Ginger Rogers can't make up her mind whether to marry socially correct Ron Randell.

Fantasy enters the picture when Ginger dreams of a handsome Indian, Cornel Wilde, and when she awakens, finds that in some supernatural way she has created a real live Indian.

This character explains that he will not go away until Ginger has wed and married his physical counterpart (also played by Cornel Wilde) who is a fireman.

A pretty girls' dreams never caused so much of a mix up, as this simmering love story comes to a boil, in a finish that brings plenty of laughs and real entertainment. Also "Her Husbands Affairs" with Franchot Tone and Lucille Ball. Selected short subjects.

Club Alexander

A crazy, crazy show at Club Alexander this week, with Sydray as emcee and Tap O'Shay, and Phyllis Seymour in dancing, singing, comedy galore. They are masters at tumbling, falling and other crazy antics. A show out of the ordinary, something entirely different. On Tuesday night, remember is presented the super Quiz show with Bob Benjamin as master of ceremonies and many, many prizes. No door charge at any time, super floor shows and dancing to a good band at no cost.

Fine Arts Exhibit To Be Held April 8th

"Rouault: The Great Printmaker" an exhibition of the work of this great French contemporary will be exhibited at the Columbus Gallery though April 8th. This exhibition, circulated by the Museum of Modern Art, New York City, is comprised of approximately fifty prints of etchings, lithographs, and aquatints.

"The Rise of Impressionism" an exhibition of representative works by such painters as Manet, Degas, Cezanne, Gauguin, and others. These works will re-emphasize the artistic debt of all of us today to the Impressionist 'masters'; those creative artists who first stated the essential directions taken by modern vision, whose objectives continue to clarify and vitalize painting today. These paintings will be shown at the Columbus Gallery of Fine Arts from Saturday, April 3 through Sunday, May 2.

Mr. George Harold Edgell, Director of the Museum of Fine Arts, Boston, Massachusetts, will be the speaker of the opening program Saturday, April 3, at 8:30 p. m. in the auditorium. Mr. Edgell is a lecturer of note and author of important works of Medieaval and Renaissance painting, history of architecture, and the history of Sienese painting. His subject will be "French Nineteenth Century Painting with Special Reference to the Impressionists."

This opening program will also present a small ballet on the general theme of Impressionist color. This group, the Experimental Group, is under the direction of Mrs. Robert Hornung of the Cleveland Museum of Art.

An exhibition of paintings and drawings by teen-agers. The Junior Artists of Columbus will have an exhibit, April 1 through May 2, in the Children's Museum Room of the Columbus Gallery. Only original work of the members will be accepted for this exhibition. Prizes will be awarded for the best entries as selected by professional judges.

The Decorative Arts corridor at the Gallery will display an exhibition of lace and glass. The material for this exhibition will be organized and installed by members of the "Links", an affiliated organization of the Gallery. This display will be shown from April 16 to May 30.

Charles falls in love with a pretty Dutch girl and is given sanctuary on her farm when Cromwell sends an emissary to Holland to prevent Charles' return. Just as the emissary and his men are besieging Charles, another message arrives recalling the king to the throne; also "Abbott and Costello in Hollywood" with Bud Abbott and Lew Costello. The pageant opened with a school room scene.

The March of Many Flags gave the pageant a colorful conclusion. The pageant was directed by Miss Ella Richey Wells.

A free lesson is given from 7:30 to 8:00 every Wednesday evening for those wishing to learn how to square dance.

Thurman Players Present Play

The Thurman Players of Thurman Avenue Methodist Church will present for their spring play, Elizabeth Welch's "Sunday's Child," a drama in two acts, on Palm Sunday evening, March 21, at 8 P. M. Elizabeth Welch recalls in "Sunday's Child" her own childhood as the daughter of a Methodist minister in Oklahoma.

You wanted something once. It was very important to you and you wanted it more than anyone realized. Your prayers may have been answered either yes or no. Which ever way God answered you'll understand the longing in Betsy's heart for the blue formal. Betsy differs from most of us in that she has the faith to believe her prayers will be answered. "More things are wrought by prayer than this world dreams of." We hope you will come and enjoy this charming play. Betsy is a lovable child, and the play appeals to all who have cherished the dream of youth; who have desired one thing, as the author says—be it a blue formal, a dog, or pony—and having failed to receive it, continue to dream of it.

Thelma Lewis will portray the role of Betsy while John Dimar and Yvonne Sells will be seen as her father and mother. Others in the cast are Jeanne Patterson, Paul Hanson and Jack Dorn.

Margaret Dimar will lead the worship service which precedes the play in which Mary Jean Mattox will sing, "Panis Angelicus," "Calvary," and "In the End of the Sabbath." Ruth Warren will play "Capriccio" by E. Lemaigre and "Hymn of Nuns" by Lefebure-Wely. The public is cordially invited, 8 P. M. at Thurman Avenue Methodist Church, Sunday evening, March 21.

Mr. Potts was riding home on the subway with his little son, Willie, on his knee. Potts looked up to see a gorgeous girl standing and holding a strap.

"Be a gentleman, Willie," said Potts. "Get up and give the lady your seat."

At Southland Killer McCoy

Mickey Rooney has his first dramatic role in MGN's new smash hit of the prize-ring, "Killer McCoy", opening Sunday at the Southland Theatre, for a three-day engagement. Lovely Ann Blyth is Mickey's co-star in this power-punched story of a boy from the slums who rises to the big time in the fighting game. Heading the outstanding featured cast are James Dunn, Brian Donlevy and Sam Levene. Dunn portrays Mickey's drunken father and Donlevy gives an A-1 performance as the gentleman gambler who acquires the young fighter's contract. When the gambler's daughter (Ann Blyth) falls in love with Rooney, a tense dramatic situation mounts to a thrilling climax. Boxing enthusiasts will thrill to the fight sequences in "Killer McCoy", which will be shown at the Southland on a double bill with "The Adventures of Don Coyote", starring Marc Cramer and Frances Rafferty.

Wednesday and Thursday, by popular demand, the Southland will again show "The House on 92nd Street", thrill-filled action drama of U. S. counter-espionage agents tracking down a notorious ring of Nazi spies. Based on fact, the film employs a realistic documentary style, with Lloyd Nolan in the role of the F. B. I. chief. William Eythe and Signe Hasso are the stars of this brilliant movie.

Corn Bread Tamale Pie

A hearty casserole dish, a crisp green salad, and a lush dessert, such is the homemaker's dream of a menu to fit all occasions.

Among the many possible casserole combinations is a Corn Bread Tamale Pie that everyone will love. A highly seasoned mixture of ground beef, tomatoes and corn, its crowning glory is the tender, fluffy, golden brown topping of good corn bread.

Just imagine that you have a casserole before you, pick up the serving spoon, cut through the delicately browned corn bread and scoop down into the juicy, spicy meat mixture. The aroma is so appetizing you can't wait even a minute for the first taste.

Corn Bread Tamale Pie
Makes 6 servings

1 pound ground beef
1 large onion, chopped
1 can tomato soup
2 cups water
1 teaspoon salt
¼ teaspoon pepper
1 tablespoon chili powder
1 cup whole kernel corn (drained)
½ cup chopped green pepper

Corn Bread Topping
¾ cup corn meal
1 tablespoon flour
1 tablespoon sugar
½ teaspoon salt
1¼ teaspoons baking powder
1 beaten egg
1/3 cup milk
1 tablespoon melted fat

1. Brown ground beef and onion in skillet.
2. Add tomato soup, water, seasonings, corn and green pepper; simmer for 15 minutes.
3. For topping, sift together dry ingredients. Add beaten egg and milk, stirring lightly until combined. Fold in melted fat.
4. Place meat mixture in greased baking dish (2 qt. size), cover with corn bread topping. Don't be surprised when the topping disappears into the meat mixture, for it will rise during baking and form a good layer of corn bread.
5. Bake in hot oven (425°F.) 20 to 25 minutes until corn bread is brown.

A CATHOLIC VIEW OF EASTER

By Rev. Charles W. Jones
St. Mary's Church

Saint Paul says, "If Christ be not risen from the dead, then vain is our Faith."

The Resurrection, as a fact, established beyond a doubt the claim to Divinity that Christ made of Himself.

The forlorn observer and the radical, pessimist of today, with their sad eyes, view the present world conditions and finding nothing but the threat of another war, industrial strife, broken homes, godless education, hatred for fellow men, and the rest of the present world miseries, sadly shake their heads and walk away, saying there is no hope.

Appropriately, Easter in this year of Our Lord 1948 brings again its message of hope. Any shattering of our earthly dreams need cause no despair in us when we view the triumph of Easter. The meaning and summons of Easter however is grasped only when we view the vacant Cross and the empty Tomb. Without the tragedy of the Cross there would have been no glorious Resurrection. Today, we too can rise from the tomb of war, hate and personal sin. But for us, as for Christ, the Cross must come first. We have work to do, and the job is not easy. An unselfish spirit of true sacrifice, humility, love, and intense spiritual effort, these are our Cross. It means hardship and suffering, but by so dying with Christ, we are made worthy to rise with Him to a new life of glory. For us today our trials and crosses are a promise and a hope. By such efforts, love shall supplant hate, and peace shall take the place of war. In accepting the Cross, but fixing our gaze upon the Resurrection, we find hope and eventual peace for a shattered world.

The Resurrection

—By C. R. Walcutt—

Our front page this week carries the Easter story, the most beautiful story ever heard by man. It is the story that has held all the hopes of man through the past twenty centuries. It was the story of a future to come, that is the most comforting to man in his tribulations through this life.

It is the story of Jesus and his sacrifices and the promise to us of a beautiful Eternal life which is to come. It is the promise of Eternal life.

Nature expresses its best in the growth of our plant life. The birth in the new leaves, followed by the bloom, which reproduces seeds for reproduction of their kind. Following that the production of the seed; then the changing of the color of leaves is akin to our middle age. The shedding of the leaves of the plant corresponds with death.

But plant life and the coming to life in the spring corresponds to Jesus' promise that we shall arise again to Eternal Life.

Surely if plant life shall arise again, so shall man arise again, according to the promise as shown in Jesus arising from the grave.

Read the article by both the Protesant and Catholic clergy. They both have a lesson for you. They are well written and both hold a lesson.

If the Church and Christianity are to stand, the only hope for it then, both Protestant and Catholic, must stand together.

There has never been a time when both churches have been in such a precarious position.

If Italy falls to communism, the Pope and the Catholic Church are dead in Europe. The Protestant Church will fall with them.

Read St. Luke Chapter 24:1—and then pray for the survival of both churches. It will compare with the Resurrection of our Lord Jesus.

Work Day Jobs To Help Y Fund

On Saturday, April 10, approximately 600 boys of high school age, members of the 11 Hi-Y Clubs of the Columbus High Schools, will engage in a "Work Day." They will accept odd jobs, such as carrying out ashes, washing windows, yard work, etc; and the money they earn on that day will be given to the World Youth Fund of the YMCA to help in the reconstruction of the hundred and ten Y. M. A. buildings that were destroyed in Europe and Asia during the War.

The Hi-Y Clubs of Columbus have accepted a goal of $2000, of which more than $600 has been raised; it is expected that the "earn and give" program for April 10 will succeed in raising the balance.

People who have odd jobs to be done, and would like to have a HI-Y member do the work, are asked to call the office of the high school in their community, leave their name, address and type of job to be done, this will be referred to the HI-Y club and a boy will be sent to do the work.

The president of the Columbus council of Hi-Y clubs is Robert Smith, a senior at West High School, who attended the National Conference for High School Youth at Grinnell College, Iowa, last summer, when plans for world reconstruction were discussed.

Students at Roosevelt contact Barbara Canfield, Louise Burgner, Dick Hartman or Bill Cuthbert. South students who want to help clean up the park give their names to Betty Schneider, Don McIndoo, Bob Garrison or Helen Scott.

The boys and girls will go to the park about ten o'clock in the morning and spend the day cleaning the park. The food will be provided by the South Side YMCA.

EASTER JOY

Paul C. Kaefer—St. Paul's Evangelical and Reformed Church

If Easter is associated predominantly with any one emotion of the human soul, it is with that joy. When Mary Magadalene and the other Marys had heard the words of the angel of the Lord, "they departed quickly from the sepulchre with fear and great joy." When on the evening of Easter Day, Jesus stood in the midst of the assembled disciples and showed them His wounded hands and feet, their joy was too great for the steady exercise of their understandings; they believed not for joy, and wondered." In those first hours of ecstatic bewilderment as St. John says "the disciples were glad when they saw the Lord. Was it not His own promise of a joy which would be beyond the power of any outward circumstance that had now become true? "Verily, verily, I say unto you that you shall weep and lament; but the world shall rejoice" that was the hour of Calvary—and ye shall be sorrowful; but that your sorrow shall be turned into joy."—That was to be the radiance of Easter.

And thus, ever since the Church of Christ, has labored to make Easter festival, beyond all others, the feast of Christian Joy, all that nature and all that art could furnish has been summoned to express, so far as outward things may, this over-mastering emotion of Christian souls worshipping at the tomb of the risen Christ. Easter is the day the Lord hath made—may we living today rejoice and be glad in it. The joy that fills the soul of the believing Church on Easter Day has some sort of echo in the world outside, so that they who sit loosely to our faith and hope, and who worship RARELY if ever before our altars, yet feel that good spirits are somehow in order on Easter morning. May we hear again on this Easter morn—in a world of tumult and confusion—His voice: "I am He that liveth and was dead and behold I am alive for evermore and have the keys of hell and death." May everyone who attends Church on Easter be able to say: "Truly Lord Jesus, Thou hast turned my mental heaviness into joy. Thou hast girded me with gladness."

The Quiz show is on every Tuesday night, with Bob Benjamin at the mike, good entertainment and plenty of prizes. Dancing to a select band and floor show every night. All liquor prices reduced.

Joe Alexander has placed cards on the tables, for you to fill in with your birthday and anniversary dates, these are kept on file and you are notified a few days previous to the event. Then you may arrange for your party at Club Alexander with a cake favors and entertainment all on the house. Take advantage of this and make that birthday or anniversary party a gala affair.

The Parsons Theater

The Parsons Theater presents Sunday, Monday and Tuesday, "My Wild Irish Rose," with Dennis Morgan and Andrea King. The film is the biography of Chauncey Olcott, leading vaudeville entertainer during the 1890s and composer of such tunes as "Mother Machree" and "My Wild Irish Rose." Dennis Morgan portrays Olcott, while Andrea King enacts the roll of Lillian Russell. This technicolor tune-film, literally overflows with music, laughter and specialties. It's gay, gorgeous and grand. Back in the days of the nifty nineties. This picture is sure to score a hit with both young and old alike. Also selected short subjects.

Victor Theater

The Victor presents Sunday and Monday "Senator Was Indiscreet" with William Powell and Ella Raines. Powell, 20 years in the U. S. senate, thinks he could become President—and although pompous and stupid, his dream begins to grow possible under the skillful ballyhoo of Peter Lind Hayes, political press agent. Party leaders order Powell to lay off, but Power refuses and threatens to publish his diary-containing invaluable secrets. Powell's campaign continues, but the diary mysteriously disappears. When it is recovered and its contents published in a newspaper, Powell is forced to abandon his career; also "Joe Palooka in Fighting Mad" with Joe Kirkwood Jr., and Elyse Knox.

Southland Presents The House On 92nd St.

William Eythe, Lloyd Nolan and Signe Hasso head the capable cast of the outstanding semi-documentary film, "The House on 92nd Street", playing a return engagement at the Southland Theatre through Thursday night only.

Brought back by popular demand, "The House on 92nd Street," was the first picture to be filmed in the style of "Boomerang" and "Northside 777", all three films having been based on fact, and filmed as much as possible on the actual location site of events.

"The House on 92nd Street" chronicles the case of an American college youth who informs the Federal Bureau of Investigation of having been approached by German agents to attend the world-famous Nazi school for espionage. When Nolan, as the FBI chief, asks Eythe to pretend to be receptive toward their plan and learn the leader of a notorious group of Nazi spies, working out of New York City, the youth accepts. However, before the leader is finally apprehended, you will be limp from excitement and suspense. "The House on 92nd Street", is heartily recommended to the most discriminating of film fans. Paul Kelly, currently starring on Broadway in the smash hit play, "Command Decision", stars in the second feature, "Spoilers of the North".

Friday and Saturday, "Spirit of West Point" will be the Southland's feature attraction. The U. S. Military Academy's famous "touchdown twins"—Doc Blanchard and Glenn Davis—star in this football story. "Smoky River Serenade", western adventure, will be co-featured.

Columbia Theater

The Columbia presents Sunday, Monday and Tuesday "It Had To Be You" with Ginger Rogers and Cornel Wilde. Thrice engaged wealthy Ginger Rogers can't make up her mind whether to marry socially correct Ron Randell. In a dream she conjures up a handsome Indian and when she awakes she finds she in some supernatural way has created a real live Indian. This character explains he will not go away until Ginger has met and married his physical counterpart, who is a fireman and as she does so, her dream Indian disintegrates, his task completed; also "Her Husband's Affairs" with Lucille Ball and Franchot Tone.

Gene Autry At Memorial Hall

Gene Autry, America's favorite hard-riding, singing cowboy, will bring his all-western revue to Columbus for a one-day personal appearance on Thursday, April 1.

Two performances have been scheduled for this unique revue, including a 4 p. m. matinee for children, who will be admitted at half price, and an evening performance at 8 p. m., both to be held in Memorial Hall.

Autry has become a familiar star to central Ohioans through his program, "The Gene Autry Show", heard over Station WBNS at 7 p. m. Sundays. His western revue is being sponsored here by the Columbus Town Meeting Association, and proceeds from the show will be used by the Association in staffing future programs in its radio series.

Appearing with Gene Autry at Memorial Hall will be his celebrated movie horse, "Champion"; his Melody Ranch Boys, Johnnie Bond and Carl Cotner and Frankie Marvin; the Cass County Boys; the Pinafores, feminine singing trio, all featured with Autry in his films and broadcasts; and the added attraction of Rufe Davis, internationally known stage and screen hillbilly comedian.

Around this galaxy of top-flight entertainers, Autry has built a fast, colorful two-hour western show of music and fun in which he will fill the dual role of master of ceremonies and chief attraction.

He will sing many of the songs that he has popularized in recordings and pictures, and will put the horse "Champion" through a special performance of tricks. The entire show will be produced in the manner of a typical Melody Ranch broadcast, with additional comedy and musical highlights.

Mail orders of check or money order, for tickets for the Gene Autry Revue will be accepted at Station WBNS, 33 N. High St., Columbus, and will be filled as to location in order received. A self-addressed, stamped envelope must be included with all mail orders. Tickets may also be secured at Heaton's Music Store, and will be on sale at Memorial Hall the day of the performance. Tickets are $2.40, $1.80, and $1.20, tax included.

The Senator Was Indescrete At Southland

Newspaper reporter Ella Raines and political press agent Peter Lind Hayes give lovely Arleen Whelan the once over in this scene from the hilarious political satire, "The Senator Was Indiscreet", opening Sunday at the Southland Theatre, for a three-day engagement. Miss Whelan is suspected of having stolen the all-revealing diary of Senator Melvin Ashton, windbag legislator deftly and daffily portrayed by William Powell. "Maggie and Jiggs in Society," starring Joe Yule (Mickey Rooney's father) and Renie Riano, as the famous comic strip characters, will be co-featured.

Champion Theater

Champion Theater Friday and Saturday: "The Fabulous Texan" with William Elliott and John Carroll; also "Dangerous Venture" with Hopalong Cassidy. Matinee Saturday. Sunday and Monday "Red Stallion" with Robert Paige and Ted Donaldson; also "The Red House" with Edward G. Robinson and Dan McAllister. Matinee Sunday. Tuesday (Family Night) "Murder My Sweet" with Dick Powell and Claire Trevor; also "Lone Texas Ranger." Wednesday and Thursday (Double Tarzan Night) "Tarzan Desert Mystery and Tarzan and the Amazons."

IDEAL THEATER

The Ideal presents Sunday and Monday "The Adventures of Don Coyotte" in technicolor, with Frances Rafferty and Richard Martin. A drama in which Mexico's cowboy caballero fights the bad men of the West and woos his way into the heart of a beautiful damsel in distress; also "It Had To Be You" with Ginger Rogers and Cornel Wilde also a "Cartoon."

RUSSELL THEATRE

The Russell presents Sunday and Monday "Pirates of Monterey" in technicolor with Maria Montez and Rod Cameron. Cameron is transporting guns to fight off royalists to wrest California from the new born Mexican republic in the early 1800s. He is also engaged in a romance with Maria Montez, although he believes she is aiding the enemy. Rod and loyal troops beat back an attempted sea invasion and after the victory Rod discovers Maria has been loyal, not a traitor; also "Adventure of Don Coyotte" with Richard Martin and Frances Rafferty. Why Buy A Junk Radio

We think that one of the instruments most used in the average South Side home is the radio.

Ever since the war has been over, literally dozens of new brands of radios have come onto the market. Many of these radios we are sorry to say, are made of poor material and workmanship.

The result has been in many cases that hardly has the radio been installed in the home, than it breaks down and has to be sent back for repairs. Also you lose the use of your radio while it is being repaired. One South Side firm who has a large repair department, reports to us that they can hardly keep up with the repairs from these cheap priced radios sold in some downtown stores which are sent to them for repairs.

The South Sider, who thinks he is saving a few dollars by getting one of these off-make radios, will in fact find that he will spend twice as much on this type of radio than if he would have purchased one of a good standard make.

Every good make of radio can be purchased here in our community. We have looked over the various dealers, here in our community, we find every make of standard radios are handled here in the South Side.

We find such makes as Wilcox, Gay Recordio, Zenith, Philco, GE, Westinghouse, Victor, Freshman and Crosley right here in the community. These radios are priced the same as they are downtown.

If you wished them financed, you can get the same terms here with your South Side merchant as in your downtown store.

South Side merchants don't handle these cheap junk radios handled down town. They handle only the reputable makes which the manufacturer guarantees.

Be safe, buy your new radio at your reputable South Side dealer

[illegible] people [illegible] evaded [illegible] aware of the fact that it was concerned, and in fact it was one law [illegible] was enacted carried on the government payroll a Lewis Lorenz.

Wm. [illegible] General Marshall is personally plunging the "Five year Level-up plan" He dumps another [illegible] dollars upon [illegible] Europe [illegible] pool, the old "Chocolate Soldier," General Louie BEE [illegible] Hoover [illegible] is [illegible] again [illegible] Dope [illegible] to date [illegible] about every way for World War III, including [illegible] and women and children. Now, at long last, it comes out that the Marshall plan is in reality a "martial plan"

Why can't we be told the truth in the first place? Ever since the coming of the "more abundant life" there has been entirely too much double talk and secrecy down in the District of Confusion High Tax Harry and his phrenetic Praetorian Guard are constantly warning Congress and the people that he must have wartime authority to fix prices, wages, and to allocate materials, or there is going to be a terrible depression.

Editor Henry Barnes of Quitman County, Miss., says one of his wife's damn'yankee relatives sent her this squib: "President Washington couldn't tell a lie. FDR couldn't tell the truth. President Truman can't tell the difference."

When mismanagement of government and unfair taxation policies can make crooks and liars out of once thoroughly honest men, it's about time we spoke up and let our government know that we are resentful of this spending orgy which seems to have no end. While we are giving the White House Santa Claus and his One World advisers the air, let's be quite sure that we "Put more Americans on Guard" next November. Down with this fraudulent Levitsky-Marshall scheme to give away our country's wealth and resources. What this country needs most right now is relief from foreign relief, and another, long overdue, 'tea party'

I have never been able to find anything in our Constitution that could be lawfully construed to permit anyone to give away the taxpayer's money. Rather the Constitution of the United States prohibits giving away or loaning the people's money, without the people's consent, and any executive officers who ask for it and the Congressmen who vote the appropriation are traitors to the people and their government.

Here is an opportune time to remind our Senators and Congressmen that they were elected to serve our wishes, not those of moocher John Bull and every other crackpot country in the world. Observer

Drivers Need Licenses To Escape Test

And drivers in this area who for some reason do not have a 1948 Drivers License and were properly licensed in 1947 must obtain a 1948 License by April 1st if they are to avoid taking a new examination for a permit.

Thousands of motorists have failed to renew their driving licenses after the 1947 license year expired last September 30, 1947. Operation of a Motor Vehicle without the 1948 permit makes them liable to arrest.

A statement warning to that effect was received from Edward T. Fogo, Registrar of Motor Vehicles, by J. E. Powell, Deputy Registrar of Motor Vehicles, at 1986 Oakwood Avenue

The total subscriptions sold throughout the first semester of this year were 460 for the two issues. One hundred persons bought single copies each time also last semester.

Versatile In Name and Use

Cottage cheese pot cheese—farmer's cheese — schmierkase, call it what you will! This skimmed milk cheese deserves a more prominent place in the family meal plan, says the Columbus Milk Council. Its bland flavor, soft consistency and low fat content make it suitable for baby and grandpa, and for that matter, all ages in-between.

This delicious cheese is an excellent source of protein—the nutrient necessary to help prevent fatigue, and insure good muscle growth. It's especially good for lunches, for that meal often lacks high quality protein. An average serving of cottage cheese (2 or 3 oz.) supplies as much protein as 3 eggs at about one-third the cost.

In both creamed and uncreamed forms, cottage cheese can be relied upon as a low calorie, highly nutritious food. Incidentally, this is one dish that may be used liberally as a source of many nutrients in a reducing diet.

Cottage cheese is tasty, economical, easy to serve. Call for it soon, the way you like it best!

Red Cross Safety Instruction Tomorrow

A Red Cross Water Safety instructor's institute will start Friday, April 2, it is announced today by Mike Peppe, Ohio State University Swimming coach and chairman of the Red Cross Water Safety committee. Classes will be held each Friday night, 7 P. M. for a ten-week period at the Ohio State Natatorium and will be taught by W. R. Middendorf, director of Red Cross Safety Services and his assistant Sam Oldham.

The course is designed to give leadership training in swimming, life saving and adequate activities including limited instruction in the use of small craft.

Managers of swimming pools, summer camps, and Country Clubs should be especially interested in this course, according to Mike Peppe.

Applicants for the course must be 19 years of age or over and must have a certificate in Senior Life Saving issued by the American Red Cross within the past three years.

Medical blanks and class applications will be mailed on request by calling Red Cross Headquarters MA-6831, or they are available at Headquarters, 74 E. Gay Street.

MAKE JELLIES NOW

A treat for your family is this delicious Pineapple Orange Marmalade. Make it while the orange supply is at its peak.

By BETTY NEWTON

If your jam and jelly shelf looks as if it may be getting low at this time of year, why not replenish your stock while the supply of citrus fruits is abundant and less expensive? You may find that you will want to use some of the dried fruits which have now returned to your grocers' shelves, too.

Oranges and lemons, combined, make a delicious marmalade with an orange flavor. Apricots and raisins make a good conserve. Or you may prefer dried apricots and pineapple together as a jam. Constant stirring and a candy thermometer to tell you when the jelly is done will help give you a perfect product.

Orange Marmalade

3 oranges
2 lemons
3 qts. water
Sugar

Squeeze juice from fruit and put rinds through a food chopper using a fine blade. Add the water and let stand 24 hours. Then cook in a large kettle and after mixture begins to boil, boil for 1 hour. Weigh the mixture. Add three-fourths as much sugar as mixture. Warm the sugar, being careful not to burn it. Add it to the orange mixture. Cook until the mixture jells. Pour into sterilized jelly glasses and cover with paraffin at once. Fills 6 or 7 4-oz. glasses.

Apricot-Raisin Conserve

1½ lbs. dried apricots
2 C. seedless raisins
1 C. water
Juice of 1 lemon
3 C. sugar

Soak apricots overnight in cold water to cover. Cook slowly in the same water until fruit is soft. Add the raisins, sugar, water and lemon juice. Cook slowly until thick, stirring constantly to avoid scorching. Pour into hot sterilized jelly glasses and cover with paraffin at once. Makes about 7 glasses.

Pineapple Orange Marmalade

4 C. canned grated pineapple
6 thin skinned oranges
Sugar

Wash oranges, remove seeds and chop or grind entire orange using the coarsest grinder. Weigh the cut fruit and to each pound add 4 C. water. Simmer for 1 hour and then pour into a glass or china dish and let stand 24 hours. Add pineapple to orange mixture, then weigh the fruit and add a pound of sugar for each pound of fruit. Cook until thick. Pour into hot sterilized glasses and seal with paraffin. Makes about 8 pints.

Economic Highlights

"The Czech People Have Now Set Their Feet Firmly on the Road to Freedom and Democracy" That headline was slashed across the front page of one of the largest newspapers in the world the day after the communists took over the Czechoslovakian government. The paper, as the reader may have guessed, is published in the Soviet Union. Its name is Pravda, which means Truth.

This particular communist achievement has an ironical twist Czechoslovakia was largely the creation of an American with a passionate faith in representative government, Woodrow Wilson, and its Constitution was patterned after ours. Its president, Edward Benes, is a democrat with a complete distrust of the communist ideology. He fought as long as he could against the red onslaughter. But in Czechoslovakia, as in other countries, the communist technique proved sound. No one knows just what proportion of the Czech people really want communism, and it hardly matters. For the communists were superbly organized and disciplined and the opposition was weak and divided, devoting much of its energies to internal quarrels. Thus, this communist victory was much like those which have gone before—except, in Czechoslovakia, there was no need for much force of arms. But no one doubts that the arms would have appeared and been used had Clement Gottwald, the communist leader, thought them necessary.

If, as many believe, we are actually involved in a "cold war" with the Soviet Union, the melancholy fact is that we aren't doing well. According to an AP summing up, since the war the communists have extended their rule to nations, some of them of the highest strategic importance, with an area of about 650,000 square miles and a total population of over 110,000,000 people. The most aggressive of the czars were never that successful. And the communists haven't even begun to satisfy their ambitions. They are actively at work in Turkey, Greece, Italy, France and elsewhere. Whenever they obtain control, all opposition is purged by decree. And, as in the Soviet Union itself, individual dissidents have a habit of disappearing. In other words, communist suppression of its enemies is complete and final. Every precaution is taken to prevent the seeds of rebellion from sprouting.

The Russians and their satellites jubilantly regard the conquest of Czechoslakia as one mo e very important achievement in the organized effort to sing our European aid program. But there is many a slip 'twixt the cup and the lip, and that program is moving steadily toward completion. Every conceivable viewpoint has been heard. Some believe that the European governments themselves could do much to make major aid by us unnecessary, but this group, whatever the merits of its stand, is in a small minority. Perhaps the most remarkable plan of all is that suggested by third-party presidential candidate, Henry Wallace. He wants the whole program turned over to the United Nations, despite the fact that Russia could sabotage it completely with a veto—a power she has used on innumerable proposals presented to the UN in the past. And, even dismissing this, we would put up practically all the money and supplies, at the same time losing control over what happened to them. What seems to be a rather general reaction to the Wallace idea was expressed by the Portland Oregonian, when it said, "Americans, we think, are not softheaded enough after the last war and the daily example of Soviet expansion to shell out tax money to finance communist coups in countries which may be kept free."

There has been deep concern over whether Europe is really trying to help herself. Some telling evidence of deficiencies in this regard has appeared. Yet, Walter Kerr of the conservative New York Herald Tribune reported from Paris on February 21 that, "The countries of western Europe—with millions of men, women and children eating far less food than they ate before the war—are making a valiant effort to do their part in the European recovery program."

In any event, due largely to the grueling work of two distinguished Americans, George Marshall and Arthur Vandenberg, the aid plan has taken form. What Time terms a "statesmanlike compromise" seems to have been reached. The initial appropriation will probably be cut from $6,800,000,000 to $5,300,000,000. The reason for this was to give the next Congress an opportunity to examine the actual operating results of the first year of ERP. On the other main point of dispute—who is to administer the plan—the compromise provides for a committee, administered by an officer of Cabinet rank, with a 12-man advisory board consisting of members from outside the government.

No one at the top has said that the plan is sure-fire. Some of its strongest backers such as Will Clayton Marshall's chief assistant, have frankly admitted that it may fail. The feeling is that it is a calculated risk which must be taken for the reason that the alternatives are too grim.

Couple Wed In St. Paul's

The marriage of Miss Doris Ludema Harble and Paul Victor Hickman took place on Feb. 21 at St. Paul's Lutheran Church at 2:30 p. m. The double ring ceremony was read by the Rev. E. J. Katterheinrich. The bride is the daughter of Mrs. Hazel Harble, 333½ E. Siebert St. and the bridegroom is the son of Mr. and Mrs. E. H. Hickman, 535 E. Gates St.

She carried a white Bible topped with an orchid and shattered carnations.

Miss Lois E. Harble, sister of the bride, was maid of honor and only attendant. She wore a deep turquoise faille gown with a matching coronet and carried a bouquet of pink shattered carnations.

Movie Reds Well Known

WASHINGTON. — The excuse offered by several eminent, inveterate pollutionists of the Hollywood-White House-Kremlin axis, that they didn't know they were hosts to Communism in the United States, is a fair example of the contempt of this rogue industry for the intelligence of the American people. On the basis of a long and profitable experience, during which the movies have mocked the decencies and inhibitions of the American natives and sneered at every political ideal, this attitude is justified. These men sell phantoms originally intended for the innocent amusement of the people. Theirs is a mechanical elaboration of the hand-shadows on a sheet by which the fathers of the American generation next before entertained the children until nine o'clock curfew

It is unthinkable that any such household magician ever projected any moral or political corruption, but the same cannot be said of Hollywood. In this way, the movie industry became a commercial and political giant, won entree to our presidential palace and even put Roosevelt under obligations by loans and other favors to his family.

Statesmen consulted the political whims of gross vulgarians, including mincing castle garden greenhorns of 50 years before. Tendril daughters of the Common Man strewed themselves in their way, and the government of the proud United States besought such people to make movies which would help to save the nation from the Nazi, as though the Americans had been reduced to this to save their lives.

MOVIES FLATTERED RUSSIA

The proposition here was that even though Russia was Germany's natural enemy, nevertheless Russia might quit the war and join Hitler against us if our country did not constantly court Stalin's whimsical favor. Therefore the political movies must flatter Russia, extol Communism and deceive the great American boob.

Many of the great men of the moving picture industry were born in old Russia under the last czar and, without embracing Communism, nevertheless acknowledged Stalin as a savior who had helped to slay an ancient oppressor.

In time, Hitler came along, practicing the same persecutions, and Stalin's reputation prospered even more in Hollywood. That Stalin presently joined Hitler for a season is a trivial matter. In due course, Hitler kicked him in the flask as he stooped to stuff his pants in his boots and so, by Hitler's error, Russia was purified of treachery and became a trustworthy ally of the U. S.

Not much of the information elicited in the hearings by the Thomas committee on un-American activities is actually new. The same characters, identified as Communists in Hollywood devoted to the conquest of the United States by Moscow, had been named in the records many times before. Most of them are natives of the United States, but some are lisping interlopers who have trouble with our language. Of the natives, about one in four goes under an assumed name adopted for purposes of disguise.

'HAVE TO BE CAREFUL'

The Hollywood movie magnates make excuses. They can't tell who is Communist and who isn't. They wouldn't like to do an injustice and fire a mere liberal on false suspicion.

Well, now isn't that too bad? Isn't that just too fastidious? It seems strange then that they are always so willing and quick to fire and blacklist some poor devil of an American, writing under his own name, on the mere whisper of some dirty sneak that he called someone a name or abhorred Communism as a bloody horror. Hitler abhorred Communism, so that makes an American a Nazi in Hollywood. But the magnates will not believe that anyone is a Communist unless he boasts of it. Even if he goes to their meetings, contributes to their funds, acts and sings at their benefits and defends the Moscow program at every hitch in the line, he may be only a sincere liberal.

These magnates build the prestige, the confidence and the power of these traitors all the time. They are paid so highly that they prefer to hose the money right into Communist funds rather than pay tax on their incomes.

These magnates have never done a truthful movie lampooning themselves, the vulgar, licentious giants of Hollywood culture, and of Communism in the studios, but do you remember the brutal assault on the integrity of congress in "Mr. Smith Goes to Washington?"

News In The World Of Religion

By W. W. Reid

Miss Margaret E. Forsyth, director of the Foreign Division of the Young Women's Christian Association, upon her recent return from studies in Europe and Asia, urged the "Y. W." and its friends to give more attention to the educational needs of pupils abroad, and to meet the desperate shortage of teachers, textbooks, and school equipment, as a long-range means of obtaining peace. "There is a big job in Germany to help young people overthrow old traditions and to think for themselves; in impoverished Asia, there is desperate need for practical education; everywhere the students are eager . . . . While political leaders are planning international organization for peace, there should be thinking and planning on the needs of youth in the field of education."

A group of church leaders of several denominations are "invading" some twenty-three college and university campuses across the nation this academic year conducting the "University Christian Mission" to students, under the auspices of the Department of Evangelism of the Federal Council of the Churches of Christ. Among the preachers and leaders are Dr. George Buttrick, Dr. Henry Pitt Van Dusen, Dr. Edwin McNeil Poteat, and Dr. Paul Hutchinson.

The Federation of Lutheran Churches of India, at a recent meeting in Ranchi, under the presidency of the Rev. E. Frakasem, voted to establish the United Lutheran Church of India, composed of missionaries and nationals now serving under several Lutheran groups from America and a number of national Lutheran churches from Europe. Some of the members hope that later the Lutheran group may be united with other denominations in India to form an Indian Christian Communion. Seven Lutheran bodies in the United States are now sending missionaries and mission funds to India: American Lutheran Church, Augustant Synod, Lutheran Free Church, Missouri Synod, Santal Mission, United Lutheran Church, World Mission Prayer League.

The more than one hundred foreign mission boards and agencies of American and Canadian Protestantism that comprise the Foreign Missions Conference of North America are planning an "advance program" for the next five to ten years in their world-wide missionary efforts. Representative committees, composed of denominational officers and secretaries, are now mapping a "master plan" of increased missionary service which will be presented to members of all these boards in Columbus, Ohio, June 1 to 3. When this program has been formulated it will be presented to the public and churches of America at a national convention in Columbus, October 6 to 8. From this gathering the full program will be taken to the American people at mass meetings in 34 key cities, and will be jointly pressed by most of the Protestant denominations of the continent. In addition to the united program there will be varied advance programs of the several churches and boards.

Protesant leaders look upon this missionary "advance" as the major answer of the American people to the threat of communism throughout the world. The program will call for several hundred new missionaries and the building and operation of new churches schools, hospitals, and social welfare institutions. It will include the training of young people for missionary service, the training of nations of Asia and Africa for Christian work as doctors, nurses, evangelists, teachers, agricultural leaders, social engineers, etc. Among those who are leading the studies and making of blueprints for the future are Dr. Glora M. Wysner for the Moslems and North Africa, Dr. Emory Ross for central Africa, Dr. Luman J. Shafer for Japan, Dr. John H. Reisner for rural missions throughout the world, Dr. James K. Mathews for India, Dr. W. Stanley Rycroft for Latin America, Dr. Frank T. Cartwright for China. No estimate is yet possible for the cost of the advance program, but leaders believe it may run over $100,000,000 in addition to present missionary giving, during the next half dozen years.

The Committee on Friendly Relations Among Foreign Students—a committee organized largely by American Protestant churches to serve the needs of foreign youth in American colleges and universities on scholarships—reports that there are 19,934 such students in the U. S. A. this college semester. Of the total, 15,001 are men and 4,933 women.

PEACE is a guy named "JONES"

He's neither diplomat nor statesman. But without him, diplomacy would be a one-way street. And statesmanship, a beggar's feeble pleadings.
For he is what lends firmness to our international policy. He is the "strong right arm" of a people determined to live in peace with the rest of the world. He is "Pfc. Jones"—the man behind the man at the peace table.
You'll find him in the ranks of our 100% volunteer Army, in the National Guard, in the Organized Reserve Corps and in school and college R.O.T.C. units.
And on Army Day—April 6—you can salute him for the contribution he is making to World Peace. That's the day these fine organizations go on review. By visiting the Army Day exhibits and events planned for your community, you can show Pfc. Jones that you are interested—and appreciative.

Jo-Ann Green To Wed June 5

Mr. and Mrs. Nicholas Green, 342 Hanford St., are announcing the engagement of their daughter, Jo-Ann, to Mr. Thomas J. Montell, Jr., son of Mr. and Mrs. Thomas J. Montell, Sr., of 2815 Bellwood Av.

The bride-elect is a graduate of St. Mary's High School and is associated with the Ohio Bell Telephone Co.

Mr. Montell graduated from New Straitsville High School. He served three and one-half years in the Army, two years of which were spent in the European Theater of Operations. He is now associated with the Buckeye Steel Casting Co.

The wedding will take place at 9:30 Saturday morning, June 5, in St. Leo's Church.

St. Paul's Church Wedding Scene

In a double ring ceremony at 3:30 p. m., Feb. 14, in St. Paul's Evangelical and Reformed Church, the Rev. Paul C. Kaefer officiating, Miss Wilmalou Elvera Hughes, daughter of Mr. and Mrs. Alfred A. Hughes, Sr., 1668 Lockbourne Av., exchanged wedding vows with Ralph W. Robb, son of Mr. and Mrs. Dwight Robb of Lancaster.

Given in marriage by her father, the bride wore a gown of white moire with a sweetheart neckline, long sleeves with points over the hands and a fitted bodice with full skirt and circular train. Her fingertip veil of illusion was held by white satin and pearls. She carried her Easter Star Bible with white rose buds and streamers.

Miss Mary Bissenger was maid of honor and wore a pale green taffeta gown. She carried a bouquet of pink and white rose buds and carnations.

Alfred Allen Hughes, Jr., brother of the bride, was best man. Ushers were Paul Robb and Ralph Hughes.

The bride, a graduate of South High School, is employed at the Ohio Fuel Gas Co.

Mr. Robb is employed by the Pennsylvania Railroad.

Sportlight by Grantland Rice

IN WHAT line of professional sport can the athlete or competitor make the most money? Baseball, football, boxing, racing, wrestling, basketball or what have you?

The range in salaries from Joe DiMaggio to Bob Feller, according to recent report, was something like $65,000 to $85,000. At the same time, Johnny Lujack was signed up for an amount approximating $20,000 a year. Charley Trippi drew down just about the same chunk of cash for 1947.

FELLER

Football with its 20 games a season, including exhibitions, can't match baseball with its 180 games, also including exhibitions.

There are not many ballplayers paid the same as Bob Feller, Ted Williams and Joe Di Maggio. But also there are not so many football players paid on a level with Lujack, Trippi and a few more.

Even as it is, pro football can make very little money with its brief season thrown against modern expenses—even the winning teams. The others can drop enough dough to founder a Spanish galleon.

On a general average, baseball and football pay close to the same amounts, with baseball in front. The kickback is that any number of ballplayers get $7,500 or less a season.

Stars Lure Crowds

What about the pro golfers? A Hogan, Nelson, Demaret or Locke can make from $25,000 to $30,000 a year, but there are not many of these. Only a few stars. Most of the others are underpaid, but it happens to be the stars who draw the crowds.

Golf compares favorably with football for the few who must work over 300 days a year to top $30,000. The average pro golfer on tour doesn't make $6,000. Club golfers who are also instructors can do much better.

Ballplayers also last longer than football players, although such veterans as Sammy Baugh, Sid Luckman, Bulldog Turner and Mel Hein can hang around for better than 10 or 12 years. They are the unbreakables.

Joe Louis can pick up more money in one fight than any baseball or football player can earn in a big part of his career. The Louis-Walcott outdoor jamboree should play to at least a million-dollar gate. It will be an interesting fight along physical and psychological lines.

Louis gets 40 per cent of the take. This means around $400,000, from which his manager takes his cut, whatever it is. In any event, at least $250,000 comes to Louis. The only kink here is that your Uncle Sam, losing no time at all, lops off around 75 or 80 per cent.

The morbid facts are that the same collector doesn't leave Feller, Williams and other high-priced players enough to start a bragging debt.

Wrestling Is Steady

What about the wrestlers? Some active fact-finder says that Carnera will collect around $250,000 for a year's activity. This may be too high. But wrestlers do better than many people know about. It might be remembered that a wrestler can operate five nights a week in a rush period. Boxing champions must settle for two or three performances a year.

Jimmy Londos told me once that he made as much as $20,000 a week. Londos was then an incredible operator, also a very highly intelligent human being.

The only true answer to this salary matter in sport must take in the highest number who average the best pay over the years.

My answer here would be baseball, where so many thousands are involved in so many leagues. There may not be so many Ruths, Fellers, Greenbergs, DiMaggios or Williams, but there are more than 400 big leaguers who can knock off from $7,500 to $15,000—a higher average for a greater number.

Pro football can almost match this payroll with the two leagues reaching for a rival windpipe. The football players get all the money, and it will be this way until two strong leagues can play at peace.

Which reminds us, we almost forgot the jockeys. How about Eddie Arcaro, Johnny Longden and a few more? All they have is around a million dollars each. You know $100,000 a year is no big overlay.

Lining Up the Stars

It will be interesting to see which teams and which leagues sign up football's leading college stars of 1947.

Including all bowl and post-season games played, the seven leading backs of the year were Johnny Lujack of Notre Dame, Bob Chappuis of Michigan, Bobby Layne of Texas, Ray Evans of Kansas, Charley Conerly of Mississippi, Doak Walker of S.M.U. and Harry Gilmer of Alabama.

Willard Brumfield and Dick Haines shared the honors in leading the No. 1 team to a 27 to 24 victory over an evenly matched No. 2. John Mouser and Ed Findley were the mainstays for the losers.

Ernest Heskett and Don Purcell were quite impressive with their play for the No. 3 team, but along with their teammates, had a lot of trouble before winning from No. 4 team by a score of 30 to 28 after playing two overtime periods. Ray Bachtel led the losers with 13 points.

ROAD TO RIO AT CHAMPION TONIGHT
FRIDAY SATURDAY SUNDAY & MONDAY

Starting tonight, and continuing through Monday night, the single feature attraction at the Champion Theatre will be ROAD TO RIO, starring Bob Hope, Bing Crosby and Dorothy Lamour. ROAD TO RIO is a new high in comedy — with the plot never being allowed to get definite enough to interfere with the uproarious comedy incidens in the foreground. These incidents cover a wide range of variety, skidding from high good-humor to elementary slapstick and back again without interruption of the practically continuous laughter. There is also an ample apportionment of music, with Bing, Dottie, the Andrews Sisters and others participating — but the main thing is comedy, from start to finish. So if you don't like to laugh — stay away from ROAD TO RIO, at the Champion tonight through Monday.

Pinocchio At South High

Is Pinocchio's nose always as long as in the above picture? The answer will be known on Friday, April 19, at 3:30 P. M. at South High School when the play Pinocchio will be given by the Ohio Wesleyan Players.

This group is under the capable direction of Prof. Donald Eyasen of the Ohio Wesleyan Speech Department.

Pinocchio is the fifth performance presented by the Community Junior Theater for the enjoyment of the children.

Tickets for this wholesome entertainment may be purchased at door on the date of the play. The price of admission is 25 cents for children and 35 cents for adult.

VICTOR THEATER

"HOUSE ACROSS THE BAY"
Joan Bennett and George Raft

The Parsons Theater

The Parsons Theater presents Sunday, Monday and Tuesday "Out of the Blue" with George Brent and Virginia Mayo. The picture is a lightweight farce about marital mixups enacted by a cast of expert comics. Carole Landis, the prim wife of Henpecked George Brent, goes on a vacation.

While she is away, George Brent becomes entangled with an inebriated girl (Ann Dvorak). During the weekend Brent gets himself into a number of embarrassing situations, even to being accused of murder.

Spying neighbors and interfering police pester him until the worm turns. The fast and furious windup is really hilarious. Also showing is "Love From A Stranger" with John Hodiak and Sylvia Sydney. Selected Short Subjects.

Square and Circle Dancing Session

At Smith's Dance Gardens, 2138 N. 4th, every Wednesday from 8 to 11 p. m. an air of freedom and fun abounds in the square dances and circle dances presented by Darwin Bryan.

The easy, understandable manner of teaching the square and circle dances plus the distinct "calling" makes for ease among the newcomers and genuine fun for the "old timers."

The added feature of the free square dance lesson at 7:30 to 8 each Wednesday is claiming many new friends in Columbus for a dance created and established right here in the United States—the square dance.

Southland Announces Family Night

The Academy Theatres office announced this week that a regular Family Night has been instituted at the popular Southland Theatre.

On Wednesday night, all admission prices will be twenty cents, for a complete show, of appeal to the most discriminating film fans.

On the next Family Night, Wednesday, April 7th, the Southland will feature a return engagement of "Laura", smash hit mystery melodrama, adapted from Vera Caspary's best-selling novel of the same title. Five big stars—Gene Tierney, Dana Andrews, Clifton Webb, Vincent Price and Judith Anderson—head the excellent cast of this exciting, suspense-packed picture, the action of which centers around the murder of Laura Hunt, lovely young advertising executive and member of New York's toniest Cafe Society set. A host of suspects, brilliant dialogue, gorgeous wardrobes and sets, excellent story and outstanding cast won "Laura" nation-wide acclaim when it was first released. Co-feature for Family Night will be "Lone Wolf in London", starring Gerald Mohr and Eric Blore.

IDEAL THEATER

The Ideal presents Sunday and Monday "The Prince of Thieves" with Jon Hall and Patricia Morrison. Filmed in Cinecolor this is another chapter in the saga of Robin Hood.

"Two Cartoons" are also on this billing.

Columbia Theater

The Columbia presents Sunday, Monday and Tuesday, "My Wild Irish Rose," with Dennis Morgan and Andrea King. The film is the biography of Chauncey Olcott, leading vaudeville entertainer during the 1890s and composer of such tunes as "Mother Machree" and "My Wild Irish Rose." Dennis Morgan portrays Olcott, while Andrea King enacts the role of Lillian Russell. This technicolor tune-film, literally overflows with music, laughter and specialties. It's gay, gorgeous and grand. Back in the days of the nifty nineties. This picture is sure to score a hit with both young and old alike. Also selected short subjects.

Club Alexander

Pat McGowan, king of comedy, the original snowball Harris is again doing the emcee duties at Club Alexander for the current show.

He is a sensational comic dancer. Michelle, character dancer, is also on the show, with a very clever routine of dances. Don't forget the big quiz show every Tuesday night, plenty of fun and prizes. Also remember that birthday or anniversary and make arrangements for it with Joe. Cake, favors and entertainment on the house.

SOUP, SALAD, CAKE

Steaming hot bean soup, green salad bowl and a luscious banana cream cake to make March meal that all will enjoy.

By BETTY NEWTON

The chill, windy days of March are soon forgotten when your family sits down to a hearty lunch or supper that features steaming hot soup. Bean soups are hearty and healthy. The addition of milk is a good way of getting extra milk into the family meals.

To complete this meal, perhaps a salad and an "extra special" dessert will please everybody. To the tossed green salad you may add sardines, slivers of cold lamb, ham or beef. Or you may prefer chunks of blue cheese or strips of American cheese. Crisp crackers and hard rolls make good finishing touches.

Creamy Bean Soup

1½ C. navy beans
3 slices bacon
½ C. minced onion
2 Tbsp. chopped parsley
3 C. milk
Salt
Pepper

Pick over beans and wash well. Let soak in cold water to cover overnight. The next morning drain and measure liquid. Add enough more water to make 4 C. Then dice bacon and fry until crisp. Remove from fat and pour off all but 2 Tbsp. fat. Cook onion until tender in this fat, then add beans with liquid and bacon and simmer slowly until beans are tender. Add milk and reheat. Garnish each serving with minced parsley and bits of bacon.

Green Salad Bowl

1 lb. leaf lettuce
4 hard cooked eggs
1 can sardines
Stuffed olives
Pickles
French dressing

Separate lettuce leaves; wash well and then drain thoroughly. Break or cut the leaves into individual salad bowls. Chop olives and pickles, reserving a few olives for garnish. Arrange a few sardines and slices of egg on top. Pass French dressing.

Banana Cream Cake

½ C. shortening
1 C. sugar
2 eggs
1 tsp. vanilla
½ C. milk
1¾ C. flour
2 tsp. baking powder
½ pt. heavy cream
2 bananas

Cream shortening and sugar in a large bowl. Add well beaten egg yolks and beat smooth. Sift together dry ingredients and add these alternately with milk to creamed mixture. Beat egg whites until stiff, but not dry. Fold these into batter with vanilla. Pour batter into 2 greased 8-inch square pans and bake in 375 degree oven for 25 minutes, or until done. Remove from pan and cool. When ready to serve, cover one layer with sweetened whipped cream, top with sliced bananas. Cover with second layer of cake which is then topped with the rest of the cream and sliced bananas.

Tuesday, April 6— Educational Films—Stephen Foster, Handel, Birds of the Sea.

Wednesday, April 17— 9:10 A. M.—Sale of Savings Bonds.

The above calendar of the events of the coming week is announced so that our parents and adult friends may plan to come to Reeb to visit us.

—R—

The boys and girls in Room 104 are watching to see how many signs of spring they can find. Harley Latham has brought some nice pussy willows.

—R—

Room 201 will present the Assembly Program on April 2. The theme of the program will be "America." It will open by the Pledge of Allegiance to the Flag and the "Star Spangled Banner." A short dramatization "America, the Land Where All Are Free" will follow—each member of the class will take part. It will be followed by two songs—"I Hear America Singing" with parts sung by Margaret Sziarto and Gary Gregory, and "Panis Angelicus." The program will close by the entire group singing "America."

Pupils, who have had exceptional handwork added to our display case this past week are: Eugene Wise, James Coleman, Cornelius Gilcrease, Walter Moore, Alvin Carl and Dale Stewart.

—R—

Reeb Avenue pupils who will represent our school in the all-city elementary school chorus at the annual Parent-Teacher Music Ensemble Friday, April 9, at Central High School are: Jacqueline Thompson, Frances Cowan, June Early, Darrell Castle, Daniel Henry, Joseph Barkie and Ralph Tedder.

—R—

Mr. Callahan is conducting a Marble Tournament among Reeb's thirty-two 6th grade boys. The committee that worked with Mr. Callahan, in formulating the rules was composed of Robert Fletcher, Royal Reynolds, Carol Fellure and Melvin Hawa. At this writing John Hook has defeated Harold Blann; Peyton Black won from Thomas Branscome; Leon Garnes won from Edgar Baker; Eugene Dixon defeated Charles Santee; Harvey Hill won over John Vargo; David White won from Charles Harbour; Robert Fletcher won from Darrell Castle; Melvin Hawa defeated Joe Barkie; Walter Daniels won from Donald Jobe; Leo Greene defeated Dorsal Santee; and Clifton Latham won from Carl Weber.

—R—

The playground ball tournament which Reeb has been conducting every fall and spring for several years, will soon be starting. In these contests which include the five upper grade rooms, every pupil takes part and all positions are determined by drawings. We go by our own rules which we have made to fit our small playground situation.

—R—

Several of the 2A pupils have reported that they saw Spring birds. On March 1 a robin came to the elm tree by our window. He flew about from branch to branch then to our window sill.

We are having fun with Spelling. Individual charts show that seven have not missed a word. They are Deanna Wiles, Mary Kottyan, Sylvia Holstein, Dorothy Pallos, Carl Berke, Richard Stewart and James Wishon. Out of 50 words studied, five pupils missed one. They are Linda Miller, Frances Beyer, Elaine Gleed, Linda Stewart and William Crookham.

Jerry Lane issued the following statement: "The small retail merchant needs an organization to combat the efforts of the politicians to make us tax collectors. Our Organization will not have dues, assessments or contributions. We merely want to operate our business, not a tax collection agency.

"Our first objective is to defeat the City Income Tax and we hope for the support of every merchant and business man in the city."

Although there is a demand for teachers generally, Mr. Bowers stated that those mostly urgently needed are in the specialized fields such as Home Economics, Art, Music, Industrial Arts and Girls' Physical Education.

During the remaining time after his talk, Mr. Bowers answered questions on the FTA and teaching field for the groups.

Spring Fisherman Busy

High water throughout Ohio during the past week halted early spring anglers but not for long. Streams left their banks in most areas overnight but were back to normal within a short time causing little interruption for thousands of people determined to get in some early spring fishing.

Division of Conservation Law Enforcement Officers today urged the general fishing public to display fishing license badges on some outer garment in plain sight and to carry with them a digest of fishing laws for guidance in angling within the rules and regulations imposed upon the public that all may share alike in the sport of fishing.

Although fishing rules and regulations for Ohio have, during the past few years, been liberalized considerably, bag limits, legal lengths, and legal methods of taking fish must and will be enforced.

Only minor changes in regulations were made by the Ohio Conservation Commission for the 1948 season (March 1, 1948, to February 28, 1949). The closed season blask bass will be May 1 to June 15 for the entire State in the place of split season of the past few years which gave the southern half of Ohio an earlier closed season because of differences in normal weather conditions. The Lake Erie Fishing District closed season on black bass will remain at May 25 to June 30, no change over 1947.

Other changes include placing a daily bag limit on frogs of 10 and reducing the possession limit of wild minnows, or an aggregate of minnows and aduatic insects used for bait, from 100 to 50 for other commercial dealers.

South High Boosters Paper Drive, Sunday

Enterprising Spastic

You folks of the South Side probably all know of John Rogers, who is greatly handicapped physically, but perhaps you are not with what he is doing and striving for.

Nine years ago he was graduated from South High School with the full expectation of going into business for himself. Several business men tried to help him but the plans failed, and ever since that time he has been working hard to save money to open up a business for himself. Due to the high cost of living he only earned enough money to buy what he actually needed. The story would be different if his magazine subscription and greeting card business was good the whole year around, but there are only three months of fairly good business.

John served on the board as an active member of "Spastics of America Inc." and has been connected with the editor of "Voice of the Spastic" ever since it started.

So many times it is asked of a Spastic "Why do your parents allow you to go out and try to earn your own living?" It is not understood that these parents do not want to stand in the way of their children who have a perfect right to go out into the business world and decide what they want to do. But some individuals try to discourage them in anything they try to do, saying that the parents should continue to care for them as adults and fail to understand that they have particular ambitions which they would like to carry out in spite of their handicaps.

During the war the handicapped, including many spastics, played a very important part in industry and war plants. They proved that they could work in machine shops and offices on an equal basis with the able-bodied worker.

For the past nine years, John Rogers has had the ambition to establish a greeting card and magazine shop for himself. This he could do if he could obtain a small loan but thus far he has been unable to obtain it largely because of his condition.

The Spastic of America Inc. inaugurated a Parade of Pennies as the campaign for raising funds for their Home-School project. Already they had a building fund of $1,000 money which has been raised entirely by spastic, and of course, John is greatly interested in this project.

If you have any new idea to give John or help him in any way, he lives at 393 E. Gates St. Telephone GA-5668.

We might suggest sending your sales tax stamps to John. It might help him to realize his desire to go into business.

Frank Hashmall Goes; It's Good Riddance

With the removal of Frank Hashmall, so-called Franklin County Communist Party Executive Secretary, from 1403 South Fourth St., passes one of the South Side's most disagreeable incidents.

We purposely refrained from any publicity about this man because the incident was as distasteful to us as to all people of the South Side. Personally, we don't believe the good citizens of this community wanted him to live here.

We believe, as Harold Stassen, Republican Candidate for President, says: "The Communist Party should be barred from the ballot in the United States inasmuch as they believe in the overthrow of our government."

We believe he is right. That Congress should immediately enact such a law.

The riots at the Hashmall home, located at 1403 South Fourth St., were radically wrong. Every man is entitled to safety in his home be he right or wrong.

The dangers in these riots were that innocent people might have suffered. Supposing someone had set fire to this Communist Center, the closeness of other homes might have wiped out homes of innocent people. Then too, in the stone-throwing incident, supposing one of the missiles went astray and went through the window of an adjoining home and hit an innocent person, and either seriously injured or killed that person. Again the innocent would have suffered.

Or supposing Hashmall fired into the rioters to protect his home. Someone might have been killed. Again the innocent could have suffered.

We hate everything that Frank Hashmall and his group stand for but the South Side has no right to exercise mob rule.

We're glad Frank Hashmall is gone. The South Side is well rid of him and his cohorts.

Save Your Paper For South High Boosters

The South High Booster's Paper Drive is to be held Sunday, April 11, starting at 11:00 a. m. The cooperation of the South Side is asked to help the Boosters make this paper drive a huge success.

This will enable everyone to get rid of the papers that have accumulated through the winter, and at the same time help the Boosters raise the rest of the money necessary to purchase the scoreboard for South High Athletic Field, which is to be dedicated to the 97 boys who lost their lives in World War II.

Various merchants and organizations are donating their time, money and trucks to help the Boosters make the drive a success. You too can help by having your papers and magazines bundled and ready for the Boosters when they pass your house.

Let's all get behind this good cause. If anyone wishes they may call the South Side Boosters Office GA-9262, give their name and address and the Boosters will be glad to send a truck on the day of the drive to pick up your papers.

Remember the date, Sunday, April 11, starting at 11 a. m. The Boosters have work hard to make this drive a success, so let's all lend a helping hand.

Economic Highlights

It is significant of the current temper of this country that a number of prominent newspapers and people criticized the President's speech to Congress dealing with the international situation on the grounds that it did not go far enough—that he should have made it even clearer to the Soviet Union, its satellites, and the European nations which are still holding out against the onrush of communism, that we are no longer going to permit our friends or ourselves to be pushed around. Some even take the extreme position that we should draw in line on the map of Europe and inform Russia that if she crosses it war will result. That, of course, is not a generally held view, and in informed circles the feeling that a prolonged peace is possible still exists.

In any event, Mr. Truman's message was framed in strong and direct language for the chief of state. It is one thing for an unofficial person to bulge his muscles at a nation with which theoretically, we are on friendly terms—it is a very different thing when it is done by those who must bear the heavy responsibility of formulating policy and evaluating risks. The fact that Mr. Truman was so unequivocal in his mention of the Soviet Union is just one more indication of the extent to which American patience has been stretched. And the fact that both parties in Congress gave the President heavy and sustained applause is another barometer of the thinking that is going on in high circles.

Mr. Truman's three suggestions—for speeding up approval of the ERP, for compulsory military training, and for a temporary renewal of selective service—are not new. Approval of ERP is now a foregone conclusion. The last two, however, are of a highly controversial nature and a number of leading figures in Congress said after the speech that they would have to be given overwhelming proof that the measures are necessary before voting for them. Even a few months ago, it seemed unlikely that the subject of military training would be brought up at all in this election year, and it seemed next to impossible that it could be approved. But the pace of fateful events has been immensely accelerated and the picture has changed a great deal in a short time. It is the view of the Administration, and of the chief military men, that voluntary enlistments cannot keep the services at even their present authorized strength, and that a draft, unpleasant as it may be, is the only solution. Going farther, they are also certain that the only alternative to a huge standing Army, which has always been repugnant to this country for reasons of principle as well as reasons of money, is a trained civilian reserve.

It is a good sign that everyone in an official position, from the President on down, frankly admits that the policies advocated are risky. The ultimate risk of war, and it is being talked about openly. The usual rumors to the effect that this top official or that has confidentially stated that we will be at war with Russia in a matter of weeks or months, are floating about. But, as well as one can judge now, the final crisis is nowhere near as imminent as that, and for several reasons.

It is unthinkable that this country would provoke a war. And it is pretty obvious that the Russians do not desire war—they have been swiftly getting what they want without bloodshed on their side. Those who are in the best position to know—though the available evidence is admittedly inadequate—still think that the Soviet Union will not be ready for war for some years. Her present strategy is apparent—to seal up Europe so that there will be no place for us to fight, and to make effective opposition from peoples within Europe impossible. She has come much closer toward that frightening goal than millions of us seem to realize.

The 5-power compact, signed the same day Mr. Truman made his talk, and which pledges Western European states to unite against aggression, is one of the heartening signs. The program advocated by the President is clearly designed to implement it. Those who believe in this program are convinced that the existence of a militarily powerful United States will be as vital to European anti-communist elements as aid under ERP.

In the meantime, there is a great deal of loose and uninformed talk concerning atomic warfare. It may be that new weapons capable of deciding a war practically overnight can be developed. They have not been yet. Many military men feel that the atomic bomb, potent and valuable as it is, will not be a decisive weapon and that, in the final stages of war at least, the classical technique of taking over the losing nation physically will again be followed. Furthermore, if the world is to be racked with war between hemispheres, the vast distances which will separate the opposing forces will have to be bridged by planes which do not yet exist. We have no bomber which can fly many thousands of miles with a bomb and return. And no one else has either, if the experts are to be believed.

Senator Taft, among others, said he was disappointed that the President has not laid more stress on enlargement and modernization of the Air Forces. Some of the opponents of compulsory military training feel that if we have a sufficient air force, far fewer foot soldiers will be needed. That point will be debated at length when Congress deals with military training and selective service legislation.

Pumping Oil Fields in Reverse

PITTSBURGH, PA.—By pumping water and natural gas into the depths of the oil fields, modern science is bring 10 to 50 per cent more oil to the surface. This typical cross section shows one way it's done. Here gas is pumped in above the oil pool, and water underneath it. These artificial pressures, from above and below, force the oil to flow thru the sand or rock in which it is imbedded and up the well shaft. Sketch is based on an explanation by Gulf Oil.

As Pegler Sees It

By Westbrook Pegler
Released by WNU Features.

I REALIZE, of course, that when a judge decides an important case on a question of fact he may gracefully decline to exhibit his thoughts in a formal opinion. I know also, however, that writing can be more arduous work than physical labor and, knowing something about judges, I suspect the fellow who, like an umpire in a ball game, decides a close one with a snap and turns his back and walks away.

I accept snap decisions, without objection, only on the wide ones.

Umpires are not required to justify their decisions except in cases involving interpretations of rules. These are their questions of baseball law. On questions of fact, that is, in plays wherein the umpire's eye is the sole authority as to whether the ball or the player was first to the bag, the umpire rules on the instant and brooks no dispute. He will be wrong a few times in 154 games a year. But the philosophy of baseball justice is that the breaks come out about even for individuals and teams, in a game, a series, a season or a lifetime.

In baseball that is well, but in our courts it is bad. In baseball sportsmanship is supposed to prevail and the victim of a bad decision is supposed to take it without protest. To our general surprise, sometimes he does.

But sport and justice are separate institutions, a word I cherish because it can designate anything from the house of detention to the geodetic survey, and, the finer the line between fair and foul, the more scrupulous the judge should be to justify his decision and maintain public confidence.

An athlete may be subject to a hundred decisions in one contest, the total effect of which will not affect his rights as a citizen. The citizen at bar may never have been there before and may never be there again. Do him injustice this once and you take the chance of making an anarchist of him.

Write the Reasons

But if injustice must be done through honest error by the judge, he should write the reasons why he decided as he did. It is not an easy task and the salaries of judges are not sufficient for high-class lawyers who are also good writers. We often get more ability and zeal than we pay for. But in too many other cases we get just about value received. That means lazy-minded, indolent men who lack the character and education to realize that they are supposed to personify equal justice under law.

There is a class of federal cases in which the government is a party in which some judges, through laziness, discouragement, initial lack of character or political corruption of soul, refuse to decide honestly.

The department of justice sometimes goes through false motions of prosecuting a political ally or protege of the Democratic party without actually trying. Judges know this. The consistent record of defeats of the department of justice, meaning the people of the United States, in prosecutions of union racketeers is too notorious to be accepted without suspicion.

I believe the Harry Bridges deportation case is suspect in that the department of justice saw to it that no jury of American citizens ever should sit in judgment. Only judges sat in this case because it involved a petition for a writ of habeas corpus. Still, Bridges lost all the way to the supreme court, where the bench had been loaded by Roosevelt with the advice of a coterie of pro-Communists.

Abuse of Laws

Even some of the good federal judges are spiritually debilitated. Good men see terrible monstrosities day after day which jurisdiction and decorum place beyond their touch.

A pedestrian injured by an automobile wins a judgment for $5,000. He tries to attach the defendant's property but finds him bankrupt. The very automobile which did the damage is auctioned almost secretly, from the courthouse steps, and is bought for a few dollars by the bankrupt's brother with the bankrupt's own money. Bankruptcy was an act of the British parliament to relieve merchant traders who had honestly lost their all by shipwreck or piracy. In our country, especially in New York and particularly in Brooklyn, it is a corruption.

In naturalization cases, particularly where the petitioner is the protege of some American society with a large treasury and hyphenated loyalty, some federal judges consistently decide in favor of the immigrants in flagrant defiance of the facts. We have only the conscience of the judge to guard us here.

News In The World Of Religion

The Presbyterian Institute of Industrial Relations, meeting in Labor Temple, New York City, is said to be the only training school of its kind under Protestant auspices. In nineteen brief seminar terms, it has helped 259 ministers and other church leaders to understand the methods of good relations among industry, management, employees, and the church, and to train for counselling and arbitration.

The Federal Department of Education in Mexico reports that more than 350,000 hitherto illiterate adults learned to read and write during 1947. They were all taught by volunteer laymen, mostly their neighbors, using the picture-word flash cards developed in many languages by Dr. Frank C. Laubach of the International Missionary Council. The Department estimates that there are still 6,000,000 illiterate adults so it is pushing its campaign to teach them all. One of its problems is to teach the Indians of Mexico to read in their own tongues, and later in Spanish.

"As Christians, we support the European Recovery Program in the conviction that it can be one of history's most momentuous affirmations of faith in the curative power of freedom and in the creative capacity of free men," says a statement adopted by the Federal Council of the Churches of Christ, under the presidency of Charles P. Taft of Cincinnati. "In the wake of the devastation of the war, these (European) nations have been visited by unanticipated dislocations and disruptions through the post-war years. We are called upon to help them overthrow these accumulated obstacles to recovery. But that help will fail in its most important purpose if, in extending it, we attempt to fashion or shape their future. It will succeed if we affirm and undergird the rights, the desires, and the capacities of these peoples to work out, for our common good, their own destiny. An undertaking so conceived and directed merits our material sacrifice because it is a cause that enlists our Christian conscience and conforms to our Christian commitments."

Three hundred foreign students from the overseas mission fields served by the Methodist Church have been brought to the United States for special post-graduate schooling, it is announced by Dr. Ralph E. Diffendorfer, executive secretary of the denomination's Board of Missions and Church Extension. They are now in colleges and universities in every state in the United States, on scholarships raised by the Methodist Church in its "Crusade for Christ" campaign. The Church has to date allocated $1,075,000 for the education of these young people and for a smaller group to be trained in their own countries. Church leaders hope that this scholarship provision will become a continuing missionary enterprise of the Methodist Church. Of the 300 scholarships, 147 went to young people of China; 41 to India; 23 to Europe; 19 to Latin America; 16 to the Philippines; 16 to Korea; 9 to Africa; and smaller numbers to Malaya, Syria, New Zealand, Fiji Islands, Puerto Rico, Australia, and to Japanese Americans in the U. S. A. Six scholarships were awarded to young Greeks who are candidates for the priesthood o fthe Grek Orthodox Church.

Ten textile mills in North Carolina have pledges contributions to Lutheran World Relief during the coming year, through the efforts of the Rev. Carl F. Schaffnit of the LWR staff. Most of the goods will be shipped to Germany. PRAYER AGAINST COMMUNISM

Catholics of the Diocese of Columbus will offer an hour of prayer against the spread of Communism, in Columbus, Saturday, May 1. The ceremony being prepared under auspices of the Diocesan Holy Name Union will take place on the Cathedral grounds, Broad and Fifth Streets. Bishop Michael J. Ready will preside.

Henry A. Reinhard, President of the Diocesan Holy Name Union, which embraces Holy Name Societies in parishes in the 22 counties comprising the Diocese, has appointed J. E. Tritschler, 1040 Elmwood Avenue, as general chairman of the event.

This is the second year the Diocesan Holy Name organization has sponsored a program condemning the spread of Communism throughout the world. Thousands of persons attended the afternoon ceremony at St. Joseph's Cathedral last year.

Because May Day, traditionally dedicated to Mary, the Mother of God, falls on Saturday, it is expected that the program will occur mid-day. Full program details are being arranged by the Executive Board of the Holy Name Society, under the direction of Msgr. Robert F. Coburn, Diocesan Director of the Holy Name Society.

Doris Harble Weds Paul Hickman

The marriage of Miss Doris Lodema Harble and Paul Victor Hickman, took place Feb. 21, at St. Paul's Lutheran Church at 2:30 p. m. The double ring ceremony was read by the Rev. E. J. Katterheinrich.

The bride is the daughter of Mrs. Hazel Harble, 33½ Siebert St., and the bridegroom is the son of Mr. and Mrs. E. H. Hickman, 535 E. Gates St.

For her wedding the bride chose a gown of heavy white satin with a square neckline outlined in seed pearls and rhinestones. The full skirt fell over a ruffled satin hoop and ended in a circular train. Her full-length veil was of illusion and was held in place by a tiara of orange blossoms. She carried a white Bible topped with an orchid and shattered carnations.

Miss Lois E. Harble, sister of the bride, was maid of honor, wearing a deep turquoise faille gown with matching coronet. Her bouquet was of pink shattered carnations.

Ray Bethel was best man, and ushers were George Evans and Alex Rod.

The bride is a graduate of South High School and is employed by Buckeye Union Casualty Insurance Co. The bridegroom is also a graduate of South High and is associated with the Ohio Farm Bureau.

SPORTS

By GRANTLAND RICE

WE WERE talking about the leading football coaches of the present year, Frank Leahy, Fritz Crisler and Lou Little were in the lead. There were votes for George Munger of Pennsylvania, Matty Bell of S.M.U., Blair Cherry of Texas, Bobby Dodd of Georgia Tech and Bob Higgins of Penn State. Also Harry Stuhldreher of Wisconsin, Pop Waldorf of California and Red Sanders of Vanderbilt came in for pleasant mention.

Pop Warner

From this point the conversation began to veer back to the great coaches of the past — Pop Warner, Knute Rockne, Hurry-up Yost, Bob Zuppke, Howard Jones, Jimmy Phelan, Bill Alexander, Dan McGuain, Bob Neyland, Frank Thomas, Wallace Wade, Bill Roper, Lonnie Stagg —the long list began to grow and grow.

Finally a gray-haired Kansan butted in. His name was Jesse Harper — Rockne's coach at Notre Dame back in 1913 — the team that wrecked Army in that year of football history.

"You've overlooked one of the greatest," Harper said. "On a par, at least, with Rockne, Warner and Yost." This was a pretty fair build-up.

"I'll tell you his name," Harper said. "Percy Haughton of Harvard. Haughton must be ranked around the top. Here was a great coach—not merely a good one. He was colder than an iceberg, harder than granite. But he was brilliant — a natural leader.

"He was to football what Gen. George Patton was to our armies. He was on his own. He had no respect for what 120 million Americans thought of him, because he knew 95 per cent of them were wrong as far as his job was concerned.

He Perfected Plays

"No one ever invents anything," Harper said. "Twenty coaches claim they used the forward pass first. Ten coaches claim they used the huddle first. The T-formation was used as far back as 1906. But it was Haughton who really perfected the hidden-ball attack, and it was Haughton who really perfected the mousetrap play more than 30 years ago. Haughton never had the amazing personality of Rockne. But he knew more football than anyone else except Pop Warner. He gave the game more. He worked day and night.

"He hated football writers, so they hated him. He hated practically everybody — except his own Harvard team. He could hate them too. He was ruthless. But don't let anyone tell you that Haughton wasn't one of the greatest coaches of all time. I couldn't place a coach above him."

Then I began to remember a few things about Haughton — back around 1915 in his contest with Yale. I happened to mention the fact that Yale had a big, fast, hard-charging line. "I only wish they were twice as fast," Haughton said. "We'll let 'em through — and then cut 'em down." That was the way it happened. That was the start of mouse-trapping.

"If Haughton told us to jump off a cliff 30 feet high, and he'd catch us — we'd jump." Tack Hardwick told me once. "And the odd part is that if he told us that — and we jumped — he'd catch us."

Haughton was brutal in his treatment of many of his men. Ask Sam Felton, a great Harvard star who had to take unbelievable abuse.

Haughton timed his practice by the clock. Five minutes for this—20 minutes for that — 15 minutes for something else. He knew exactly what his team needed. Not a minute was ever wasted. Even in practice no Harvard player ever walked on the field. He had to run. "Football is all action," Haughton said. "You don't walk in any game."

Got Writers Barred

Haughton felt that it was in his power to insult or override anyone who barred his way — including a Lawrence Lowell, then president of Harvard.

"I think we are overplaying football at Harvard," President Lowell told him once. "I agree with you," Haughton said. "Too much publicity. Let's bar all football writers from the field."

Lowell said O. K. It was exactly what Haughton wanted — and so did most of the other coaches. Only Haughton got away with it.

Football writers today spill nothing. It was different 30 years ago, especially when a flock of Boston's football writers were Dartmouth men.

Haughton was the one who supplied rough, yellow gloves for his Harvard team against "Speedy" Rush's Princeton squad. Next day the faces of Princeton players were a sight. Tad Jones refused to let the Yale game start until these gloves were removed.

Haughton had one basic idea — win the game. For four glorious years in a row he wrecked four good Yale teams—two by scores of 35 to 0 and 41 to 0.

Our film on Tuesday was about "Feeding Baby Birds." Sometimes the mother feeds them and sometimes the father does. The last I saw the fish had almost disappeared. I was afraid it might choke the bird. But I guess they know what they are doing—Harold Chapman, Room 110

Easter Egg Hunt Proves A Success

April 3, 1948
South Side A. A.

Dear Sir:

The Easter Egg Hunt held on Sat., March 27, at Scheler Park, was a grate success. The South Side Athletic Association was able to collect some 74 dozzen eggs from the people of the South Side. There were about 600 children. The atending eggs were hid by members of the South Side A. A. at about 1 o'clock and by 1:20 the entire park had been covered by the kids.

A Easter Rabbit was called to service by the club to help make the affair more realabstic. We would like to thank the South Side Boostie for the complete succes of our hunt, as the Boostie was our only means of publicity for the affair. We would have a much larger attendance no dooyht but for the supprising cold weather.

This was just a start of the the South Side Athletic Association's interest in the youth of our South Side. There are many irons in the fire right now. One of which is a raffle that will help in buying softball uniforms for a Jr. team at Scheller park. (Do not confuse this with the South High Booster raffle). Recently officers were elected for the Ass'n. They are as follows: Harold Beals, president; Art Salyers, vice president; Ed Dempsey, secretary. Jack Dempsey Treasurer. David Levy Financial Secretary. The three trustees are Charles Kessler, Jim Hively, Don Beals.

Yours for better Sports
David Levy

FRI. AND SAT. AT THE CHAMPION

PRINCE OF THIEVES, starring Jon Hall and Patricia Morison, will be the main feature at the Champion Theatre this Friday and Saturday. This film features the famous Robinhood of Sherwood Forest, and is good entertainment for the entire family. Co-featured is UNDER THE TONTO RIM starring Tim Holt and Nan Leslie.

SUN. AND MON. AT THE CHAMPION

Sunday and Monday at the Champion Theatre, the main feature is one of the finest human interest stories that was made in 1947 — CASS TIMBERLANE. Starring Spencer Tracy and Lana Turner, it is one that you'll cheat yourself if you miss. Companion attraction will be MAIN STREET KID, starring Al Pearce and Arlene Harris. We consider this an excellent double bill for everyone from 6 to 60.

"Pinocchio" At Southland

A close-up of "Pinocchio", Walt Disney's adventuresome young hero of the full-length feature in Technicolor, opening Sunday at the Southland Theatre, on a special Children's program, with "Utah," starring cowboy Roy Rogers. The object on Pinocchio's nose is "Jiminy Cricket", the second most important character in the deluxe opus. The wonderful adventures of "Pinocchio", deal with the adventures of a frustrated boy who is tutored by an insect qualifying as his Conscience.

The Parsons Theater

The Parsons presents Sunday and Monday "Cass Timberlane" with Spencer Tracy and Lana Turner. Sinclair Lewis never wrote a greater book. Spencer Tracy and Lana Turner are perfect casted in this warm human story of husbands and wives. Spencer Tracy as a Judge falls in love with Lana Turner, a girl from the other side of the tracks, when their baby is stillborn, Lana becomes restless and engages in a flirtation with Tracy's best friend. Tracy and Miss Turner quarrel, she falls ill, but her recovery is speeded when she learns how patient and fair a man he is. He in turn realizes that his wife understands the true meaning of love. Also playing is "Linda, Be Good" with Elysie Knox and Marie Wilson. Selected short subjects.

GENTLEMAN, BEWARE! — Even in the good old days, eligible young men were fair game in Leap Year. Lawson Zerbe and Elaine Rost, who have the lead roles on NBC's "Adventures of Frank Merriwell," demonstrate Leap Year tactics used in the '90s.

ALL'S WELL — Lawson Zerbe, star of NBC's "The Adventures of Frank Merriwell," forgets his shyness — and reaps a Leap Year reward. Elaine Rost is the pretty miss giving the kiss. She portrays Inza, the girl friend, on the show.

LET'S USE ORANGES!

Oranges are a "natural" for winter meals—as orange juice, sliced, and in delicious, colorful desserts

By BETTY NEWTON

Good news—they're on the market now! Easy to peel, slice and section, oranges fit right into the lunchbox or any menu. They bring appetite appeal as well as vitamin values.

Now that oranges are plentiful, it's a penny-minded homemaker who uses them in desserts. Their flavor not only enhances sweet foods but provides a delectable tartness almost everyone likes. Here are two dessert ideas for something to serve your family that's a bit different—and tops off a winter menu with that right touch!

ORANGE SOUFFLE

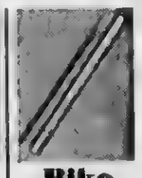
6 Tbsp. shortening
5 Tbsp. flour
¾ C. milk
1 C. orange juice
1 tsp. grated orange rind
1 C. sugar
6 eggs, beaten separately
2 Tbsp. lemon juice

Melt the shortening in a saucepan, stir in the flour, and then the milk. Cook for a few minutes until thick over simmer flame, stirring constantly to keep lumps from forming. Remove from flame. Add the orange and lemon juices, orange rind and sugar. Pour over the well beaten egg yolks, then fold in the stiffly beaten egg whites. Pour into a deep, greased baking dish. Place the dish in a pan of hot water and bake at 350 degrees for about 50 minutes, or until firm in the center. Cool and serve with whipped cream.

ORANGE BRAN PUDDING

¾ C. sugar
4 Tbsp. cornstarch
¼ tsp. salt
2 C. boiling water
2 Tbsp. orange juice
1½ Tbsp. lemon juice
1 Tbsp. grated orange rind

¼ C. shortening
½ C. sugar
1 egg
1 C. flour
2 tsp. baking powder
½ tsp. salt
½ C. milk
½ C. bran



Mix sugar, cornstarch, and salt. Add water and cook over simmer flame, stirring constantly until thickened. Continue cooking very slowly, stirring frequently about 15 minutes or until starch is cooked. Add rind and pour into lightly greased 8 inch square pan. Blend sugar and shortening thoroughly. Add egg and beat well. Sift flour, baking powder and salt together; add to shortening mixture alternately with milk. Stir in bran. Spread batter over sauce. Bake at 350 degrees for about 35 minutes. Serve warm with sauce from bottom of pan.

Mr. Estep now has O. P. Amos, owner of Valley Crossing Garage, running his business while he is hospitalized, he also has acquired the services of J. D. Bowman, Frank Mason and George Crouse as mechanics. The body and fender repair is in the capable hands of Dan Hunter. BUCKEYE RADIO LAB IN NEW LOCATION

In the year of 1931, Charles W. Dykes, an ambitious young man, started a small radio repair business in the garage of his home at 270 E. Morrill Ave. This was known as The Buckeye Radio Lab. It was his intention to always do good work at a fair price. He did no advertising, but through the good will of his satisfied customers, who told their friends, this small business soon grew too large for his garage.

Early in 1934 the business was moved to 199 E. Whittier St., where he had approximately three times the amount of floor space. At this time one employee was added. The business continued to increase, and by 1937 he was badly in need of more room.

Since he needed more space he moved across the street to 188 E. Whittier. Here he had more than twice the amount of previous floor space. It was now necessary to add another employee, as they were repairing radios all over the city. Their service was good and their prices right.

In 1940 their volume of business required that they stock small appliances and radios to sell. In order to do this they again had to double their floor space by renting the adjoining store room next door.

At this time Charles took his brother, George H., as his partner. The business grew all through the war period, and they maintained the best service obtainable. They repaired hundreds of radios that were in such bad condition that they should have been replaced. But since new radios were an impossibility, they were more than glad to work nights, Sundays and holidays to keep radios playing. They knew everyone was anxious for the up-to-the-minute news and needed their radio for entertainment during well needed relaxation.

Finally these store rooms became over-crowded. They were unable to locate another building in the neighborhood large enough to meet their business demands. So after considerable thought they decided to build their own store at 368 E. Whittier St., to take care of their business.

The Buckeye Radio Lab now has seven employes and two service trucks that covers the city daily. They have the best equipped changer repaid department in the city and carry a full line of standard brand electrical appliances. They are proud to say that they are still maintaining the same good service and fair prices.

To all those who have dealt with Charles and George, stop in and say hello, and see their new store. To those who haven't, stop in and get acquainted.

They would be pleased to have you visit their new Radio Lounge and see their new merchandise on display.

OSU Mothers Club To Hold Meeting

Mrs. James Campbell and Mrs. Floyd Leonard were co-chairmen for this luncheon.

The following will attend the Central Ohio District Conference at Marion, Ohio, on April 14: Miss Mary Cummins, Mrs. Frank Gusa, Mrs. James Clair, Mrs. Mary Hammler, Mrs. Floyd Leonard and Mrs. Harold Gix.

Sgt. Mary Immel On Leave In Italy

Mrs. E. A. Immel, of 1714 S. High St., has received word from her daughter, S-Sgt. Mary Louise, that she is spending a furlough in Italy, Switzerland and The French Rivera. She will report back to her duties with First Army Headquarters in Bad Joig, Bavaria, sometime in May. She will be leaving for the States.

Before going overseas in August, 1946, she was working in the Pentagon Building, Washington, D. C. She received her basic training at Fort Des Moines, Iowa.

South Side Girls Appointed To Y Camp

Three South High School girls have been elected to responsible positions in the 1948 Wildwood Conference for Y-Teens, to be held June 13-20 at Camp Wildwood, near Westerville.

These girls are working with Y-Teens from all over the city to plan this annual Y-Teen Conference which is open to all Y-Teens now attending Senior High School (including graduating seniors) and to girls who will enter High School in the fall.

These girls include: Margaret Hughey, 2378 Berwick Blvd., Program chairman; Emma Jayne Brewster, 481 Forest St., and Jackie Mettge, 1412 Whittier St., Co-Chairman for publicity. Mrs. Homer K. Diebert, 1123 Berkeley Road, a member of the committee for Teen-Age Program is assisting with the planning.

The main theme of the conference "Personal Problems", will be carried out through talks by expert leaders, panels and discussions by the girls, and skits on "Personal Appearance", "Manners", "Personality Problems", "Boy-Girl Relations", "Jobs, College or Marriage", "Community Responsibility", and "Religion in Everyday Living." Leadership training and program ideas for Y-Teen clubs will be included in the program.

A large part of the week at camp will be devoted to music, drama, crafts, sports, and special recreational events such as, "Kid Party", a "Hit Parade Night", and a "Daisy May-Lil Abner Party".

For additional information and registration cards contact the South High Y-Teen officers and advisers, or Miss Peg Calbeck, Director for Teen-Age Program, at the Y. W. C. A., 65 S. 4th St., AD-9121.

Mention the Booster To Your Merchant

Chain Store Found Guilty

According to the April 3 issue of the Interstate Merchant, the Safeway Stores, Inc., a large grocery chain, and its officials were recently convicted of being a monopoly.

The officials pleaded nolle contendere (no defense). This move, however, was not unexpected and was indicated several years ago after A. & P. and its numerous officials were found guilty of violating the Sherman Act, as a monopoly, and of entering into a conspiracy.

The daily papers suppress news of this kind, in as much as these papers receive large amounts of advertising.

The chief way these stores operate is by setting prices up in one area, and reducing them below current prices in others. The purpose of which is to sell below cost and drive out the independent grocers in the district where competition is too strong for them. This soaks their patrons in the other districts.

It is understood that now the third largest grocery chain the Kroger Co. will be hauled into court.

The Interstate Merchant, in its article, further speaks of short weights and measures, these concerns use in meeting competition, of fostering false comparison of prices, of secretly enhancing their actual prices above their advertised prices through short changing, short weighing and marking up prices on store tags and purchases.

Isn't it just about time we quit dealing with this kind of grocers and start buying independent.

If the independent grocer followed the tactics of these chains, he would soon be out of business, because he couldn't stand the publicity.

If they are doing these things in the other parts of the country, then they are doing them here.

A number of years ago, a well known soup company was making a smaller can for the chain stores, a larger one for the independents and yet they looked alike and could only be noticed when the cans were set side by side. This enabled the chains to sell for less, but you got less for your money.

It is just about time you go back to your independent grocery where you got honest weight, honest sized cans and packages, honest quality and keep your money in your neighborhood.

Stewart Avenue April Meeting

Stewart Ave. PTA will meet on Thursday, April 22, at 2 P. M.

NEAR SANDWICH SHOP REMODELS

Pictured here reading left to right are: Mrs. Grace Borror, Mrs. Ruth Bare, Mrs. Joann Waltham, James Borror, and owner, Don Near.

Don Near, genial owner of the Near Sandwich Shop, 1903 South High St., announces that he has completely remodeled and redecorated his Sandwich Shop.

Don, who has been in the same location for over 2½ years, features full course dinners, and as the name implies, a complete sandwich shop.

Economic Highlights

Up to very recently, every column which concerns itself periodically with political matters, including this one, took it for granted that Harry Truman would be the unanimous choice of his party for the Presidency. It was unthinkable, on the basis of precedent, that any President who had served only part of a single term would meet serious opposition within his party ranks.

Unthinkable or not, it is happening—and it is not confined to the so-called "Southern revolt" of a number of governors and other officials below the Mason-Dixie line. The party leaders are not too worried about that, on the theory that the solid South will keep on voting Democratic come what may. What has them terrifically worried is that the big-city machines, on which Democratic strength in the North is largely dependent, are restive and unhappy. It is reported that some of the machine bosses have said privately that Mr. Truman is a certain loser, and that he should be jettisoned. The bosses are given very polite attention in both parties, for they are realistic, hard-headed men who know what they're talking about.

It is known, further, that some of the national Democratic leaders—the men whose business it is to assay sentiment and anticipate the vote—are completely in the dumps over Mr. Truman's chances. They think he has slipped so far that practically any Republican can win. And they'd very much like another standard bearer.

This does not mean that Mr. Truman has entirely lost his grip on the party. The office of the Presidency is enormously powerful, regardless of what individual happens to hold it, and its occupant is in a better position to put up a fight than anyone else. But it may lead to a bitter battle at the convention--a thing the politicians always dread because of the effect on public sentiment. And it has already produced one curious development—the Democratic leadership is having an exceedingly tough time finding a suitable man to run for the vice presidency. No one wants to sign on a sinking ship. On the Republican side, to the contrary, aspirants for second spot on the ticket are legion, and the ranks of these hopefuls are still growing.

At Republican headquarters, of course, all is jubilation—the promised land is really in sight after sixteen years of drought. This may be a case of counting the chickens too early, but the Republican optimism is supported by practically all of the commentators, including some who are personally anti-GOP. The unmistakable drop in Truman popularity since he took office, plus the Wallace defection, plus the growing effectiveness of Republican leadership in House and Senate, provide the main basis for the optimism. All that remains, it is felt, is to pick a ticket.

When it comes to that, there has been no great change lately. It is believed that General McArthur would like to run, but will not actively seek the nomination. His chances aren't considered good in professional quarters. Tom Dewey is moving toward the stretch now, and says he will make his ideas completely clear in a series of major addresses. Taft seems to have weakened—his tour of the country was far from being a spectacular success. Speaker of the House Joe Martin has his adherents, but his nomination doesn't appear probable at this writing. Vandenberg's stock is very high and getting higher Many think that a Vandenberg-Stassen team would be remarkably strong.

Governor Warren and Senator Saltonstall are regarded as possible contenders for the vice presidency. Warren would like the top spot, and he does have an outside chance for it. But, again, it's not a likely prospect.

The present temper of Congress—and the lack of effective White House control—was shown in the vote on the tax reduction bill. Mr. Truman has strongly opposed tax reduction, but he couldn't hold his own party members when the show-down came, and the vote was overwhelming in favor of it. Too, his requests for the draft and universal military training have some exceedingly rough going. Congressional mail is reported to be running 9 to 1 against these proposals and, in an election year, that is going to have a strong effect on the outcome if it continues. Another big-scale aggressive move by Russia would undoubtedly force their quick passage, but a good many people think that the Bear, as it has done in the past, will take things easy for a time. The Soviet tacticians, the theory holds, don't want American anger to go too far, and they are prepared to be relatively conciliatory on occasion.

Mr. Truman may be taking a new track. It will be remembered that in the past he has veered from left to right and back again. It will be remembered that in the past he has policies which are obviously political in nature, and will attempt to gain a following through stressing matters of a patriotic character which are vital to all the people. He may use the international situation as the basis for a "don't change horses in the middle of the stream" approach Whether this happens or not, the Republicans have unshaken confidence in their ability to beat him and badly. Things certainly have changed from the palmy days of Franklin Roosevelt when GOP opposition amounted to a token force.

IT'S TASTY BRUNCH

A tasty brunch for a spring Sunday morning. Crisp tart fruit cup, golden slices of broiled ham, eggs baked in bread baskets and plenty of steaming hot, delicious coffee.

By BETTY NEWTON

A hearty brunch served buffet style is an easy and pleasant way to entertain your family and friends on Sunday morning. With fresh fruits and eggs getting more plentiful each day, this meal is a rather inexpensive way to entertain, too. Try a favorite combination like this and you may find that it has become your specialty in no time at all.

Grapefruit Cup

3 grapefruits
3 oranges
3 red apples

Cut grapefruits in half. Cut out sections and remove membrane. Peel and section oranges. Dice apples, leaving skin on. Mix grapefruit, apple and orange. Fill grapefruit shells with fruit mixture. Chill and serve.

Note: The orange and grapefruit segments may be prepared the night before. Keep them covered in a bowl in the refrigerator; cover shells with waxed paper.

Eggs in Bread Baskets

2 loaves unsliced white bread
6 eggs
4 Tbsp. butter or margarine

Cut bread in 1½ inch slices. Remove crusts and make each slice about 4 inches square. Scoop center from each piece, leaving a shell a half inch thick. Brush the inside and outside with melted butter. Break an egg into each basket. Bake about 20 minutes at 350 degrees or until bread is toasted and egg is done.

Broiled Ham Slices

3 slices ham—½ inch thick

Preheat broiling compartment 5 to 10 minutes. Place ham on broiler rack and broil about 15 to 20 minutes. Turn once when about half done. Arrange on platter with bowl of sauce at one end.

Currant Mustard Sauce

1 8 oz. glass currant jelly
2 Tbsp. prepared mustard

Beat jelly with a spoon or fork until soft and smooth. Add prepared mustard. Blend together thoroughly. Pour into small bowl. Serve on platter with broiled ham slices.

STATE WIDE RALLY

Rev. McIntire

Dr. Garman

A two-day state-wide rally of the American Council of Christian Churches will be held in Memorial Hall, Monday and Tuesday evenings, April 19, 20 at 7:30 p. m., with Dr. Arthur F. Williams of Elyria, Ohio, giving the opening address on "What Is the Gospel That Brings Salvation?" Dr. W. O. D Garman, Wilkinsburg, Pa., president of the American Council, will conclude Monday night's meeting, speaking on the topic "What Is Wrong With the Federal Council?"

The American Council was organized in September, 1941, for the purpose of maintaining an uncompromising testimony to historical, evangelical Christianity and to reveal the "unbelief," "pacifism" and "near-Communism" that is invading the ranks of Protestantism through prominent preachers and church leaders.

Sixteen denominations and independent churches, representing 1,215,000 members, have separated from the Federal Council of the Churches of Christ in America, to join with the American Council.

Daytime sessions of the rally will be held Tuesday in the Seneca Hotel, beginning at 10:30 a. m., with a forum discussion on "God's Answer to Apostasy." Dr. Robert Ketcham, Waterloo, Iowa, vice president of the American Council, will speak at an informal noon luncheon, after which Dr. Garman will show pictures he took, on a post-war Army tour of Europe and speak on the subject "First Hand Glimpses of Inside Conditions in Europe."

Dr. Ketcham will open Tuesday evenings meeting at Memorial Hall with the message "Which Christ and Which Council?"

"Russia's Most Effective Fifth Column in America" will be the concluding message of the rally, to be given by Rev. Carl McIntire, Collingswood, N. J., the first president of the American Council and now editor of the "Christian Beacon."

All meetings are open to the public.

News In The World Of Religion

A plea that the foreign policy of the United States be shaped by counsellors other than those who know only the use of force, and that President Truman make efforts for personal conference with Premier Stalin to try to stop present trends toward war was made recently by Bishop G. Bromley Oxnam, of New York, former president of the Federal Council of the Churches of Christ in America. Addressing 1,000 Methodist churchmen, he said in part:

"A foreign policy based upon the erroneous assumption that an ideology can be contained by force leaves the initiative in communist hands, directs our attention to the building up of military might, and creates the impression that war is inevitable. Do Russian threats cause us to cringe and conform? On the contrary, they call forth our resolve to resist. Does any sensible man believe that our sabre-rattling will make cowards of men who fought at Stalingrad? There are at least two factors in the Russian challenge that must be considered. One, imperialism; the other, an ideology Armed might may block the advance of imperialistic armies, but it cannot stop the infiltration of an ideology. Our present policies appear to be developed by men better acquainted with stopping the expansion of imperialism than with ending ideological infiltration. Our policies are therefore partial; and, because they are partial, they neither solve the real problem nor prevent war. The peoples of Europe know what we are against; they do not know what we are for. . . .

"I believe because of our strength, in fact, as an evidence of our strength we ought to invite Stalin to conference to sit at the table and there seek to work out some understanding that will avert war. If he won't come here, let us go there. Strong men are unafraid of discourtesy. Let the President send a delegation of the best minds of this nation to that conference—tough minds, democratic minds, religious minds. Let him frankly say in our proposal to Stalin that our countries are close to war, that we are unafraid, that we do not believe the common people of Russia want war any more than the people of the United States want war, that sensible men ought to find some way to live together. . . . Discovering a way in which conflicting ideologies can live in the same world is good sense. . . . . The conference might fail? We at least would have done something positive and have taken the initiative."

Dr. Augustine Ralla Ram, a Christian layman who was one of a party that toured the United States in 1945 in the interests of Indian-American understanding, has been elected moderator of the United Church of Northern India. The Church has established its first foreign missionary society and expects soon to send its first missionary to China. It is also undertaking a scheme of church union for North India which hopes to include the Methodist Church and the Angelican Church; and it is voting on a proposal to ordain women to its ministry.

Sponsored by the United Christian Youth Movement, a feature of the International Council of Religious Education, Chicago, Ill., a "Christian Youth Conference of North America" will be held in Grand Rapids, Michigan, August 1 to September 5. Several thousand young people, from every state in the Union, are expected. Forty denominations will cooperate in the Conference. There will be platform meetings, pageants, fellowship groups, recreation, ecumenical worship, and 160 discussion and study groups, according to the Rev. Dennis Savage, the director.

Although half a dozen of the great nations of Europe "control" vast colonies in Africa, it is pointed out by Dr. Emory Ross, of the Foreign Missions Conference of North America, that 85 percent of the secular modern education on the continent is in the hads of Christian mission agencies. This means, he says, that a large percentage of Africa's leaders in all walks of life have been trained in Christian schools, and to some degree act from Christian motives. Dr. Ross fears, however, that Africa's leaders will lose confidence in Christianity unless the so called Christian nations apply their religious principles to the solution of race relations, and to problems affecting business and government, and in the everyday conduct of white people in Africa.

Reports indicate that American Protestant churches, in 1847, sent to seventeen countries in Asia—through their agency, Church World Service,—8,000,000 pounds of food, clothing and medical supplies valued at $5,000,000; and plan to spend $9,000,000 for the same purpose in 1948. This was in addition to goods sent direct by the churches themselves, and to several times those quantities sent to Europe.

Dr. Drake, Speaker Wabash Graduation

Dr. L. N. Drake, Principal of Mound Junior High School, will be the guest speaker at the Wabash Public School graduation services, May 17, at 8 P. M.

Dr. Drake will speak on the subject of "The Man Four Square".

The bride-elect has for the past ten years been associated with the Buckeye Union Insurance Companies.

Mr. Hard, prior to his five years of service in the Army, attended Ohio State University, and is now associated with his father as an electrical contractor.

BUCKEYE NIGHT LEAGUE TO PLAY ON ONIZED FIELD

Opening date for competition in the Buckeye Night Softball League has been set for May 5. The loop will play its games on Onized Field, Wednesday and Friday of each week.

The Onized Club will receive 10 percent of the income from the concession operated those night, according to Joe Albright, president and secretary-treasurer of the league. Warren England is vice president.

LINKSMEN MEET TO PLAN SEASON TO START MONDAY

A group of 20 golfers met Tuesday night to see several golf movies and to make plans for the coming season.

The men decided to play four rounds so that handicaps for league play can be determined. Play will get under way at the Groveport Golf Club at 5 p. m. Monday. All Onizers wishing to participate are welcome to attend. League competition will begin May 3.

The payers will establish a prize fund to be used for a roundup party at the completion of the season. Each player will pay 25 cents in addition to the 5-cent fee which covers playing.

Each week three golf balls will be given as prizes for such events as least putts, low net, most fives or sixes.

A committee consisting of Tom Ogier, Charlie McGee, Otis Robson, Harry Messer and Bill Fedash was designated to assign golfers to teams and to formulate rules.

ROD AND GUN NEWS
By George Pace

There have been a few crappies caught at Buckeye Lake the last couple of weeks but very few. Some cats have been landed that run from one to seven pounds. Generally, the lake is a poor place to go right now. The water is muddy and rough. Maple swamp is being dredged and I doubt if it will be any good this year.

The creeks in central Ohio are high and muddy at this time, too.

John Sabo, Shipping department, has been catching some nice blue gills at Hart road gravel quarry. He's caught them on worms, fishing tight line.

Don't forget to attend the April meeting of the Club. It will be at 7:30 p. m. Wednesday in the Clubhouse. Dutch lunch, cards, refreshments, movies.

It looks as though Rolla Williams will finish out the year as our secretary-treasurer, since Bud Gartin has left the plant.

A trip to Buckeye Lake is in the offing for the Club in the near future. Be sure to attend the April meeting and help plan this trip. Don't forget to pay your dues. They're now due.

Last line: "Don't try fishing without a license.

PARTY ENDS EUCHRE PLAY FOR SEASON; GET PRIZES

A party Tuesday night ended the euchre season and prize money was distributed to league teams.

Standings for the second round, with total prize money received, were as follows:

Team	W	L	Pts.	Prize Money
Forming A	4	1	224	$31.20
Forming C	3	2	250	17.50
Forming D	3	2	224	16.20
Office	3	2	210	15.50
Forming B	2	3	206	10:30

Forming D received $20 additional for winning the championship of both rounds. Members of this team plan on having a banquet with their prize money and will have their wives as their guests.

Although bowling is America's first indoor sport, the size of the bowling ball was not standardized until 1942. It can have two or three finger holes, weigh between 10 and 16 pounds and it cannot exceed 8.59 inches in diameter or 27 inches in circumference.

Cap Warden doesn't get much rest on the noon hour as it seems he almost always has a job of cutting names or initials on rings, cigarette lighters, name plates, tools and recently fishing pole handles.

In closing for this week and, being secretary-treasurer of the Rod and Gun Club, it is my duty to inform all you rod and gunners that our regular monthly meeting is Wednesday night at 7:30 and you will miss a good time if you don't show up.

Air Corps Need Men

With the announcement that the United States Air Force will accept every qualified applicant for enlistment during the next several months, many young men who have been denied the opportunity of joining this branch of service now are able to do so, Capt. Thomas J. Madigan, of the Columbus Recruiting Station announced today.

Capt. Madigan pointed out that although the Air Force has lifted its recently-adopted restricted enlistment policy and has resumed the unlimited recruiting of unmarried men, all newly-tightened requirements for such enlistments remain in effect. Married men will be accepted, if they qualify, for assignment to the upper three grades, or if they are Air Force veterans re-enlisting within 90 days of discharge.

The Air Force plans to utilize existing training facilities to the maximum to provide a reservoir of trained men needed to balance heavy personnel losses in the Fall, when many of the first post-war three-year enlistments expire.

Full information concerning the requirements for enlistment in the U. S. Army or U. S. Air Force is available at the Columbus Recruiting Station, Room 102 Old Post Office Building.

This is a membership meeting and all women now engaged in secretarial work are invited to attend the dinner and the lecture and meeting afterwards.

SEEN AND HEARD

Earl Hayes of 85 E. Gates St., is now planting onions and garlic at his farm near Lafayette, Ohio. Since Earl is raising onions and garlic for Europe's starving, and expects to ship several boat loads, he has hired a large crew of men to help him do the planting.

SEEN AND HEARD ON THE SOUTH SIDE

Tony Rappold, who operates the Steelton Welding Co., attended the big South Side Lions Club party last week at the Fort Hayes Hotel. Tony, to be a little different, ordered a special dinner. It seems that he likes green beans with ham.

Bill Hoermle it seems has changed his mind about mental telepathy. He tried to match his wits with a magician and came out second best.

Tommy Smith, the genial bar tender at the Swan Grill, returned home recently from Jacksonville, Fla., where he did some deep sea fishing and has been bragging about the large fish that he caught. Tommy had his picture taken with the fish. Your editor wonders whether it was a real one or the wooden ones they use for effect.

Recently, we made a trip to the Court House to look over some records. We ran across the marriage of Katherine Fraas to Dr. Charles Dennis of 50 years ago. Dr. Dennis had his office on South Third St., just south of Livingston Ave.

Clarence Duffee, the man who makes window blinds, is back from Florida and passing out oranges. From the rate he is passing them out, he must have bought an orange grove.

Walter Snider, South Side attorney, up at Whittier St. and Parsons Ave., is passing out the cigars. It seems that "Walter is running for Council next year, and is campaigning already. He must be stealing ideas from Ray Schaefer who never stops campaigning.

Carl Snedeker, who operates a grocery at Morrill Ave., and South Fourth St., is one of the best program arrangers for big parties in the South Sde. Carl was chairman of the big South East Lions Club party on April 6. He really did a good job of it.

Clarence Mooney, who operates the Filling Station at Jaeger and Mithoff Sts., is getting ready to go fishing again up in Michigan. We just got through listening to Fred Krauss' fishing stories, now we suppose we will have to listen to Mooney's stories, too.

Glenn Schwemley, of the Steelton Bank, has just returned from a Florida vacation. Glenn, who likes to fish, we suppose, went out after some of the big ones.

IDEAL THEATER

The Ideal presents Sunday and Monday "The Woman From Tangier" with Adele Jergens and Stephen Dunne. A mystery drama in which the skipper coming into port reports to his pursuer the theft of a box containing $50,000, takes him on a ride purportedly to catch the thief, murders him and reports the dead man to the police as obviously the guilty one.

Stephen Dunne as the adventurous young insurance agent, refuses to let the boat sail until an investigation is made. Eventually he solves the murder, recovers the chest of money, and gets the girl; the latter a somewhat dubious victory, most people will feel, after suspecting him of many things all through the film; also "Sky Devils" with Spencer Tracy, Ann Dvorak and William Boyd. A "Screen Song" and "Cartoon" complete this show.

Barrett's Talent Show To Be Held April 23

This is Jean's first picture and should be enjoyed by all her Columbus friends and followers. The picture is in technicolor. The entire film being photographed on location in Mexico.

Tyrone Power, a Spanish Cavalier and Jean, a barefoot peasant girl, bring to the screen an endeavoring love story. Breath-taking in its lavish splendor, packed with brilliant stars, jammed with stirring action and tempestuous love, its the all time best in adventure classics. Also selected short subjects.

When their baby is still-born, the mother becomes restless and engages in a flirtation with the judge's best friend and they quarrel. She falls ill but her recovery is speeded when she learns how patient and fair a man the judge her husband is. He in turn realizes that his wife understands the true meaning of love; also "Linda Be Good" with Elyse Knox and Marie Wilson.

FRI. AND SAT. AT THE CHAMPION

SADDLE PALS, starring Gene Autry and Lynn Roberts will be our main feature at the Champion Theatre this Friday and Saturday It's a good Autry picture, with singing, fighting and heroes. Companion attraction will be BANJO, the story of a girl and a dog. Starring young Sharyn Moffett, it's a good story with all the tenderness and charm that children give forth. This is an ideal double bill designed for the entire family to enjoy.

SUN. AND MON. AT THE CHAMPION

The main feature at the Champion Theatre next Sunday and Monday will be that much-discussed picture I WALK ALONE. Starring Burt Lancaster and Lizabeth Scott it's a show we think you should see. Burt Lancaster is one of those few screen personalities who has succeeded in every picture in which he has appeared, and leaves the memory of the picture in everyone's mind who has had the privilege of seeing it. Co-featured is HIT PARADE OF 1947, starring Constance Moore. This is a delightful musical for all to enjoy.

SOUTHLAND THEATER

Blond and glamorous Virginia Mayo is again Danny Kaye's co-star in "The Secret Life of Walter Mitty", hilarious new Technicolor comedy, now playing at the Southland Theatre.

On Sunday, Miss Mayo will be seen at the Southland in Vera Caspary's engaging new romantic comedy, "Out of the Blue", which will play on twin bill with "If Winter Comes", starring Walter Pidgeon and Deborah Kerr.

In private life, Miss Mayo is the wife of screen star Michael O'Shea. Her hobbies are dancing and riding. In fact, Miss Mayo rates highly enough as an equestrienne to appear in rodeos, which she often does.

Penned to a Hollywood contract while working at Billy Rose's famed Diamond Horseshoe Night Club in New York City, Miss Mayo catapulted to screen success with Bob Hope in "The Princess and the Pirate". She recently signend a bountiful seven-year contract with Warner Studios, who have big things slated for their new blue-eyed, blond and statuesque star.

Club Alexander

This week at Club Alexander Bill Swor is the comedy emcee, [illegible] Continental Tap Dancer, and Billy Page, singer. The Quiz Show is growing right along, getting bigger and better, it is held every Tuesday night. All the prizes for this big night are donated by the South Side Merchants. And for that party or anniversary celebration just fill out the card which you will find on the table and Joe will take care of the rest. No door charge, liquor prices reduced. Big floor show and dancing.

If You Drive, Be Careful!

Spring Dance

How Communists Deceive Us

NEW YORK. — Many of the Bolsheviki who have been haled before the Thomas committee on un-American activities have been more or less implicated in the Communist front known as the Joint Anti-Fascist Refugee committee.

Among them was Howard Fast, a mediocre writer who has enjoyed, however, by reason of his political color, the professional promotion of clandestine Communists who operate as book reviewers in several New York papers and periodicals of ostensibly orthodox American purpose. Fast wrote a distortion of history called "Citizen Tom Paine," the hearty reviews and indorsements of which in most cases established the political inclinations of those who wrote them.

While the war was still in progress, he tossed off a long pamphlet on the Croatian killer, Joseph Broz, now known as Tito, the marshal and dictator of Yugoslavia, in the status of Joseph Stalin's deputy. Soldiers of the United States, including thousands of young fliers but recently taken from the campuses of high schools and colleges, cleared the Nazis out of Yugoslavia and handed this land over to Tito, who then slaughtered General Mikhailovitch. Mikhailovitch, a patriot, had fought the Nazis but, at the same time, had tried to save his country from the treachery of native, Russian and American Communists.

A COMMUNIST FRONT.

The treachery of the American Communists was brought to bear through the Joint Anti-Fascist Refugee committee. This committee, as its name suggests, had appealed to Americans for money to smuggle out of Hitler's Europe innocent persons who otherwise must die in the gas chambers or by other horrors because they were said to be devoted to "democracy." Actually this committee was a Communist fifth column in the United States. In the ordinary course of its spying and infiltration it naturally would import and plant some Stalinites in New York, in Hollywood, in the army and navy and in the state department. The committee managed and financed Tito's return to Yugoslavia.

Second Lt. John A. Kraft of Long Beach, Calif., formerly of Chippewa Falls, Wis., seems to have been typical of the American young men who entered the army of their own country to die forlorn and to the eventual detriment of the United States and civilization, delivering the Balkans to Stalin—and Tito.

Kraft was lost on the first great American raid on the Ploesti oil fields in Romania.

Mrs. E. H. Kraft and the mothers of several other similar Americans who went down on a B-24 called the "Damfino" on August 1, 1943, believe that their sons lived through the war in German captivity and then were taken by the Russians. The crew still are posted as "missing in action," and Mrs. Kraft believes her son is now a Russian prisoner.

AID TO TITO.

Hope is agony in many such cases, but the attitude of Howard Fast and Louis Adamic, an immigrant naturalized Yugoslav who dined at the White House with Churchill and the President by Eleanor's invitation, is in contrast to the action of these naive young Americans. Fast was conspiring here to finance the return to Yugoslavia of the butcher who later was to shoot down five more young American fliers who wandered slightly off course over his boundaries, unarmed and believing they were in friendly territory. Adamic is a political advocate of Tito but, as he explained in "Dinner at the White House," he found reasons not to take a physical part in the war in his native land, even to help Stalin and Tito. He might have been afraid. Young Kraft was, but he went anyway. He could have chosen to hide out the war but he refused.

HOLLYWOOD FIFTH COLUMN.

Fast and all the Hollywood traitors, of course, sat it out safely. The United States did not cite them, but Stalin might. In those days, General Mikhailovitch was our friend and the leader of the resistance against Hitler in the Balkans. The Communist, Tito, had vanished after some activity on the Communist side in Spain. But after the war was won and Roosevelt had handed over Yugoslavia to Stalin, the United States abandoned Mikhailovitch, and he was shot by a firing squad after a mock trial. He was accused of treason to the country he had tried to save from Tito.

Now when Americans are called to Washington and merely asked by a committee of congress to say whether they are Communists or not, the Hollywood fifth column, pilfers the committee and congress.

Lions Donate $54.50 To Childrens Hospital

The people of the South Side have awaited patiently for the report of Southeast Lions Club's amount netted in the recent auto raffle, the funds from which go to for Rheumatic Fever Research.

On Wednesday night, April 14, at a presentation ceremony, the Children's Hospital was presented with a check for the fund of $5450.29 by the Southeast Lion's Club.

Pictured above are Dr. O. L. Coddington, Louis B. Kaser, president of the Southeast Lion's Club presenting the check to R. M. Poter, superintendent, and S. Z. Heeton, business manager of Children's Hospital.

The Southeast Lion's Club is a group of 75 business men of the South Side who should be especially commended for doing such a fine work of raising money to help the sadly effected children of our community.

Another worthwhile project the Southeast Lion's Club sponsors is sight-saving. This is accomplished by the collection and redemption of sales tax stamps.

The stamps are used for eye examination and treatment of needy children and adults. Glasses are also furnished.

If you wish to help in this worthy project, sales tax stamps may be left at the South Side Booster office or at the Swan Grill.

The Southeast Lion's Club two years ago, donated the ground and equipped a playground for children of the South Side at Barthman and South Fifth St.

Next Fall when you are asked again to buy raffle tickets on a new automobile by the Southeast Lion's Club, you can be well assured, even if you do or don't win, it is going to a worthwhile project that will help our community.

The people of the South Side take their hats off to this organization which is accomplishing so much for our community.

South Is Winner Over Linden, 7-5

Dale Helmick's South High baseballers accomplished something City League nines have been trying to do since May 31, 1946, when they tripped Linden's defending champions 7-5, in a game played on the winner's diamond, yesterday.

The Panthers carried a winning streak of 13 games into the Bulldog lair, having been defeated last by North in the 1946 finale.

A pint-sized South shortstop, Ray Dreher, gave the Bulldogs the batting punch they needed by slamming out two long triples.

Linden's green infield, all four members lacking experience, booted seven chances to make it all the easier for South to score its initial league win of the season.

Ohio's First Labor Day

Arbor Day this year will be observed throughout Ohio's some 4,000 schools on Friday, April 23, as proclaimed recently by Governor Thomas J. Herbert in a proclamation which also named April as Conservation Month and the week of April 19 to 23 as Conservation Week in Ohio schools.

While the first Arbor Day observance in America is credited to Nebraska which has annually proclaimed such a commemoration since 1876, Arbor Day was first celebrated in Ohio at Cincinnati in 1882, through a suggestion by the American Forestry Congress.

The late G. P. Marsh of Vemont for many years our representative at the courts of Italy and Turkey found that in Europe the forests were regarded as the most valuable crop which the ground could produce and every effort was being made to stimulate their growth. In 1864 he called attention of the American people in ruthless destruction of our forests and the resulting effects on streams, climate, commerce and wildlife and advocated immediate action for curtailing wasie and consumption.

The influence of the idea has spread until Arbor Day is celebrated in every state and territory. While the schools have been the strongest factor in this forward movement, due credit must be given to the G. A. R., the Grange, Civic Improvement Associations, Women's Clubs, Forestry Associations and other Conservation groups.

Until a few years ago, Arbor Day was set by law by the Governor. At present the naming of Arbor Day by the Governor is a voluntary proclamation in connection with the naming of April as Conservation Month and one week of that month as Conservation Week in Ohio schools.

Spring Fever

Do you get tired easily these days? Are you often cross and irritable? Is your appetite none too good? You might blame it all on having "Spring Fever". But it is possible that you lack energy because the meals you have been eating are not quite adequate, says the Columbus Milk Council.

Do you choose:

Potatoes rather than macaroni or spaghetti? Cooked prunes rather than apple or other fruit sauce? Oatmeal rather than cornmeal? Brown rice rather than polished rice? Wholewheat muffins rather than baking powder biscuits? Dark green kale rather than white cabbage? The foods in the first column are rich in iron, those in the second contain little or none. A good way to combat weariness is to eat at least three foods high in iron every day.

Do you plan to have:

Liver or other variety meat about once a week? At least 4 or 5 eggs each week, or one a day if possible? Dried beans or peas at least once a week? At least 2 cups of milk a day?

A large serving of orange, grapefruit or tomatoes every day? Your body needs these foods to insure the adequacy of the daily meals you eat for good health and vitality result only when all food factors are provided.

Barrett Wins Blue Ribbon Hobby Show

Five contest entries merited the much coveted Blue Ribbon at the Barrett Junior High Hobby Show, April 14, according to Joe Scott, chairman of the Hobby Show Committee. The hobbies were classified as to originality and unusualness.

Bob Smith's cartoons received a first as the most original while Barbara Canter's hobby on horses took the same classification for the girls. Betty Bonnette's butterflies were given a first award among the most unusual and a photography display by Dick Stedman and David Wallace took the boys award for first place in that class.

A collection of dolls brought in by Doris Windmiller received a special classification Blue Ribbon for the most beautiful display.

The Red Ribbon indicating second place awards went to Jim Saul's oil painting and Patricia Cain's crocheting for the most original. Red Ribbons also went to Eugene Smith's display of model trucks and Ruth Newlon's display of pitchers as most unusual.

Honorable mentions went to Paul Whippel for his stamp and penny collection, to Bob Chosy for his postmarks, to Nancy Nofer for her scrapbook on dogs and to Carolyn Krause for her hobby of tinting photographs.

The Hobby Show was sponsored by the Student Council of Barrett and was an object of interest to the members of the Parent-Teachers Association, who held their meeting on Wednesday evening

Is Your Cleaning In Vain? Ask Bob Pickrel

Why work and slave cleaning your home if you leave last year's dirt in your furnace to cover everything with soot again as soon as you start a fire in the fall.

A clean furnace saves money on your fuel cost and also means a great savings in cleaning bills. Soot and dirt will eat into drapes and upholstered furniture, causing them to wear out far before their time.

Mr. Robert Pickrel who resides at 438 E. Mithoff St., with his wife and three children (the latest a little girl just home from the hospital) told us all about this and asked us to pass the information on to you.

Mrs. Mary Pickrel is a South High graduate and has lived in the South Side all her life. Mr. Pickrel has lived on the South Side ever since he married Mary 11 years ago. Mr. Pickrel will take appointments for guaranteed vacuum furnace cleaning now. Just call Bob at GA-8161.

The musicians are composed of music majors from Ohio State, Capital University, Linden-McKinley, Central and Barrett Junior High Schools. Due to the ability of this group to play music as written, critics believe this group will reach their goal. Due to the intense willingness to practice, this group can play all types of popular music which present day audiences demand Swing, Jive, Rhumba and sweet arrangements in popular style

The unique operation of the band is that all numeration received is divided equally among its members, and for this reason the highest calibre of younger musicians seek to become a part of this group.

Castle Terrace and Oklahoma To Get

That territory south of the Parsons Ave., viaduct can expect to have water and sewage in not more than two years.

Monday night members of the Marion Township Trustees, lead by George Goodfleisch, met with the Columbus City Council and were assured water as soon as Castle Terrace and Oklahoma were ready

To Grover Clements, of the Franklin County Planning Commission, who attended and who has been cooperative, goes much credit in this movement. It is much to his credit and increasing endeavor that our suburban communities are at last to get the necessities they need

Elmer Keller, Columbus' Service Director, said that it would take the City about a year and a half to be ready, to furnish these communities water from the new Alum Creek plant, to be constructed. He also told the Marion Township Trustees that it would take them that length of time to get ready for water, as pipe ordered now would not be delivered for seven months

To the Council of South Side Organizations, lead by "Cap Hoover," Cleo Dumaree and A. H. Christner, also should go credit.

Now it is up to the Township Trustees of Marion and Hamilton Townships for immediate action, on the legal and administrative ends, to get ready for the water and sewers.

On one day during that week each home will be visited by a representative of the school in each South Side school district and take the names and birth dates of all children who will enter the Kindergarten or First Grade in September, 1948.

Parents having children who will be 5 years old on or before November 15, will register the child for Kindergarten.

Those having children who will be 6 years old on or before November 15, will register for the First Grade. At the same time a count of children who will be 5 years old on or before May 15, 1949 will be made in order to prepare for the February Kindergarten Class.

This enumeration of Kindergarten and First Grade children will be followed by an examination by the school staff so that corrections of any existing conditions may be made during the summer.

Silver Star Award To Parents Of Fred W. Zimpfer

Cpl. Fred W. Zimpfer

Army Day, April 6, brought an unusual honor to the parents, Mr. and Mrs. Edward W. Zimpfer, of 610 Siebert St., for their son, Fred W. Zimpfer, who was killed aboard a Japanese prison ship in Subiac Bay, just two weeks before General McArthur re-entered the Philippine Islands.

It was on Army Day that Mr. and Mrs. Edward W. Zimpfer were awarded the Silver Star posthumously for their son's gallantry in action by General Louis B. Hershey at Ft. Hayes

The citation reads as follows: Corp. T. 5 Fred W. Zimpfer, Company A, 803rd Engineers Battalion Aviation, on March 24, 1942, displayed gallantry in action on Corrigidor, Philippine Islands. During a heavy Japanese bombardment and shelling of McKinley Field and vicinity in which several men were severely wounded, he moved without regard for his own safety, through the barrage of enemy shells to aid the fallen men.

Passing then through an area of tall grass blazing, among stacks of bombs in imminent danger of exploding, he helped move the wounded soldiers to the hospital in Malinta Tunnel. Technician Zimpfer's outstanding courage and determination are in keeping with high traditions of the military service

The Silver Star award is surpassed by only the Congressional award and this is the only Silver Star award in the City of Columbus

Corp Fred W Zimpfer was a graduate of Heyl Ave., Elementary and Barrett Junior High Schools. He also attended South High school

Corp. Zimpfer had three sisters who are all graduates of South High School, Mrs. Roger Gerard, who lives in Linden; also Maxine and Eileen, who live at home.

We, of the South Side, are also honored, that one of our former citizens should highly be honored

Economic Highlights

The way some of the fire-eating commentators sound off these days, all hope for peace has been abandoned and the only question yet to be answered is when the shooting war will start. But such expressions are definitely misleading. The attitude in the best informed circles is one of realistic grimness, but not of unrelieved pessimism. The feeling still remains that peace can be secured and maintained, and some of the top minds of the country are dealing with the ways and means on a seven-day-a-week basis.

Obviously, the work in behalf of peace has two phases. First, there is the diplomatic phase—the effort of the State Department and other civilian agencies to lay the groundwork for an eventual agreement with the Soviet Union and the nations within her orbit, and to cement the Western powers. The principles underlying this effort are pretty well agreed upon for the present. The European Recovery Plan is the most momentous step taken thus far.

Second, there is the military phase—the feeling that we must back up dollars and supplies with sufficient military preparedness to make belligerents wary of tackling us. When it comes to this, there is a world of honest disagreement as to how it can best be done.

Unless the international situation takes a serious turn for the worse, universal military training has almost no chance to win Congressional approval. The draft has a much better chance, but if it is approved it will be on severely limited and temporary basis. A program which is almost sure to be approved, on the other hand, calls for swift and extensive enlargement of our air arm.

A short time ago, the President's Air Policy Commission, which was made up of a number of well known civilians in the fields of law, education, journalism, finance and manufacturing, made an exhaustive report called "Survival in the Air Age." Its explicit recommendations are likely to be the framework on which a plan for military air development will be built.

First of all, the report assumes that other nations may have the planes and missiles capable of delivering a sustained attack on the United States mainland by the end of 1952. It then reasons that, by that time, we must increase our Air Force to a minimum regular establishment of 70 groups with 6,869 first-line planes, an Air National Guard of 27 groups with 3,212 first-line craft, and an adequately equipped Air Reserve of 34 groups. It says that the Navy Air Arm is sufficient in size, but that it must have ample funds for the constant replacement of obsolescent planes. It estimates that all this will require an increase in the Air Force budget from its present $2,850,000,000 to $4,150,000,000 for the current year, and $5,450,000,000 for 1949.

Next, it points out that a strong industry is essential—we can't obtain the planes unless there are going plants capable of producing now, the military services are buying 21,000,000 pounds of airframe weight annually. It believes that this should be increased by 13,000,000 pounds for 1948 and by another 22,000,000 pounds next year. It urges that procurement be planned as far in advance as possible, and that orders call for the gradual delivery of planes over a 5-year period. This would make for stability in the manufacturing end, which hasn't known from one year to the next what it

Going on, the Commission urges will be called upon to produce. intensified and better coordinated research in all phases of air warfare—atomic energy, guided missiles, gas turbines and rocket engines, landing aids, etc. In that connection it points out that, while other nations keep mum about their aeronautical research, we widely publicize our advances and says that "rigid enforcement of wartime security measures" is necessary.

The Commission then recommends strengthening and improvement of civilian aviation and goes into detail as to extensive changes in governmental organizations which it believes necessary to its program.

There, in brief, is one projected phase of the preparedness program, and the other arms are advocating theirs. The point is to create a highly developed but relatively small peace-time establishment.

The cost will be tremendous. But anything is cheaper than war. The Commission's report states 80 per cent of the Federal budget for this fiscal year is in payment for past wars and the maintenance of our present military establishment—and that 85 per cent of our total Federal budgets since 1915 have been for war, or preparation or payment for war! And no one is bold enough to even attempt to estimate the cost of another war if it should come.

The effort to reinforce peace plans grows more intense daily. No one thinks that the people of any nation—the millions who would do the fighting and the dying—want war. The long-range goal is to find some means by which this mass repugnance toward war can find its reflection in the policies of governments. Until then, the billions will flow out for military needs.

Gallup, Gallops Wrong Way

That the Dr. Gallup polls are greatly overrated has just been shown by the Wisconsin GOP primary. As to the Badger state vote Senator Taft called attention to the discrepancy between the Gallup poll and the actual result.

Discussing the primary victory of Harold E. Stassen over General MacArthur and Governor Dewey of New York. Taft pointed to a recent national Gallup poll which gave Dewey 34 per cent, MacArthur 19 per cent and Stassen 15 per cent.

"MacArthur presumably would be stronger in Wisconsin than anywhere else," Taft said. "There is no reason to believe that Dewey should be weaker in Wisconsin than anywhere else. I believe it shows the Gallup poll to be exactly wrong."

BUSY DAY MEALS

Beef, potatoes, and carrots all cooked together in a skillet make a delightful dinner for housecleaning days.

By BETTY NEWTON

With busy days filled with housecleaning duties marking up your calendar, here are some easily prepared main dishes you will enjoy serving. They may be cooked and served in the same dishes and save pot washing, too.

Skillet Dinner

1½ lbs. round steak (sliced very thin)
1 tsp. salt
¼ tsp. pepper
8 small carrots
¼ C. water
6 to 8 medium potatoes
4 Tbsp. fat

Cut the steak in strips of a size which will wrap around the carrot once. On each strip of meat place a carrot. Sprinkle with salt and pepper, and tie meat around carrot. Roll in flour and brown on all sides in hot fat in a skillet. Add potatoes. Season. Add ¼ C. water. Put cover on and cook over simmer flame about 1 hour or until meat and vegetables are tender.

Note: This casserole may be baked in the oven at 350 degrees, if preferred.

Pork Chop Casserole

6 pork chops
6 Tbsp. raw rice
1 large onion
1½ C. canned tomatoes
1 green pepper
Salt
Pepper
½ C. hot water

Wipe chops with a damp cloth. Coat with flour and brown on both sides in hot fat in a skillet. Leave in skillet or place in a roaster and in heat proof bowls. If not, remove to casserole if to be brushed in oven. On each chop place 1 Tbsp. of rice, a slice of onion, 2 Tbsp. of tomatoes, and a circle of green pepper. Season and add the hot water. Cover and bake about 1½ hours at 350 degrees or cook over simmer flame until tender.

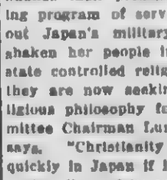
News In The World Of Religion

Urging the American people and their churches to help solve the social and economic difficulties that confront the Puerto Rican when he lands in United States, and especially in New York City, the Rev. W. Stanley Rycroft, secretary for the Committee on Cooperation in Latin America (Protestant), recently pointed out that conditions are rapidly getting worse among the Puerto Ricans in their home island, and that their migration has been suggested by the United States government. The population of the island was 1,000,000 in 1898; at present it is 2,200,000; and in fifteen years it will probably be 3,000,000, Dr. Rycroft says. This makes its population density one of the greatest in the world, while agricultural returns are relatively poor, health conditions are bad, and most of the land is held by absentee corporations. He urges church aid in solving the problem in Puerto Rico and in American communities.

The Protestant churches of the United States and Canada, under the leadership of the Japan Committee of the Foreign Missions Conference of North America, are proposing to spend $27,000,000 for Christian enterprises in Japan during the next five years, in addition to the millions required to finance their present large ongoing program of services. Pointing out Japan's military defeat has shaken her people in their old-state controlled religion, and that they are now seeking a new religious philosophy for life, Committee Chairman Luman J. Shafer says, "Christianity must move quickly in Japan if it is to help anchor its society on sound Christian principles." The proposed advance program includes: doubling the present staff of American missionaries; replacing 450 churches destroyed in the war; scholarships for Japanese ministers and other pecialist in American colleges; establishment of a Christian graduate and professional university in Tokyo; the training of rural church workers, and of social workers; the production of Christian literature.

The Federal Department of Education in Mexico reports that more than 350,000 hitherto illiterate adults learned to read and write during 1947. They were all taught by volunter laymen, mostly their neighbors, using Laubach method of picture-word flash cards developed in many languages by Dr. Frank C. Laubach of the International Missionary Council, and first used by him in the Philippines. The Department estimates that there are still 6,000,000 illiterate adults in the nation and it is pushing its campaign to teach them all. One of its major problems is to teach the Indians of Mexico to read in their own tongues, and later in Spanish.



To the Committee on Korean Affairs, Washington, D. C., Bishop Arthur J. Moore, Atlanta, Georgia, formerl administrator of the Methodist Church in Korea, has written: "The problem confronting the Korean people are of much magnitude that I cannot escape the conviction that the security of all small nations is involved in their solutions. The conscience of mankind should support the efforts of the American forces to liquidate the disastrous results of Japanese occupation, and their efforts to help Korea take her place as an independent nation built upon the democratic pattern. It was my privilege recently to see this problem at close range and I sincerely hope the United Nations will actively support this effort to build an independent state."

Under the leadership of Bishop Paul N. Garber and Superintendent William G. Thonger, two reconstructed Methodist churches in Belgium—both destroyed in the war—were recently completed and dedicated. One is the Methodist Church at Herstal where the service was in French; the other at Ypres where the Flemish tongue was used. Large congregations took part in both dedications. Both now buildings were made possible by reconstruction funds of the "Crusade for Christ."

Plans are now under way for the acquisition of a campus near Tokyo and the establishment of a graduate college of education as the first step toward the realization of a Christian university for Japan, as envisioned by the Protestant churches of the United States, and Canada. The movement through the churches is being headed by James L. Fieser, a former Red Cross executive, and committees named by the Federal Council of Churches of Christ and by the Foreign Missions Conference. When completed, the university will include a central library and administrative buildings, and schools of philosophy, religion, literature, international relations, law, medicine, public health, the physical sciences, and social sciences. It will be international and non-secretarian. An appeal to the American public for funds is planned.

Miss Mary Johnson Weds J. Fitzsimmons

St. John the Evangelist Church was the scene of the marriage of Miss Mary Delores Johnson and Mr. John F. Fitzsimmons which took place April 3 at a nuptial high mass read at 9 a. m. by the Rev. Father F. M. Burkhart. The bride is the daughter of Mrs. Esther G. Johnson, 723 Linwood Ave., and the bridegroom is the son of Mrs. John A. Fitzsimmons, 554 Sheldon Ave. and the late Mr. Fitzsimmons.

Given in marriage by her uncle, Mr. Francis J. Perone, she wore a white slipper satin gown belonging to her sister, Mrs. Charles E. Rossiter. The marquisette yoke was outlined in Venetian lace and the skirt terminated in a cathedral train. Her fingertip veil of illusion was held in place by a Juliet cap of pearls and she carried a satin prayerbook topped with a purple throated orchid.

Mrs. Charles E. Rossiter of Detroit, Mich., was matron of honor for her sister, and Mrs. John Berry, sister of the bridegroom, Miss Mary Ann Schreick and Miss Alice C. Johnson, sister of the bride, were bridesmaids. Their gowns were front draped powder blue taffeta with bustle backs and sweetheart necklines. They carried cascade bouquets of yellow daisies.

Mr. Thomas Hartman served as best man, and Mr. John Berry, Mr. Richard Johnson and Mr. James Radel seated the guests.

Following the ceremony a wedding breakfast was held at the Seneca Hotel and a reception was held at the Johnson residence in the afternoon from 2 until 4.

For her wedding trip to Mt. Summit in Pennsylvania, the bride chose a beige gabardine suit with skipper blue accessories. At her shoulder she pinned the the white orchid she carried during the ceremony.

SPORTS

By Walt Tompkins

Sportlight

By GRANTLAND RICE

IF you will pardon us for pointing, big league baseball today has an extremely high average of leadership in its managers now after the golden fleece.

The 1948 crop can match anything we have known in baseball. As they will figure largely in the headlines of the new year they should be worth just a bit more space than they have received to-date.

"Who are they?" Even if you don't remember, they include Joe McCarthy of the Red Sox, Bucky Harris of the Yankees and Lou Boudreau of the Indians. It might be Steve O'Neil of the Tigers also belongs. We are not so well acquainted with his work.

It might be that Connie Mack can be included in this list—we mean 1948—the only year that matters now. You can throw out all the others.

The American league battle will be a hand-to-hand, throat-cutting duel between McCarthy and Harris. It ought to be. They have most of the good ballplayers.

McCarthy is a brilliant manager. But don't underrate Harris, the most human leader of the lot. Harris can handle his squad, and, when you ask him a question point-blank, he answers point-blank, protecting nobody, telling you the truth as he sees it.

Harris is a rarity I haven't seen since the days of John J. McGraw. McGraw, as I knew him, was a helpful friend when you needed a story. So is Harris.

Managers Need Players

Boudreau, a great ballplayer, has never had the material to prove his place. Boudreau might have churned up a mess of trouble this season, if the Yankees and Reds hadn't reached out and lassoed most of the good floating material.

A fellow can be honest, have an honest opinion, and still be wrong. In the opinion of this restless roamer, the best manager in the National league is Billy Southworth of the Braves—possibly the best manager in baseball today.

Next to Southworth, we put Eddie Dyer and Leo Durocher on level terms. Both are something better than good managers. We like Dyer's system of handling his men and working with umpires better but we can be quite wrong here.

Burt Shotton is one of the great managers of baseball. Rickey should have given him 50 per cent of every dollar he took in through 1947.

For all of that Durocher is an able leader. He isn't a McCarthy, a Harris or a Southworth, but he is good enough.

Mel Ott has another chance to prove his place. Ott is one of the most likeable persons in the game today.

Charley Grimm, Johnny Neun, Bill Meyer and Ben Chapman are are good managers. With better material, they might be much better managers. But they will chuck in a number of grenades when the Cardinals, Dodgers, Braves and Giants come along.

Florida, the Beautiful

Florida may have many things that other states lack—and that includes California. In the Everglades, for instance, the state that Ponce de Leon helped make famous has the last frontier of sport, the most famous 10 thousand square miles in the United States.

Here, within a brief whirl of the social softness and glamour of Palm Beach and Miami Beach, you can come upon both beauty and savage wildness, fang and claw, the rattlesnake and moccasin, the copperhead and the coral snake, the puma or what is known here as the panther, bear up to 400 pounds or more; deer, alligator, egret, pelican, heron and crane, almost every known variety of bird life and fish beyond all imagination.

In one day's haul in a small boat we returned with 12 varieties of fish. The boat was half full of fish by 2 o'clock. There were wild duck and geese flying overhead and there was quail in the dryer spots.

The jungles of India and Africa have nothing to match the variety or beauty of the Everglades or its look of wildness in certain sectors.

There are no tigers, lions, elephants or leopards around. But the puma or panther, ranging nine feet from tip to tip, weighing close to 200 pounds, is a replica of the West's mountain lion. The puma isn't a tiger or a leopard, it isn't even a jaguar, but it is still nothing to meet on a narrow trail.

The mangrove swamps and ghost islands here can get you lost in 10 minutes, lost beyond recall, without a guide.

I was lost in less than 10 minutes. "Would I ever find my way back?" I asked, after clearing a few mangrove spots. "Not in a hundred years," my guide said, "unless you can beat a 1,000-to-1 shot."

Florida has something that too many of its people never have appreciated. It is about time they understood. For what they have is invaluable in the long run a more important part of the nation than Washington, D. C.

St. Leo's C. Y. O. First Anniversary

April 23 is the date, 8:30 p. m. is the time, St. Leo's school hall is the place, and of course the event in St. Leo's Adult Catholic Youth Organization's First Anniversary Dance. The admission is 25 cents per person, price includes refreshments.

All unmarried Catholic youth and their friends of the South Side between the ages of 18-30 are cordially invited to attend this dance.

For the benefit of those people not fully acquainted with our C. Y. O. and its activities, a slight history of our past year follows: We base our activities on athletic, religious, cultural and social activities. On our athletic list we entered baseball and basketball teams in the Central Deanary Leagues and had our own mixbowling leagues on Sunday evenings at Gettrost Alleys. This Spring we also intend to have a baseball team for the men, golf teams for the women and mix tennis teams.

Our religious activities included communion masses, holy hours, stations and group prayers and the starting of a Christmas choir and church newspaper.

Our cultural activities have been the staarting of a discussion club and speakers club. Talks and discussions have been conducted on marriage, birth control and family budget. Other things such as a Central Prayers and Speakers Club is being planned.

Our social events included a get-acquainted dance, wiener roasts, candlelight dance, trips to Old Man's Cave, Eckles Lake, Gold Cliff; Farm Dance, Christmas in July Dance, Street Dance, Keyhole Dance, Box Social, Corn Roast, Hay Ride, Dad and Mom Party, Stag Parties, Formal Dance at Neil House, etc.

In the coming year we have many more exciting and pleasant events planned to please and satisfy all. Let's see some new faces at our affairs and meeting and help join in the fun and planning of these fine events. All are welcome to attend. The next meeting will be May 4 in the school hall at 8:00 P. M. At this meeting election of officers for the coming year will take place.

A Statement by Geo. Warehime

George E. Warehime, candidate for Democratic nomination as candidate for county commissioner, today issued the following statement:

"I do not have the indorsement of any political boss in seeking the nomination as Democratic candidate for county commissioner, nor do I expect to receive any such endorsement, nor have I sought any such endorsement.

"As a business man, I am submitting my candidacy for county commissioner directly to the Democratic voters in the coming primary, with the thought that I shall always be free to serve the best interests of all the people of Franklin County. For many years, I was in business as a building contractor and for the past 25 years, I have owned and operated the Velma Avenue Coal Company in Linden.

"With this background, I believe that I am qualified to handle the business in Franklin County and see to it that at all times serving the best interests of the public is paramount."

IDEAL THEATER

The Ideal presents Sunday, Monday and Tuesday "This Time For Keeps" with Esther Williams, Jimmy Durante, Xavier Cugat and his orchestra. In technicolor, Esther Williams, star of an aquacade show, thinks singer Johnnie Johnston is broke, so she helps him get a job with the show. She does not know that he is the son of Lauritz Melchoir, Metropolitan Opera Star. They fall in love but the marriage is opposed by Melchoir, who regards Esther as a mere show girl. Finally, however, Melchoir and the two are united. Also "Sport of Kings" with Paul Campbell and Gloria Henry. A "Cartoon" is also shown on this program.

Victor Theater

The Victor presents Sunday "Pittsburgh" with John Wayne, a drama with romance, action and suspense. A good picture with Wayne in his usual happy-go-lucky way; also "Green Hell" with Douglas Fairbanks, Jr. Also a late News release.

Columbia Theater

The Columbia presents Sunday, Monday and Tuesday "Captain From Castile" with Tyrone Power and Jean Peters. This costume adventure is filmed in technicolor and is the story of the endearing love between a Spanish Cavalier and a barefoot peasant girl both of whom fled from Spain early in the 16th century and withstood the hardships and braved the dangers encountered by the army of Herman Cortez in the conquest of Mexico. Practically the entire film was photographed on location in Mexico. A Short and News Reel complete this show.

Dramatic Play At Southland

"To the Ends of the Earth", dramatic story of exotic adventure and romance, starring Dick Powell, will open a three-day engagement at the Southland Theatre on Sunday. The film, which turns the spotlight on the international underworld, is based on hitherto secret files of the U. S. Treasury and its Bureaus of Narcotics, Customs and Coast Guard. Powell portrays a government agent on the trail of a world-wide dope smuggling syndicate in this fast-moving film, which features power-packed action against the backgrounds of Shanghai, San Francisco, Havana and Cairo. Signe Hasso and Chinese newcomer Maylia head the featured cast.

The Parsons Theater

The Parsons presents Sunday, Monday, Tuesday and Wednesday, Eddie Cantor and Joan Davis in "If You Knew Susie." This is Eddie Cantor's first production venture in which he stars with Joan Davis as a pair of ex-vaudevillians who retire to a Massachusetts farm so their children can have a normal happy existance.

The children unearthing an old box on the farm, find in it an old authentic letter written by George Washington, admitting a debt owed to one of Eddie's Revolutionary War ancestors. Eddie refuses to accept the money and is hailed as a national hero. Eddie and Joan sing, dance and clown their way through a yarn which really spells good entertainment for the whole family. Also "Dangerous Years" with William Halop and Anne D. Todd. Selected short subjects.

Tonight & Tomorrow At The Champion

ANCHORS AWEIGH will be the feature attraction at the Champion Theatre Friday and Saturday. Filmed in breath-taking Technicolor, and starring Gene Kelly, Kathryn Grayson and Frank Sinatra, ANCHORS AWEIGH is one of the greatest musical pictures ever to have come out of Hollywood. As a companion attraction, instead of another feature there will be five color cartoons to round out an all-Technicolor program that is just right for the entire family.

SUN. AND MON. AT THE CHAMPION

Main feature at the Champion Theatre next Sunday and Monday will be TO THE ENDS OF THE EARTH—one of the most thrilling pictures in a long time. Starring Dick Powell and Signe Hasso, and based on actual incidents from the files of the United States Treasury Department, this is one that will keep you on the edge of your seats from start to finish. It is terrific! ! Companion attraction will be SLIPPY McGEE, starring Donald Barry, Dale Evans and Tom Brown. It is an action-packed story about a gangster who reforms.

Capital University Masquer's Society

Masquers, the experimental theatre group from Capital University will offer on May 7 and 8, at 8:15 P. M., a Chinese comedy, spoken in English but acted in the Chinese manner. This play, "The Yellow Jacket," has been performed by many theatrical groups throughout the world, having been given in more than ten different languages.

It is unique in its presentation with a property man presiding over the entire performance, moving and arranging properties, giving cues, and exhibiting many overt expressions of disapproval. All this is done in full view of the audience which is kept informed of the many imaginery changes of scene by a one-man chorus.

According to Chinese convention, snowstorms take place, beheadings occur, and mountains are brought forth with materials stored in a property box situated on the stage. Heaven is in clear view and may be reached by an ever-present ladder.

Despite the droll manner in which it is given, "The Yellow Jacket" contains an absorbing plot in which the hero, Wu Hoo Git, is shown as he progresses from infancy to manhood in his search for a real meaning in life. As he passes through the various temptations of the world, numerous situations develop which seem amusing but which really have a deep basis in human nature.

Reservations for the play, which which will be presented in Mees Hall on the Capital campus, may be obtained by calling FA-1139, extension 20, from 9 A. M. to 4 P. M. each week day, April 21 to May 8. All tickets are 60 cents.

The cast includes: Due Jung Fah, Della Sweet; Taso, Winnifred Stainbrook; Chee Moo, Joan Steen; Suey Sin Fah, Jane Wilson; See Quee Fah, Alice Gabriel; Mow Don Fah, Miriam Adams; Yong Soo Kow, Carolyn Adams; Chow Wan, Ramona Crowe; Moy Fah Loy, Joanne Center; See Noi, Helen Hildebrandt; Widow Ching, Marjorie Woodyard; Maid, Marianne Schmidt; Chorus, Robert Elosser; Wu Sin Yin, William Gunther; Tai Fah Min, Paul Sherer; Lee Sin, Robert Meresko; Ling Won, Donald Boyd; Wu Hoo Git, Orlin Boening; Wu Fah Din, Roy Hoch; Yin Suey Gong, Martin Lassen; Git Hok Gar, Harold Goers; Loy Gong, Victor McCoy; Kom Loi, Dean Palmer; Tai Char Shoong, Wilburn Ahlrich; Property Men, Clifford McCormick, Dan Mathes, James Darnell, Walter Heyse, and Angus Godwin.

Operetta At Mound

Gilbert and Sullivan's Operetta, H.M.S. Pinafore, will be presented at Mound Junior High School Friday, April 30, at 8 P. M.

The presentation will include a cast of thirty students, supplemened by a chorus of sixty voices, and will be under the direction of Mrs. Ethel Cox Ellis, and Miss Virginia Roe. The public is invited.

Notre Dame Glee Club To Appear

The Notre Dame Glee Club which appears at Memorial Hall on the night of April 24 has maintained an imposing position in the world of music for the last 30 years. The club has sung in all the country's principle cities and its concerts have been featured many times on coast-to-coast broadcasts of the National Broadcasting Company, the Blue and Red Network, and on the Columbia and Mutual chains.

The Club's concert in Columbus will be sponsored by the Santa Maria Council 2898, Knights of Columbus. Tickets may be purchased at Heaton's Music Store.

Special Treat For Saturday Matinee At The Champion

Each Saturday the Champion will present five (5) color cartoons and a serial in addition to their regular show. This will be a special attraction for the matinee only and will start at 2 P. M. It is especially designed for the children of all ages and will please adults, who, for the most part, are cartoon fans.

Doors will open at 1:45 and the show starts at 2 P. M. Regular admission prices will prevail.

RUSSELL THEATRE

The Russell presents Sunday and Monday "The Senator Was Indiscreet" with William Powell and Ella Raines. Powell, 20 years in the U. S. Senate, thinks he could become President and although pompous and stupid, his dream begins to grow possible under the skillful ballyhoo of Peter Lind Hayes, political press agent. Party leaders order Powell to lay off, but Powell refuses and threatens to publish his diary—containing invaluable party secrets. Powell's campaign continues, but the diary mysteriously disappears. When it is recovered and its contents published in a newspaper, Powell is forced to abandon his career; also "Bad Men of Missouri" with Dennis Morgan and Jane Wyman. "News and Cartoon."

This Saturday, the Russell will have its second matinee in a series of six Saturday matinees, starting at 2 o'clock. A bicycle is to be given away each Saturday to some little boy or girl who has the lucky ticket. Last Saturday Don Adcock was the winner. He lives on Merle Avenue. REEB CALENDAR

Friday, April 23, Assembly program—Miss Oelgoets's class is leading.

Tuesday, April 27, educational films—Let's All Sing Together, Dinner Time Farm, and Wheat and Bread.

Wednesday, April 28, 9:10 A. M.—Sale of Savings Stamps and Bonds.

The above calendar of the events of the coming week is announced so that our parents and adult friends may plan to come to Reeb to visit us.

—R—

The children in Room 112 are studying about the farm. They have made a mural with chalk and are writing stories about animals on the farm. They have planted some vegetables seeds and flower seeds. Several people have brought cans to plant the seeds in.

—R—

Room 110 will have charge of the Assembly Program on Friday, April 23. Bible Verses from St. Matthew, St. Mark, St. Luke and St. John will be given. They will sing The Doxology, He Leadeth Me, More About Jesus, How Beautiful Heaven Must Be, John 3:16, Onward Christian Soldiers—played by Betty Stump on the Type-A Tune Instrument.

—R—

Miss Bradford and boys and girls were happy to have nine mothers from their room attend the PTA and to hear their part in the program. The following mothers came: Mrs. Charles Smith, Mrs. James Evans, Mrs. John Close, Mrs. Bernard Edwin, Mrs. Alex Sebok, Mrs. Raymond Cooper, Mrs. Russell McFarland, Mrs. Paul Barton and Mrs. James Tolliver.

—R—

Room 206 chose outstanding citizens of their class—Fine Manners, Elaine Gleed, Bertha Cooper, Mary Lee Kothyan. Thoughtfulness—Deanna Wiles, Carolyn Webb, Frances Beyer and Linda Lou Miller. Neatness at Work—Carl Berke, Linda Stewart and Betty Jean Borders.

—R—

Our 6th grade Boys' Marble Tournament, third round, has continued as follows: Walter Daniels defeated Leo Green; Albert Langbein won over Clifton Latham. In the semi-finals John Hook defeated Eugene Dixon and Walter Daniels lost to Albert Langbein.

The last games were played before all of our 6th grade pupils. In the final games between Albert Langbein and John Hook, John won. Real skill was in evidence during the semi-finals and finals giving all of the spectators many thrills. We congratulate both John and Albert for their fine playing and good sportsmanship.

—R—

Reeb's 5th grade Boys' Marble Tournament, first round is progressing: Raymond Harper defeated Clyde Hale; Richard Stewart won over Doyle Rood; Paul Kalich was defeated by James Wilkey; Cornelius Gilcrease defeated Robert Ward; Donald Henry won over Richard Pratt; Eugene Kise lost to Robert Allen; Arthur Carter won from Eugene Jenkins; Carl Prince defeated Ray Stover; Philip Santo lost to Alyn Shoemaker; Franklin Williamson won over James Loar; Fred Banks won from Richard Beightler; Jack Bogga defeated Donald Massie; Jesse Stinson was successful over Lloyd Snyder; Arnold Latham defeated Larry Wellman; and Milo Mitchell won from Alfred McWilliams.

—R—

We are beginning to think a lot about our annual PTA Carnival which is scheduled for Friday, May 7. All of the committees have been appointed and the mothers, who are acting as chairmen, will soon be calling their committees together. This is one event of the year when every parent can help in some manner. Please let us know of any available parents who have not been asked to take some special part.

Uncle Sam Being Played For A Sucker

By the time you read this, the House will have passed and amended the Senate's Marshall Plan. The Marshall Plan is not a plan to feed the hungry in Europe. It is an armament plan. Under this plan, our Government this year, will give—to grafting—in some cases corrupt . . . and inefficient foreign governments $6,205,000,000 credit. It will establish an international WPA which ultimately will cost the American taxpayers over $100-billion.

Great Britain will get some $2,109,760,000 of this credit. China will get $570,000,000. The other fifteen nations will get the balance. By using this credit, the natural resources of America, that belong to unborn millions, will be further depleted at the expense of our Nation, but at a profit for the international manufacturer and Wall Streeter.

With part of this credit, these governments will compete with us in our domestic market, and buy American products at exorbitant prices. They will sell these products, at a profit, to their people, who have the money to buy. There is nothing charitable about this plan.

Part of this credit will be used by these governments for rearmament and military purposes. In other words, we are underwriting awr. We are guaranteeing these nations that, if and when they start a war, we will fight it. Let no one be deceived by the hypocritical pretense of the State Department that this is a peace measure. It is not a measure of "good will toward men," but an armament measure—war.

We gave these nations $60-billions lend-lease. We spent $450-billion more to win the war they started. Since the war, we have given them, directly or indirectly, over $30-billions. Of this amount, the Government made direct loans and gifts of $24-billion. If this $30-billions were used to feed the hungry, it would take care of them for twenty years.

We, less than seven percent of the people of the world, occupying less than seven percent of the world's area, and possessing less than nine percent of the world's natural wealth, are still being played for a sucker by the multi-millionaires and internationalists in the State and other Departments of Government. This when our Government already owes more than twice the normal value of all our property.

In conclusion, may we suggest that you, who have been protesting so loudly about the high cost of living, will find, when this bill is passed, that you will again have to go without many of the food and other products you could not get during the war. You will again have to pay higher prices, because we cannot give away the products that America needs to foreign nations and keep prices down. There will again be plenty of black markets.

The Marshall Plan is a deception and a fraud. The time has come for America to wake up.

Johnny Salzer, that good-looking young man back of the bar at the Swan Grill, is of much interest to the gals of Omar Bakery who eat there.

Buckeye Radio Lab Offering A Gift

Buckeye Radio Lab, 368 East Whittier Street invites you to drop in this week and receive a really useful souvenir, and help them celebrate the opening of their new establishment.

They welcome you to inspect their new radio lounge, which Mr. Dykes believes is one of the finest and most unique in Columbus.

All you have to do to receive their gift is clip the coupon on page 3 and bring it with you.

There is absolutely no strings to this offer, they just want you to see for yourselves, what a fine place of business they have built, and of which they are so rightfully proud.

Barrett Courtesy Week

Do you know your ABC's? was a frequently asked question at Barrett Junior High School in a recent contest? The Barrett Student Council sponsored a Courtesy Week with Helen Smith as general chairman.

Students sent in their solutions to the mystery ABC (Always Be Courteous) Contest with the best solution receiving a prize.

Dorothy Garrigan won first prize with her clever solution:

A—Always be polite and kind,
And a lot more friends you'll find,
If you're courteous and up to par,
In this world you'll get very far.

B—Be courteous, happy and gay,
You'll find a lot more friends that way,
Kindness is a wonderful thing,
Happiness to you it will bring.

C—Courtesy is a kind thought,
With money it can't be bought,
So put it in your mind today,
Be courteous right away.

Home room displays in the form of posters and blackboard drawings spearheaded the interest in the Courtesy Week campaign. Jim Saul, chairman of the school beautiful committee, with his committee members selected the most effective home room display. Home room 204 won first place, second place went to rooms 205 and 302 while honorable mention went to 109 and 32.

Second prize for the ABC Suggestion Contest went to Patty Lahey and third prize to James Kearns.

The 7B class entered wholeheartedly in the contest showing more interest than the other five ranks.

School Nurse & Radio Class Dramatize

"A Nurse's Day In The Public Schools" was dramatized over WOSU on Saturday afternoon, April 17.

The play was written by school nurses. Mrs. Helen Ish and members of the radio class of South helped to put it on. The students were: Don McIndoo, Mary Smith, Mary Lang, Fritzie Mann, Coralie Lusk, Pat Starn and Jack Kirch.

The script included emergencies that may happen on the playground or cases that may need further medical care. They also have a scene on pre-school registering, and what preparations the parents should make.

Annual Rose Show

The annual Rose Prom sponsored by the Y-Teens of South High is back again. The dance that every girl seems to go to because she can ask the boy she's been dreaming about, and wanting to go out with for so long.

It will be held April 30 in South's auditorium with Houdy Mauger's band playing that slow and fast music to dance to.

The chairmans of the prom are Pat Lloyd and Helen Dobas. The price of the tickets are $2.00. The tickets are limited and each club will receive only a certain amount of them.

Youth Hostel Rally Planned

A Youth Hosteling Rally is being planned by the Interclub Council of the Junior High Y-Teen Clubs for Thursday, April 29, at 4 P. M., at the YWCA, 65 S. Fourth St.

Mrs. Merriss Cornell, of Westerville, will speak about how hosteling started and why it has grown in popularity. Movies of hosteling trips taken in the Buckeye Trails district and the New England region are being shown as a special feature.

Miss Dorothy Erskine, an Ohio State University student, will lead singing. A skit, based on experiences in recent hosteling trips is being planned by three North High School students. They are Judy Bargdill, Ellen Ransom and Minnie Lowe.

Arrangements for the Youth Hosteling Rally are being made by the Interclub Council of Junior High Y-Teen Clubs. Council officers are as follows: President, Barbara Emmitt, Starling Junior High; Vice President, Mary Ann Diebert, Roosevelt Junior High; and Secretary, Shirley Reeves, Linden-McKinley Junior High School.

Courtesy Week At South

"Courtesy Week," an annual project of South's Student Council, was held during the week of April 19 to 23. Many questions about courtesy were answered at the time.

Broadcasts were heard every morning during this time and a boy and girl who had been especially polite was named by a committee of Student Council. They were interviewed and given prizes for their good manners.

The project ended by an assembly which was held in the school auditorium. Skits about courtesy were presented by Student Council Members and the Dramatics Department. They performed in a gold frame and a narrator read a verse about their various acts.

Pat Starn was chairman of this year's Courtesy Week Committee.

Some other novelties are in order and games will be played after the business meeting. So come. Try to identify the mystery woman. She may be you, since at this time she has not as yet been chosen. Come one and all, and don't forget those good old pot-luck dishes.

Two More Silver Star Awards

We wish to correct a mistake in our paper of last week of the Silver Star Award to Corp. Fred W. Zimpfer.

The article read that Corp. Zimpfer was the only Silver Star Medal awarded in Columbus. It should have read that Corp. Zimpfer, Silver Star Award, was the only one awarded posthumously, and was presented to his parents, Mr. and Mrs. Ed Zimpfer, of 610 Siebert St.

Two other Silver Star awards have been made here in the South Side but not posthumously.

One award was made to Charles M. Griffith, 17 Jenkins Ave., who was awarded the Silver Star Medal for gallantry in action in the Battle of the Bulge.

The other Silver Star Award was to Steve Borors, Jr., 242 Hanford St., for capturing 91 Germans single handed.

The members of Miss Elsie Friebel's household management class of South High went up to State on Wednesday, April 21. They have been studying about Child Care and Dairy in this semester's work and Miss Friebel made arrangements for them to go to State and go through the Dairy and go to the child care home.

In the child care home they watched the children play and what they can do there during the day. The children have their own lockers and everything like an adult except brought down to miniature size.

Prof. Menmott To Speak To Lions

Edward F. Menmott

Edward F. Menmott has the distinction of being president of the smallest liberal arts college in Ohio and perhaps the smallest in the nation—Urbana Junior College at Urbana, Ohio.

Giving strong emphasis to individual instruction, the 98-year-old institution has 48 students and a faculty of ten. It is co-educational, and most of its students go on to other school for advanced work at the end of the second year.

The Urbana president is a native of Little Valley, N. Y., and a graduate of the high school there. He attended Syracuse University as a freshman, but transferred to Oberlin College from which he received the bachelor's degree in 1928 and the master's in 1930. During graduate work, he was a graduate assistant in English. He has been at Urbana since completing his studies at Oberlin, serving successively as instructor, field representative, registrar, dean, and president.

An expert swimmer, President Menmott is active in Red Cross work. He has been director of water safety for the Champaign county chapter since 1941 and chairman of the chapter since 1945. During the summer of 1945 he was field representative in the eastern area, and in the summer of 1947 he was dean of water safety at a Red Cross National Aquatic School in LaGrange, Ind.

Other activities of the Urbana president include membership on the board of directors of the Urbana Community Players since 1944 and president of the group in 1946-47, and member of the board of managers of the New Church Theological School.

Another favorite recreation, in addition to amateur dramatics and swimming, is tennis.

Prof Menmott will speak at the Southeast Lions Club Tuesday.

The Mother's Club will continue to meet in order to study the problems of the pre-school child.

We urge you to register your child at once in order that our plans for next year's class might be completed.

Correction

Through an error in copy of birth dates for new kindergarten and first grade children was printed in last week's copy of The South Side Booster, the statement should have read as follows: In order to enter the kindergarten in September, the child must be five years of age on or before November 1; in order to enter the first grade in September, the child must be six years of age on or before November 1.

Date for children entering in February is May 1.

South Side Day Nursery News

The pre school children, under the direction of Miss Early and Mrs. Mango, have been enjoying a Milk project. Through the courtesy of the Columbus Milk Council, this was followed by a sound film of "A Day On The Farm" and "Husky and Skinny". This was so enjoyable and educational that we are looking forward to May 6 when Mrs. Warner plans to return to the Nursery to show the children "Miss Bossy Goes To Town" and "Shep-The Farm Dog". Other interesting projects have been worked out by teachers and children.

Friday, April 23, Arbor Day was observed under the direction of Mrs. R. Gaute by all the Nursery children and teachers by setting out a piece of shrubbery and teaching the children the proper care of the flowers, shrubbery and trees in the playground as they play among them.

Yes, It's Fun To Live In America!

Take your automobile, for instance, maybe it is a jalopy and maybe it isn't a '47 model, but it gets you there—ball games, picnics, county fairs, anywhere you want to go. Now here's an interesting fact; you could load every person in the United States into every automobile in the United States, and you would have only FIVE people in each car. Other countries are not as fortunate as we who live in America. Let's make some comparisons:

Number of People Per Car
United States—5 per car
France—32 per Car
Great Britain—31 per Car
Russia—1130 per Car

And think of the TELEPHONE! Old Alexander Graham Bell probably never dreamed that Mom and all the kids would be calling you twice a day, or that Aunt Hattie down in Possum Holler could ring three rings and ask the preacher over for Sunday dinner—chicken dinner, too! Sure it's fun to live in America, because there's no other country where there is ONE telephone to every FIVE persons. Here's the picture:

Telephones: Per 100 Population
United States—20 France—4
Great Britain—8 Russia—less than one

RADIOS! We go to bed by them and we even get up by them. Turn on all the radios in the United States and there would need be only TWO and ONE-HALF persons at each radio in order for all to listen. Think of it——FIVE of us with TWO radios listening to Hope and Senator Claghorn at the same time. Now let's see how fortunate we are—

Number of Persons to Each Radio
United States—2½ France—7
Great Britain—4½ Russia—45

GRIPE?

The Army had another word for it and we do it plenty, but that's sure proof that we have complete freedom and can "speak our mind" anywhere or anytime we see fit.

As a matter of fact, we're an ambitious lot and we probably will never be completely satisfied, not until Mom, Pop, and all the kids have a radio apiece with television thrown in. Then Pop won't have to listen to Dick Tracy right in the middle of a Joe Louis fight.
